The committee regards its chapter on Republican responsibility as of special importance, and quotes a speech by Representative Sherman of New York, vice presidential candidate on the Re-publican ticket. Mr. DeArmond assert-ed to the house on April 5 that the Republican majority in Congress in both branches was so pronounced as to make that party wholly responsible for the litigation of the Sixtieth Con-gress, and Mr. Sherman replied, ac-knowledging responsibility of his party, "nof only for anything that is done, but for that which is not done in the way of legislation and administration." The Republican congressional com-mittee probably will not issue its hand book hefore Aug. 1.

County Horticultural Inspector Submits Report of Work for June. John P. Sorenson, county horticul-

The receipts for June show a reduc-tion in receipts for June show a reduc-tion in receipts from \$62,711,000 one year ago, to \$53,488,612, while the disbursements have increased from \$40,616,000 to \$49,541,369. The excess of receipts over disbursements for June was \$3,947,243. From the treasury standpoint the fiscal year just closed has been a most satisfactory one. Since about the middle of October last, when the per-iod of money stringency set in, and the consequent depression in business began to be felt, there has been a constant falling off in government rev-enues up to the month just closed. For June a surplus is shown of nearly \$4,-

In the month of June it was cold and stormy, and we had a great deat of rainy weather, and the deputy in-spectors worked only a little over half time, making a total of 96 days' work. "There were 664 orchards visited and inspected, 298 were found to be cui-to at a cleaned, 56 were sprayed the second time; 4,250 trees were piant-ed and not reported before; 283 trees were found so disased that they were condemned to be cut down and burned. 8,425 trees, mostly peach trees, have had the excess truit thinned out; 351 pear trees were found affected with blight, and most of them will have to be cut down and burned, and notice was served to this effect; 1,263 trees condemned in May, have been cut ... and most of them burned. "I have visited and counseled with some of the deputies about different work in their district, also have had to report one case to the county attor-bey and the sheriff for their action. "I have also, as the law requires, given the first summer inspection to a large portion of the young nursery trees now being raised in the nurserles and found them in good, healthy con-dition, except a small patch of old left-over trees that were badly dis-eased and were threatening the sur-rounding young stock. I reported this to the proprietors and they promised eased and were threatening the sur-rounding young stock. I reported this to the proprietors and they promised to cut it down at once and burn it. Another nursery was affected with the black or cherry aphis. I advised with the owner and recommended him to use a strong micotine wash to clean them." them.

enues up to the month just closed. For June a surplus is shown of nearly \$4,-000,000. This fact, however, is not significant, as June is unfailingly a surplus month, largely due to the fact that it is the closing month of the fiscal year, when appropriations grad-ually reach the point of exhaustion. The month of June, 1907, showed a surplus of approximately \$11,000,000, and every preceding June for many years past has shown large surpluses. As the month of June uniformly shows a surplus, the month of July as certainly shows a deficit. Nearly all appropriations become available on the first of July, and this year treas-ury officials are looking forward to a deficit larger than usual, and while they are not willing at this time to ex-press an opinion as to its size, it is believed they. \$20 ono one see its size. The amount of cash now in the treasury vaults and available to meet expendi-tures is about \$70,000,000. In addi-tion to this there is on deposit with national banks about \$153,844,000, which is at all times subject to call by the secretary. A considerable por-tion of this sum is likely to be called into the treasury within the next few days, and while Mr. Cortelyou has not indicated what his purpose is as to the amount, it is thought it will be less than \$50,000,000.
