

report from Nephi three days ago, we are obliged, though reluctantly, to omit this later report.

Information Wanted.—John Lancey, care of R. Spurburg, Denver, Colorado, is desirous of learning the whereabouts of his mother, Mrs. Ellen D. Lancey, who left England for Utah eight years ago, and to whom letters used to be addressed, care of Wm. Ridd.

The inquiring son has not heard from his mother for five years, and would be obliged to any party who would be kind enough to furnish him information concerning her.

A Dog Case.—Two boys were fined \$10 each this morning for annoying Mrs. L. Sprague and her children, to whom they are neighbors. Some time ago one of the lady's children was bitten by a vicious dog belonging to the father of the lads, and that animal having been killed by Mrs. Sprague, another one belonging to the same parties had subsequently been a source of great annoyance to her. The father of the lads gave notice of an appeal of the case.

Brought Him Here.—John Christie, the man who was arrested at Evanston a short time since, on a charge of stealing a span of horses belonging to Mr. Palmer, from the 8th Ward Square of this city, reached here last night, and is now in jail, awaiting examination. He was brought in by deputy marshal John McAllister, Jr., to whom the Wyoming officer delivered the prisoner over the line separating Wyoming from Utah, thus making a requisition unnecessary.

Mr. Palmer has now possession of his horses. The police authorities are desirous of seeing him at the City Hall.

More Slate.—A few days since we alluded to the important deposit of slate on Antelope Island, and now come these enterprising prospectors, Messrs. Gibson and Sterritt, with specimens of the same kind of article from a discovery just made by them in Emigration Canyon, within eight miles of this City. The deposit is sixteen feet thick and of great width. The slate is of good quality, being solid and without the too great tendency to scale which is generally the case with that of more inferior quality. It is suitable for slabs, flagging, roofing or any other purpose for which slate is used.

Will Test the Question.—In the event of unfavorable action upon the petition lately addressed to the Secretary of War by the residents of the Eleventh Ward, asking that the Camp Douglas post be instructed not to cut off the petitioners' water privileges, as they have done, we understand that a number of the more wealthy residents of the Ward named intend clubbing together and forming a fund, with a view to entering suit against Gen. H. A. Morrow, et al. Should it be necessary, they purpose carrying it to the United States Supreme Court for decision, and in view of other decisions in which similar questions were involved, they have every confidence, should they be driven to the courts, that they would gain the suit.

Fraas.—There was a disgraceful fracas at Brighton the other day, in which one of the participants got his face terribly bruised and beaten. The parties were arrested, on complaint of the injured man, and the case came off before Justice Clinton to-day, when one of them was fined \$10 and other two \$5 each. During the trial the wife of one of the parties got belligerent and the Justice ordered an officer to conduct her out of court. But she flatly refused to be conducted, and the officer stood blushing and confused, unwilling to use any physical persuasion. The woman subsequently relented and consented to leave the room and the bashful officer was at last relieved from his unpleasant predicament.

The quarrel arose from the trespasses of sheep and cattle and about some land dispute. Fighting is a poor way of settling difficulties of that kind.

Emigrants Arrived.—A small company of emigrants, seventy-seven souls, arrived last night. Fifty-two were from Switzerland and the balance are English. They were in charge of Elder John Keller. The company crossed the Atlantic in the steamship *Minnesota*, and had a good voyage, with the exception of some rough weather, which made all the people sea-sick, excepting two, one aged eighty-

four years and six months and the second three months, the eldest and youngest members of the company. With the exception of the sea-sickness the people had splendid health all the way, and arrived in good spirits.

Elder John Keller, who is a resident of Santa Clara, left his home to go on a mission to Europe, April 15th, 1872, and during his absence labored in Switzerland and Germany.

"Liberalism."—The liberalism of the "liberals" is immense. It even goes so far as to cause them to place aliens on their ticket, which is another evidence of the truthfulness of our assertion that "all is fish that comes to their net." Yesterday C. L. Ericson, an alien, made application, in the Third District Court, for naturalization. His answers to the interrogatories in Judge McKean's catechism were entirely satisfactory so far as his belief in polygamy was concerned, the candidate being a tremendously "liberal" "Mormon," but it came out that he had two wives, although, being "liberal," he was only living with the second. In view of this condition of things, the Court refused to admit him to citizenship, so the alien candidate is still an alien. The Judge has a remarkably small swallow for wives. For the other sort—well, we need not mention them.

Struck by Lightning.—Yesterday afternoon, during the thunderstorm, the lightning struck a house in the First Ward. The electric fluid ran down a stovepipe, in the back kitchen, struck Mrs. Nathaniel Spense to the ground insensible, and also knocked over her mother and sister. The two latter were not hurt, but the first was severely injured. It was thought for some time that Mrs. Spense was dead, but after powerful efforts to resuscitate her she began to show signs of life. Her lower limbs were partially paralyzed, she suffered much pain in her chest and arms, and her body was marked in streaks by the action of the electric fluid. She passed an uneasy night, but is much better this morning.

The plaster of the room was broken, and the skirting board was partially torn away from the wall. After the occurrence the house was filled with a powerful sulphuric smell. The report was terrifically loud, and the ground in the vicinity was shaken by the concussion.

FROM SATURDAY'S, DAILY AUG. 1

Stormy.—There was a very brisk shower in the middle of the day to-day.

And Still it Comes.—Still thunderstormy as we prepare to go to press, with very heavy shower of rain.

Going to England.—Elder Peter Barton, of Kaysville, purposes leaving on Wednesday morning, for England, to which country he has been called to go on a mission.

His Place is Outside.—If any sneaking "Liberal" comes to your house on a bribery or similar errand, politely show him the door. His stern is his handsomest feature.

Change.—Alderman A. C. Pyper commenced his career to-day as presiding police Judge at the City Hall, in place of Justice Clinton, who has resigned. Mr. Pyper has not yet had a case before him, City affairs being smooth to-day.

Broke His Arm.—Yesterday about noon a little son of officer Andrew Smith, two and a half years old, fell from a box and broke his left fore-arm. The injured limb was set by Dr. W. F. Anderson, and the little fellow is doing well.

Dangerously Ill.—We regret to learn of the dangerous illness of Judge Hector C. Haight, of Farmington. But small hopes are entertained of his recovery. The Judge is one of nature's gentlemen, having the unqualified respect of all acquainted with him.

Parowan.—W. C. McGregor writes from Parowan, Iron County, July 25, as follows—

"It has been raining all day, and has rained nearly every day for the last two or three weeks. Crops look promising. A few chinch bugs are to be seen."

Substitution.—C. L. Ericson, the candidate of the "streaked" ticket for county surveyor, being an alien, and Judge McKean refusing to

naturalize him, because he is a polygamist, having discarded his first wife, without divorce, and living with his second, the name of B. A. M. Froiseth appears on the ticket in place of his.

Bound Over.—Last evening John Christie, charged with stealing a couple of horses belonging to Isaac Palmer, from the 8th Ward Square, was examined, before Justice Clinton, when he was committed, on default of \$1,000 bonds, to appear before the Grand Jury of the Third District Court. He will be handed over to the custody of the U. S. Marshal, on a mittimus.

Ten Dollars a Vote.—We are credibly informed that a "Liberal" partizan to-day has been busy in visiting certain families, and offering the ladies ten dollars each if they would promise to vote the "Liberal" ticket. We hear of one lady who promptly invited him to leave the house. All should treat such sneaks in the same way.

Precincts.—In connection with the precincts herein named we give the various Bishop's Wards included in them, that the electors may know where to vote on Monday—

1st Precinct—1st, 2nd, 3rd, 8th, 9th and 10th Wards.

2nd Precinct—4th, 5th, 6th, 7th, 14th and 15th Wards.

3rd Precinct—16th, 17th and 19th Wards.

4th Precinct—18th and 20th Wards.

5th Precinct—11th, 12th and 13th.

Mortuary.—Sexton's report for July. Males 25; females 30. Of these, adults 11; children 44. Causes of death as reported—Scarlet and other fevers 21; brain disease 8; teething and bowel complaint 6; whooping cough 2; lung disease 2; cancer 2; diphtheria 2; killed accidentally 2; convulsions 2; hemorrhage 1; cancer 1; septicemia 1; dropsy 1; paralysis 1; meningitis 1; old age 1; drowned 1; total interments 55.

JOSEPH E. TAYLOR, Sexton.

What They Want.—There are strong reasons for believing that the virulent oppositionists would desire nothing better than an open rupture between their own party and the more peace-loving citizens whom they so flagrantly scandalize and malign, in order that they might make political capital and raise a hue and cry against the "Mormons." In view of this it would seem advisable for the people who desire the welfare of the commonwealth to keep away from rabid ratification meetings, where outbreaks might occur, and to exert a salutary influence in maintaining the peace on Monday, during the voting.

Not in the Same Boat.—This is how Mr. S. P. Neve views the unauthorized use of his name by the "Liberals" on their ticket—

SALT LAKE CITY, Aug. 1st.

Editor Deseret News:

"I understand that my name appears this morning on the so-called 'liberal' ticket, as candidate for Justice of the Peace for the Fifth Precinct. I desire my friends and everybody else to understand that I am not with that crowd, and my name has been thus used without my being consulted and minus my consent. I repudiate the crowd and their platform, and don't sail in the same boat with them."

"Respectfully, S. P. NEVE."

Swallowing.—The gulping which both classes of the "liberal" party are required to do is tremendous; for instance the McKean crusaders and their endorsers are asked to vote for candidates for the offices of probate judge, county surveyor, sheriff, constables, justices of the peace and others who pretend to be "liberal Mormons" and who are polygamists. This must be a terrible dose for the anti-Mormon, anti-polygamic portion of the opposition. But oh, what a swallow the so-called "liberal Mormon" class must have, to gulp down those who malign their wives and children! Such liberality is certainly exceedingly broad, and a person must get pretty low down to tamely eat that kind of dirt.

Begging.—To-day George R. Maxwell was seen on the principal streets of the city, going from store to store with a paper in his hand. An inquiry as to what he was doing demonstrated the fact that he was on a begging tour, soliciting donations to defray the expenses of the "Liberals" during

the election. Although the General is an adept at the business, from long practice, we understand he met with but limited success. Some of the parties who gave a trifle, apparently ashamed of appearing to have any connection with the concern, objected to have their names on the list opposite the amounts they donated. While attending to this begging matter the General threw his characteristic amount of dignity into the business, which is rather homeopathic on all occasions.

"Mormon" Vitality.—The twenty-seventh anniversary of the arrival of the Mormon pioneers in the mountains of Utah was celebrated in grand style by their polygamic descendants on Friday last. Brigham Young's big tabernacle in Salt Lake City was crowded, and all Mormonism was enthusiastic and happy. When polygamy shows such significant signs of vitality, it would appear as if the efforts of the national government against "the twin relic of barbarism" have so far proved futile.—N. Y. Herald, July 26.

Judicial Trickery.—A week ago last Wednesday some aliens made application for naturalization, and were informed by Judge McKean that the court would not do any business of that kind till next September. The applicants were "Mormons," the name of one of whom is Land. In the face of this refusal thirteen persons were naturalized on Wednesday last, and had Mr. Erickson discarded his second instead of his first wife he would have made the fourteenth. This refusal to admit certain aliens to citizenship till after the election and admitting others has a tricky look about it.

"Conquest of Peru."—From J. B. Lippincott & Co., publishers of Philadelphia, we have received, through Mr. Dwyer, bookseller of this city, the second volume of their new and revised edition of Prescott's "Conquest of Peru." This volume, the conclusion of the history of the Conquest, contains an account of the assassination of Pizarro, the great Spanish conqueror, the execution of the Peruvian Inca, and many other striking events connected with the conquest, including the reforms instituted in the government of Peru by the Spaniards, by the celebrated viceroy, Pedro de la Gasca, with splendid steel portrait of that warrior and statesman. Of the literary merits of the work nothing need be said, the fame of Prescott as a historian is too well established to need anything said in his favor now. Of the merits, mechanically, of the present revised edition of the Conquest of Peru, too much can hardly be said in praise thereof. It is printed on excellent paper, and in beautiful clear type, while the various styles of binding, for school room or library, are all that can reasonably be desired. The work is on sale at Dwyer's book store, East Temple Street, Salt Lake City.

WILLITT POTTINGER,
Register.

A Few Facts for the People.—Who framed the Frelinghuysen, Poland and other bills of like character? The ring and their abettors.

Who did all they possibly could to preserve the most unjust, oppressive and tyrannical features of the Poland bill? Maxwell and Merritt in Washington, and Baskin and the ring here, with false telegrams, memorials, &c.

Who opposed this infamous bill and dragged out its truth? George Q. Cannon and his friends.

Who have sought for years to vilify this people? The ring.

Who have prosecuted thieves, vagabonds, murderers, blacklegs, and have sought to maintain order? The people.

Who have liberated these said thieves and vagabonds, gamblers and blacklegs? The ring.

Who have prosecuted and imprisoned the most noble men in this community? The ring.

Who have packed juries for the purpose of destroying them and introducing anarchy? The ring.

Who hold all the post offices worth having? The ring. Who pay them? The people.

Who hold all the deputy marshals' offices, deputy attorneys' and commissioners' offices? The ring. Who pay them? The people.

Who appoint notaries public? The ring. Who pay them? The people.

Who opened the farms, made the roads, built the bridges? The people.

Who raised telegraphs and built railroads? The people.

How much have the ring done? Nothing, only to tear in pieces and destroy.

Who are the enemies of the people, the enemies of improvement and progress, the abettors of fraud and crime? The ring.

Their Platform.—We here publish the first two sections of the platform of the so called "Liberals"—

"Resolved, That in Ulysses S. Grant, President of the United States, and his Cabinet, we recognize friends of free thought, free speech, the supremacy of the laws, and determinable enemies of theocratic rule and a treasonable priesthood in Utah.

"Resolved, That although the Poland bill as passed by the late Congress is not sufficiently broad in its provisions to correct many of the evils originally designed by the bill, yet we gladly accept the imperfect provisions as a guarantee that Congress intends to perfect its work; thereby giving protection to the weak, punish the wrong, and assert the due execution of the laws of the United States in this Territory, for all of which the American citizens of Utah feel gratefully thankful."

The foregoing is a portion of what the crusaders wish those they term "Liberal Mormons" to swallow. When the nature of the Poland bill, before it was denuded of many of its obnoxious points, is considered, including a deprivation of the rights of citizenship because of religious belief, the modesty of the "liberal" request may be imagined. The person pretending to be a "Mormon" that will lend his aid to or suffer his name to be associated with such an illiberal, narrowminded, inconsistent, abusive and contemptible lot, doesn't even swim round the edges of "Mormonism." As bad as the general element of the opposition is, however, they have about as little admiration and as much contempt for traitors, after they have used them, as anybody, however much they may be predisposed in that direction themselves, and they only use these so-called "liberal Mormons" while they serve their purpose, when they will be as ready to let them as severely alone and treat them with as much indifference as they now appear to consider apostates who date back a few years from now.

GALVESTON, 30.—The News special says that a fight between Indians and rangers and U. S. cavalry occurred near Jacksborough on Friday last; the rangers lost twelve and several wounded, the cavalry lost several men and the commander, and the whole force was repulsed by the Indians.

MILWAUKEE, 30.—A boat, in which three persons were fishing, capsized near Waukesha this morning, and Edward Dunbar and Harry Wolf were drowned.
