THE SITUATION AT FOURMIES.

Laborers Have Come to Belgium for Arms and Ammunition.

FOURMIES, May 4.—The situation here today is grave, and the greatest excitement prevails throughout the town and vicinity. The riotous and the feeling can be best judged from the fact that many leaders of the popular movement, the best known representative of the labor party, have started for Belgium for arms and dynamite for use against the troops here. A report has reached here that a quantity of dynamite, destined for the people of this town, was seized while being smuggled across the frontier from Belgium. Cavalry pickets will be stationed all along the route of the funeral procession of the victims of the May day massacre, for such is the term applied to the tragedy by the people.

The situation here is very serious. The soldiers have been ordered to make a thorough inquiry into the cause which led to the disturbance of today, and the action of the officers who ordered the troops to fire on the people.
