Lakers are interested.

In Boise, a few days ago, Manager John T. Hodson, gave the Statesman a few facts concerning recent disclosures. "The rich strike in the Lincoln mine at Pearl is at a point 450 feet east from the shaft, 300 feet below the surface. Manager Hodson states he has always intleipated finding something very good there, as there is a large quartz out-crop showing on that portion of the property. 'A report received yesterday by Mr. Hodson from Superintendent Stallings stated that the day before 110 sacks of the rich ore had been taken out from the drift. This was all sampled as it was being put into the sacks. The re-turn on the average of the samples showed \$.41 ounces gold and 67 ounces silver. That, with the lead, represents a value of more than \$200 a top. The value of more than \$200 a ton. The vein at the point where this rich ore is found is more than 13 feet wide. They are putting 13-foot stulls in the stope that is being opened there, and they do not reach across the entire vein. "Manager Hodson will leave this morning for the mine. He has engaged this five teams of four horses each to hau the output of the Lincoln to Emmett, the nearest railroad station, where will be shipped to the smelter at Salt Lake.

be, who will command the respect and confidence of the stockholders. Thank-ing you for loyal support in the past and pleading my earnest efforts for the to the diggings. A new 60-horse power boller has ar-rived at Ely, Nevada, for the Pilot Knob copper mines. future glory of our great company I am, Very sincerely yours, A. B. LEWIS, Salt Lake City, Utah.' On the subsequent day, the 15th inst., it is evident that the "pipe of peace" was smoked, and shareholders were notified thus: "Hartford, Conn., April 15, 1903. Laboring under a misapprehension of facts, prior to April 14, I prepared a circular to Majestic stockholders re-questing them to send their proxies to me for use at the annual meeting to be with held May 4. After a conference with Mr. Mucklow yesterday I found that there was a mutual misunderstanding of the facts involved in the situation, and later I regretted to find that during my absence from New York some of circulars, dated April 14, had been malled to stockholders. (Signed) "A. B. LEWIS." We regret that as a result of misunderstanding there has been even the semblance of friction in connection with MARKET SHOWED Majestic affairs. Our ambition is to make the Majestc one of the greatest mining properties in the world. Such a result can be accomplished, we be-lieve, by united effort, and we shall use best endeavors to such an end. believe that personal interests We should not be allowed to interfere with the advancement and success of the Majestic. All proxies, held by either of us, will be voted in harmony with the desire of the majority of the stockhold-Opening Prices Higher, Trade ers for a strong board of eastern di-rectors, and the mine management will will be continued as heretofore under Mr. William A. Farlsh.

ELKO'S MINERAL ZONE.

Great Merit Claimed for Northern # Nevada District.

While the papers throughout the state and the east and west are heralding the riches of Tonopah, says the Elko Free Press, Tonopah does not contain all the mineral wealth of this state. Nor is the mineral wealth confined to the western part of the state. Right here in Eliko county are many "Miz-pah," Comstock" and "Wedekind" lodes, but awaiting a little faithful lalodes, but availing a little faithful la-bor to make known their riches to the world. Many of these, under the dis-advantages of high transportation charges, high wages, crude methods of treatment and all difficulties attendant upon pioneer mining, have yielded great fortunes. With the approach of the industrial wave from the east,

these old mines and many new ones in this county are taking on new life and preparations are being made for good rk this season. A mill of 60-tons daily capacity ar-

rived from San Francisco vesterday for the Purdum properties near Mountain the Purdum properties near another City, Engineer Davis goes Monday morning to survey for the plant. Re-ports from Lone Moutain are that a large body of high grade copper ore has been tapped in the tunnel which has been run in the Brooklyn mine there. This is only 25 miles north of Elko. The Dexter, at Tuscarora, has deter-mined that there are good bodies of hich ore on levels lower than they have yet mined, and will soon start their mill running on new ores bodies, From Columbia, White Rock, Edgemont, Bull Run, Mountain City, ack Creek, Mar-dis, Bullion and other points in all parts of Elko county come reports of good mineral showing.

We believe that in no state, and in no other section in this state, will idle capital find a better field for investment

than in Elko county The mineral wealth is here, that fact has been established beyond a doubt. Every man acquainted with great camps in other states, who investigates the mineral showing of Elko county-especially the northern part-is high! pleased with what he finds. But th preat need is for cheaper power and transportation. The most practical power, and the cheapest, is electricity. Adjacent to the great mineral region in the northern part of Elko county are the American Falls and Shoshone Falls of the Snaks river, in Idaho, If the power in our mountain streams is not sufficient, string the wires from these great natural power houses and bring some of their surplus energy. Who will be the first to supply this great need-cheap power? The development of a vast and rich mineral region, with all its traffic; the industries of this

growing town, destined to be the center of wealth, industry and education of eastern Nevada; all await the coming of cheaper power. Who will be the first to "touch the button?"

"A. B. LEWIS. "WM. B. MUCKLOW." (Signed.)

The same day the fiscal agents of the company, Chapman, Mucklow and Bosson, addressed to the Majestic shareholders the following: "We are pleased to call your attention to the enclosed statements: one signed by Mr. A. B. Lewis, the presi-dent of the Majestic Co., individually; and the other jointly by him and Mr. Wm. B. Mucklow, the treasurer of the company. These statements put an end to any seeming lack of harmony concerning the future management of the Majestic Co. A strong board of eastern stockholders is now assured, and you will welcome immediately after May 4 a letter of greeting from the new board of directors setting forth the present physical condition of the

great and marvelously rich properties owned by the Majestic Co., and also giving the latest data in connection with the smelters, and the bright pros-We want to pects for the future. sure you that the mines owned by the Majestic are destined to be famous throughout the world. There is abso-lutely no doubt about their wonderful richness in gold, silver, copper, lead, etc. We advise you strongly not only to hold every share of stock you now have, but to increase your holdings within the next 30 days. It will be your holdings last chance to get this stock at a rea-

sonable figure. "Sincerely yours, CHAPMAN, MUCKLOW & BOSSON.

P. S .- A very strong and influential delegation leaves the east next week, April 24, to visit the mines and to be present at the annual meeting. Have oy-arranged to go?

It is chimed by persons who are close friends of General Manager Farish, that had the plan to retire Senator Lewis from the presidency of the Ma-jestic been carried out, that he too, would have refused to serve the com-pany lenger. It is also asserted that the pany longer. It is also asserted that Col Farish let the easterners know just where he stood in the matter and that they were suddenly brought to realize that his resignation at this time would decidedly disastrous to the company's interests.

Returned from Nevada.

E. D. R. Thompson has returned from a trip to Ely, Nev., where he has been on mining business. The camp of Ely, he said this morning, is quiet just at present, but citizens anticipate that a
