

V. L. Halliday, County Clerk; J. B. Keeler, Recorder and Treasurer; A. D. Holdaway, Selectman; Thomas Davis, Surveyor; A. O. Smoot, Jr., Assessor and Collector; George H. Brimhall, Superintendent of Schools; J. R. Twelves, Coroner.

**District Convention.**—At a district Convention held at Provo on Saturday, the following gentlemen were put in nomination.

**Councilman for Legislative Assembly,** J. S. Page.

**Representatives,** W. H. Dusenberry, S. R. Thurman, Wm. Creer, George Webb.

The delegates from Juab County were not prepared to place in nomination a Councilman (that being their apportionment of the district) but would make their selection at a County Convention called for Monday, at Nepht.

#### SUMMIT COUNTY.

The nominations were as follows:

For Representative, John Boyden, of Coalville; for Probate Judge, Alma Eldredge, of Coalville; for Selectman, long term, John Pack, Jr., of Kamas; for Selectman, middle term, Edwin Kimball, of Park City; for Selectman, short term, John Paskett, of Hennesville; for County and Probate Clerk; Thos. Alston, of Hoytville; for County Treasurer, Thos. Ball, Sr., of Coalville; for Sheriff, E. M. Allison, Coalville; for Prosecuting Attorney, O. F. Lyons, of Peoa; for Coroner, A. E. Keeler, of Park City; for Assessor and Collector, A. L. Smith, of Coalville; for County Supt. District Schools, E. H. Rhead, of Coalville; for Surveyor, Robt. Salmon, of Coalville.

#### LOCAL AND OTHER MATTERS.

FROM FRIDAY'S DAILY, JULY 20.

**Death of John B. Kelly.**—Brother John B. Kelly, of the Seventh Ward, the well-known book-binder, who a number of years ago was foreman of the bindery of this office, died shortly before noon to-day. He had been affected for several days with a severe attack of cholera morbus. Deceased was a native of the Isle of Man and came to Utah thirty years ago.

**Ingenious.**—A workingman, a tinsmith, resident of the 11th Ward, is making, and selling from house to house, a novel-made tin funnel. It has several moveable parts, which constitute it a *multum in parvo* for domestic purposes. By interchanging the pieces, it can be used as an ordinary funnel, two sizes of strainer, dipper, cutter, bottler, etc., etc., a very ingenious arrangement of home industry. Encourage it.

**Genuine Sympathy.**—A communication has been received, directed to Belle Harris, from the Young Ladies' Mutual Improvement Society of Mount Pleasant, San Pete County, and is signed by Annie Peel, President, and Tina Morrison, Secretary. The note commends the noble course of the lady to whom it is addressed, for her unwavering adhesion to her convictions of right, and encloses a gift of ten dollars as a mark of their esteem, assuring her at the same time that their prayers ascend on her behalf and their sympathies are with her. The hope is expressed that in her case right may soon triumph and she be liberated from prison, where she is incarcerated for conscience sake.

**Badly Shaken.**—Brother Wm. Legg, aged 82 years, called this morning feeling considerably broken up. He informed us that four days ago when in Sevier Valley, he got off the train at Riverside station. As it commenced to move he grasped the hand rail of the car to get on but was unable to climb. As the train moved along he knew he must throw himself backward to avoid falling under the wheels, so he exerted his strength to free himself and fell over, striking with his back upon a rail and his head on a tie. Besides being hurt in those portions of his system he was badly ruptured. Notwithstanding all this, he was able to call at our office this morning and relate these details.

**Arrival of Iron.**—It will be remembered that, a short time since, the City Fathers decided to purchase material for a portable railroad to be used for the purpose of conveying gravel to various points for the repairing of streets, and thus avoid the great amount of teaming otherwise needed. The necessary iron, with spikes and other construction materials has arrived, with which to make two miles of line. The ties and cars have not yet come

to hand. The portable railroad will greatly facilitate road-repairing operations, and it is pleasing to note the enterprise of the Mayor and Council in improving the public thoroughfares of our growing city. Supervisor Livingston always has his hands full of work of that class.

**Box Elder County Convention.**—The convention was held last Saturday, when the following candidates were nominated to fill the offices which become vacant August 6th:

For Councilor to the Legislative Assembly for Box Elder and Weber Counties, F. S. Richards; for Representative to the Legislature, O. G. Snow; for Probate Judge, P. T. Madsen; for County Clerk and Recorder, A. H. Snow; for Selectman, Carl Jensen; for Assessor and Collector, O. G. Snow; for Prosecuting Attorney, R. H. Jones; for Sheriff, C. C. Loveland; for Coroner, M. L. Ensign; for Justice of the Peace, Jonan Matthias. For full term: Selectman, Wm. Lowe; Treasurer, Wm. Horsley; Surveyor, N. P. Anderson; Superintendent of District Schools, John D. Peters; for Justice of the Peace, John McMaster; for constable, Lorenzo Wright.

**A Valuable Recipe.**—Bowel complaints, common to the heated term, are quite prevalent just now. The following recipe, which we found several years ago in the New York *Journal of Commerce*, will be found of great use in most cases. We have published it several seasons, and a large number of people have tried it. It seldom fails to give the desired relief. We give the remarks of the *Journal of Commerce* as well as the recipe:

"More than 20 years ago, when it was found that prevention of cholera was easier than cure, a prescription was drawn up by eminent doctors, was published in the *Sun*, and it took the name of the *Sun* cholera medicine.

Our contemporary never lent its name to a better article. We have seen it in constant use for nearly two score of years, and found it to be the best remedy for looseness of the bowels ever yet devised.

No one who has this by him, and takes it in time, will ever have the cholera.

We commend it to all our friends. Even when cholera is anticipated it is an excellent remedy for ordinary summer complaints, colic diarrhoea, dysentery, etc.

Take equal parts of tincture of cayenne pepper, tincture of opium, tincture of rhubarb, essence of peppermint and spirits of camphor. Mix well. Dose, 15 to 30 drops in a little cold water, according to age and violence of symptoms; repeat every 15 or 20 minutes until relief is obtained.

FROM SATURDAY'S DAILY, JULY 21.

**Samuel Harrison.**—There is a letter at this office directed to Saml. Harrison. He should call and get it.

**Shot In The Leg.**—Yesterday Jno. Welch was brought in from Bingham and taken to St. Mary's Hospital for treatment for a couple of bullet wounds in his leg, inflicted last Wednesday by Mike Fitzgerald, who made a sudden and unexpected attack upon him, inspired by a grudge of old standing.

**Slowly Failing.**—Col. J. C. Rich, of Paris, Bear Lake Co., Idaho, was in town to-day. We learn from him that the condition of his father, General C. C. Rich, is not much changed from what it has been for some time, although there is a slow and gradual failing, this situation being evident from the time of the first attack of paralysis.

**Scarcity of Water.**—We regret to learn that the Cedar Fort, Utah County, people are very much discouraged over their water supply. Their main ditch (North Canyon) has entirely dried up and the spring at the Fork barely affords enough to supply the town lots. Much of their growing crops, such as lucern, corn and potatoes will be almost a total failure. Many are seeking new homes, and altogether the outlook appears bad for the good folks of Cedar Fort.

**Suicide.**—Yesterday a carpenter named John Welch, who had been working on the new boarding house building being erected near the Cliff House by Walker Brothers, took strychnine for the purpose of ending his earthly career. He had been drinking heavily, and, we are informed, had been discharged from his employment. It is probable that these circumstances had some-

thing to do with producing the mental condition that led to the commission of the rash act. He was conveyed to the Catholic Hospital, where he expired about 7 o'clock in the evening.

**Whittley at Large.**—It will probably be remembered that some time since there was a wholesale escape of prisoners from the Malad Jail. All were, however, captured with the exception of Whittley, the ex-brakeman on the Utah & Northern Railway, who shot and badly wounded Mr. Green, the agent of that road at Eagle Rock.

It appears that Whittley planned and was the leader in the execution of the escape, and there is no doubt that he is in California, and has been heard of in that State.

Mr. Green is gradually recovering, but he is greatly prostrated and emaciated from the effects of the wound, and will probably never regain his full strength.

**Reported Accident.**—Yesterday, the *Ogden Herald* heard of an accident on the U. P. R. R., and says:

"It appears that one of the passengers who arrived from the East, this morning, reported that a man, or his mangled remains, were found on the track at Echo City, in Summit County, Utah. It was said that the unfortunate man's head was severed from the trunk and that his body was otherwise cut up in a terrible manner. Who he was or where he came from no one knows, but it is supposed he was one of the numerous tramps journeying westward, that he had been, like many of his confederates, stealing a ride, that he had fallen from the brake beam on to the rails, that the wheels of the cars had passed over him, and crushed the life out of him."

The *Pilot* says about the same affair:

"The supposition is his foot caught on the track some way, jerking him off the beam, and crushing his head the first thing. The blood and pieces of flesh were still to be seen where the accident occurred by those passing Echo about 10 o'clock in the morning. The remains were gathered up and placed on a board alongside the station-house and covered with papers. The man's name or where he was from could not be learned last night."

**Alleged Brutal Outrage.**—The old gentleman named Oberg (a Danish man) who was the victim of a cruel and cowardly assault a few weeks ago, we are pleased to see is able to be around again, though he is still in a feeble condition, and complains of severe pains in his side. The circumstances attending the outrage are still fresh in the minds of the people of the Third Ward, though they are not generally known, as when the case came up before the police justice a report of the affair failed inadvertently to appear in the *Enquirer*. The affair is of too grave importance to go unpublished, and we herewith give the particulars. The old gentleman's land is situated near a piece owned by Joshua Davis and another piece owned by the latter's son. Davis, senior, had been in the habit of using a portion of his own land for a road to the land of young Davis, and this road was used exclusively by the father and son. According to an arrangement between them, this road a short time since was closed up, and both then traveled over an old and for a long time unused road that crossed Oberg's land, and that led to young Davis' place. Thinking it presumptuous on the part of the Davises to appropriate his land to their private purposes, especially as they had a more direct and shorter route the old way, and over the older Davis' land, Oberg objected to its use as a highway for their especial benefit and closed it up. This incensed the Davises, and one day, about three weeks ago, got into an altercation with Oberg over the matter, at a time when the latter was putting up some hay, and held a hay fork in his hand. It is stated that young Davis seized the fork, threw it aside and knocked Oberg down, and while he was prostrate the older Davis kicked him in the side, took him by the hair, and beat his head on the ground, and then with both thumbs gouged the old gentleman's eyes till the blood oozed out and covered his face. For a few days it was feared that Oberg would be entirely deprived of his sight, and even now it is said the sight of his left eye is completely gone, and the spot where he was kicked is so painful that it is with great difficulty he can walk about.

Justice Booth fined Joshua Davis \$25 for the offense, but the son was discharged, as the evidence was insufficient to connect him with the assault. So light a punishment seems hardly adequate to the magnitude of the offense, though the justice went as far as the city ordinance covering the offense would justify him. The case may yet however be brought before the next grand jury, and it is to be hoped that those who are competent to testify in the case will manfully step forward and relate the facts connected with the outrage, despite threats or intimidation.—*Provo Enquirer*.

FROM MONDAY'S DAILY, JULY 23.

**The Juvenile Thieves.**—The four young boys charged with stealing shoes from Messrs. Solomon Bros. & Gold were tied before Justice Spiers to day, and found guilty. The sentence was that they pay the cost of proceedings, amounting to \$2.55 each.

**Another Burglary.**—On Saturday night a thief entered the house of Mrs. Catharine Hyde, on First East Street and finding about \$50 in the pockets of a boarder, walked away with it. The doors were open to admit fresh air, but they admitted something not so acceptable.

**The Services.**—The funeral services over the remains of Brother John B. Kelly were held in the Seventh Ward Meeting House yesterday morning. Quite a large number of relatives and friends assembled on the occasion. The opening prayer was offered by Elder H. C. Fowler, and the funeral discourse was delivered by President Angus M. Cannon. The benediction was pronounced by Bishop Hickenlooper.

**Canal Break.**—The *Utah Journal* gives the details of a serious wash-out which occurred on a canal near the Deseret Flouring Mills, adjacent to Logan, on Thursday last. A good deal of direct damage was done, but the greater loss will be consequential, arising from the necessity of the shutting off of the water from the Logan and Hyde Park Canal, pending the completion of repairs. It will also necessitate the shutting down of the Deseret and Central Mills, Affleck's Planing Mill, and also the old carding mill. The large irrigating ditch beginning at that point must also remain empty. Thus crops would, in the meantime, suffer, and the business of several industrial concerns be suspended.

**Knocked Down and Robbed.**—On Saturday night a man was passing along Second South street, going eastward. When he reached the Idaho corner he was knocked down, and lay upon the sidewalk insensible for a long time. The blow which rendered him unconscious must have been a heavy one. He bled profusely, causing quite a pool at the spot where he fell. After being knocked down he was robbed of \$28.50, all the money he had on his person.

He suspects some parties with whom he had a difficulty and who had threatened him. The same parties were aware of his having drawn \$70 from a bank in this city on Saturday. They were a short distance ahead of him and appeared to turn the corner to go north a few seconds before he was struck.

**Burglary.**—Some time between 1 and half-past 4 o'clock on Sunday morning, some person burglarized the lodging house of Mr. Greenwald, on Third South Street. Passing up stairs the thief entered a room in which J. Greenwald was sleeping, went through his pockets and carried off seven dollars. He next entered an apartment occupied by Messrs. Rhynstrom and Bamberger, both of whose watches were stolen, valued at \$120 each, besides the gold chains attached. From the first named of the two gentlemen \$50 was also stolen, and from the other, \$23.

The thief, whoever he was, had no difficulty in gaining ingress to the premises, the doors having been left open in consequence of the hot weather.

**A Word of Caution.**—A man by the name of A. T. Wood is the head of a local insurance company called the Midland Fire Insurance Company of Salt Lake City, whose office is over Madsen & Co.'s store, he being the president of the concern. As he is doing a good deal of business with the people, we deem it our duty, as public journalists, to draw the attention of the community to the necessity of investigating

the character of all companies of this kind before investment. In reference to the president of this local company we publish the following clipping:

"A. T. Wood, the Denver agent of the wild cat Reim, was at one time an underground insurance broker in Detroit, where he was arrested by the commissioner, confessed his guilt, and fled to parts unknown. So says the *Indicator*. July, 1883, number, *Coast Review*.

The *Coast Review* is a monthly insurance journal published at San Francisco.

**The Late Helena L. Richards.**—In another part of this issue will be found a notice of the death of Sister Helena L. Richards, wife of Brother Samuel W. Richards. Deceased was the daughter of John and Elizabeth Robinson, born April 27th, 1838, in Douglas, Isle of Man. In her youthful days she was active in aiding the cause of truth, which was then being introduced in that island by President John Taylor, and which was embraced by several members of the family.

In 1855 in company with her sister Jane and other friends, she gathered with the Saints to this country, and in 1856 became the wife of Elder S. W. Richards. She was the mother of twelve children, nine of whom are still living, and were, with two grandchildren, gathered at her bed-side during her last sickness of nearly three weeks. General physical debility from change of life, with organic heart disease was too much for her frail constitutional organization, dropsy ensued and soon put an end to all vitality. She had left this city less than three weeks before her death hoping to improve her health by being with her children in the country, but which proved to be only in time for them to bestow their last care and kindness upon her. She rests in the faith of the Gospel of Christ, and hope of the resurrection of the just.

#### A SERIOUS ACCIDENT.

FREDERICK ELDRIDGE KICKED BY A HORSE.

Yesterday, a very serious accident occurred at the farm of Bro. Frederick B. Eldridge, of the 16th Ward. The place is situated a few miles west of Jordan River. The time for watering the land was yesterday, and Brother Eldridge took his son Frederick, aged fourteen years, with him to attend to it. After the watering was done the lad was leading the horse up to be hitched, preparatory to starting for home, when the animal, which is very gentle, but being tormented with horse flies, started kicking. Freddie was struck in the centre of the forehead, directly above the nose, the cork of the shoe crushing in the skull.

The boy was brought home to the 16th Ward, and Dr. Benedict called to his aid. The doctor removed eight or nine pieces of bone from the surface of the brain. One fragment was so large that it had to be broken before it could be brought out of the aperture.

The lad bore the operation with great fortitude. He did not take chloroform, but, putting his hands down into pockets he braced himself, making remarks to the doctor during the progress of the ordeal. The brave little fellow also told his uncle to tell his mother that he was not very much hurt, being evidently thoughtful about the effect produced on her by the accident. The patient is feeling moderately comfortable, fully as well as could be expected.

**JNO. A. BAILEY AND M. K. FARSON, Land Agents and Attorneys, Salt Lake City.**—Write to them enclosing stamp and they will give information FREE about Land Matters.

#### O THRESHER MEN!

You must put in your orders soon for the *Case Agitators* to get them this year, as the supply is likely to be exhausted early, as it was last year.

The record stands thus: We sold 20 in 1891, 33 in 1892 and we already have 35 orders for this year. Send in your orders or you will be too late.

Don't let any man deceive you by the assertion that he has nearly as good a machine as the *Agitator*. The *Agitator*, as is well known, will out-thresh them all and clean and save every kernel.

**THE JOHN W. LOWELL WAGON Co. d & w if**
