

LOCAL AND OTHER MATTERS.

FROM WEDNESDAY'S DAILY, NOV. 27.

FOR WASHINGTON.—Honorable Wm. H. Hooper and George Q. Cannon left for Washington this morning.

DEPARTED.—Elder W. K. Barton, of Manti, left the city this morning, on a mission to England.

IN THE GALES.—It appears the S. S. Nevada, which has a small company of Saints on board, had to put back to Queenstown on or about the 25th, with damaged machinery. The intelligence came over the wires, but gave no particulars. The people on board are having a very long, tedious and boisterous passage. About nineteen days from Liverpool and only at Queenstown. They will, doubtless, be ultimately landed in safety on this side of the Atlantic.

CALLED.—The following gentlemen of Prof. Marsh's company, called on us today—Messrs. E. S. Lane, C. D. Hill, J. McNaughton, Jr., B. Hoppin, and T. Russell. The company are on a geological trip to this region. They made interesting examinations in Kansas and near Cheyenne. Two of the party in this city expect to visit California, and the rest to return eastward on Friday. The latter will join Professor Marsh, who is at Bridger, and with him pass on to Green River, where a brief stay may be made.

MARRIED.—In this city, on Monday, Nov. 25th, by President D. H. Wells, Mr. William Harrison Culmer and Miss Sarah Jane Butters. We wish the young couple a pleasant voyage together, hand in hand, through life, and may the poet's words receive a verification in their case—

"From that day forth, in peace and joyous bliss
They lived together long without debate;
Nor private jars, nor spite of enemies,
Could shake the safe assurance of their state."

PHRENOLOGY.—We had a visit this morning from Mr. John Mattley, professor of phrenology. He purposes delivering a series of lectures on that subject in this city, the first of which will be given in the Institute on Friday evening, commencing at eight o'clock. No charge will be made for admission. Mr. Mattley is now on his way to California from the east, and lectured at Omaha on his way to this point.

COL. PETER SAXE.—This morning we had a call from this prominent dealer in fine stock, of which he has a large number at Ogden, which he brought along a few days ago direct from the "Blue Grass Region," Kentucky. Within the last day or two he has sold to Mr. William Jennings five fine heifers, to G. D. Watt and son one heifer and to Bishop F. D. Hammond two bulls and one heifer. The Col. returns to Ogden to-day, where he will remain for several days. When there he stays at Mr. Lorin Farr's, where he can be seen or communicated with by parties desirous of purchasing fine stock.

FIRE.—A small frame house in the 15th Ward, on the same lot as Bowring's old tannery, the property of Mr. George Thurgood and occupied by George K. Bowring and family, took fire at six o'clock last evening and was almost totally destroyed. It appears that Mrs. Bowring was pouring some coal oil from one vessel to another, when her little boy lit a match, ignited the oil and set the whole place in a blaze. The little boy alluded to and a little girl were slightly burned. Bro. Bowring was not at home at the time of the occurrence. The family are very poor and what little they did have was destroyed by the fire, they being left destitute of everything except what they stood up in. Here is an opportunity for the benevolently inclined to extend a helping hand to the needy.

THE EUROPEAN MISSION.—Elder John A. Lewis wrote to the *Millennial Star*, from Merthyr, Oct. 30, as follows—

"The following incidents met with in the course of my travels I have noted down and think well to send to you—in one of my visits I went to the house of Elder Henry Thomas in Merthyr. I found his daughter Mary very low in a fever. I learned that she was given up by the Doctor. I said to her father, 'I don't give her up. Anoint her with oil in the name of the Lord.' He did so; and we laid hands upon her head and in the name of the Lord Jesus Christ I pronounced the blessings of life upon her. I told her she would get well and would live to go into the House of the Lord and there receive her blessings for time and for eternity. From the time of laying our hands upon her head she got better. I have seen her several times since and she is as healthy as ever she was.

"My other incident is illustrative of the efficacy of prayer. I felt at the close of a meeting in Merthyr very much impressed to pray for the Saints who are engaged in the pits and iron works. The language of my heart was, 'O Lord, let not the flesh nor the bones of any of them be broken; neither let any of them be killed.'

"The next morning I went to Dowlais to see the Saints. The first house I went to was Sister Ford's. She has two sons in the works. When I went in I observed tears in her eyes. I asked her the cause of her grief. She stated that the engine had by some means caught the trousers of her

eldest son, and had torn them off his body, but he had escaped unhurt. His brother had just been home after another pair. She said, 'I have just come from that little room where I have been thanking God that my son's flesh is not broke nor one bone in his body; that he is not killed. Brother Lewis, your prayer is answered.'

Elder John Keller wrote from Zurich, Switzerland, Oct. 24, as follows—

"My health is good, and I feel grateful to my Heavenly Father for the opportunity afforded me to proclaim the everlasting gospel to this part of a fallen world.

"The Saints here are striving to live their religion. They do their best to sustain the Elders who are sent here, though they are in poor circumstances. The wages of the laboring classes are low, while prices of even necessities are high. This makes it almost impossible for the Saints to save means for their emigration; this is especially the case with those who have families to provide for.

"Brother John Huber is the right man in the right place. Brother Riser and I feel to sustain him in all his movements in rolling on the great gospel work in this land. We are, as you are no doubt aware, quite limited in means to do this, but we have so far labored unitedly with full purpose of heart, and feel determined that nothing shall be lacking in faithfulness on our part.

"Through the blessing of the Lord we find a few in this country willing to listen to our testimony, and benefit themselves thereby by obeying the requirements of the gospel. I have baptized 27 persons and 10 children, have been blessed during my brief labors. I thank the Lord for this. There is a good prospect for the future. I feel already rewarded for coming here, and trust and pray that the Lord will use me to accomplish more good."

FROM FRIDAY'S DAILY, NOV. 29, 1872.

CENTERTOWN.—Wm. Reeves, of Centerville, says:

"The name of that young man who died of small-pox at this place on Sunday last, was Frederick Studer, from the London Conference, England, aged about 17 years. *Millennial Star*, please copy."

INDISPOSED.—It is probable that the talented artist, Miss Annette Ince, will not appear at the Theatre on Monday, as expected, the management having received a telegram from her stating that she is ill and unable to travel. She is at present at San Francisco. We trust she will speedily recover.

RAILROAD CARS IN CACHE.—Mr. Samuel Holt, just in from Logan, informs us that the Utah Northern is so far completed that the cars were run to Cache Valley, for the first time, on Wednesday. The point reached is about four miles north of Mendon. The brethren of Logan and surrounding settlements are united in a determination to have the line completed to that place during the present winter.

[Per Deseret Telegraph.

Fatal Accident in Ogden Canyon.

OGDEN, November 29th.—On Wednesday morning Owen R. and James Dinsdale, sons of Jeffrey Dinsdale of this city, started for Ogden Canyon for wood. In the evening they came down on the running gears of the wagon, both riding on the hind hounds; between the toll gate and factory a cleft pin came out, causing the singletree to strike the rear horse. The team took fright and ran, throwing Owen R. Dinsdale off the wagon. After the team had run about four rods, James also fell off, the hind wheel passing over his right ankle, injuring it severely. As soon as possible James returned to the toll gate and procured the assistance of his uncle, James Dinsdale, and Peter McFarlane, and with them returned to his brother, whom they found in an insensible condition. He was conveyed home as speedily as possible, and the services of Dr. P. L. Anderson secured, and every effort was made to restore him to consciousness, and for a while hopes were entertained that his reason would return, but all the labors of the doctor were ineffectual, and he remained insensible until his death, which occurred between 5 and 6 o'clock this morning. On examining his body no external marks were visible, save several scoriations of the skin on the left hinch, left elbow, and the left side of his head. The cause of his death was found to be an injury of the spinal column.

Per W. U. Telegraph.

Stage Overturned.

OPHIR, Utah, Nov. 28th.—As the stage from Salt Lake to this place was coming down a cut leading into East Canyon, the horses got away from the driver, turning the coach over twice. No body was hurt.

DEPLORABLE ACCIDENT AT RAWLINGS.—James S. Lyons, a young man aged about twenty-three years, while making an attempt to get on the cars of the U.P.R.R., at Rawlings, lost his balance, as the train was in motion. He fell between the cars and his head was crushed under the wheels. The engineer being immediately informed of the unfortunate man, immediately stopped the train, and his mangled remains were taken up and placed in the care of friends who had been his companions on the journey from Omaha. Mr. Lyons was a resident of Council Bluffs, and was on

his way to San Francisco, where he has mother and sisters living. *Ogden Junction* Nov. 27th, 1872.

FUNERAL SERVICES.—The funeral services of Mrs. Julia Horne, wife of Mr. William Burton, and daughter of Mr. Joseph Horne, took place at the Fourteenth Ward Assembly Rooms at 11 o'clock today, a large number of the relatives and friends of the deceased being present on the occasion. Suitable remarks were made by President D. H. Wells and Elder John Taylor. Deceased was daughter-in-law to General R. T. Burton, and was a most amiable young lady.

A NEW SCHOOL HOUSE.—A new school house 36 x 23 feet, commenced in the 3rd Ward of this city last Spring, was recently completed, and is now being used for the purposes for which it was erected, the trustees having opened a night school, free to all who choose to attend. A day school will be started as soon as they can obtain a competent teacher. The building cost about \$1,600, and is out of debt, with the exception of a trifling sum. The inhabitants of the ward generally, "Mormon" and non-Mormon, have responded promptly to the calls made upon them to pay for their new school house. The members of the Female Relief Society have also contributed liberally. The only ones who have shirked their share of responsibility in this connection, are apostates, but as the members of that class are always absentees on the roll call of honor and duty, their conduct, while evoking the contempt of the respectable, has caused no surprise.

The Third Ward is not near so populous as some others, but its residents have shown a commendable energy in the erection of this building for school purposes.

FROM SATURDAY'S DAILY, NOV. 30.

BORN, Nov 27th, to the wife of D. M. McAllister, of this City, a daughter.

THE KATE FLINT AND CORA CONWAY SUITS.—The defendants in these two suits, brought to recover damages for the destruction of certain household goods, &c., filed their answer to the complaints with the clerk of the District Court to-day. Jeter Clinton, one of the respondents, answers by denying the wanton and malicious destruction of the property of the plaintiffs by him, the property having been demolished in execution of a writ of abatement, issued by him to the City Marshal or any of his deputies, and that he had authority to issue the writ, by virtue of his office as Alderman and Justice of the Peace, the plaintiffs having been adjudged guilty of keeping houses of ill fame, such places being, according to the ordinances of Salt Lake City, nuisances and subject to be abated.

Several of the defendants named in the complaints make answer that they took no part in destroying any property belonging to the plaintiffs, and that they were not present at the houses named in the complaint at the time when the property therein was alleged to have been demolished.

Those who admit to having taken part in the demolishing process answer that the property was not destroyed wantonly or maliciously, but in due process of law, the following language occurring in their response:

"That a writ, a copy of which, with the endorsements thereon, is herein attached and made a part of this answer, duly issued by one Jeter Clinton, and directed to the City Marshal or one of his deputies, which was there delivered to William Hyde, as such deputy marshal aforesaid, to be executed, whereby he was commanded to forthwith proceed to and abate said nuisance, by demolishing all things found therein, used for the purpose of keeping and conducting a house of ill-fame, as provided by ordinance of Salt Lake City.

"That the said Jeter Clinton was then and there a Justice of the Peace and an Alderman within and for the city of Salt Lake, in the County of Salt Lake and Territory of Utah, duly elected and qualified and acting as such."

FATAL SHOOTING AT SPRINGVILLE.—We are indebted to Brother William Bramall, of Springville, for particulars of a fatal shooting affair, which took place at that place early on Wednesday morning. It appears that an old grudge existed between Charles Bolen and Nephi Hall. Both parties attended a party on Tuesday night, when the old feud was revived, and it is stated that Hall struck Bolen with a bottle. On the following morning, Wednesday, Hall sent word to Bolen that if he met the latter on the street before night he would shoot him. Bolen, having business in town, went out on horseback, and before going armed himself with a revolver. He had occasion to pass the store of Crandall Bros., where Hall and a number of others were standing. When the latter saw Bolen he cursed and swore at him, and called him a coward, saying, "You have a pistol, but dare not shoot." Bolen then drew his pistol and shot Hall in the right breast, the ball passing through the body and coming out at the back. As soon as he was shot, Hall walked to the rear of Mr. Aaron Johnson's house, with his hands over the wound in his breast. He was taken into the house

from which he was too ill to be removed.

After the shooting Henry Roylance, one of the Springville city marshals, went up to Bolen to arrest him. As Bolen was handing over his pistol to Mr. Roylance the weapon was accidentally discharged, the ball passing through the fleshy part of the latter's thigh, inflicting a severe, but not dangerous wound.

Surgical assistance was immediately procured for Hall, and slight hopes were entertained that he would recover, until last night, when he breathed his last. He is quite a young man and his parents, who reside in Springville, are highly respectable, being among the best citizens of the place.

FROM MONDAY'S DAILY, DEC. 2.

MESSAGES at Deseret Tel office, for Wm. Fungier Mr. Lamb, and W. M. Wright.

OGDEN.—The following are from the Junction of Saturday:

"The C. P. passenger train bound westward, yesterday morning, was thrown off the track near Monument. The cars were dragged along for a distance of half a mile, when they became uncoupled, and three carriages were completely wrecked, by being thrown off an embankment. Many passengers were on the train, but no injury was suffered by any one in life or limbs. The Eastern bound train a consequence of the accident was delayed seven hours.

"Peter Callahan, who lives near Laramie, was robbed on the U. P. train of \$800, yesterday. He was on his way to Idaho. No clue has been given by which the robber can be identified. A class of professional thieves travel every day on our railroads and scarcely a day passes without information being received of some victim to the rogues.

"Mr. Henry Hughes left Ogden this morning for Mendon, Cache Co., with about 100 full blooded Cotswood Sheep, being a part of the recent importation of Col. Saxe. The Colonel has recently sold 20 sheep and 17 head of horned stock in this neighborhood."

THE UTE DELEGATION.—The members of the Ute delegation, who left here for Washington a few weeks ago, with Agents Dodge and Critchlow, have recently returned. Tabby-u-ner, one of the delegates, in conversing with Major Huntington, since his return, told about his interview with President Grant. The latter expressed his pleasure at a visit from his children, the Utes, telling them that he had already been visited by the Sioux, Comanches, Cheyennes, and Arapahoes, all of whom wanted guns, pistols and ammunition. "But," said he to the Utes "What do you want?" Tabby-u-ner, who seems to have been the spokesman of the party, answered, "I have come to see you, and I want to know if you are going to cut my throat for having two wives?" The President laughingly replied, "No, no, no!" Tabby-u-ner expresses disappointment at the result of his trip to Washington. He says the delegation had no interpreter along, and were consequently unable to properly explain to the Great Father the object of their visit.

On their return trip the Utes made friends with the Sioux—the first time that amicable relations have existed between the two tribes for a good many years.

ACCIDENTALLY SHOT.—A man named Hutchinson, who lives on the bench north of the city wall, Twentieth Ward, accidentally shot himself through the left hand on Saturday night. When the accident occurred he had been trying to discharge a small derringer pistol in the air, but the weapon would not go off. He was about to return it to his pocket when it discharged, the ball passing through the palm of the left hand, but breaking no bones.

MORTUARY.—Sexton's report for November—Males 26, females 22, of these adults 23, children 25. Causes of death as reported—

Teething and bowel complaint, 10; lung disease, 7; fevers, 5; child-bed, 3; suicide, 2; killed accidentally, 2; old age, 2; disease, 2; tumors, 2; measles, 1; convulsions, 2; lead poisoning, 1; diseased glottis, 1; died at birth, 1; diphtheria, 1; shot, 1; not reported, 4. Total interments, 48.

JOSEPH E. TAYLOR, Sexton.

PERSONAL.—We had a call this morning from Wm. S. Byrne, Esq., who is here in the business interests of the well known firm of Wand, Kane, & Co., importers and wholesale dealers in wines and liquors, Front Street, San Francisco. Mr. Byrne arrived in town on Saturday, is staying at the Great Western Hotel, and will remain in the city till the latter part of the present week.

LONDON, 2.—The steamship *Dalmatia*, from Liverpool for the Mediterranean, has been wrecked and 35 of the passengers and crew were lost.
