Warlike Attitude of the U. S. towards Spain.

WASHINGTON, D. C.

Smuggling—The Treaty—Warlike order—Issue of greenbacks.

Numerous complaints have been received at the Treasury department from merchants and manufacturers in Plattsburg, N. Y., collection district, that there is much smuggling along the Canada border as to seriously injure them in business.

WASHINGTON, 2.—A special dispatch says that reports from many of the principal points on the border show indication that the new Treaty does not contain any provisions for reciprocity, which they say would have been no advantage to Americans, as Canada, it is urged, neither produces anything we need and cannot produce ourselves, nor furnishes the market of America with goods. Under reciprocity Canada would sell her grain, potatoes and lumber in the United States instead of buying our manufactured articles, and import from England and then smuggle large quantities of them over the border.

A special to the Sun alleges that on Monday last General Sickles was instructed by telegram to notify the Spanish government that the estates belonging to Americans in Cuba which had been sequestered must at once be returned to their owners, and damages of their requisition be paid, or that warlike measures will be at once set on foot by the United States, and the order to General Sickles was to give the Spanish government one week in which to make answer.

The controller of currency informed Secretary Boutwell yesterday that he has, during the week, issued \$750,000 in greenbacks. This will be employed in the redemption of three per cent. bonds, of which there are now out about \$34,300,000.

NEW YORK.

In danger of breaking the Treaty.

NEW YORK, 2.—A Republican special says the feeling in the mine inspector, was very great at Plattsburg. He left that place for his home at Wilkesbarre. It is thought if he had not done so he would have been sent in the street by exasperated miners.

A Toronto dispatch says the Dominion government has not agreed to ratify nor even to consider the ratification of the treaty. In New France, so great was the alarm, excited by reports that the treaty had or was to be ratified by the Ottawa government, without previous ratification by the Dominion government, that the Dominion government was free to deal with that part of the treaty respecting the fisheries.

CALIFORNIA.

General news.

SAN FRANCISCO, 2.—The Republican Central Union Club has united with the ward club in asking the county committee to hold primaries for the election of delegates to the State convention in the ward clubs. McCoppin, who is supposed to have a majority in the San Francisco delegation of the Democratic State convention, says he is willing to accede to the demand of the ward clubs for rescheduling the appointment of delegates and allow them to be elected at the primaries, if the same be held under Porter's election law.

The coroner's jury found, on the inquest, that August Kamp came to his death from a shot fired by Devine alone.

Geo. Beck has been sent to the State prison for seven months for assault.

Winder, in Santa Clara county, succeeded by a man who went with a strip of blanket on Wednesday.

General Patton, President of the Amador mine, is now there. The strikers, yesterday, stopped work on every mine, at Sutter Creek and Sonoma, and announced their determination to allow no man to work for less than \$2.50 per day, an advance of fifty cents. The owners and officers of the different mines have generally determined to shut down entirely for the present rather than to accede to the demand which the strikers are attempting to enforce by violence.

Right inches of snow fell on the Yosemite trail on Sunday.

It is believed that the Sutter Creek and Amador mine proprietors will persist in their determination not to accede to the demand of the strikers, and in the case of violence being resorted to, will call on the State authorities for military protection.

Actions from all parts of the State

leaves no doubt in the minds of the friends of Governor Haight that he will be re-nominated on the first ballot.

The prospect of the wheat crop of 1871 was freely discussed on Change to-day. It was considered by everybody that the late cool weather had increased the prospective yield at least 33 per cent.

Many think that the surplus for export this year will fall very little, if any, short of last, and it is believed that there will be 150,000 tons more than required for domestic use.

The owners of the schooner Mary L. Taylor, which arrived here to-day from Sitka, consigned to the U. S. Marshal, talk very bitterly against Gen. Miller and others interested in Hutchinson, Kohl & Co. They say that they were engaged forming a settlement or trading post on the main land north of Sitka, out of the limits of the Territory, the trade of which as a monopoly, made so by the government concession to Hutchinson, Kohl & Co., and were engaged in legitimate trade. They complain that it is impossible to carry on any trade in the Territory of Alaska, for the government lends its whole power to crush out all opposition to the monopoly. It was the house of the owner of the Taylor, in the southern part of the city, which was entered and ransacked by the custom house officials, professedly in search of seal skins, some months since.

Not much progress has been made in the Fair case to-day. Cook, after two postponements, found a special officer whose testimony is important and his deposition, the purpose of which has not transpired, is now being taken.

The Bureau, California, has now declared a dividend of \$1 per share instead of the usual \$2.

FOREIGN NEWS.

FRANCE.

The Assembly condemned—Trial of the President.

PARIS, 2.—Entry and exit will be free on Sunday for foreigners, on identification of their papers.

Active measures are in progress for disarming the city.

Many shops are yet closed.

The Journal Des Debats says the men of the 4th of Sept. have outlived their time. Other papers, supporting Thiers and the Republic, protest against monarchist intrigues and demand the transfer of the Assembly to Paris, the Government says Paris must submit to the will of France.

VERSAILLES, 2.—Discussion upon the eligibility of the Orleans Princes will take place in the Assembly on Monday.

Rochefort will be tried to-morrow. The charge is, inciting civil war and pillage.

The search for arms continues. The press are nearly unanimous in declaring for a republic.

GREAT BRITAIN.

Huge in London.

LONDON, 1.—In the House of Commons to-night Viscount Enfield stated that the government does not regard Stuart as minister from Paraguay, because he was a British subject.

LONDON, 2.—Victor Hugo has arrived in London.

CANADA.

OTTAWA, 2.—It is declared that Sir John Macdonald is not committed to the treaty, and an anonymous letter in the same paper says he is more likely to oppose than to sustain articles affecting Canada. The friends of Sir John here are in receipt of information which leads to the same conclusions.

ITALY.

FLORENCE, June 1.—The House has passed a bill before the parliament.

BRUSSELS, June 1.—A report reached this city to-day that Felix, Fyatt and Groussin had been arrested in Switzerland, but a telegram from Bern to-night denies the truth.

BELGIUM.
