Salt Lake Business Party in Sugar City and Teton Today.

BANQUET IN DRIGGS TONIGHT.

After Going Over Proposed Route, Commercial Club Will Feast the Party Tomorrow Evening.

(Special to the "News.')

Sugar City, Idaho, July 20 .- The big party of railroad, coal and sugar people that left Salt Lake last night on a tour of inspection of the coal fields at Teton and the beet sugar districts in the Snake River valley, arrived on time in Sugar City at 4:45 this morning. time in Sugar City at 4.25 minutes and in 15 minutes the members step-ped tailo the vehicles in walting and wheeled off east in the direction of Canyon Creek. The reception party was headed by Mark Austin, Alfred Ricks, Fred Schwendian, O. T. Ursen-bach, ef Sugar: Banker Bowerman of St. Anthony, and Judge Donaldson, Jacob Johnson and Samuel Schwendiman of Teton. There was considerable dis-appointement when it was found that vice-president Bancroft had been pre-vented from coming, but his place was filled by chief engineer Ashton, and of the Oregon Short Line, the promise being made that Mr. Bancroft would your found there to the Teton oral fields. Thomas R. Cutter, Spencer being and Geo. T. Odell took a busy part in pointing out the beauties of the vast waving fields of beets, which ex-tent to the north, east, south and west of Sugar City. Early as it was the entire party was up

ITINERARY OF PARTY.

TTINERARY OF PARTY. The plan of the party is to take breakfast at 7 o'clock at Canyon Creek, the highest point on the line between here and Driggs, an elevation of only 700 feet. Relay teams have been pro-vided and a fresh start will be made for Driggs, where the party will arrive this afternoon. The intention is to look at the coal properties and rest tonight at Driggs, where a big banquet will be tendered by the enterprising citizens of that place.

TO ORATE IN SUGAR.

TO ORATE IN SUGAR. Tomorrow morning they will go north through the basin, returning to Sugar City tomorrow night where the entire party will be tendered a supper at the Commercial club. Here it is ex-pected that there will be considerable done in the line of orations and after dinner speeches, as the people of Sugar City have made every preparation to extend a hospitable reception and in-cidentally to see that the advantages which the town possesses as the ideal starting point for the new spur to the Teton coal fields are fully exploited.

is Pe-ru-na Useful for Catarrh? Should a list of the ingredients of Pe-

runa be submitted to any medical expert, of whatever school or nationality, he would be obliged to admit without reserve that each one of them was of undoubted value in chronic catarrhal diseases, and had stood the test of many years' experience in the treatment of such diseases. THERE CAN BE NO DISPUTE ABOUT THIS WHAT-EVER. Peruna is composed of the most efficacious and universally used herbal remedies for catarrh. Every ingredient of Peruna has a reputation of its cyn in the cure of some phase of catarria. Peruna brings to the home the COM-BINED KNOWLEDGE OF SEVERAL SCHOOLS OF MEDICINE in the treatment of catarrhal diseases; brings to the home the scientific skill and knowledge of the modern pharmacist; and last but notleast, brings to the home the vast and varied experience of Dr. Hartman, in the use of catarrh remedies, and in the treatment of catarrhal diseases.

The fact is, chronic catarrh is a disease which is very prevalent. Many thousand people know they have chronic catarrh. They have visited doctors over and over again, and been told that their case is one of chronic catarrh. It may be of the nose, throat, lungs, stomach or some other internal organ. There is no doubt as to the nature of the disease. The only trouble is the remedy. This doctor has tried to cure them. That doctor has tried to prescribe for them.

BUT THEY ALL FAILED TO BRING ANY RELIEF.

Dr. Hartman's idea is that a catarrh remedy can be made on a large scale, as he is making it; that it can be made honestly, of the purest drugs and of the strictest uniformity. His idea is that this remedy can be supplied directly to the people, and no more be charged for it than is necessary for the handling of it.

No other household remedy so universally advertised carries upon the label the principal active constituents, showing that Peruna invites the full inspection of the critics.

For Pioneer day trains are now scheduled at 10, 12 and 3 o'clock, but more will probably be added, as the Black Rock beach is the best bathing shore on the lake, and was selected in the earliest days as the natural place for a resort. An old bridge crossing a creek running through the inside of the ranch broke beneath the weight of wagon and horses; Norman was thrown into the water and as the creek is very high and swift at this time of the year both he and the horses were carried down strgam. Patrolman W. C. Young, Ben Rich, John Dubel, A. W. Hentz and Frank Dubel were in the neighborhood and succeeded in pul-ling Norman out. BRIGHTON NOTES.

The summer rush has fairly begun, and very few of the Brighton cottages and very few of the Brighton cottages remain untenanted. Among other ar-rivals of the week are the Youngs, Spencers (who are in the Pyper cot-tage), the Whitneys, Mrs. Lucile Din-woodey, who has the Godbe cottage, Mr. and Mrs. Charles Caine, who are at the hotel, Mrs. Dr. Worthington, who is in the Odeil cottage, Robert Brighton and sons, and several oth-ers. The Moyle and Morris cottages will be opened soon. The hotel under Mrs. Matthews is giving good satis-faction, but there is no crush in evi-dence yet, due to the fact that the stage line from Park City has been abandoned this year (the mail being brought by a messenger on horsebuck), and that the Sugar House stage line is unable as yet to take care of all the traffic. There is talk of another stag. Ine from Murray.

The famous Mountain Lake mine is just over the hils from Brighton, and the hotel contains many visitors from Salt Lake and Park City, who take the tramp over the hills to visit the property. The big mining chieftain, Jesse Knight, is looked for during the week. All sorts of rumors reach Brighton as to the developments in this property and if only half of them prove true, Mr. Knight has one more bonanza to add to his string.

This is the first time within the memory of the oldest resident that there was such a depth of snow still in the hills at the middle of July. Even the road to Lake Mary is inaccessible; owing to deep snow, something that is almost unheard of. All the streams are running over their banks. The trees and flowers were hever so beautiful, and on every hand are seen the evidences of the tremendous snow fall of winter and moisture of the spring.

Chairman Lynch of the board will make a canvass of the various finan-cial institutions of the city and then report. A general belief is held that he will find the warrants command about 95 cents on the dollar; the prico S. Birch was offered when he tried to sell his warrants to the board. As has been explained a number of times the banks do not care to handle war-rants of this kind and all denial is the renkest kind of plain lying. The firm of Johnson & Beacombe of Missoula, Mont., went to the city's bank, the National Bank of the Republic, and were told by its head that the insti-tution would not handle special im-provement warrants. An overdraft in the fund set aside to meet the maturi-ty of these warrants was reported Jung 20 by the city treasurer, showing plen-ty of cause for the banks' wariness in regard to advancing money on the city's doubtful slips.

ty of cause for the banks warness in regard to advancing money on the city's doubiful slips. The warrants are drawn for \$1,000, each warrant having ten coupons for \$100 each and carrying 6 per cent in-terest annually. Warrant holders pre-sent these coupons as they fall due. Here is where the trouble begins for in some instances the full taxes have not come in to cover the improvements for which the warrants were issued, and as a result the contractor who has completed the work has to whistle and look pleasant until the money comes in. Returns have been com-ing in slowly during the past half year, because taxpayers are already over-burdened, and for other reasons. The way work drags after the contract has been let does not set a good example to taxpayers and the long drawn out contract squabble did not help thinas in contractors themselves are steer-ing clear of warrants whenever pos-sible on the two were busied or the steer the town of the steely need the steer ing clear of warrants whenever pos-sible on the two were busied on the steer the st ing clear of warrants whenever pos-sible, as they very wisely prefer the work that brings them cash-when it
