HORSE WINS OUT.

The horse was victorious over the mo-tor wagon in New York the other day when the managers of the new big de-pariment store purchased the neces-sary outfit for the delivery department. The New York Herald states it this

The New York Herald states it this way: "The new 14th St. store, of which Henry Siegel is the head, is a new establish-ment from the ground up. Starting in with a new stock in a new building the management have every feature the best, from the standpoint of economy and efficiency. When it came to delivery service, which is one of the most im-portant features of the 20th century de-partment store. Mr. Siegel and his us-sociates had to choose between shorses and motor wagons, and it did not take them long to make their choice. After having themselves tried the steam and electric trucks in other business and having seen a score or more of the lead-ing business houses of New York test, all the various types in an experimen-tal way, the new firm turned them all down and placed an order with Fiss, Doprr & Carroll for 240 horses, of the very best type."

down and placed an order with Fish Doerr & Carroll, for 240 horses, of the "The Herald adds: "This indicates the business purposes in a elty where con-ditions are more favorable than almost anywhere for the use of motor cars." The people who have been predicting that the horse would soon be a curlosi-ty on the streets have another guess continue to be improved and come into still greater use as pleasure vehicles we have no doubt, but the demand for good horses will continue to increase as the population of the country in-creases and will always be ahead of the supply. As a freight carrier the motor wared with the draft horse. The team hitched to a truck will do more work and do better and with less delay thou the best motor car yet invented. The rase will lose fewer hours in a monio or a year than the most perfect machines so full lose fewer hours in a monio or a year than the most perfect machine so full lose fewer hours in a monio or boother and with less delay thou have and full of holes and as rough as a plowed field and do it willingly, ask-ing only that he be well taken care of. When the automobile can be sold for \$20 or \$300 it may come into general use as a pleasure vehicle for the man of moderate means, and when it does the wealthy people who are now mak-ing a fad of it will so back to the horse, as they are already doing down east. The horse is passing the beakine being busines of the delay and sine how mak-ing a fad of it will so back to the horse, as they are already doing down east. The horse is passing the beakine busine the lead.—Breeder and Sportsman.
