

GOV. SWETTENHAM STILL CHURLISH

Asked About Incident, Said: "That Is a Matter Between Me and Rear Admiral Davis."

HIS MANNER IS IMPERIOUS.

Docked the Pay of Government Employees Who Attended Sick or Dying Relatives.

Kingston, Jamaica, Jan. 22.—The publication today in the Daily Telegraph of Gov. Swettenham's letter to Rear Admiral Davis has greatly intensified the resentment of the residents against the governor for rebuffing the tenders of American assistance, and there is a movement on foot here to demand his removal.

A small minority, mostly officials, support Gov. Swettenham, and their views are voiced today by Rev. Mr. Graham, pastor of the Methodist church, who declared that the governor was justified in resenting the landing of Americans.

The correspondent of the Associated Press spoke to Gov. Swettenham today regarding the Davis incident. The governor said he had not invited Rear Admiral Davis to land sailors. Asked if he endorsed the action taken by Rear Admiral Davis, the governor replied:

"That is a matter between me and Rear Admiral Davis, to whom I must refer you."

The governor said his reference in his letter to Rear Admiral Davis to a tramp pilaging the house of a New York millionaire was merely a jocular parallel.

A meeting of the relief committee was held here today on the call of the governor, to discuss the precise conditions attending the difference between the governor and the admiral. At the close of this meeting, and after having read Gov. Swettenham's letter to Rear Admiral Davis, Most Rev. Dr. Enos Nuttall, archbishop of Jamaica, sought the governor to talk the matter over with him, saying that he found the conditions warranted he would send a personal explanatory cablegram to President Roosevelt.

Archbishop Nuttall told the Associated Press that any action had been taken that might make the Jamaicans appear ungrateful for the generous tenders of the United States, while an appeal to the governor, who welcomed them warmly. He said he approved the governor's desire to endeavor to inspire the Jamaicans with the sentiment of self-help, but that he had no excuse for the rejection of American aid.

"There yet remains much to be done to relieve the suffering of the people, to provide shelter for them and to provide for the rebuilding of the city," the archbishop continued, "in all of which American aid would have been of great assistance."

The archbishop deprecated the idea that Gov. Swettenham's action would result in national animosity. "It was merely a result of the dictatorial character of the governor," he said. "His imperious manner, frequent abuse of subordinates and discourtesy to citizens have earned him great unpopularity, although other factors are regarded as a comparatively conscientious official."

There is much indignation expressed here at Gov. Swettenham's action in docking the pay of government clerks who absented themselves from duty to nurse sick or dying relatives. Last Saturday the governor suspended the free service of training for the transportation of refugees into the country, but at the urgent request of Archbishop Nuttall he consented to continue this free service for one week.

No sailors have been landed from the British cruiser Indefatigable, which arrived last night.

AT THE WAITING STAGE.

London, Jan. 22.—The incident arising from the exchange of letters at Kingston between Gov. Swettenham and Rear Admiral Davis now appears to be entering the waiting stage, as the government, after doing all possible in the absence of advice from the governor of Jamaica, is obliged to defer further action until he reports.

In the meantime the trend of official sentiment is toward having Gov. Swettenham apologize or resign, but this is based on the press accounts of the incident and on letters, and it may be modified by Gov. Swettenham's version, giving extenuating circumstances.

In the absence of a report from the governor to his government, his dispatch to Secy. Root, which has been reproduced here, tends further to modify the mind of the public, which finds it difficult to reconcile the governor's present recognition of the assistance rendered by the American squadron with the terms of his previous letter.

John R. Carter, American charge d'affaires, held an informal exchange of views with the officials of the foreign office this afternoon, but was informed that absolutely nothing had yet been received from Gov. Swettenham.

AMERICAN TENTS SENT.

Washington, Jan. 22.—An expression of gratitude from Gov. Swettenham of Jamaica for the sympathy and aid extended by the United States to the victims of the disaster on that island, the publication of the text of a grateful note from Esme Howard, the British charge here, conveying the regrets of Sir Edward Grey, the British secretary of state, on account of the incident and a cable report from American Vice Consul Orrett at Kingston, were among today's developments in the now famous controversy between the governor and Rear Admiral Davis, commanding the relief squadron, which went to Kingston.

While Gov. Swettenham's message was couched in the most polite terms, the British authorities are not through with the matter. In his letter Mr. Howard informs the government that his majesty's government are causing official inquiries to be made as to the authenticity of the letter credited to Gov. Swettenham.

An interesting chapter was admitted to the case today, when it became known that on Jan. 20, after Admiral Davis and his ships had sailed from Kingston, Brig. Gen. J. H. Morgan, commanding the army of pacification in Cuba, on the request of the acting British minister at Havana, transmitted through Gov. Macdonald, sent to Kingston five hospital tents, 25 wall tents and 22 conical wall tents, all complete.

Secy. Taft was prompt to give his approval on his arrival here yesterday morning from South Carolina, and it is understood that tents are now on their way to Kingston, Vice Consul Orrett

Bring Good Health.

DR. WILLIAMS' PINK PILLS USED AFTER GRIP'S ATTACK.

Arrest Fatal Decline, Build up the System and Restore Lost Flesh and Failing Strength.

"Any bodily weakness caused by a deficiency in the blood can be cured by the use of Dr. Williams' Pink Pills because these pills actually make new blood. After attacks of the grip the blood is generally run down and the patient continues to decline."

"About three years ago," says Mrs. Jennie Cowan, of 718 N. Henry Street, West Bay City, Mich., "I caught a severe cold, which ran into the grip. I was confined to my bed for two weeks. At the end of that time I was able to be about, but was completely run down. I was so weak I could hardly stand, my cheeks had no color and I felt faint. My heart would flutter and it was difficult for me to breathe at times. Neuralgia settled in the back of my head and stomach and I suffered from rheumatism in my shoulders."

"On the care of the best doctor in town but became no better until a friend told me one day how she had been cured by Dr. Williams' Pink Pills and I decided to try them. I soon felt better and continued using them until I was entirely cured. They built me up again in perfect health and I use them now whenever I feel at all sick and they always help me by the way."

The after-effects of the grip are generally worse than the disease itself. The health of the body is badly shattered and the system is so weak that it is no way to restore it. The blood is poor, the breathing difficult and there is loss of weight. The sufferer becomes nervous and irritable and the system is generally run down. The attacks of such diseases as bronchitis, pneumonia and consumption.

Dr. Williams' Pink Pills are invaluable in this condition, as well as in other blood diseases, because they not only drive off the germs of the disease but build up the system. The pills have cured anemic, rheumatic, nervous, effects of fevers, neuralgia and many other severe disorders.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50, by Dr. Williams Medicine Company, Schenectady, N. Y.

reported another shock today. In response to specific inquiries from the relief committee, he called that Sperry, Bourke, Watson and wife, Mrs. Case, Joseph and Mary Eustace, Edwards and daughter and Taylor were all alive.

The following cablegram summarizes the situation in Jamaica as the result of the earthquake was received from Mr. Orrett under today's date:

No loss of life at any of the hotels at Montego bay, Port Antonio, interior towns, Knutsford park, Constant Springs or any other hotel except at Myrtle Bank hotel, which was completely wrecked. Many deaths occurred there, chiefly among the employees.

"None of the names mentioned in your cablegram in death list so far published. Many of the names are found in the business portion of the city, which was devastated by fire, but were beyond recognition."

"Consultants opened today. Another school afternoon. No damage. Trains running. Two piers saved."

ARRIVAL OF THE BATTLESHIPS.

New York, Jan. 23.—A Kingston dispatch under date of Monday, Jan. 22, in reporting the arrival of the battleships Missouri and Indiana, and the prompt manner in which the American sailors started the work of relief.

"Like great birds sending forth a brood, they lowered and dispatched their boats, and one hastened to every point where the men in need of help were to be found. The commander of the fleet, that doctors, food and help were needed. One boat carried an officer to Colonial Square."

"We offered men to police the streets, bury the dead, recover and attend the wounded; and rations for 5,000, as long as needed."

The colonial secretary gasped and hemmed and hawed, while the staff gasped twice. The offer was taken under consideration and later accepted as to the men to police the streets. As I am preparing this dispatch, every available bluejacket and marine is embarking to put off to shore, but from the attitude of the men in power behind the governor and from the vacillating nature of the government, I feel sure that their powers will be brief.

The first British vessel that arrives will see American services declined with reluctant thanks.

For the residents of all nationalities, the American officers did everything in their power. Women who had not in three days known a place of repose fit for them were taken on board the battleships at once and fed and given every attention and comfort. A boatload of copper foil of coffee, thinned meats of several sorts, cakes of ice and even extra clothing were at the dock in half an hour, and the gloom and misery of the wretched band vanished in a twinkling.

Washington, Jan. 22.—First Assistant Postmaster-General Hitchcock recommended in his annual report that the salaries of the officers and clerks in post-offices and the salaries of letter carriers be increased to meet the increased expenses of living.

In his testimony before the house committee on the post-office and mail service, Mr. Hitchcock has reiterated that recommendation, supplying the committee with considerable data on the subject.

The request of the committee has been prepared an estimate of the cost of the necessary increase to carry his proposition into effect. According to these figures the system of inland mail delivery, which is now being operated by the post-office and mail service, will require \$2,000,000 for the office and clerks of postoffices, not including postmasters and their deputies, and all clerks for letter carriers. The committee has not reached a decision on the matter.

FRENCH SENATOR CALLS FRANCE HIDEOUS REPUBLIC.

Paris, Jan. 22.—The expulsion of several students from the Catholic seminary at Beaupreux, near Angers, Jan. 19, was made the occasion for a sensational speech in the senate today. M. Delahaye, Conservative, and in the chamber of commerce of Angers, declared that the Catholics were ready to die for their faith, and that if attempts were made to close the schools of Notre Dame de Lourdes and Montmartre they would defend them with their lives. The senator added:

"Combes, Clemenceau and Briand cannot suppress God's Church. They are only the tools of the devil."

Continuing, Senator Delahaye shouted, amid the jeers of the left:

"I am not a Legitimist, but I would welcome a king or emperor if he would rid us of this hideous republic, which ditches the soil of France."

President Enthusiastic Over Results Attained in Public Schools.

New York, Jan. 23.—President Roosevelt is enthusiastic over the good results obtained by school boys with the sub-target machine which the public school athletic league has installed in 10 largest high schools in New York. The president, who is honorary vice president of the Public Schools Athletic League, told Gen. Wingate, president of the league, Saturday, that he regarded the movement to make the school boys good shots as one of national importance and one that he would be glad to do all in his power to help along.

Gen. Wingate suggested that it would be a good idea if the president should send a letter of commendation to the boys who should display the greatest skill with the rifle and the president replied: "I will do it. You go ahead, general, and arrange the match as you think best, and you have my authority to announce that I will write such a letter to the boy who the league decides has shown himself the best shot and has sent me his name."
