THE WISDOM OF LIFE.

Would you lead a happy life,
Free from melancholy,
Shunning care and mental strife,
And plunges of blind folly—
I will tell you how to live
Happily and truly,
Without sweet honey in your hive,
Like bees busily.

Like the bee be out and work
When the sun is shining,
Never be a lazy lark,
Whimpering and whining.
If you scour the fields, you'll find
Thyme, or mint, or clover;
Something for a willing mind
God will ne'll discover.

When the sky is grim and gray,
Though the clouds rain fountains,
March, and molehills on your way
Don't mistake for mountains.
Be a great heart your stand,
Make no fearful comment;
But face it with a cheerful hand,
'Tis vanished in a moment!

What the people may say say
Never mind a rattle;
Spin your quiet yarn, while they
Waste their wind in battle.
Lie that float on wintery wings
With windy haste will perish;
But the seed of truthful things
Time's fruitful womb will cherish.

Wear your heart not on your sleeve;
But on just occasion
Let men know what you believe
With breezy ventilation;
Prove the good and make them thine,
With warm embrace and ample;
But never cast your pearls to swine,
Who turn and rend and trample.

Make a penny where you can,
'Tis useful as a tool is;
But who says money makes the man,
A meager-witted fool is.
Rich is he whose genial breast,
With liberal salutation,
Hath welcomed all that's bright and best
Throughout the wide creation.

PER WESTERN UNION TELEGRAPH LINE.

Last Night's Dispatches.

CONGRESSIONAL.

SENATE.

WASHINGTON, 27.—Sargent introduced a bill to encourage and promote telegraphic communication between Asia and the Pacific Coast, which was referred to the committee on commerce.

Booth presented a memorial of the California Legislature, in favor of the adoption of suitable measures to protect the valley lands and harbors of that State from injury by the discharge of the detritus from the hydraulic mines; referred to the committee on mines and mining. Adjourned.

HOUSE.

WASHINGTON, 27.—The items for the Post Office Department brought up the question of fast mails, Foster, of Ohio, charging the committee with going back to the old stage coach system.

Randall declared that the recommendations of the committee were fully approved by the Postmaster General, and that the mail service was not to be in the slightest degree diminished.

The amendment was adopted, raising the salary of the Commissioner of Agriculture to $3,000, and more closely defining his duties.

The committee then reported the bill to the House. Adjourned.

EASTERN.

Republican Convention.

LITTLE ROCK, 27.—The republican State convention, held to-day, was organized by the election of the following—Joseph Brooks, president; G. H. Johnson, colored, G. A. Grace, W. B. Barton, vice presidents; H. M. Cooper, R. A. Dawson, J. Shields, J. P. Jones, colored, secretaries. Dawson and Jones declined to serve, and Ed. Levy and J. H. Smith, colored, were substituted. Mr. Brooks had been taken very suddenly and violently ill, and it was impossible for him to be present. On motion of Senator Dorsey General Upham was then declared permanent chairman. A series of resolutions were adopted, the last of which declares the Hon. O. P. Morton the choice of the republicans of Arkansas for President, and instructs the delegates to vote for him alone. After a debate the resolutions were adopted, and the convention adjourned.

Fatal Stabbing Case.

NEW YORK, 27.—George Knight stabbed James Bennet, fatally, this evening, in Stanton St.; both were shoemakers. The murderer was arrested.

John Borden fatally stabbed Arthur Chesbro and Lawrence Larkin, to-night, in a Pearl St. liquor store; Borden was arrested. The parties are all sailors.

Speed of California Horses in 56.

Tested — Drowned — Vanderbilt Behind Time.

The *Sun* has the following:

"Very marvelous tales have been told of the endurance of the native horses of California, but their speed and bottom have not often been put on record as sportsmen's phrase has it. Not long ago two well known sporting men of this city made a bet of $50,000 on time, against $25,000 on horses, against their ability to maintain a speed of twenty-five miles an hour, and by thirty-six relays to run over the country road from New York to Buffalo and back, say 900 miles, in thirty-six hours; the thirty-six horses selected arrived in this city a week ago, having borne the fatigue of ten days in the cars so well that their riders say they could have been put to the trial within two days. They were sent to a pasture in New Jersey, and the grand trial is soon to be made. What is most remarkable in this match is the circumstance that the animals are to carry a fifty pound saddle, the slope, and jockeys who were not selected on account of their light weight; in fact, it is a temporary revival of the pony express."

Samuel Hirsch, a wealthy Hebrew lawyer, was drowned yesterday; it is reported that he committed suicide.

Vanderbilt is much better to-day. Yesterday he smoked a cigar, talked cheerfully, and slept well the night before, and his pain is much alleviated. His disease is complicated, but he is out of immediate danger.

There were high tides to-day at Coney Island and many bathing [illegible]

Something About Wilkes Booth.

The Washington correspondent of the Philadelphia Press says an interesting incident, which has never been printed, has just transpired. On the day when Lincoln was inaugurated the second time, in 1865, and just at the east portico, a man, who was recognized by several persons to be John Wilkes Booth, pushed hurriedly through the passage leading from the Senate Chamber to the Rotunda, and in a excited and determined manner broke through the line of policemen which kept the crowd back from the procession, and made a desperate effort to reach the east-side door of the Capitol. He was discovered by some of the Capitol police, who stopped the excited stranger and, after a severe struggle, succeeded in forcing him back in the crowd. Booth had already been seen by at least two persons, who knew him, to pass hurriedly from the direction of the Senate chamber toward the Rotunda, and some idea of his determination to reach the inaugural may be formed from the fact that he broke away from the man who first seized him, and but for the closing of a side door he would probably have accomplished his purpose, whatever it was. Those who stopped Booth is named Westfall; he was made a commissioner of public buildings and grounds, and was recently discharged by the House.

New York Sheriff in Gas, etc.

The contract with a certain Gas Company for lighting the streets, expires May 1st, but the new company with which the contract was made, cannot get to work for two months, hence Broadway and other streets will possibly be dark during that time. It is thought, however, that the old company will continue until the new contractors are ready.

Among the pall bearers for Barney Williams, at his funeral to-day, are John G. Fremont, Judge Brady, Lester Wallack and John Brougham. The services will be celebrated at St. Stephen's Catholic Church.

Another Thief in Office.

SANDUSKY, O., 27.—Postmaster Van Tine, of this city, charged with embezzlement and robbing the mails, was taken to Cleveland yesterday, and examined before United States commissioner White, who bound him over to the October term of the United States Court, in the sum of $5,000; the bail was furnished by Van Tine and his brother.

The Parton Marriage Bill Vetoed.

BOSTON, 27.—Governor Rice has vetoed the bill to legalize the marriage of James Parton, on the ground that the act is not within the constitutional power of the legislature.

Shipping Corn to New York.

KANSAS CITY, Mo., 27.—Several hundred cars have been sent west by the New York Central Railroad to transport corn to New York; the lowest rates ever known have been given to shippers—10 cents to St. Louis, 17 cents to Chicago and 42 to New York.

Testimony about Government Asylum.

WASHINGTON, 27.—The character of the testimony now given before the committee on expenditures in the Interior Department, relative to the government insane asylum, is entirely different from that heretofore taken. Dr. Morrell, first assistant surgeon of the asylum, testified to-day that he never lifted his hand against a patient and never knew of an attendant who did so that was not discharged, except it was clearly a case of self-defense. Dr. F. M. Hamlin testified that he never struck an insane woman or other person who was under his charge. There are 750 patients in the asylum, and as a general rule there is one attendant for every 10 patients. It is a leading feature of mental maladies to complain of real or imaginary grievances. He had encouraged patients to complain of anything they did not like, and in a vast majority of cases of complaints he found that the grievances were entirely imaginary. Sick patients were visited according to their necessities and according to the gravity of their cases.

The Fitch Jewels Bill—Sargent's Telegraph Bill.

The House committee of ways and means take the ground that as the bill relating to the Fitch jewels relates to the revenue, it must originate in the House, they will, therefore, prepare a new bill; no opposition to the measure is expressed in the committee.

The bill introduced by Sargent, to-day, to encourage and promote telegraphic communications between the United States and Asia, authorizes the American and East Indian Telegraphic Company of New York, to lay, land and operate, cables from the Pacific Coast, within the jurisdiction of the U. S., for a period of twenty years, provided the company shall commence active operations in two years, and shall have at least one cable in operation from this continent to an Asiatic colony, within four years from the enactment of this bill. The Government to have priority in the use of these cables. The right to alter, amend or repeal the act is reserved to Congress, and the rest of the bill authorizes the Secretary of the Navy to detail one or more steam vessels to assist in the survey and soundings of the laying of cables, transportation of materials, and generally to afford assistance calculated to promote the success of the enterprise.

WESTERN.

A Forger Arrested.

SAN FRANCISCO, 27.—Charles H. Barnes has been in custody about three weeks awaiting the arrival of an officer from the State of New York; this morning he was delivered to John S. Smartwood, under sheriff of Schuyler County, N. Y., who presented a requisition from the Governor of New York. He is wanted in Elmyra on a charge of forgery. He will start overland tomorrow morning.

FOREIGN.

Church and State.

ROME, 27.—The representatives of some of the great powers have been recently in conference with cardinals Antonelli and Caruana, with a view of negotiating the best means of bringing to an end the conflicts between the various states and the church. The cardinals unanimously declared that peace was impossible unless the spiritual independence of the church was acknowledged. The alliance and agreement between church and state was regulated by the concordat without either party being made subordinate.

GREAT BRITAIN.

Debate in the Commons, &c.

LONDON, 27.—In the Commons, to-day, Disraeli having refused to interpose any delay in advising the Queen to issue the Royal Title proclamation, an adjournment was moved. Fawcett opened the debate, which became very acrimonious, the opposite parties indulging in recrimination. The Marquis of Hartington declined to assist in bringing on Fawcett's motion, because he considered it practically useless. Finally the motion for adjournment was withdrawn and the matter was dropped.

The Bank of England has received a telegram from Alexandria saying it is reported that the Khedive has decided to accept the French Syndicate plan for the unification of the bonded and floating debt of Egypt.

GREENOCK, 27.—The ship *Challenge*, from Pensacola, arrived to day, and landed the crew of the Dutch ship *Aegidia and Pauline*. They were picked up March 21st, greatly exhausted.
