REPORT OF THE SALT LAKE BOARD

Secretary Hudson Presents a Convincing Array of Figures.

BIG GAIN OVER LAST YEAR.

This Morning's Call Developed a Slight Decline in Mining Stocks—Ajax Continues Strong.

TODAY'S METALS:

SILVER 61¼
LEAD, $4.15
CASTING COPPER, 10½c a lb

Charles R. Hudson, secretary of the Salt Lake Stock Exchange, submitted to the Institution this morning his report for the month ending April 30th. It showed that the sales had amounted to 926,525 shares for $777,201.56, as compared with 131,945 shares for $90,709.50 during the month of April, 1898, making the gain in the volume of business 638,580 shares for $703,118.46. The financial report was as follows:

Balance on hand April 1st..... $2,648.97
Received for listing..... 29.00
Membership..... 260.00
For dues [illegible]..... 259.50
Total..... $3,962.97

Disbursements—
Furniture and fixtures...$418.38
Expenses..... 227.74 646.12

Balance..... $3,316.85

At a meeting of the governing board held directly after call, there being present Messrs. Jackson, Tibbals, Peery, Hudson, Eggen and Wells, the constitution and by-laws of the new incorporation were presented and unanimously adopted. It was also decided that the basis of margins on future deliveries of stocks, be the highest price the stock sold for on the day report of that day. The transfer fee on the seat of R. C. Chambers to W. J. Montgomery was sanctioned, since the purchase was made prior to the adoption of the new by-laws.

BUSINESS FAIRLY ACTIVE.

Ajax Strong, but Others Show a Decline—Transfers of Stocks.

Business was fairly active on the Salt Lake Exchange today, the sales amounting to 38,350 shares, which sold for the sum of $39,247.81. The call developed a slight downward tendency, but during the session there was no great[illegible] to injure the general condition of the market.

Ajax was perhaps the strongest stock on the board, this selling up to $1.53 and closing with a ready bid of $1.52½. Bullion-Beck sold as high as $1.35, Daisy fell to 21¼, while Dexter sold close to $2.60. Deyser-Marion at 7¼, and Northern Light at 3¼ were also in demand. Daly stood firm and went at $1.48, and Ingot made good advances, the stock selling from 21¾ to 23.

On the unlisted side there was good business in International at 5¾, Little Pittsburg at 5¾, and North Swansea at 11, and Yalow sold at 6.85 and 6.90. Joe Bowers Extension at 15¾, and Rowers Extension made transfers at 9 cents.

The closing figures were as follows:

MARKET REPORTS

NEW YORK MARKETS.

New York, May 2.—Transactions in the sterling dealings favored bull sentiment, but the volume of business was unusually narrow. The iron and steel stocks showed the most strength while the coal shares and many of the industrials eased off. Sugar lost 3½.

There followed a general sharp upward movement, including both some of the shares which had been ingnored earlier except the best gains, particularly Consolidated Tobacco, Atchison, Mining and Brooklyn Transit. The standing was followed somewhat by reaction, but the general market soon ran off again on realizations.

Railway mortgages were in fair demand and slightly higher.

SUGAR.

New York, May 2.—Sugar, raw, strong; fair refining, 4 3-16 @ 4¼; centrifugal, 96 test, 4 5-16; molasses sugar, 3¾.

Refined, firm; crushed, 5¾; powdered, 5¾; granulated, 5¼.

MONEY.

New York, May 2.—Money on call nominally 4 per cent.

Prime mercantile paper, 5½@6½ per cent.

Sterling exchange weak; actual business in bankers' bills at 4.87½@4.87¾ for demand and at 4.84½@4.84¾ for 60 days; posted rates, 4.88@4.88½; commercial bills, 4.84½@4.85.

Silver certificates, 63@64.

Bar silver, 61¼.

Mexican dollars, 48¼.

Government bonds irregular; 2s reg., 2s reg. & coupon, 106¾; new 4s reg. & coupon, 128¾; old 4s reg. 113¾; 4s coupon, 113¾; 5s reg. & coupon, 113¾.

KANSAS CITY LIVE STOCK.

Kansas City, May 2.—Cattle—Receipts, 8,500. Market steady. Native steers, $4.90@5.50; Texas steers, $3.40@4.60; Texas cows, $3.00@3.75; native cows and heifers, $3.75@4.70; stockers and feeders, $3.10@4.40; bulls, $2.75@3.90.

Hogs—Receipts, 15,000. Market firm. Top, $4.20@4.22½; bulk of sales, $4.15@4.20.

Sheep—Receipts, 1,000. Market firm. Lambs, $4.25@5.75; muttons, $3.50@4.90.

OMAHA LIVE STOCK.

Omaha, May 2.—Cattle—Receipts, 2,500. Market active, slightly lower. Native beef steers, $4.30 @ 5.30; western steers, $3.80 @ 4.70; Texas steers, $3.50 @ 4.50; cows and heifers, $3.00 @ 4.50; canners, $2.50 @ 3.40; stockers and feeders, $3.80 @ 4.60; calves, $4.00 @ 6.75; bulls and stags, $3.00 @ 4.50.

Hogs—Receipts, 1,500. Market steady to easier. Heavy, $4.05 @ 4.10; mixed, $4.05 @ 4.10; light, $4.05 @ 4.15; pigs, $3.25 @ 4.00; bulk of sales, $4.05 @ 4.07½.

Sheep—Receipts, 3,100. Market strong to 10c higher. Yearlings, $4.75 @ 5.25; western muttons, $4.40 @ 5.00; stock sheep, $3.00 @ 4.00; lambs, $4.50 @ $5.75.

CHICAGO MARKETS.

LIVE STOCK.

Chicago, May 2.—Hogs—Receipts, 25,000; commenced 5@10c off; over 1,000. Market opened sharply; weakened later. Mixed and butchers, $4.00@4.30; good to prime heavy, $4.20@4.30; heavy, $4.15@4.30; light, $3.95@4.25.

Cattle—Receipts, 15,500. Market steady. Shipping steers, $4.25@5.40; stockers and feeders, $3.00@4.75; cows, $2.00@4.15; heifers, $2.60@4.90; Texas steers, $3.00@4.75; stockers and feeders, $3.00@4.50.

Sheep—Receipts, 15,000. Market, sheep strong; lambs, steady; sheep, $4.25@5.15; lambs, $4.60@6.00.

GRAIN.

Chicago, May 2.—July wheat opened at 72¾, advanced to 73¾, eased off to 73, then advanced to 73¾.

CLOSE.

Wheat—May, 71½@¾; July, 72¾@73; Sept., 72¾@¾.

TREATMENT OF MERCUR TAILINGS

Work on the Big Dump Begins Tomorrow.

WILL AVERAGE $5 A TON.

Roasters for the Sunshine—Galena King's Rich Ore Body—Strike of Coking Coal.

Commencing tomorrow the Mercur company will turn its batteries loose on accumulated tailings, the dump being of seven years' growth and containing between two and three hundred thousand tons. These tailings will yield on average of $5 per ☞, and will be put through the company's old works, which have been properly fitted up for the treatment of same, and which in the present state will be subjected. Fred Dern, understudy to Paymaster George Dern, came in from the camp last night prepared to take charge of the work, but returned to Salt Lake today, his services not being required. He says a boom has been inaugurated to raise the tailings to the high water mark, the engine now being set up today, and tomorrow morning it is supposed to set things moving. Superintendent Bell and the rest of the men known to contain, which means at least a cool half million not going to the company.

Pumps for the Dalton & Lark.

The Dalton & Lark at Bingham is being supplied with additional pumps for drilling purposes, the work being under the direction of C. H. Whitmore and associates, who propose thoroughly examining under ground workings in a week or so. There are lights left on the stock and are desirous of exploiting the mine before closing up the deal now pending.

STRIKE OF COKING COAL.

Important Discovery in the Heart of Rich Iron Deposits.

Wm. A. Carey, of Cedar City, has just paid an important visit to Salt Lake. He informed the "News" that he had recently made a big strike of coal that can not only be used for household purposes, but can be coked, something that has been a desideratum for years with the Utah, where such immense iron deposits lie undeveloped, and, therefore, up to the present time, absolutely of no use. Mr. Thomas Taylor has held on to his claims for over seventeen years in the belief that coking coal would be found; that a railroad would pass through or close near Cedar City; and that, ultimately, there would be rolling mills, etc., turning out steel rails, boiler plates and all kinds of iron, would be established in the southern country.

Some thirteen or fourteen years ago the writer traveled in the southern country with President John Taylor, and quite a number of industrial projects were discussed. Mr. Carey, of money to develop and utilize the immense deposits of iron near Cedar City and Iron Springs, but the coal could not then found would not coke; therefore the whole project then in mind fell through.

"The coal mines I speak of," said Mr. Carey, "have recently been examined by Mr. Hunting's experts. Mr. Hunting made their report, and knew whereof they spoke." Mr. Carey said he had been there on business for a day or two. He has now returned south and promise to be heard of before long.

ROASTERS FOR THE SUNSHINE.

New Owners Decidedly This Improvement—Rule For the Rulers.

It is said that the Sunshine and Omaha are now practically owned by the same parties, and that the owners are about to erect the former with a capacity of from 200 to 250 tons, based upon as the only successful way to handle the ores, which are largely sulphides, and which will not yield fully through the method of treatment. That Mercur ores yield more readily to this process than those of Bingham, Park City and Tintic, has been fully demonstrated at the Golden Gate, where roasters have effected an additional saving of from 10 to 15 per cent, and which have arrived at by the new owners of the Sunshine.

The Malvern, contiguous to the Sunshine is being vigorously developed, and a fine body of ore is now in sight on the 300 foot level, this property has been harnessed, and the miners are driving on the vein from the bottom of the incline, which is 275 feet deep. Reports received by the management last night from Superintendent Ford are most encouraging, and such proves in fact, as to lead to the conclusion to at once equip the mine with a steam hoisting plant, this to be followed later on by the erection of a mill.

Galena King's Rich Ore Body.

The Galena King of Stockton is exhibiting some excellent specimens of high grade silver-lead ore in the vicinity of Bruser Lowe on Second South street. These samples are said to be exactly similar to the ore occurring in the mine, the same being sufficiently rich to net the company $40 to $50 a ton. Since the recent development has disclosed a big body of this mineral and the management assures the "News" that ground will be broken for a mill. The Galena King has been a producer for a number of years, its former owners having realized many tons of half a million from shipments made.

COPPER COMBINATION.

New Company Which Combines Controls the Highland Boy.

In the following article the Engineering and Mining Journal probably furnishes a clue to the reason why the Consolidated Mercur Highland Boy mine at Bingham, Mr. Albert C. Burrage, the reported new president of the

Infrequent and Improper Shampooing

are responsible for dry, scanty and[illegible] hair. Many people have a prejudice against it, but it would be beautiful were it not the[illegible] lack of care given to the scalp. Its luxuriant growth should be encouraged once a week with some non-irritating and[illegible] soap.

7 Sutherland Sisters' Scalp Cleaner

does not rot and bleach the hair, like[illegible] soaps, and is the only cleaner with the "Hair Grower." They contain nothing but what is good for the hair and scalp.

SOLD BY DRUGGISTS.

Money Back Prices.

Davis Sewing Machine Co.

Highland Boy, being one of the incorporators of the company named:

The Amalgamated Copper company, with a capital of $75,000,000, filed articles of incorporation at Trenton, N. J., April 27th. The company is organized to mine, smelt and sell copper ore and other metals, and to deal in alloys of the metals. It can also buy and sell, build and work plants, and acquire patents. The first board of trustees is composed of James J. Hill, three persons now chosen: Henry H. Rogers, William G. Rockefeller, James Stillman, Frederick F. Ghoate, James Stillman, Howard P. Plumer, Robert Bacon, and Albert C. Burrage. At the first regular meeting of the directors, the following officers were elected: President, Marshall Field; vice president, Henry H. Rogers; secretary and treasurer, William G. Rockefeller; executive committee, James J. Hill, Henry H. Rogers, William G. Rockefeller, and Albert C. Burrage.

This is evidently the organization which is to build and operate the copper properties lately acquired by the Standard oil people. These include the Boston & Montana, Butte & Boston, the Parrot and the Anaconda in Montana, the Arcadian and the Ivy Royale in the Lake district, Nevada. It is understood also that the combination includes the Washoe copper properties at Anaconda, Montana, the Ely and Nevada Consolidated in Nevada, and the Calumet & Hecla. These have not been heretofore mentioned in this connection.

RICH STRIKE NEAR LOGAN.

Copper Carbonate Discovered, Showing Gold and Silver Values.

Special Correspondence.

Logan, May 2.—Henry Hamlet, a Paris valley resident, whose home about a year ago and located a claim in Green canyon, which he called the Mammoth, some eleven miles from this city, after assay and reported a new strike in the timber upon which he has been at work for the past month. Mr. Hamlet has now quite a lot of the ore down with him, it is a copper carbonate and is said by experts to assay from $40 to $60 per ton, a very satisfactory percentage of copper, gold and silver. It is very easily worked, being very free milling. The mine is now in the mountain 80 feet, and the new strike has not been uncovered more than 20 feet, so that the extent of its extent can be formed. Mr. Hamlets returns tomorrow to resume work.

Bay State Incorporated.

The Bay State Gold Mining company with a capitalization of $500,000 and shares of the par value of $1 each, has filed articles of incorporation with the secretary of state. The incorporators are: E. F. Hatch, F. F. Riley, Thomas H. Wilde, Mercur; Frank H. Mason, Martin Hawke, Spring Lake; Samuel Hawke, Alice C. Gee, Fred. Arch A. Foster, Charles M. Martin and Elwood B. Gaddy, of Salt Lake. The purposes named in the articles are to mine and operate mines in the Ophir mining district, Tooele county, and consists of the following claims: The Minnesota, the Gentleman, the Maude W., The Riley, The Silver Reef and The Unexpected. Charles H. Kloss is secretary. Fred. Arch A. Foster, vice president; Elwood B. Gaddy, secretary, and Frank H. Mason, treasurer. The company's head office is in Salt Lake.

MINES AND MINING MEN.

A strike is reported in the Tom Onesolidated at Tintic.

The East Rockers mine has just been surveyed for patent.

The Hercules on Lion hill is said to be sacking high-grade ore.

It is reported that the deal for the Consolidated mine at Bingham has been declared off.

Local parties have bonded the Copperopolis group in the Star district, Tooele county.

In all probability the mines will in the Tintic district will resume operations soon.

Reports from Stockton indicate that the ore in the Galena Consolidated is gradually improving in size.

F. H. Wilson will go out to Tintic tomorrow for the purpose of inspecting the Bonzo Extension and other properties.

Frank Dalton, who came in from Marysvale last night, reports a gratifying condition of affairs in the Horse Heaven country.

Col. Dower will make another trip to Tintic in a day or two, for the purpose of locating a mine for work on the Ruby Hill and letting a contract.

Arthur Murphy, acting for himself and associates in the Copper Basin group, has sold it here purchased the old Calico smelter at Milford.

W. C. Barnes yesterday bid in the Wintermute mine at Bingham for $15,425, this being the last act in the company's foreclosure proceedings.

Albert Burch, formerly of Salt Lake, is superintendent of the Bunker Hill mine at Wood's Holl, where striking miners are now creating so much disturbance.

The Rex State Mining company, just incorporated, has purchased J. F. Bliss's interest in the Minnewaska group of claims at the mouth of Dry canyon, in Ophir district, for the sum of $5,000.

The Cuba Mining company has stock of Edwin L. Sprague, president; Edward Sprague, vice president; Edward Sprague, secretary; Edward Sprague, and W. H. Andrew, the president. Those with George W. Crocker and Duncan McBride make up the directors.

The Copper Chief Consolidated Mining company has filed articles of incorporation. It has a capital stock of 1,000,000 shares of 1 cents each and owns claims in the Ericsson district, Tooele county. J. E. Booth is president; W. H. Simmons, vice president; Ralph E. Bond, secretary and treasurer, and Richard Chandler, Jr., and E. W. Gamer the other directors and incorporators.

CLOSING OF THE LIBRARY.

Public Will Not be Able to Get Books for One Week.

From May 15th until June 1st, the public library will be closed. No books will be issued during that time and all books now out are expected to be returned as soon as possible. The reason for the closing of the library is that an inventory must be taken and the arrangement of books made for the annual report of the librarian. At the regular monthly meeting of the trustees yesterday, this move was decided upon. Librarian Chapman was instructed to recommend to the board the name of some competent person to fill the vacancy caused by the resignation of Mrs. E. W. Clark, now dead.

City Treasurer Morris reported a balance of $1,616.52 for April 1st, and during the fore of sales and from collected amounting to $22.36 for last month were reported also. Warrants calling amounting to $733.03 were ordered paid.

The librarian's report showed that 3,000 books had been bought, 1,000 had been donated and twenty-three had been bound. One hundred and fifty-two borrowers' cards were given out, making 3,889 in use at present.

THE NEW CITY DIRECTORY.

Issued Today With More Than a Thousand Pages.

The R. L. Polk Directory company, W. P. Cooper, local manager, issued their 1899 directory of Salt Lake City today. The book contains the usual number of interesting facts relating to the city limits. When we make our annual appearance in this publication we go far beyond the corporate limits and take in all the territory adjacent thereto, from Ogden on the north to Murray, east to Fort Douglas and west to Brighton and beyond. It will be noticed that this year we have ten hundred or names which cannot be located in the United States census, for the reason that they do not live within the city limits. This column contains 28,000 names and we estimate the population of Salt Lake City today to be 70,000.

The publishers say that they will make similar additions to patrons as speedily as possible.

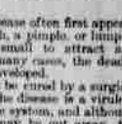
CANCER IS DEADLY!

Results Fatally in Nine Cases Out of Ten—A Cure Found at Last.

This fearful disease often first appears as a mere scratch, a pimple, or lump in the breast, too small to attract any notice, until in many cases, the deadly disease is fully developed.

Cancer can not be cured by a surgical operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer—known as the Cancer—may be cut away, the poison remains in the blood, and promptly breaks out afresh, with renewed violence.

The wonderful success of S. S. S. in curing obstinate, deep-seated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been found for deadly Cancer. Evidence has accumulated which is incontrovertible, of which the following is a specimen:



MRS. S. M. IVES.

"Cancer is hereditary in our family, my father, a sister and my self having died from this dreadful disease. My feelings may be imagined when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed to set the skill of the doctors, for their treatment did no good whatever, the Cancer growing worse all the while. Numerous remedies were used for it, but the Cancer grew deeply seated, until it seemed that I was destined to follow the others of the family, for I knew how deadly Cancer is, especially when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison. I continued its use until I had taken eighteen bottles, when I was cured sound and well, and have had no symptoms of the dreadful affection, though many years have elapsed. S. S. S. is the only cure for Cancer.—Mrs. S. M. Ives, Winston, N. C.

Our book on Cancer, containing other testimonials and valuable information, will be sent free to any address by the Swift Specific Company, Atlanta, Georgia.

THE POPULAR MAN

in ladies' society is always the man that is faultlessly dressed. Good clothes pave the way to prosperity and happiness, and to be perfect in fit and style they must be cut to your order as it is right, with all the outline ladies' fancy touches. We will make you a suit that must fashionable cut, out of perfect fit, at a reasonable price.
