DESERET EVENING NEWS: SATURDAY, OCTOBER 3, 1903.

MURRAY-UTAH'S NEWEST CITY-ITS BIG SMELTERS and BUSINESS GROWTH.

HILE the city of Murray has only been out of kilts since January 2 of this year when it was incorporated, it is one of the healthiest municipalities of its size in the West today, as far as financial scope and solidity are concerned. Situated within seven miles of the Temple Square, nevertheless Murray is absolutely independent of Salt Lake City for it possesses a progressive bank, a number of up-to-date stores and business houses, an opera house, jail and other adjuncts to a modern incorporated city. In addition, the city is connected with the outside world, by two trunk railroad systems and an electric car line, with the prospect of an inter-urban line being added in the near future.

While a number of the residents of Murray gain a livelihood by ranching and truck farming the city owes the major portion of her wealth to the smelting industry, with which the district has been associated for a number of years past. Today the American Smelting & Refining company pays the wages of a heavy per centage of the residents, while the big plant of the Highland Boy company also is responsible for numerous boarders and renters within the corporate limits of the city.

These employes handle an immense tonnage every day, in fact, in round figures, the first named corporation handles at its plant something like 400,000 tons of ore every year. The Highland Boy, too, turns over on an average of 530 tons of ore each day of the year. It is these two plants that are mainly responsible for the flourishing condition of the city of Murray.

When the project of incorporation was first mooted a year ago the companies interested strenuously endeavored to head off any such move, but on Nov. 18, 1902, and election was held resulting in 294 votes being cast in favor of incorporating against 235 who desired to go along on the old lines. The election resulted in the selection of a strong body of men to stand at the helm on the initial voyage of the city. Chillion L. Miller was chosen mayor, with the following aids: M. A. Willumsen, recorder; Orson Sanders, treasurer; James Gilbert, William McCleery, Reynolds Cahoon, Heber Sanders and A. E. White, councilmen; John P. McOmie, justice of the peace, and Michael Mauss, marshal.

Since the celebrations that marked the incorporation of the city on January 3 everybody has settled down to work for the city's best interests with the result Murray stands away up at the head on the commercial travelers' memorandum books among the best cities of the state. Those who have been watching the development of the suburban city are responsible for the statement that the place is on the verge of a long and healthy boom.

MURRAY MERCANTILE CO. If there is one convenience of trage

Such has been the growth of Murray, and its rapid expansion in all the de-partments of commerce and varied inthe people of city and country whose time is occupied with industrial affairs, it is the convenience of a general store, where they may go and find everything they want under one roof. With keen foresight and an enterprising spirit that is much appreciated by the people of Murray and its tributary surroundings. Mr. A. Townsend, a merchant of large experience in such affairs, four years ago established his excellent store of general merchandise in Murray, and it has proved a great boon to the people. Mr. Townsend occupies a main floor of 30x135 feet, which it may be remarked is a large establishment for this city, and carries a stock embracing many de-partments of merchandise, leading with groceries, dry goods, clothing, boots, dustry in recent years that an increase its financial accommodations became an imperative demand of the recent times, and, to meet the emergency a number of the leading financiers and business men of that city with the characteristic enterprise of Utah people formed a company and, on January 26, 1903, organized the First National bank, and started it at once upon its career as a solid institution of the state. The bank is capitalized for \$25,000. Its offi-cial management cial management comprises, Lewis S Hills, president, also president of the Deseret National bank of Sait Lake Lake Deseret National bank of Sait Lake City; Richard Howe, vice president, a prominent stockman of Utah, and D. A. McMillan, a well known young business man of Murray, cashier. The director-ate of the bank include the above offi-cers and Messrs. John C. Cutler, Melvin M. Miller, Mahonri Spencer, and Lewis B. Fowell. All these gentlemen are well known among the most substantial men of the state, thoroughly responsi-ble and of the highest business and morgroceries, dry goods, clothing, boots, shoes, hats, etc., and including country produce, and feed stuffs of all kinds. In dry goods and clothing he carries all the various grades from the most elethe industrious working people. His trade, which embraces a wide territory in the country as well as in the city, has had a fine growth, requiring wagon country down and a fine growth. ble and of the highest business and mor-al integrity, and the business of the bank in such able hands as those of the official staff cannot be otherwise than a most patent aid to the growing commerce and the new and progressive in-dustries which are making of Murray a city of thrift and handsome develop-ment. The bank shows a prosperous and very pronounced condition in its very beginning. At the end of the first four months of business, June 9, 1903, its statement to the comptroller of the treasury shows its resources to be \$56,-270.98, its loans and discounts, \$26.647.71 and on deposit, \$20,475.03. An excellent feature of accommoda-tion to the people of Murray was added when Beck's hotel, one of the many new enterprises of the city, was opened for business in February, 1902. This is a neat three-story building, containing 28 sleeping rooms, newly furnished. Mrs. M. E. Graham, formerly proprietor of the Highland hotel, this city, is the proprietor, and she is an excellent lady proprietor, and she is an excellent lady and a capable hotel manager. She keeps the hotel in first class ctyle and pro-vides excellent fare at the remarkably low rate of \$1 per day; room and board by day, week or month. Besides the regular board. Mrs. Graham furnishes good meals at 25c and also gives short orders at all hours of the day on the orders at all hours of the day on the regular restaurant plan.

THE LEADER.

One of the best evidences that could be given of the growth of Murray as one of the important trade centers of the state is the excellent character of recent commercial establishments here. D. B. Baron & Co., only 18 months ago opened a fine store at Murray and Bingham Junction, which is justly en-titled to be called "The Leader" for its
