Ayer's Cathartic Pills

For all the Purposes of a Family Physic,

CURING Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Headache, Erysipelas, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumor and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organs into action; and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most skilful physicians, from conviction, often prescribe them, and their best citizens, send certificates of cures performed, and of great benefits derived from these Pills. They are the safest and best physic for children, because mild, as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

AMERICAN.

ALL QUITE PROMISING,

And Every Hope for Recovery.

WASHINGTON, 8.—Chief Brooks, of the secret service division, who investigated the assassination to see if Guitteau had any confederates, said, to-day: Our investigations are about over. We looked over the whole field. There is really nothing that has not been published in the case, except the unfortunate gentleman who, through mistaken benevolence, lent Guitteau money, believing it was to help him pay his board. It would probably be of no importance to any one except that gentleman himself. To make it public would be doing a great wrong. People are so apt to discredit what a man says or does.

Do you think from your examination of Guitteau that he is insane? He is an eccentric man, a man who would be fanatical about any subject he might dabble in. He would go to extremes. I do not think anything he said to me indicated irrationality. He is as sane as any man. An insane man or monomaniac rather excites ones pity. He excites one's antagonism. Ones disposition is to argue with him. When one advances an argument that baffles him, he seems to realize that his position is untenable, and impatiently says: "I do not want to argue with you. You cannot convince me. I cannot change your views." There is really no mystery about the case said Major Brooks. As stated the newspapers have printed everything about it. They have got everything in some way. As for Guitteau's past career, the newspaper reporters seem to have found out all about that.

W. W. Corcoran, Washington; Geo. Seney, and Geo. Childs, contribute $5,000 each to the Garfield fund.

It is proposed that there be a national subscription of $5 and upwards, for the purposes set forth in the subscription list. If the amount subscribed shall even double that originally contemplated by the Chamber of Commerce, there will be no subscriber to grudge his share of it, whether it shall prove to be a provision for the widow and orphans or the President of the United States, as now most happily seems more probable.

The following was received:

SALEM, Oregon, 8.

Hon. J. G. Blaine, Washington:

The people of Oregon send congratulations, rejoicing with all true friends of liberty over the improving prospects for the recovery of the President.

(Signed,) W. W. THAYER, Govenor.
EDWARD HIRSCH, State Treasurer.
R. P CARHARDT, Secretary of State.

The president has been more comfortable to day than at any time since he was wounded. His children were permitted to see him this morning. The return of hot wether is predicted by Gen. Hazen.

Settled quietness prevails at the White House, and hope for the President's recovery has grown into general belief. Except cabinet officers and newspaper correspondents there are but few visitors to-night. Dorsey has one of the fire district fire engines in the White House yard for the purpose of testing its capacity for compressing air for lowering the temperature of the President's room. Dorsey has not much confidence in the success of this experiment, but thinks it may do some good. Compressed cold air will be thrown into the WhiteHouse through rubber hose. A fire engine has been telegraphed for from New York and will reach here to-morrow. When it arrives, Dorsey says he will be able to keep the temperature of the President's room at any degree desired. Dr. Reyburn said to a reporter at 10 o'clock, that the President's condition was more hopeful than ever. All symptoms were favorable and the surgeons hope for an increase every hour. The rise in the pulse and temperature to-day, was due to the cause thoroughly understood, and does not indicate anything unfavorable. Everything the bullet came in contact with is dead matter and must slough off. This sloughing process has commenced most favorably, as shown by the character of the pus discharged from the wound. One great danger apprehended was that the sloughing might cause hemorrage by rupturing a blood vessel, but Reyburn says this danger is now in a great measure passed. He says this produced irritation and surgical fever, and caused the rise in the temperature and pulse, but this fever is not high enough to be dangerous; that in fact it is moderate, and, under circumstances and conditions, satisfactory. He says the President has taken more nourishment to-day than on any day and a little more stimulant, and has retained it all. His strength keeps up, and altogether his condition is gratifying. Col. Rockwell said to-night: "About 6 this evening the President awakened from a short sleep and enquired, 'Where's Bliss?' Dr. Bliss was immediately called, and the President said, 'Dr., I feel tired. Had you not better tuck me in my little bed?' The Presidents wound hurt him some, and he wanted it dressed for the night. He continues his good-humored cheerfulness and manifests it frequently. One good sign however, is that he gets a little cross sometimes. Doctors and attendants say this is indeed favorable.

Arthur received visits to-day from several cabinet ministers. He says he begins to feel like himself once more as the President improves. The load of anxiety is removed from his mind.

Letters to Mrs. Garfield and others at the White House proposing remedies, making suggestions, and in many cases from doctors offering remedies and guaranteeing a cure, continue to pour in by the score. These people might as well save their labor and postage stamps.

Surgeon-General Wales, of the navy, said this morning that he did not consider the President had even a chance. He said there were well authenticated cases of wounds of the abdomen from buckshot, when a patient exhibited favorable symptoms, and when the temperature and pulse became perfectly normal, and yet death ensued on the eighteenth day.

The Albany Struggle.

ALBANY, 8.—The Administration members feel confident of electing the two candidates they nominated this afternoon. They claim to have promises from several members who have been voting for Conkling, that they will vote for Miller and Lapham. Among those who have promised is Assemblyman Sessions. It is said that Bradley has gone home without pairing. Stalwarts in conference to-night resolved to stand firmly by Conkling and Crowley.

An Irish Deputation.

NEW YORK, 9.—A dispatch says: Forster, Chief Secretary for Ireland, to day received a deputation of Irish farm laborers. W. O. Sullivan, home-rule member of Parliament for Limerick County, in introducing them, said great distress existed among laborers owing to the want of homes and a small quantity of land, and that the session of Parliament should not be allowed to pass without settling the question. Other representatives spoke in favor of the clause of the land bill allowing laborers to hold one acre or lease land from the tenancy under tenant farmers, or landlords, and converting them into tenants, under that bill, and that the poor law unions and towns have the power to allot suburban land for laborers' homes. These measures were urged, not only in the interest of laborers, but of taxpayers, as they wanted to free laborers from any dependence upon the poor rates. Forster, replying to one of the delegation, said when government were ready to confer the franchise upon agricultural laborers the measure would not be confined to England, but would be extended to Scotland and Ireland. As to the object of the deputation, he knew the condition of laborers was very bad, but the matter was most difficult to deal with. He rejected the idea of the state providing cottages and land as impracticable, but the state, he said, might help to remove obstacles to their getting good employment or good cottages, and might give facilities or offer temptation to persons interested to improve their condition. He could not say what could be done at this session of Parliament. All must try to do their duty and insure the land bill. It does not leave the laborer in a worse position than he is now. If government could do more they would try, if not this year, as soon as possible.

Morgan's Daughter.

SAN FRANCISCO, 9.—A Portland dispatch says: It has just been ascertained that the youngest daughter of William Morgan, who, it is claimed, was put out of the way by reason of having divulged Masonic secrets many years ago, is living in this State she is quite an elderly lady, and is the wife of Captain Wm. Smith. Mrs. Smith says her father was drowned by five men, who took him out one night into the lake. She states that one of the five men who assisted in the drowning for many years resided in Portland, Oregon, but is now dead.

Indian Outrages.

ST. LOUIS, 9.—General Juan M. Zuloogu, Walter Carrington and A. R. Hammond have arrived here from Chihuahua, Mexico. These gentlemen are largely engaged in silver mining in Chihuahua, and are *en route* for Chicago, New York and London in the interest of mines. The firm report the killing by Indians of five ranchmen near Santa Clara. They came through from Chihuahua to El Poso in their own conveyance, and escaped attack by Indians only by mounting to the top of their coach while passing through the Candalaria Mountains, and keeping up continual shooting and firing off their pistols, which frightened the redskins. The latter, however, attacked General Zuloogu's outfit, 75 miles from the frontier, and ran off all his loose stock. The south bound stage was attacked by Indians, who killed the driver, wounded one passenger and captured and carried off Thomas Pugh, a son of ex-Senator Geo. E. Pugh, of Ohio, and a nephew of Gov. Hendricks, of Indiana. The day before these gentlemen passed through the mountains a band of 40 Indians attacked Lieutenant Gonzales, of the Mexican troops, and killed several men, but Gonzales captured 17 head of Indian stock. The Indians also attacked a wagon that had been taking supplies to a party of surveyors belonging to the Atchison, Topeka and Santa Fe Railway, and killed three men who were returning to El Paso in the wagon.
