AFTERNOON QUOTATIONS. Listed Stocks. Bid. | Asked

P. H. Candiand yesterday filed suit in the district court against A. B. Lew-is to recover \$2,475 on a contract. In May, 1995, Candiand held an option on the Wild Bill and Burning Moscow mining claims for \$6,000. He asserts that Lewis offered him \$6,140 for a waiver of the option. In payment Candiand received five \$1,000 honds of the Nevada-Utah Gold and Copper Mining company. The balance Cand-land declares was not paid.

According to Walter James, consid-erable activity has been started in erable activity has been started in the vicinity of Antelope range, II miles southeast of Black Rock and four miles morth of Antelope Springs. A recent strike in the property of Moody Rob-jusion in a shaft down 70 feet, carries values of 9 per cent copper, 17 ounces in silver and \$2.40 in gold. A drift is being run along the body of the orc which is eight feat wide. Already mare than 100 dialms have been staked out in the district and many prospects

at in the district and many prospects tre being worked.

drifting is now being carried on to-ward the north with the indications fa-

The Golden Reef Mining company of Richfield is reported to have struck some good ore in its new shaft. The ore extends across the entire bottom of the shaft and depth meens to add to the richness of the ore. The first assay was \$6 in gold and 60 per cent lead, while the second assay made ran \$8

second assuy

Engineers for the United States Smelting, Reflaing and Mining com-pany recently made an Inspection of the Black Warrior property five miles from Globe, Arizona. The property it is said has never been properly man-aged, and at present there is 200,000 tons of 10 per cent copper in sight. It is probable that the United States com-many will take over the property.

pany will take over the property.

in gold and 80 per cent lead.

while the

made ran \$8

Considerable work is being done at the mines in the Bouver Lako district. The Black Rock under the manage-ment of Walter James, has a working shaft of 110 feet. The company is con-tinging to slok and at the same time is referred for the contact. An inclum drifting for the contact. An incline shart of 170 feet along the dip of the yein has opened a hody of one four feet wide which carries 19 per cent
