

A Friend Who Owed Him Money May Have been Murderer.

Chicago, July 1 .- John Long, 68 years W. S. McCornick, -W. F. Adams, Prest. Vice-Frest. ld, a watchman in the Lavelle Man-UTAH NATIONAL BANK, ufacturing company's factory at 9 Dayton street, was murdered while Dayton street, was murdered while on duty yesterday. Two hours after Long's body had been discovered on the first floor of the building, the po-lice found Joseph Voelkel, aged 30, a former employe of the company. ly-ing in the rear of the factory. Voel-kel was mortally wounded, and near him lay a revolver with three cham-bers empty. He had a bullet hole in the right temple. Long had been shot twice. Voelkel died last night. Long's watch and torn chain were found in SALT LAKE CITY, UTAH. watch and torn chain were found in Voelkel's pocket, and the two had quarreled frequently about money. Voelkel and the old watchman were friends, to all appearances, but fellow employes said the young man was deep in Long's debt and that the two quarreled frequently over money matters. Voelkel is supposed to have gone to the factory to get more money or to continue the old arguments. What took place in the factory no one knows. SAN FRANCISCO STRIKE. First Installment of Telegraph Strike-First instalment of Telegraph Strike-Breakers Arrives.

there is no way of learn At this time there is no way of learn-ing anything of a definite nature re-garding the deal. The leasers at the Beck mine, anticipating a change, are taking out their ore as rapidly as pos-sible, but are not doing the usual amount of prospecting because they do not know whether it would be them-selves or someone else that would profit by the arguing the of own one late by the opening up of new ore bodies. GIROUX READY TO PRODUCE. Joseph L. Giroux who is at the head of the Giroux Cosolidated mines at Ely, Nev., he made the statement that the latter will begin producing by the first of August. Mili facilities have first of August. Mill facilities have been provided, which will treat 500 tons of ore daily. Mr. Groux says with its present equipment the Giroux mine can earn 32,000,000 during the next year on 15-cent copper market.

the United States company owing to the fact that the company has its own

the fact that the company has its own smelter. Under the direction of the Centennial Eureka people some of the low grade ore from the Beek mine is being put out through the May Day dry concentrat-ing plant, the object no doubt being to see if the Beck ore can successfully be handled by the dry process. It is only natural to suppose that should the Centennial Eureka take over the Buil-lion mine, after finding that the low grade ores of that property can be suc-cessfully handled by the dry process, the Beck mill will be remodeled and the necessary machinery installed to con-vert it into a dry concentrator on the same plan as the mill which the Cactus Ore company now has in operation at the May Day. At this time there is no way of learn-ing savetblag of a definite network to

disput apex in lot 38 belonging to de-fendant. Still another point urged by the de-fendant is that the transfer of the property from the Grand Central Min-ing company of Utah to the Grand Cen-tral Mining company of Colorado (which latter company is now the plaintiff in this case) is ultra vires and void, for the reason that the transfer from the Utah corporation to the Celorado corpor-ation, of all the property of the Utah corporation, in the maner in which it was transferred, was contrary to law and against public policy, and that the Grand Central Mining company of Col-orado is not the real party in interest and cannot therefore recover in this action.

agement and misappropriation of funds. The promoters are accused of overselling their issue of stock, of claiming to own property they do not own and in refusing to show the rec-ords and books of the company. A Goldfield dispatch says: Goldfield ers seized s worth \$50,000, some of it assaying as high as \$40 per pound. Most of the ore was taken from the Smith Assay and was taken from the Smith Assay and Reduction works. Some was found in the house of a deputy sheriff and jali-er. Suspects under arrest are M. J. Smith of the Smith Assay and Reduc-tion works, C. J. Trask, another assay-er, S. H. Prince, owner of the Golden assay office, Fred and Harry Lutzen-heimer and C. J. Briggs, the deputy sheriff. It is not known who stole the ore delivered to these caches.

# MANHATTAN LOOMING UP.

### Nevada District Shows Indications of A General Revival.

A General Revival. Manhattan, the mining camp with a boom a year ago that surpassed all boom camps of Nevada, is destined to rise again, and that in the near future. For the past six months, little has been said of Manhattan, owing to greater excitements elsewhere, but the mining companies have been working along steadily, and have made some very rich strikes, and another era of leasing in the district is about to begin. T. B. Rickey, president of the State Bank & Trust Co., and the present con-trolling spirit of the Sullivan Trust Co., was in camp this week, looking over the Sullivan properties. A short time ago, it was decided to lease parts of the Stray Dog. Jumping Jack, In-dian Camp and As-You-Like-It prop-erties, and with that end in view. En-gineer MacGregor had the ground mensured off, and today, several leas-ers are at work with good success. On the Stray Dog. Mr. Giffin, a Man-hattan merchant, has six men working his lease. A lease on the Jumping Jack has just been granted to Wil-liam J. Douglass, president of the Min-hatta merchant, has six men working his lease. A lease on the Jumping Jack has just been granted to Wil-liam J. Douglass, president of the Min-tar most careful examination, and are now erecting a gallows frame and in-stalling a 15 borse power motor.

camp. They selected the ground after a most careful examination, and are now creeting a gailows frame and in-stalling a 15 horse power motor. These people operated very extensively on Lease No. 8 on the Union No. 9 claim of the Manhattan Dexter, and feel that they can take out large quan-tities of ore from the Jumping Jack. In addition to the several leasers already granted on the Sullivan prop-erties, several parties are now on the ground, making examinations, and se-lecting favorable blocks, with the in-tention of securing leases for exten-sive work. A lease has already been let on the indisc Camp to responsible parties, and work is to be started at once.

once. The big stauth mill now being erect-ed on Mussiang Hill, is greatly im-proving conditions at Manhattan, and leasers are again faking up their work, as they will now have a place to dis-ness of their medium grade ors. The mill should be in operation by Sep-tamber.

all should be in the set about to be several new holsts are about to be erected on promising looking properties throughout the district, and the gen-eral feeling is that another boom is soon to strike the camp.

# EXPERT KODAK FINISHING.

Harry Shipler, Commercial Photog-rapher, 151 Main St.

On Tuesday the pumps with which it is hoped to drain the Ontario and fa-cilitate the opening of the drain tunnel were started and given a preliminary try-out, says the Record of Park City. The pumps were under steam for only a couple of hours, in which time the water in the shaft recoded about two inches. From present indications the funches. From present indications the pumping experiment will be success-ful and will aid materially in getting the big drain open again.

The big drain open again. The Silver King Coalition company is still dickering for more extensive hold-ings in Thaynes' Canyon. Besides the D. & M. deal, the management has made a proposition for the Rosscamp ground near the Comstock and it is also reported again that they would like' very much to get the King Consoli-dated property under the family wing. Work at the Wildflower property will be started in a few days. This week considerable stock in the corporation was disposed of to finance the proposi-tion, and development work for the summer is assured. The Wildflower is well located and may be expected to

cell located and may be expected to

the week, looking over the situation and making necessary arrangements pre-paratory to the beginning of develop-ment work there. Upon his return from the mine, Mr. Paradise, who is presi-dent of the company, stated to a Record reporter that the mine "was still there," and no further information was forth-coming. However, it is known that when work was suspended last winter, the proposition was looking mighty the proposition was looking mighty good and those interested feel so much meouraged that they intend getting work well under way again as soon as mossible. Developments at the Columus are anxiously awaited by owners surrounding properties, who will governed to a certain extent by its owing. Supt. Fisher will begin work

with a force of men the first of the week. It seems to be at present hard to get workmen in Park City. A few days ago the resumption of work at the Wabash was delayed for some time, because miners could not be secured, and this week Hugh McDonaid, who is going to have charge of a force of men, to begin operations at the Diamond-Nimrod property, has had some difficulty in setting employes. Henry Hirschman, who has been in camp all week from Salt Lake, is heavily interested in the D-M and intends to have another sum-mer's work done at the property. Lo-cated as this prospect is, it seems im-possible that a big mine can be avoid-ed if the necessary prospective work is ed if the necessary prospective work is accomplished. There is a splendid plant at the property and all facilities for quick, substantial progress, and Mr. McDonald will take pains to see that the best possible results are accom-plished. plished.

# FIGURES WERE MISLEADING.

Utah Con. Has Paid Only \$900,000 in

Dividends This Year. The morning napers last week print-ed what was purpored to be a correct last of dividends paid by Utah mines during the first half of the year, but which appears to have been very mis-leading. All made the mistake of cred-iting the Utah Consolidated with \$900.-000 more than it actually disbursed among shareholders, and one persisted in bringing in a well known silver-lead producer at Fairview-the Nevada Hills -for \$150,000. While the Nevada Hills

## MANY REALTY SALES.

Stowe & Palmer report the follow-ing sales for the past week: The Del Wilson home, 127 Eighth East street, to Joseph Wirthlin of Eureka, who will move his family to this city. The consideration was \$9,500.

Actna Real Estate and Investment company to Hoyt Sherman, 10x10 rods, corner of State and Seventh South streets, for \$9,000, Dr. L. M. Rudy of Grantsville, to Dr. J. T. Keith the former's home on Eleventh East street for \$4,000. Stowe & Palmer report a number of smaller sales with increasing inquiries for investment properties.
