VALUABLE TO EVERY HOME.—We shall do our readers a favor by calling their special attention to the value, the usefulness, and we may say the direct profit, of supplying themselves, the present year, with one of the *cheapest*, as well as the most valuable, Journals issued in this country. It costs hardly half a cent a day, a sum easily saved, while its practical hints and suggestions will be most likely to bring back that amount many times over. The 500 to 600 beautiful, instructive Engravings, are alone worth many times the cost of the paper. We refer to the *American Agriculturist*, so called because started 35 years ago as a Rural Journal, but now enlarged and improved to suit the wants of every family in Country, Village, and City. It is packed full of good things, useful, reliable, and instructive. Each number contains 44 large (double octavo), pages, beautifully printed. It has much for instructing and pleasing Housekeepers and Children, and Farmers, Mechanic, Merchants—indeed all classes. Its House Plans and Improvements, with Engravings and particulars as to cost, and the common-sense directions, are worth more than many costly architectural works. Its constant, persistent, fearless exposure of humbugs and swindling schemes, is of great value to the whole country and to every individual. In short, it is full of good things for everybody, and we advise everybody to take it this year. It will be specially valuable in this Centennial year, its circulation, which is a hundred fold greater than the majority of other Journals, enables the publishers to supply the *American Agriculturist* at the very low rate of \$1.00 a year, post-paid, or four copies for \$5.40. Take our advice and send for it to the publishers, viz: Messrs. ORANGE JUDD COMPANY, 245 Broadway, New York City.
