#### Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in nneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken. all danger will be avoided. Among the tens of thousards who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusive-ly that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.
