Abate the Nuisance .- There is a city ordinance forbidding people from running dirty water from their kitchens and washtubs into the public water courses along the street sides, Few citizeus seem aware of this, for it is a growing custom and is becoming a nuisance. Where the waters run with some rapidity, as is the case in the higher portions of the city, the foul odor arising from the flithy water is not so noticeable, but where it runs more aluggishly the evil is justly comblained of. The inspector of nuisances now desires to give notice that he will have to proceed against all offenders against the ordinance, but hopes that

JAMES WICKENS, GEORGE J. TAYLOR, Coroner,

Lest the cause of the boat's tipping over might not be exactly clear in the mind of the reader, we will add that it now in the hands of the United States appears to have been caused by young Coult's losing his balance as he turned to salute his friend Leyland in the other boat. Coult's boat being, as al-ready said, a light cance decked over-
