

the assembly to order. Singing by the choir; prayer by the chaplain, Wm. E. Nuttall; the Battle Hymn of the Republic was sung by R. C. Camp and company; Declaration of Independence read by Francis Kerby, Sen.; oration by R. C. Camp, which was well rendered; toasts and sentiments, both comic and sentimental; patriotic speech by Prest. W. E. Nuttall.

The people assembled again at two o'clock, when singing, swinging, and various amusements until four o'clock were indulged in, when the juveniles enjoyed themselves in the dance until six o'clock.

In the evening the adults stepped the light fantastic, and broke up at a reasonable hour, all feeling that they had enjoyed themselves to their hearts' content, and all passed off in harmony and peace. Great credit is due to the committee of arrangements.

AMERICAN.

CHICAGO, 25. The following dispatch was received at Gen. Sheridan's headquarters this morning:

"Camp on Goose Creek, Wy., July 16th, via Fort Fetterman, 22nd.

"To Gen. Sheridan:

"I sent out Lieut. Sibley on the 6th with a small detachment of the 2nd cavalry, to escort my guide, Frank Guard, in making a reconnaissance. When the party came, on the 7th, to a point near where the Little Big Horn debouches from the mountains, they encountered the Sioux in strong force, and saw enough to convince them that the main village of the hostiles is not far from that point. They succeeded in making their escape only after abandoning their animals and marching across the rugged foot hills of the Big Horn mountains. Lieut. Sibley and Frank Guard are entitled to great credit for the calmness and judgment they displayed in saving the detachment when surrounded by a largely superior force of the enemy.

BISMARCK, D. T., 25.—The six companies of infantry under Gen. Miles arrived yesterday and left for the Yellowstone this morning, taking on board here 160 recruits, two three-inch Rodman guns, horses and supplies.

The Josephine follows this afternoon, Col. Hughes returning on her to his post.

The army officers generally blame Crook for a failure to co-operate with Terry, believing he was anxious to win laurels without assistance or interference.

One gentleman, but little inferior in rank, insists that Crook knows but little of the plans of the Indians anyway, and lacks the experience desirable in one commanding an army operating against a wily and savage foe.

All agree that one of the greatest mistakes in the campaign is the under-estimate of the number of Sioux and of their disposition to fight.

Gen. Miles says he is satisfied that nearly all the fighting men from Standing Rock are out, and he stopped there long enough to look the ground over; and the agent at the lower Brule adds that his Indians are all out and those from the Cheyenne agency, not to speak of Spotted Tail's and Red Cloud's, who are certainly with them. The hostiles have been largely reinforced since the battle. Gen. Miles gives the key to the recent removal of the women and children and friendly disposed Indians of the Standing Rock agency to the east side of the river. The hostiles had notified them they intended to raid the agency unless all joined them, and believing that they would do it, they have moved to the other side of the river for protection. A Sioux scout, in the employ of the government at Fort Rice, after the recent battle, said he always knew the Sioux outnumbered the whites, and that he believed they would conquer in the end. The same idea prevails to a great extent among the young warriors who go into the campaign better armed than the whites, with a knowledge of every ravine in the country and

almost every tree, from behind which an Indian can shoot a cavalryman, and confident that they will win.

Well-informed river and frontiersmen insist that the Indians have an effective fighting force of at least 10,000, well armed and abundantly supplied.

CINCINNATI, Ohio, 25.

Two young daughters of M. Pritchard, near Logansport, Ind., were burned to death on Sunday night by the explosion of a coal oil can, from which they were pouring oil on the kitchen fire.

NEW YORK, 25.—To-day another great auction sale was begun, of flannels, blankets, tweeds and cotton goods from the principal mills and manufactories. The whole lot consisted of ten thousand packages. Most of the large houses of the country were represented among the buyers. Western men purchased heavily.

FOREIGN.

LONDON, 25.

Minister Pierpont denies that he is negotiating for a new extradition treaty with Lord Derby, and says whatever steps are taken must proceed to or from Washington. In answer to the question what Lord Derby meant by saying he hoped to establish a provisional arrangement to tide over possible long negotiations, Minister Pierpont said, "I was in the House of Lords and heard that remark. I think I know what Lord Derby meant, but that is for him to explain, not me; but I deny that I am a party to any negotiations. Of course I can not say what may be passing between London and Washington."

The town of Albeuve Salbeuve, Switzerland, was totally burned on the 20th instant.

CONSTANTINOPLE, 25.—Official dispatches say a Turkish detachment from Setchavitzia crossed the Servian frontier and defeated the Servians, killing 3,000. It also burned three villages.

LOCUSTS.—TOPS.

BRIGHAM CITY, July 24, 1876.

Editor Deseret News:

Brother Lucius A. Snow, living at Five Mile Creek, near Weston, Oneida county, Idaho, has just arrived in our town, and through him we are informed that the locusts, in great number, have descended upon the fields of said place and neighborhood, but as yet no great damage has been done. A south wind, that has prevailed for several days, has hindered these obnoxious pests from coming southward, which is indicated to be the direction they have adopted.

Small grain is far advanced here, and harvest has already commenced. The corn and the cane and some kinds of vegetables may suffer much, should the locusts continue in their southward course.

Most respectfully, A. C.

—During the year ending June 30th last the sheriff of San Francisco County, Cal., had 3,173 prisoners to take care of.

—A correspondent of the Chicago Tribune says, "It is currently believed here that Mrs. Tilden herself would gladly return home if he could. She has no social recognition by Plymouth Church people, and is compelled to support herself—a struggle to which she is quite unequal."

—Total abstinence is increasing in the British army in India, there being on the rolls of the Society 74,000 non-commissioned officers and men in May last. This movement is largely the result of the labors of the Rev. Mr. Gregson, of Agra, the honorary Secretary of the Soldiers' Total Abstinence Association of India.

MATTISON & JOHNSON.

Return thanks to the farmers of Utah for their liberal patronage for the past two years and state that they enter the field for 1876 with an entire NEW STOCK of Reapers and Mowers.

THE CAYUGA CHIEF

Has been improved especially for this trade, and is now called the "WHEELER." The No. 6 is a light Mower, possessing great power and endurance, and the easiest handled machine in the market. With the exception of the improved Ledger Plate in the Guard, it is the same as the Cayuga Chief No. 3, which has become such a favorite. The No. 6 is a combined machine, with controllable Self Rake, the gearing is all enclosed in an iron box, which excludes all dirt and grit. This machine was awarded the California State Diploma last September, and has already taken the laurels from several competitors in Texas this year.

WE ALSO HAVE THE

KIRBY MOWERS AND REAPERS

All these machines are made by D. M. Osborne & Co., Auburn, New York, the largest Reaper and Mower Factory in America. A Full Line of the

MCCORMICK REAPERS, MOWERS AND HARVESTERS.

Who was the Inventor of Reaping and Mowing Machines?

MCCORMICK!

MCCORMICK!

Who has been building Reapers and Mowers for over Thirty Years?

FARMERS OF UTAH!

We have one question to ask you, viz: Ought not the Inventor of the Reaping and Mowing Machine, who has been building them constantly over THIRTY YEARS, and who has the largest capital and largest Manufactory of any firm building machines in the world, ought not he to be able to build as good and BETTER machines than any competitor?

Think of the above before you buy! Also, remember that there were more of the MCCORMICK machines sold in the United States last year, and every year, than any other make, and ask yourself the reason why. Is it not because they are the BEST and most DURABLE machines?

See for yourselves before buying. Remember that every machine is fully guaranteed.
