

## LOCAL AND OTHER MATTERS.

**THEATRICAL.**—The fine old drama of "Ireland As It Was" was presented in fair style last evening. The "Maid with the Milking Pail," with Kate Denin, Messrs. Hardie, Lindsay and Margetta as "Milly," "Lord Philander," "Algernon" and "Dion," terminated the performance.

To-night will be represented the four-act play of the "Actress of Padua." Kate Denin will personate "Thisbe," the Actress, Mr. Lindsay "Angelo Malferi," Mr. Hardie "Rodolfo," and the members of the corps the balance of the characters.

The evening's performance will terminate with the very laughable farce of "Dunduck's Pic-nic," with "Phil" as "Peter Dunduck" and Mr. Graham as "Mr. Alphonso de Fentonville." They will be supported by Mrs. DeBar, Messrs. Mackintosh, Evans, Sorce, Haynes, Mrs. Clawson and Miss Evans.

**CHANGE OF TIME.**—On and after Saturday next there will be a change of time in the departure of trains on the Utah Central, to and from Ogden and Farmington. See advertisement of the Company in to-day's NEWS.

**GOVERNOR FOR UTAH.**—The Omaha Herald of last Sunday says: "Mr. Grant has appointed a private governor for Utah; at least, we are told that the appointment will not be made public for some days."

**NEWS FROM ELDERS.**—By note from Bro. Theodore McKean, under date of the 1st instant, at New York, we learn that Elders Robert T. Burton, E. F. Sheets, B. Groo and H. W. Brizzee had arrived at that city the day previous. They were in good health. Hon. W. H. Hooper had not been well, but was convalescent.

**SERIOUS ACCIDENT.**—Yesterday morning a very serious accident happened in the 19th Ward, to Brother Samuel Kimball, son of the late President Heber C. and Mrs. Ann G. Kimball. While harnessing a span of mules, he received a severe kick, from one of them, newly shod, about two inches above the right ear, fracturing the skull, knocking a piece of the bone through the lining membrane into the brain, causing the latter to protrude considerably. Doctors Anderson, Richards and Bernheim were called in. They took the piece of the skull out of the brain, replaced the latter and rendered all other assistance possible under the circumstances. They were of the opinion, however, that the injury was so severe that there was a very slight chance of his recovery. During yesterday the poor fellow was insensible, but this morning his consciousness has returned and in the opinion of the physicians his condition is much improved, and there is some prospect of his recovery. He is a fine promising young man, and was eighteen years old yesterday.

**A UTAH WOMAN SUICIDES.**—The Elko Nevada, Independent, of the 4th inst. gives the particulars of the suicide, by shooting herself in the forehead, on the preceding Wednesday, of a young woman, whose name was Lydia Catharine Armenta. At the inquest, the only evidence to show cause for the rash act, was given by her husband, who said she was troubled with some periodical derangement, and on account of that had often wished herself dead. The jury found that the deceased had come to her death by her own hand, and that her name is Lydia Catharine Armenta, wife of J. Armenta, and that she was about sixteen years of age, was born in Utah, and married on the 29th of December, 1868, to her now widowed husband by a Judge of the Supreme Court of Utah Territory, in Salt Lake City.

**GREENWOOD.**—Bro. James May, of Brigham City, one of the missionaries, writing from Greenwood, Steuben county, New York, on the 22nd ult., says that he and Brother James P. Barnard have held four meetings in that place; the people are kind to them, and will grant permission to preach in almost any of their preaching places. They listen attentively, but that is all; they do not seem to care for anything but money and the affairs of the present life. Hereafter, with its interests, is like an idle tale to them.

**READ THIS.**—In a notice in the Omaha Herald of Sunday last, from W. N. Quick, Division Superintendent of the United States Express Company, of property remaining unclaimed at their office in Omaha, it is stated that there is property lying there addressed to the Governor of Utah; W. C. Moody, Spring Valley, Utah; J. C. Nielson, of Provo, Utah; and A. H. Noon & Co. of Provo, which would be sold by auction on the 18th inst. if not claimed before that date.

**HELENA ITEMS.**—The citizens of Helena, Ma., who have suffered so much from fires on several occasions, seem to be realizing the importance of adopting preventive measures. The Herald of the 2nd instant says that Albert Mochan, was fined ten dollars and costs, for "unlawfully, injuriously, negligently and imprudently keeping a defective stove and stove pipe," and adds:

"This may be regarded as a test case, and those who have defective stoves should put them in good condition at once or they will be subject to prosecutions. The Fire Commissioners are determined to do all in their power to guard against another conflagration, and the course which they have taken will meet with popular favor."

In a city that has been almost consumed by fire on two or three occasions, through inadvertence or carelessness, such precautions are well-timed; and in any locality, especially where there is not a well organized and efficient fire brigade, the adoption and strict enforcement of similar measures could not but be beneficial.

The same paper speaks in highly laudatory terms of Mr. G. B. Waldron's personation of "Hamlet," pronouncing it superior to that of Forrest or Davenport. Amy Stone is gaining favor among the Montanans; her Ophelia and other characters are spoken highly of.

**ATTEMPT TO POISON AT LARAMIE.**—A recent number of the Laramie Sentinel says:

"A young man of hitherto irreproachable character has been employed for some time as cook in the European Hotel. Last night some little difficulty occurred which resulted in his quitting the job, and another man engaged in his place. Determined on revenge before leaving, he managed to put

a large quantity of chloride of sodium into the flour which was to be baked for supper. The new cook had his suspicions aroused, and thought he discovered something wrong. Dr. Finckle, who is a skillful chemist, was at once sent for, and upon examination readily detected the mineral. The discovery was made in time to prevent any fatal consequences, and as a thorough examination will doubtless be had, we forbear comment. It is scarcely necessary to remark that this mineral, in aqueous solution, has produced more deaths than almost any other agent. Its first effects are to induce burning thirst, followed by severe vomiting."
