OGDEN NEWS.

OGDEN. - - JUNE 29, 1900.

DIFFERENCES OVER WATER.

Meeting of the Power Companies and Irrigators Held Yesterday.

Streams are Failing Very Rapidly and Cause Anxiety-Jury List for July Term of District Court.

Yesterday afternoon a meeting was held in the superintendent's office of the Utah Light and Power Co., at Ogden for the purpose of settling difficultles between the North Ogden Irrigation company and the U. L. & P. company. There were present at the meeting Mr. R. A. Campbell, general manager, and Mr. Wade of the Power Co., and Messrs. Simmon, Hickenlooper and others of the Irrigation company. The discrepancies between the companies arose about a week ago when a portion of the Irrigation company's water was shut off by mistake by the Power company, and during that time the crops of the North Ogden and Pleasant View people have been suffering for the want of water, the matter was made known to the Power company's office at Salt Lake, Mr. Campbell called the meeting to readjust the matter which was part-ly acomplished, but it was stated by one of the gentlemen who was present at the meeting yesterday that a meeting will be called in the near future for all of the canal companies interest ed in the water of Ogden river and the Power company to get some definite understanding about the water and possible a water commissioner will be appointed to look after the various

companies' rights. At yesterday's meeting Mr. Campbell reported that during the past two weeks the water had diminished at least one-third, a fact that is causing considerable anxiety with the irriga-

JURY LIST.

The following trial jurors have been drawn for the July term of the Second district court:

William D. Capes, John E. Ecklund, William D. Capes, John E. Ecklund, William Weaver Jr., Thomas W. Jones, A. A. Wenger, Miles L. Jones, Samuel Purdy, Ambros Shaw, A. A. Steel. O. M. Runyon, E. A. Ford, Thomas E. Wiggins, Daniel Pugh, Samuel Horrocks, William Douglass, Edgar Jones, William J. Hancock, Kasper Buchanan, Albert J. Alland, Mathew Gillis, Don Maguire, Ogden; Henry Cowles, Slaterville; Harvey Murdock, Harrisville; Andrew Ipsen, William Richardson,

In the matter of the estate of Harvey T. Snively, petition for letters of ad-ministeration was filed by the widow, Mrs. Effie B. Snively.

MEETING OF SUNDAY SCHOOL WORKERS.

Ogden will be favored with a visit from Marion Lawrence, general secre-tary of the International Sunday School association, Professor O. E. Excell, of Chicago, Rev. Alexander Henry, of Philadelphia, and Rev. E. S. Lewis, D. of Columbus, Ohio, who will reach gden on the afternoon train from the North today, in their tour of the North-west, and will hold a special Sunday chool service this evening, at 7:45, in the Congregational church.
Professor E. O. Excell, who has a

national reputation as a publisher, writer and singer, will conduct the opening song service, which will be followed short addresses by other members of

In police court Justice Hall sent two vags up for five days each, and sus-pended sentence on another providing he would leave town.

Yesterday morning the delivery horse of I. L. Clark & Sons made a dashing run out of the store alley way and across the street, where it tried to jump into a wagon that was standing there. No damage was done to horse or

OGDEN NEWS BRIEFS.

Mrs. C. E. Coulter returned today from an extended visit in the East.

Mrs. E. A. Larkin and Miss Sarah J.

Larkin have returned from a month's visit with friends in Lehi and Salt Lake. A delivery boy of the Moulding butcher shop was severely burned yesterday by his clothes catching on fire from the flames of a stove where he was rendering out lard.

The Grand Army of the Republic celebration which was to have taken place on July 4th, at Lester Park, has been abandoned.

This evening Madame Swenson will give her pupils' recital at the First M. C. church, beginning at 8 o'clock.

Thomas A. Gunnell, of Colorado Springs, is visiting with his brother,

C. Gunnell of this city.

LOGAN.

Impressive Funeral of Miss Gamble Two Happy Marriages.

Special Correspondence, Logan, Cache Co., June 27.-Funeral services over the remains of Miss Edrine V. Gamble were held at Mill ville, her old home, yesterday after-neon. The meeting house had been tastefully decorated with flowers for the occasion by the Young Ladies' Asthe occasion by the Young Ladies Association, and a large congregation was present to pay respect to the deceased. The speakers on this sad occasion were Prof. Jacob F. Miller, under whom Miss Gamble studied in the Brigham Young college; Elder Geo, O. Pitkin, who had known the family for 35 years. Apostic M. F. Cowley, and Elder Jas. T. Hammond, each of whom spoke highly of the character and excellent qualities of Miss Gamble. A long cortage followed the remains to their last ege followed the remains to their last resting place in Millville cemetery.

TWO HAPPY MARRIAGES.

Mr. Will Davis and Miss Emfly Stoddard, both of this city, were married in Logan temple yesterday. They left hart evening for Baker City, Oregon, where they will in future reside. were accompanied to the train by large number of young friends and relatives, who showered old shoes and rice galore upon them as they stood on the platform of the departing train. Mr. Wm. Z. Terry and Miss Naomi Nebeker, highly respected young people of this city, were also married in the temple resterdar, whose many friends wish them a happy life together,

Giorious News.

Comes from Dr. D. B. Carglie, of Washita, I. T. He writes: "Electric Bitters has cured Mrs. Brewer of scrofula, which has caused her great suffer-ing for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but now her health is excellent." Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 ets. LEHI.

School Trustees Nominated -- Delegates to County School Convention.

Special Correspondence. Lehl, Utah Co., June 29.-A number of citizens of Lehl met in the central school building last evening and nominated S. I. Goodwin as school trustee, who will be voted for July 9th next to serve as a member of the school boards

the coming three years. Eleven delegates and four alternates were elected to attend the county concention to be held in Provo tomorrow for the purpose of nominating a county superintendent of the district schools.

COALVILLE.

Defends Her Father from the Verbal Attack of a "Medicine Man."

Special Correspondence,

Coalville, Summit Co., June 28.—Hon.
John T. Caine and wife are enjoying the cool breezes and the fishing which Coalville affords. They are the guests ern counties for four weeks. of President Cluff. A telegram has been received stating

that a tramp was terrorizing the people of Castle Rock by using a gun too free-Sheriff Lindsay has gone to arrest C. A. Callis and W. M. Boyden were

elected delegates to the judicial convention from Coalville. At the open air concert given by a traveling medicine company last night an incident occurred that was not on the program. One of the "doctors" of-fered \$10 to any person whose case he had failed to make a correct diagnosis. A Mr. Robinson arose in the audience and stated that the speaker had not located the disease that was making his life a burden, whereupon the money was handed to the complainant. Then the medicine man launched into a ferocious arraignment of Mr. Robinson, questioning his veracity, etc. The lat-ter's daughter, a girl of 14 years, made a vigorous and eloquent defense of her father, and the crowd vociferously ap-plauded the youthful defender. A hand-some apology was made by the "doc-

tor" and the affair ended. A Life and Death Fight.

Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after from death, says: measles induced serious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery which wholly cured me. Hundreds have used it on my advice and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50c and \$1.00. Trial bottles free at Z. C. M. I. Drug Dept.

PAYSON.

Dangerous Railway Crossing-School Primaries are Held.

Special Correspondence. Payson, Utah Co., June 28 .- The Benamin road crossing, on the Tintie rallway line here, where young Vogel-man met his death yesterday, is a very dangerous one and should be done away with or made safe for the traveling public. A grove of trees and willows stands on both sides of the track in this vicinity, making it difficult to ses an approaching train. The conditions at this crossing are similar to those at the R. G. W. crossing at Murray—a veritable death trap. There have been many narrow escapes at this point, SCHOOL PRIMARIES.

A school meeting was held here this morning, and Mrs. Millie Stark was renominated to serve as school trustee for three years. Ten delegates were also elected to attend the county convention at Provo on Saturday to nomi-nate a county superintendent of schools.

Plans are being carried out to have a big celebration here on the 4th. EUREKA.

Held for Housebreaking-Funeral of Peter Goubert-Hotel Changes.

Special Correspondence. Eureka, June 28,-Stephen Markham, Jr., was today bound over to the dis-trict court by Precinct Judge Arthur Bower, to answer to the charge of robbery. On June 18th last the store of J. B. Roberts at Robinson was broken into and \$12 taken from the till. Suspicion was pointed to young Markham, which subsequently led to his arrest. At the examination this afternoon, Justice Bower considered the evidence sufficient to hold the defendant. His bonds were

fixed at \$200, and were furnished. FUNERAL OF PETER GOMBERT.

The funeral services over the remains of Peter Combert, who was killed at the Swansca mine Tuesday last, were held in the Odd Fellows' hall at Eureka t.day. The services were under the direction of the L. O. O. F., of which deceased was a member. Nearly all the employes of the Swansea mine came

NEICHBORS.

IDAHO.

Weekly Weather and Crop Bulletin. Boise, Idaho, June 26.-The past week was the warmest of the season; the average temperature for the State, 70 degrees, is 10 degrees in excess of the mean. In nearly every section the maximum reached 90 degrees or more, and the highest reported was 103 degrees. In addition to the exceptionally high temperature, the sunshine was excessive. There was a cessation of the high westerly winds, which occurred during the previous week, except in the Snake river section. Heavy and beneficial showers occurred in Kootenai, Latah and Shoshone countles, but no precipitation is reported from other sections.

CROPS. FRUIT.-Fruit continues to make ex-cellent growth and orchards are in good condition, clean of weeds as a rule insects are not troublesome. Strawberries are going out of season, cherries, currents and raspberries are abundant in the markets, and a large cree of blackberries is pomised. Early peaches and apricots are ripening. There will be large crops of apples and prunes. The season has been unusual-

y favorable for fruit. GRAIN AND GRASS.—In southwestern sections of the State the first cutting of alfalfa is complete and the second crop is in bloom. The hay harvest has become general in all sections and the crop is being secured in the best condition, owing to absence of rain during the haying season. clover and timothy harvest is making good progress. Hay is yielding above the average. Fall-sown grain is ripening rapidly, and the grain crop is promising except on unirrigated lands, many fields of grain, especially spring-sown, having been reported badly burnt. Harvest of fall-sown grain will

GARDENS.-Vegetables have made good progress where there has been sufficient water; on high lands of the eastern sections vegetable crops have

STOCK --Stock continues in excel-lent condition; there is still an abundance of grass, though some ranges are badly scorched as the result of the warm, dry weather.

ORCHARD IRRIGATION.

Important Lessons for Fruit Growers Drawn from California Experience.

The United States department of agriculture recently issued a bulletin on irrigation in fruit growing, by Prof. E. J. Wickson, of the University of California. This bulletin was prepared under the direction of the irrigation investigation branch of the office of experiment stations. Professor Wickson points out in his introduction "that the fruit grower in all except a few of the most humid regions of the country may look upon a water supply available for use when desirable as an element of great value and an assurance of safety in his business enterprise. For this reason the and irrigation is betion in this country, and the knowledge of it which has been gained by a half century's experience in one section beevery section. The time has come when fruit growers everywhere must under-stand the elementary facts at least of the relation of irrigation to fruit grow-

Nowhere in the world is fruit growing more highly developed than in California; nowhere in this country is water more valuable or more carefully con-served and handled. California experience in fruit growing dates back to the mission fathers, and in this bulletin Professor Wickson has summed up the lessons that have been learned in that State from that time to the pres-

Irrigation as first practiced in Callfornia consisted in running water along the rows of fruit at frequent intervals of time, no effort being made to secure a deep penetration of the soil or to retain the moisture in the soil. Later it was discovered that thorough cultiva-tion would so far conserve the moisture from the winter rains that in many years good fruit crops could be raised without irrigation. But frequent crop failures led to a renewal of irrigation. In many cases this was carried to excess, so that overgrown, insipld fruit was produced. This over-irrigation produced a prejudice against the whole system of artificial application of water. Professor Wickson's conclusions in regard to the controversy between the advocates of dry farming and of irrigation is that the object sought after is a full crop of perfect fruit every year over to attend the obseques.

An infant son of Mr. and Mrs. Timbowney was buried today.

A full crop of perfect fruit every year, and that sufficient moisture is enough to produce this, whether it comes from rainfall or from irrigating ditches, and | ried free,

der the management of Owen Dusen-berry for two years past, will change hands Saturday next. Mr. Dusenberry will return to Provo, his former abode, and will be succeeded by Oscar Fors-lund, a young and energetic husiness. and dying back of young shoots or These appearances sometimes result from other causes than the lack of moisture, but whenever any of them appear an examination of the soil hould be made. If it is dry and hard or dusty the trees need water. The effects of insufficient moisture are poor growth, poor fruit and intermittent

> The bulletin discusses the time to irrigate. Winter irrigation can be praca deep, retentive soil; summer irrigation is used sometimes in the early summer just before the fruit ripens to give it size, sometimes just after the fruit is picked to enable the tree to form buds for the next season; fall ir-rigation will prevent undesirable fall cloom, but must be guarded against in old climates, so that trees may harden their new growth before the cold win-

> Professor Wickson leaves the large canal and reservoir to the engineers, and discusses the small affair that is vithin the reach of the individual farmer or a few neighboring farmer working together. The small ditch is described as differing in no way from the drain or mill ace of the humid region, and the construction of the small storage reservoir is described in detail. By the use of a small reservoir a little stream from a spring or windmill, which would if left to itself be lost within a short distance from its source, can be stored and made to water an acre or two of fruit, and add many times the cost of the reservoir

o the value of the crop.

The underflow may be intercepted and brought to the surface by bed-rock dams in the courses of small streams, by tunnels or "horizontal wells" runs ning to the water-carrying strata, or

The various means of conveying water to the fields where it is to be used are described in detail, the advantages and disadvantages of each being given. Systems of applying water to the land are dinscussed at length. The objects to be attained in distributing wat-

(a) Distribution of moisture evenly throughout the soil mass to as great a depth as possible, providing it does not sink beyond the reach of the plant by root extension nor beyond recovery by capillary rise. (b) Economy of labo both in aggregate time and in the feasi-bility of operating without the employment of extra bands. (c) Economy of water in the prevention of waste by overflow or evaporation or by rapid percolation and in placing the water where it will do the most good. (d) Leaving the land in the best condition for attaining with least laborations. for attaining with least labor a condi-tion of tilth which conserves moisture and at the same time favors thrift in the plant. Whichever methods most nearly attains these ends in a certain

soll and situation is the best for that certain instance. These objects can be most nearly attained by running water through small furrows, hear together, usually about two feet apart. This system can not be used on land having a heavy grade, or where vertical percolation is excessive, nor where grass or other crops are grown between the rows of trees. In those cases some system of flooding must be used. Unless the land is level becks will be necessary to prevent the water rushing over the land and off at the lower side, and to insure the thor-ough wetting of all parts of the field. Cheeks are usually made in such a way as to keep the water from coming in ntact with the trees, which is an advantage. The implements for making these checks are described and illus-

rated by drawings. Clean culture in orchards is recom-mended because it renders possible a condition of tilth which helps to conserve the moisture applied, and permits root extension. Clean culture, however, ends to deplete the humus in the soil When there is plenty of water and plen-ty of plant food for both the fruit trees nd a cover crop, it is sometimes advantageous to grow alfalfa or clover in the orchard. It reduces soil temperature and prevents the reflection of heat, which sometimes burns young trees, and adds humus to the soil.

Professor Wickson points out the advantages to fruit growers in regions where irrigation is unknown that will come from a supply of water for use in dry years. The saving of a single crop will often more than pay for the outlay necessary to place an orchard perma-nently beyond the reach of drought. This bulletin can be obtained by applying to the secretary of Agriculture, Washington, D. C.

LORD ROBERTS' DIFFICULTY.

All of the railroads of South Africa pass through regions which afford facilities for attacks by small bodies of the enemy. These may destroy culverts and bridges with dynamite or other high explosives. The efforts even of one man might suffice to break the continuity of bringing forward supplies for the army. Such breaks would result many cases, in delays of several days before repairs could be made. It is therefore necessary at the present time, to guard these lines of railroad throughout until there has been transported to Bioemfontein or other points which may be taken as secondary bases of operations, sufficient food to last the army for several months. With this assured, Lord Roberts could then advance, without concern for a long line of communication, simply having to guard the line from the position armies to the secondary bases.-Harper's Weekly.
