

SOON FOUND SANTA FE GUILTY

Took Jury Just Twenty Minutes
To Convict it of Grant-
ing Rebates.

LIABLE TO FINE OF \$1,250,000.

Court Holds Accepting Less Than Tar-
iff Rates on Freight, Though on
Compromise for Claims, Illegal.

Los Angeles, Oct. 11.—After being out
20 minutes, the jury in the case of the
government against the Santa Fe Rail-
road company, on trial for rebating, in
the federal court here this afternoon,
brought in a verdict of guilty against
the railroad on all of the 60 counts of the
indictment. Judge Welborn will
announce his decision next Monday. An
estimate of the maximum penalty which
may be imposed is \$1,250,000.

The charge against the Santa Fe was
that it had granted rebates from its
regular tariff on shipments of lime by
the Grand Canon Lime & Cement com-
pany of Arizona. The defense of the
railroad was that the rebates were
"accessions" made for the railroad
in the shipments during transit.

The trial began on September 20.
In his decision on the law points
which arose during the trial, Judge
Welborn today laid down a point of
law which is held to be one of the most
important which has been announced
since the interstate commerce com-
mission was instituted. He said:

"I held that the acceptance by the
defendant of a less rate of money than
that named in its tariff for the trans-
portation of the property described in
the indictment, if there has been such
acceptance, was a departure from the
legal rates, and that it is no justification
for such a departure, nor is it any
defense to a prosecution under the act
of the carrier were done in com-
promise of claims for loss of prop-
erty in transit."

Final arguments in the case of the
Santa Fe Railroad company, charged
with granting rebates, commenced to-
day. The maximum fine that may be
imposed in the event of a verdict of
guilt is in excess of \$1,250,000.

At the opening of today's session
Judge Welborn announced his decision
on the points that have arisen in the
trial, and in every instance the court
upheld the government.

Thomas J. Norton, recently appoint-
ed general counsel for the Santa Fe,
was threatened with indictment in open
court today by Oscar Lavelle, United
States attorney. When Lavelle arose
to close the Santa Fe rebate case he
announced that Norton, as attorney for
the railroad under indictment, had given
free use of a car to an agent for the
purpose of carrying out his duties in
connection with the trial. This action,
declared the United States attorney,
was in violation of the interstate com-
merce act.

"I will take the matter before the
grand jury and believe that I will
secure the indictment of Mr. Norton,"
said Lavelle. Atty. Norton has been
defending the defense for his company
during the trial.

The most important point involved
in the day's proceedings was on the
admission of testimony regarding com-
promises between the railroad company
and the Grand Canon Lime & Cement
company, reported by John S. Schriber.
The defense urged that the alleged
rebates were nothing more or less than
the result of compromises with Mr.
Schriber, who claimed a loss of time in
transit. The government contended
that it did not matter for what the com-
promises were granted; that they con-
stituted rebates under the law. The
court instructed to disregard the evi-
dence regarding compromises.

The court also held that the rail-
road has established its tariff of \$70 for a
minimum of 40,000 pounds of bulk lime
from Nelson, Ariz., to points in south-
ern California, by the interstate com-
mission, denying the attempt of the
company to show that this did not estab-
lish a tariff.

SENTENCED TO DEATH.

Sixteen Men for Conspiring to Over-
throw Hayden Government.

Kingsport, Jamaica, Oct. 11.—Mail ad-
vice from Haiti states that sixteen men
were sentenced to death there for con-
spiring to overthrow the government
of the republic. The country is reported
quiet, but many persons fear a
revolution soon.

STABBED TO DEATH.

Molito, Cal., Oct. 11.—Juan Forch-
as, Mexican, was stabbed to death
last night and his body placed on the
Southern Pacific railroad track, just
north of this city. The body was dis-
covered by the crew of a southbound
freight train 8 o'clock this morning and
after being struck by a night
train and decapitated.

RECEIVER FOR ALASKAN RY.

Newark, N. J., Oct. 11.—Jerome D.
Dudley was appointed receiver for the
Alaskan City and Solomon River rail-
road in Alaska, by Vice Chancellor
Hoyt today. The railroad company
is a New Jersey corporation.

The application for a receiver was
made by Philip V. B. Van Wick of
Morristown, a stockholder and creditor
of the road, who alleges that the com-
pany is insolvent. The object in mak-
ing for a receivership is to prevent the
sale of the road to satisfy a judgment
of \$500 obtained by an Alaskan. So
far it is said, \$1,200,000 has been spent
in building and equipping the road, and
the company has a profitable contract
with the government for carrying the
mail between Council City and Bolo-
na, Alaska.

The receiver will ask to be
permitted to issue bonds north of
receiver's certificates to satisfy the judg-
ment and meet other pressing obliga-
tions.

CURES SKIN DISEASES

There is an evaporation from the body going on continually, day and
night, through the pores and glands of the skin. This is nature's way of
maintaining the proper temperature of our bodies and of preserving the
firmness and flexibility of the skin, and so long as the blood is free from im-
purities no trouble will result. When however, the blood, from any cause,
becomes infected with humors and impurities these, too, must be expelled,
and coming in contact with the delicate tissues and fibres with which the
skin is so abundantly supplied they produce irritation and inflammation, and
the effect is shown by Eczema, Acne, Tetter, pimples, rashes and skin
troubles of various kinds. To effect a cure the blood must be cleansed and
purified. This cannot be done with external applications, but requires con-
stitutional treatment. S. S. S. is the best treatment for all skin diseases.
It goes down into the circulation, neutralizes and removes the humors and
kills and thoroughly cures skin affections of every kind. S. S. S. supplies
the blood with the proper nutritive qualities so that the skin instead of being
irritated and diseased by unhealthy humors, is fed and sustained by cooling,
brilliant blood. Book on SKIN DISEASES and any medical advice desired sent
free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

TEAS

may all look alike but
there is a vast difference
in quality.

Folger's
Golden
Gate

MEMORIAL LIBRARY TO MEMORY OF W. R. HARPER.

Chicago, Oct. 11.—John D. Rockefeller
today gave the University of Chicago
\$50,000 to erect the memorial library
that the university will dedicate to
William Rainey Harper, first president
of the institution, who died several
months ago. This gift makes Mr.
Rockefeller's total donation to the uni-
versity \$2,565,000.

COL. JOHN BRYSON DEAD.

Los Angeles, Cal., Oct. 11.—Col. John
Bryson, former capitalist and former
mayor of this city, died early today at
his home. He recently returned from
Europe, where he had hoped to regain
his health. He was born in Lancaster
county, Pa., in 1819. He leaves a wife
and estate including valuable realty in
the business section of Los Angeles.

GOV. CURRIE SAYS NEW MEXICO IS FOR ROOSEVELT.

Albuquerque, N. M., Oct. 11.—In re-
sponse to an inquiry from a New York
newspaper, asking for a statement as
to an interview, following his meeting
with President Roosevelt at Memphis,
in which Gov. George Currie of New
Mexico was quoted as saying that the
president might be a candidate for re-
election, Gov. Currie today sent the
following message:

"Dispatches referred to do not quote
me exactly correct. My mission to the
president was in regard to attached
New Mexico and other matters of
interest to this territory. I took occasion
to tell the president that the people
of New Mexico feel very kindly
toward him, and appreciate what he is
doing for the west. The president did
not discuss his candidacy or anything
relating to the presidential election
with me. In my opinion the delegation
to the Republican national convention
from New Mexico will be instructed
for the renomination of President
Roosevelt. His own friends here could
not prevent it if they tried, and the
fact is strong here that he should suc-
ceed himself in order that he may car-
ry to a successful conclusion the pol-
icies he has inaugurated. Should Presi-
dent Roosevelt refuse to accept a nom-
ination, the people of New Mexico will
support whoever they believe will come
nearest to carrying out the policies of
President Roosevelt."

HAGUE PEACE CONGRESS MAKES DECLARATION.

The Hague, Oct. 11.—The following
declaration, drafted by Count Tornielli
(Italy), was adopted by the arbitration
committee this evening, after a long
debate, the United States, Japan, Hayti
and Turkey abstaining from voting.
The conference unanimously favors:

First.—The principle of obligatory
arbitration.
Second.—That certain differences,
especially those regarding the interper-
tation and application of constitutional
clauses, are susceptible of being sub-
mitted to obligatory arbitration with-
out restriction.

The conference unanimously proclaims
that while a convention on the subject
was not concluded, the differences of
opinion had more of a judicial charac-
ter, as all the states of the world, in
working together for four months, had
only learned to know each other better
by getting closer together, but de-
veloped during this long collaboration
high ideals from the common welfare.

Joseph H. Choate was much applaud-
ed during his speech explaining the
abstention of the American delegation.

AERONAUTS FEAR MAY DROP INTO GREAT LAKES.

New York, Oct. 11.—All of the
European aeronauts who are to com-
pete in the James Gordon Bennett
cup race to start from St. Louis, Oct.
21, are in this country except the two
French contestants, who will arrive
on the Taurine tomorrow. Griffith
Brewer and Lieut. Claude Brabazon,
representing the Aero club of Great
Britain, came in on the Lusitania to-
day. The German representative, Dr.
J. W. McCoy, two of the cup de-
fenders, the Englishmen, will start
for St. Louis tomorrow afternoon, all
of the balloons now being on the
ground. The German representative
left New York yesterday.

Fear of dropping into the Great
Lakes is the chief concern of the
aerial racers at the present time, and
tonight officers of the Aero club of
America made the request that all
newspapers throughout the lake re-
gion print a general notice to mariners
to be on the lookout for the bal-
loons. For a hour after the start
of the race at 3:30 on the afternoon
of Oct. 21, those sailing on the lakes
are requested to keep a sharp watch
in all directions, especially at night.

OPERATORS BACK TO WORK.

New York, Oct. 11.—Officials of the
Western Union Telegraph company
stated today that their forces had been
largely augmented by the recent day
by personal applications of strikers to
return to their work, and that a large
number had been taken back, various
parts of the country. As a result of
movement, it is said that the desirable
places are rapidly being filled and that
comparatively few vacancies remain.

OPERATOR ARRESTED.

St. Joseph, Mo., Oct. 11.—Joseph Pow-
ers, a Burlington telegraph operator,
Waldron, Mo., has been arrested by United
States authorities, charged with inter-
fering with communication messages and
disrupting the service. The in-
dictments are supplementary to those
of a similar nature filed last week.

COMMANDER BRIGGS.

His Strange Actions Are Causing
Alarm Among His Friends.

Paris, Oct. 11.—The strange actions
of Commander John B. Briggs, U. S.
N. retired, are causing alarm to his
friends here. He seems to be suffering
from the persecution mania. This
morning he imagined that 600 people
were pursuing him, and he fled from
his home in Washington to the city of
Paris. He has been notified, and in
the meantime Commander Briggs
probably will be sent to an
asylum.

BELL TEL. CO. WILL FILE SUIT FOR CONSPIRACY.

Helena, Mont., Oct. 11.—Tomorrow
the attorneys for the Rocky Mountain Bell
Telephone company will file a conspiracy
suit against President Alexander
Fairgrieve of the Montana Federation
of Labor, and its members, for con-
spiracy to defraud the company, and
with failure to report the accident to
the commander-in-chief on the Asiatic
station, and with misrepresentation in
regard to the amount of damage done.

CHARCOAL KILLS BAD BREATH.

Bad Odor of Indigestion, Smoking,
Drinking or Eating Can Be
Instantly Stopped.

The prevailing wind at St. Louis at
this time of the year is from the
southwest, and that will carry the
balloons toward Lake Michigan and
Lake Superior, where are especially
feared. Should a balloon sail over
one of these bodies of water with
wind enough to carry it to the other
side, the aeronaut would be almost
certain of drowning, unless he was
seen and rescued by some craft.

One of the reasons for selecting this
time of year is that the lakes seldom
freeze until November, and the bal-
loons will remain in the air longer than 40
hours, and it is expected that they will
be down within 24 hours.

ATTY.-GEN. YOUNG.

Cited to Show Cause Why Shouldn't be
Punished for Contempt.

St. Paul, Minn., Oct. 11.—Edward
T. Young, attorney-general of Minne-
sota, today was served with an order
issued by federal Judge Lochren to
show cause why he should not be
punished for contempt of court.

The alleged contempt consists of
misdemeanor proceedings brought in
Ramsey county to compel the re-
turns to court for the federal com-
modity rate law passed by the last legisla-
ture. The enforcement of this law has
been temporarily enjoined by the fed-
eral court. If Judge Lochren im-
poses punishment on Atty.-Gen. Young
for contempt, the latter will appeal
to the United States supreme court on
habeas corpus proceedings, thus
bringing the case controversy directly
before the court of last resort.

CHARCOAL KILLS BAD BREATH.

Bad Odor of Indigestion, Smoking,
Drinking or Eating Can Be
Instantly Stopped.

Sample Package Mailed Free.

Other people notice your bad
breath where you would not notice
it at all. It is nauseating to other
people, and before you know it, you
are talking, giving them a
whiff or two of your bad breath. It
usually comes from fermenting on
your stomach. Sometimes you have
it in the morning, and sometimes
after meals. You can stop it at
once by swallowing one or two
Stuart's Charcoal Lozenges, the most
powerful gas and odor absorbers ever
prepared.

Sometimes your meals will reveal
themselves in your breath to those
who talk with you. "You've been
eating onions," or "You've been eating
cabbage," and all of a sudden you be-
lieve that the reason for their dis-
like of your breath is Charcoal. It
is a wonderful absorber of odors, and
every one knows that. That is why
Stuart's Charcoal Lozenges are so quick
to stop all gases and odors of in-
digestion, and to keep the breath
sweet and pure.

Don't use breath perfumes. They
never conceal the odor, and never ab-
sorb the gas that causes the odor.
Besides, the very fact of using them
reveals the reason for their use. Stuart's
Charcoal Lozenges in the first place
stop for good all sour breath and
belching of gas, and make your
breath pure, fresh and sweet. Just
after you've eaten, there is no harm in
turning your face away from you when
you breathe or talk; your breath will
be pure and fresh; and besides your
food will taste so much better to you
at your next meal.

Charcoal does other wonderful
things, too. It carries away from
your stomach and the intestines, and
which causes the bad breath. Char-
coal is a purifier as well as an ab-
sorber.

Charcoal is now by far the best,
most easy and mild laxative known.
It is a natural and healthy action.
In fact, the more you take the better.
Stuart's Charcoal Lozenges are made
of pure willow charcoal and mixed
with just a faint flavor of honey to
make them pleasant to eat. They are
not sweet. You just chew them like
candy. They are absolutely harmless.

Get a new, pure, sweet breath,
freshen your stomach for your next
meal, and keep the bowels in good
working order. These two things are
the secret of good health and long
life. You can get all the charcoal
lozenges to do these wonderful but
simple things by getting Stuart's
Charcoal Lozenges. We want you to
test these little wonder work-
ers. So send us your full
name and address. We will mail
you a sample of Stuart's Charcoal Lo-
zenges. Then after you have tried
the sample, and been convinced, go
to the drugist and get a tin box of
them. You'll feel better, and your
breath will be purer, and "cleaner" in-
side.

Send us your name and address to-
day, and we will mail you a sample
of Stuart's Charcoal Lozenges. We
will mail a sample box of Stuart's
Charcoal Lozenges. We want you to
test these little wonder work-
ers. So send us your full
name and address. We will mail
you a sample of Stuart's Charcoal Lo-
zenges. Then after you have tried
the sample, and been convinced, go

NOTICE OF ASSESSMENT NO. 4.

CHEERY CREEK MINES COMPANY.
Principal place of business Salt Lake City.
Notice is hereby given that the
meeting of the board of directors held on
the 3rd day of October, 1907, an assess-
ment of three (3) cents per share was levied
on the capital stock of the company, and
payable immediately to H. T. McEwan,
secretary, at his office in the State
Bank of Utah, corner of 1st and 2nd
streets, Salt Lake City, Utah, on or
before the 10th day of November, 1907.
Stock on which this assessment may be
remained unpaid at the close of business
on the 10th day of November, 1907, shall be
delinquent and forfeited to the com-
pany, and unless payment is made
before the 10th day of November, 1907,
the stock shall be sold at public auction,
and the proceeds of said sale shall be
applied to the payment of the cost of
advertising and expense of sale.

HENRY T. MCEWAN,
Secretary.

NOTICE OF SALE OF REAL ESTATE.

Estate of Sherwood L. Dinwoodey, Wil-
liam Thornton Dinwoodey and Katharine
Dinwoodey, Minors. The undersigned will
sell at public auction, an undivided one-
seventh interest in the following de-
scribed real estate situate in Salt Lake
County, State of Utah, to-wit:

Commencing at a point 2 rods west of
the northeast corner of lot 11, block 20,
5-acre plat "A," Big Field Survey, and
running thence south 15 degrees, 30' East,
114.75 feet, thence north 15 degrees, 30' East,
114.75 feet, to the place of beginning.
Subject to a right-of-way com-
mencing 14.75 feet west of the north-
east corner of said lot 11, running thence
south 10 degrees, thence east 14.75 feet,
thence north 10 degrees, thence east 14.75
feet, to the place of beginning. Also a
perpetual right-of-way over 15' follow-
ing portion of said lot, to-wit: Commenc-
ing at said last named point of beginning
and running thence west 75 rods, thence
north 8 feet, thence east 75 rods, thence
south 8 feet to the place of beginning.

Also commencing at a point 1 rod north
and 2 rods west of the southeast corner
of lot 11, block 20, 5-acre plat "A," Big
Field Survey, running thence west 75
rods, thence north 75 rods, thence east
75 rods, thence south 75 rods, to the place
of beginning. Also a perpetual right-of-way
over 15' following portion of said lot, to-wit:
Commencing at said last named point of beginning
and running thence west 75 rods, thence
north 8 feet, thence east 75 rods, thence
south 8 feet to the place of beginning.

Also commencing at a point 1 rod north
and 2 rods west of the southeast corner
of lot 11, block 20, 5-acre plat "A," Big
Field Survey, running thence west 75
rods, thence north 75 rods, thence east
