MINING, BUSINESS AND STOCKS.

THE TAXABLE PROPERTY OF THE PR

JACKLING GOES TO ANACONDA

Company's Concentrator.

WORK ON THE UTAH PLANT | THIRTY CLAIMS ACQUIRED.

At Ringham to Commence as Soon as Possible-Company Acquires West Mountain Placers.

Manager D. C. Jackling of the Utah Copper company, which took over the De Lamar-Wall property at Bingham a few days ago, departed last night for Anaconda, Mont., to take a look through the great concentrating plant owned by the Washoe Copper company, where he expects to get some ideas that may be of benefit to the Utah company, which is to commence the construction of a 500-ton plant at

Before leaving for the north Mr. Jackling said that no time would be lost, but that the construction of the plant would commence just as quickly as the plans can be drawn and the contracts let. He will spend several days at Anaconda and Butte in order to thoroughly familiarize himself with the mechanism of the plants there,

The Utah company has acquired a lease on the properties of the West Mountain Placer Mining company, for a period of years, with the privilege of purchase at the price of \$75,000, the lat-ter, however, subject to the will of Placer company shareholders. The Cop-Placer company shareholders. The Copper company has also acquired the pumping machinery, capable of handling 1,500 gallons of water per minute, which cost the Placer company something like \$5,000. It is evident that the exact location of the big concentrator will be on the ground embraced in the Placer company's holdings.

ON THE EXCHANGE,

Prices of Stocks Continue Down Forenoon Quotations and Sales.

On the stock exchange this forenoon 14,332 shares were transferred for the sum of \$17,014.37. While business was a little more brisk than yesterday the range of prices showed but little im-

provement.

Daly-Judge was bought at \$10.90.

Daly-West began selling at \$41.50, but declined to \$40.75 bid. Lower Mammoth came into the pit in good order, closing higher; while May Day fell to 19% cents. Sacramento weakened. Wabash opened with the sale of 1,000 shares at 21 cents and advanced an eighth of a cent. California held fast to vesterday's prices and New York to yesterday's prices and New York remained steady.

The closing quotations and sales were

UTAH CAPITAL IS INTERESTED

Look Over Washoe Copper In Development of Mining Ground Near Wickes, Montana.

The Sum of \$100,000 to be Expended In Opening Up Property-New Copper Belt.

(Special to the "News.") Boulder, Mont., June 18 .- J. H. Mc-Cabe and B. T. King of Butte have recorded notices of the locations of about 30 mining claims in the vicinity of Cor. bin and Wickes. It is understood that they are representing a Salt Lake capitalist and will spend at least \$100,000 in development work. The claims assay very high in copper, and for many years it has been known that a large copper beit ended through the range above old Beaver town, but so far pros pectors have been unable to locate the main lead. Mr. McCabe is greatly pleased with mining outlook in that vicinity and predicts great future for that dis trict as there are a number of good sliver leads as well as dopper in that

AT THE WABASH.

Over 5.000 Feet of Development Work Has Been Performed.

Col. N. Treweek, manager of the Wabash mine at Park City, returned from a trip to camp last night very well

pleased with the progress being made with development work there. The main shaft is down to the depth of 600 feet and from this point over 5,000 feet of underground workings have been run, which consists of cross-cuts drifts, upraises, etc. At the present time the forces are employed in pros-pecting and developing this portion of the mine. On the payrolls are 30 men, working in shifts of eight hours each. The colonel states that the explorations on the 600 have disclosed two good veins and he expresses confidence that pay ore will soon be developed in goodly quantities. In the event such anticipations should not materialize, the program will be to continue the shaft to an

dditional 400 feet.
One thing is certain; the present workings have established the vein sys-tem and there is every assurance that the Wabash will develop into a mine of great importance to Park City. In the exploration of the property nearly \$100,000 has been expended,

President of Bingham Con.

President E. L. White of the Bingham onsolidated arrived in the city yester day from Boston, accompanied by his son Lawrence. The visitors will probably spend a couple of weeks in Utah, during which time they will look over the mines and smelter of the big Bing-

WHERE LABOR IS RESTLESS. The Difficulties in Arizona and Other Camps Reviewed.

In summing up conditions as they exist in the camps of Morenci and Clifton Arizona, and other districts where labor

difficulties are being experienced the Mining and Scientific Press, says:

"A week ago the difficulties which had been anticipated between the mine operators and the union miners in Arizona did not bear a very threatening aspect, but this week finds that territory the center of interesting complications, and the outlook in the southeast. ern part of the territory is not at pres-ont reassuring. About Clifton and Mo-renel, neighboring towns in Graham county, it is reported 3,500 miners are out on strike, and their attitude is de-scribed as threatening, so much so that scribed as threatening, so much so that the territorial militia have been ordered to these camps, and the peace officers are doing all in their power to prevent destruction of life or property. When the territorial eight-hour law went into effect June 1 the management of the mines offered nine mours' pay for eight hours' work. This the miners refused, demanding the same wages as had been previously baid for 16 hours. The strikers are said to be mostly Mexicans and Italians, of a tolass difficult to restrain when excited, "At Scarchlight, Nev., trouble has "A car of Nevada-Alpine ore was sold in today's market.

A car of Nevada-Alpine ore was sold in today's market.

Taylor & Brunton receipted for 24 cars of ores today; 16 from Tinte, 2 from Eintle, 2 cars of ores today; 16 from Tinte, 2 from Eingham, 1 from Stockton, 1 from Nevada and 4 from Frisco.

William A. Farish, manager of the Majestic Copper company, arrived from Milford this morning, or in the strikers are said to be mostly Mexicans and Italians, of a class difficult to restrain when excited, "At Scarchlight, Nev., trouble has "Mechanical Engineer J. M. Callow of "St. Louis & Western preferred advanced by the St. Louis & Western preferred advanced by the St. Louis & Western preferred advanced by the steady of receiving the stolen property. occurred and all the mines were closed a few days since, owing to the miner striking at the Quartet mine. The Ne vada legislature also passed an eight-hour law at their last session, but the law was made to affect only under-ground men. When on the 1st of June the law went into effect, the Quartet correany announced that it would require top men to work nine hours, a they were not included in the eight-hour law. Upon receiving notice to this effect, the union called a strike and all men employed by the Quartet company quit, including railroad engineer and mill men, only pump men being al lowed to remain to keep the mine clear of water until the strike is either set tled one way or another. It is under-stood that only three men are affected by the determination of the company, but the other companies in the camp have also closed down, anticipating similar trouble. Arbitration has been ruggested and it is not unlikely that a "At Bandsburg, Cel., the Miners' union made a demand a week ago at the Yellow Aster mine for \$3.50 for miners and \$2 for muckers. This demand was refused by the management, who further stated that it would no longer. refused by the management, who fur-ther stated that it would no longer recognize the union. In consequence the miners struck. The Yellow Aster is the largest and most extensively de-valope! mine in the Randsburg district, and has a large stamp mill. The mine-is perfectly dry, and little or no damage is likely to occur as a result of suspenis likely to occur as a result of suspen-slor of operations. In view of this fact it may be expected that an adjustment of the trouble in that district will not be

BACK TO OLD PRICE.

miners or muckers.

speedily reached. The management maims that the company has been pay-

ng higher wages than in most other California districts, and will entertain no proposition to increase pay of either

Lead Being Settled for at the Rate Of \$3.50 per 100 Pounds.

The selling price of lead is again down to \$3.50 per 100 pounds. The offi-rial announcement of a drop of 25 cents was given out at the offices of the American Smelting and Refining Co. yesterday afternoon. The reason as-signed for the decline is over production. The price is now back to where it was prior to March 10 last.

Some of the larger producers who have contracts which do not expire for some time to come will not be affected by the change.

COLUMBIA'S CONCENTRATOR. Plans for New 60-Ton Plant Have Been Completed.

Manager Frank B. Cook of the Columbia Copper Co., states that the plans for the proposed 60-ton concen-trator for that Bingham proposition are completed. Everything is in readiness to call for estimates and awarding of contracts for the construction.

Manhattan's Rich Copper Ore.

Ed F. Freudenthal, manager of the Manhattan mine at Pioche came up from the south yesterday and brought along some samples of ore from the new copper find on that property, mention of which has been made in the "News," The ore runs over 50 per cent in the bronze metal. in the bronze metal.

MARKET STILL

New York, June 18 .- The favorable effect upon the London market of the reduction in the Bank of England discount rate was reflected on the international group here at the opening. Canadian Paeifie, Atchison, St. Paul, Union Pacific, Wabash preferred and Erie were benefitted a point. There was general pressure to realize following liquidations in United States Steel, Colorado Fuel and Metropolitan Street Railway. The earlier gains were generally with out and some of the important stocks yielded below yesterday's close. The selling of Metropolitan Street railway which carried it down 3%, was due to statements regarding the company's earnings made by its presiden on the witness stand. The rallied a point. Large selling orders appeared in the United States Steel stocks which carried the common down to 28%, its previous low record, and the preferred to 784, compared with a previous low record of 784. The second mortgage bonts lost a point. The yielding tone of the iron and steel markets was offered as an explanation of this selling. Colorado Fuel lost 2%, Tennessee Coal 2 and American Locomotive I. General Electric lost 2%, Hocking Valley 1%. Northwestern, Amalgamated and Westinghouse Electric 1 each. The general market was dull and heavy. rallied a point. Large selling orders a

each. The general market was dull and heavy.

Honds were weak.

The absence of selling pressure steadied the market but there were some railles of consequence in the active division. Colorado Fuel and Consolidated reacted 2. Southern railway declined 1%.

Trading was almost lifeless and the movement either way was slight. Some of the minor stocks broke sharply on small offerings. Metropolitan Securities declined 3.
