

# HISTORY OF DUBOIS' DEFEAT

Made Frantic Efforts to Have Anti-Mormon Plank Inserted in Democratic Platform.

BUT HE SIGNALLY FAILED.

Too Astute at Times for His Own Good, Utah Delegation Felled Him at Every Turn.

(Special to the "News.") Denver, Colo., July 10.—Judge King in committee, aided by the Utah-Idaho delegations on the outside, checkedmate the frantic efforts of the maledorous Dubois to have an anti-Mormon plank inserted in the Democratic platform.

## ANTI-MORMON PLANK.

The plank urged was identical with that of the last campaign. The committee was largely composed of former senatorial and congressional associates of the Idaho man, such as Clark of Arkansas, Stone of Missouri, Smith of North Carolina, Pettigrew of North Dakota, Smith of New Jersey, all of whom voted with him. Among the negative votes were those of Newlands of Nevada and Daniel of Virginia. Pettigrew dodged the sub-committee by asking for a hearing before the full committee. Dubois made a false move by asking consideration of his plank before taking up the sub-committee's report, but this was hooted down without a vote.

## PETTINGREW OFFERS IT.

After the entire platform as reported to the committee was ordered, Pettigrew offered the anti-Mormon plank without remarks and King moved to table it, but withdrew his motion on Pettigrew's dramatic declaration that the matter should be left to the convention, if disposed of in committee without debate.

## DUBOIS' ARGUMENT.

Dubois then addressed the committee earnestly and adroitly for nearly half an hour. He stated that President Smith was living in violation of the law and could not be punished. He charged a compact between the Mormons and Republicans under which Utah was to be Republican and polygamy immune. He also stated that Senator Smoot could be a senator only by consent of the so-called "Mormon" senators amenable to Mormon influence. He discussed the testimony in the Smoot case at some length. He berated President Roosevelt for his protection to Senator Smoot. He made the assertion that polygamy was still rampant and flourishing. He said that Idaho would certainly be Democratic through the aid of Republican votes if the plank were inserted. With much adroitness he referred to the numerous women's petitions against Senator Smoot, adding that Illinois might be carried against Senator Hopkins and the Republicans with such a declaration. This suggestion evidently loosened Alschuler from his friendly mooring for he voted with Dubois. He mentioned that Utah once Democratic, by 50,000 majority, was now Republican through the Church deal.

## KING ANSWERS DUBOIS.

Judge King answered these arguments seriously and wisely. Dubois of treachery to Democratic principles and party, and said he was trying to be Democratic dictator to states having a Monarchy. He asked him if he was favoring Mormon disfranchisement which Freddy partially denied. King argued that the plank is meaningless because it is contained in the Constitution of Utah and as not dealing with subjects within the purview of federal cognizance. As to church domination of the state, he suggested that Catholics might construe the plank as anti-Catholic. The judge added that Dubois knew there was no domination of the state by the Church in Idaho, and while admitting that many of the Mormon leaders in Utah were Republicans, he asserted that 75 per cent of the Democratic membership in Utah are Mormons true to their political allegiance. The judge's motion to table was lost by a vote of 20 to 20, but several hours of discussion and debate were avoided by a vote of 20 to 20.

## NEWLANDS, DANIEL, HASKELL, MAYOR BROWN OF LINCOLN AND GEORGE FRED WILLIAMS OF MASSACHUSETTS WERE AMONG KING'S FRIENDS.

## YOUNG'S PHILIPPINE PLANK.

A plank prepared by Maj. Young declaring against the free trade policy of the Philippine products as inimical to the independence of the islands, was apparently in harmony with the views of the entire committee, but there being no time for discussion, it was tabled by a majority of only four votes. Counter resolutions apparently found no support.

## THE REMEDY THAT DOES.

"Dr. King's New Discovery is the remedy that does the healing others promise but fail to perform," says Mrs. E. R. Pierson, of Auburn Centre, Pa. It is curing me of throat and lung trouble of long standing, that other treatments relieved only temporarily. New Discovery is doing me so much good that I feel confident its continued use for a reasonable length of time will restore me to perfect health." This renowned cough and cold remedy and throat and lung healer is sold at Z. C. M. I. drug store, 50c and \$1.00. Trial

## WHAT IS ELECTRICITY?

Karl T. Blutharsch Claims to Have Scientific Answer to Query?

Karl T. Blutharsch, formerly of Chicago, is in Salt Lake, and probably will locate here. He has devoted much time to scientific study, and claims to have discovered principles that answer the question, What is electricity? An understanding of electricity, says Mr. Blutharsch, depends upon a comprehension of the rotation of matter, and he has issued a pamphlet entitled "The Cause of Electricity—the Cubic Square of the Oververse—the Life and the Immortal," dealing with the development of animal life in the ocean, and tracing the development through various periods and stages.

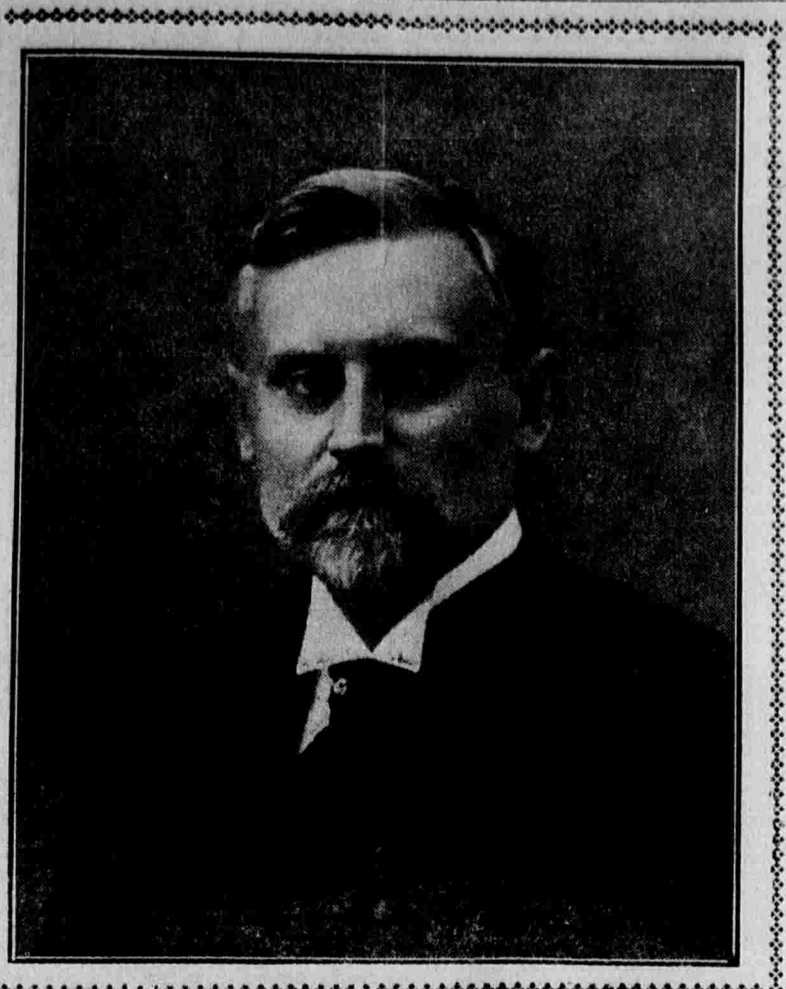

## TAKE A VACATION.

Now is the time to take a vacation, get out into the woods, fields and mountains and visit the seashore, but do not forget to take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy along with you. It is almost certain to be needed and cannot be obtained on railroad trains or steamships. It is too much of a risk for anyone to leave home on a journey without it. For sale by all druggists.

## REESLEY MUSIC CO.

Annual 12½c sheet music sale, all next week.

Salt Lake bicycle races, 10c admission.

REV. DR. P. A. BAKER.

National Superintendent of Anti-Saloon League of America Who Speaks at The Tabernacle Tomorrow Afternoon.

For the temperance meeting to be held in the tabernacle tomorrow afternoon a special musical program has been arranged by Prof. Evan Stephens. The choir and congregation will render the selection, "Do What Is Right," while the numbers by the choir exclusively will be "Light and Truth the World are Waiting" and "True to the Faith."

"The Gushing Rill," the first composition of Prof. Stephens ever published, will be sung by the Sixth ward Sunday school choir.

## According to Polk's Directory Salt Lake Has 112,346 Souls.

The new directory by R. L. Polk & Co., will be out of the bindery and ready for delivery on the morning of the 14th inst. Under the title of "How We Grow," the directory in the following table shows the number of individual names, and the increase in population (including the City of Murray and all the suburbs and suburban towns) from 1897 to 1908, inclusive:

Year.	Number of Names.	Population.
1897	24,804	73,412
1898	25,827	75,431
1899	26,460	79,540
1900	28,202	84,605
1901	29,216	87,645
1902	32,564	89,251
1903	35,137	97,242
1904	36,575	91,150
1905	40,430	90,967
1906	42,995	96,720
1907	52,561	105,123
1908	56,173	112,346

\*Multiple of 2½ used, instead of 2½ as in previous years.

\*Multiple of 2½ used, instead of 2½ as in 1895 and 1904.

\*Multiple of 2 used instead of 2½ as in 1905 and 1906.

The number of individual names under each letter of the alphabet in the directory is as follows:

A	2,044
B	5,155
C	4,318
D	2,254
E	1,614
F	1,847
G	2,323
H	4,283

U	38
V	452
W	3,665
X	388
Y	388
Z	112
Total	56,173

The following introductory was written by Secy. Fisher Harris of the Commercial club, which well epitomizes local attractions, in Mr. Harris' happy style:

"The people of Salt Lake City may well be gratified and proud by the progress the city has made along all the lines of municipal development during the past 12 months.

The increase in population has not only been large, as indicated by the size of this volume, compared with that of the preceding issue, but the general character of the people making up the additional population is eminently satisfactory from all the standpoints of good citizenship.

Salt Lake City is the actual geographical and commercial center of an area of country containing, by reason of its varied natural resources, the greatest wealth producing possibilities

to get up steam, and more than possible breakdowns. Salt water is more effective in extinguishing flames because it is heavier and because of the saline matter in it. It may be anticipated considerably in speaking of us—Salt Lake in this city for fire purposes; but at all events, the Great Salt Lake is not far away, and if its water was brought into town, it could be used for local plunge and tub baths, for fire and cleaning purposes as well. In country towns I recommend merchants to maintain tanks of salt water on the roofs of their stores in case of fire, 30 pounds of salt to 40 gallons of water. The salt keeps the water clean, and the water is much more efficacious in extinguishing fire than fresh water would be. With only the largest cities at present introducing this reform, it may be considered a little too early to make any suggestions in the matter as applicable to Salt Lake, but any project for reform must be talked about and gossiped over before anything like a serious step is taken."

The Ladies' G. A. R. band of this city furnished instrumental music for the visitors and a glee club furnished

the singing.

Among the excursionists were Heber J. Grant, John Henry Smith, Francis M. Lyman, George F. Richards, Gov. John C. Cutler, Mayor Decker and former Mayor J. H. Frisbie of Provo, Mayor Gardner of American Fork, President S. L. Chipman of the Cedar Valley Improvement company of Lehi, President Thomas P. Page of the Jordan Valley Dry Farming company of Riverton, George Austin, agricultural superintendent of the Utah Sugar company; Orson H. Hewlett, former president of the M. & M. association, and many others.

# TRIP TO NEPHI ONE BIG BOOST

Utah Goods for Utah People. the Slogan of Excursionists.

OTHER JUNKIES ARE PLANNED

The Next Invasion Will be Into Logan On July 15—Big Experiment Farm Center of Interest.

The M. and M. special train over the San Pedro road with 230 boosters from Salt Lake, reached Nephi yesterday noon, where a crowd of people and the Nephi brass band were waiting to welcome them. Carriages were in waiting to carry the visitors to the government experimental station four miles distant where they were shown the advantages of scientific methods in farming on a large scale. Prof. J. A. Wildsoe of the Agricultural college, and Prof. L. A. Merrill, the dry farm expert, F. D. Farrell and Dr. E. D. Ball were the demonstrators. The wheat in highest favor was shown to be the Turkey No. 2998, which yields 35 bushels to the acre under dry farming. Gold Coin and Red Chaff club, which yield 25 bushels to the acre, were also spoken of in favor.

On the return to Nephi, the visitors were entertained by President T. C. Winn, C. H. Grace, Dennis Wood and Roy E. Homer of the Commercial club.

T. C. Winn, president of the Commercial club of Nephi; Gov. Cutler, George S. McAllister, Dr. John A. Wildsoe, of the Agricultural college, and Len J. Haddad, of the M. and M. association. Music was furnished by the band, the Glee club, Miss Edna Evans of Salt Lake City and Miss Helen Grace of Nephi.

AT THE MEETING.

President Winn of the Commercial club made the address of welcome, in which he said that dry farming is changing a region formerly a sagebrush waste and inhabited by grasshoppers, into productive land, adding thousands of bushels of grain to the annual output of the state. He said that Gov. Cutler spoke of the M. and M. association, which was about to establish a breakfast food factory. President George McAllister of the M. and M. association urged that if Utah material is used in the business districts of the city, Salt Lake City at last finds herself in the "sky-scraper" class, and official statistics indicate that in this phase of community development she leads every city of her size in the nation.

The gigantic task of paving the broad streets of the city is well under way and a new era of individual and municipal interest in civic beauty is upon us, so that not many years will pass before Salt Lake City, already beautiful, will be the "City Beautiful" of the trans-Mississippi country.

The strong financial condition of our banks and business institutions was satisfactorily demonstrated during the money panic of the past year, but not only brought no failures, but no suggestion of weakness.

Because of the conditions briefly presented here, and by reason of her superb climate and the exquisite beauty of her scenic environment, Salt Lake City holds out more attractions to the tourist, the home-seeker, or the investor than does any other city within the range of our knowledge.

The city directory should be, and claims to be, the highest authority on the population of the city where it is published. Beyond even the federal census, with the law of the United States behind the enumeration to aid in securing the consent of the people to furnish statistics, are the trained directory employees, who, from year to year, cover the city and must show results from every opening on every street and alley, or answer to the examiner for the omission. The publishers therefore rely confidently on the statistics and other facts of the canvass: this is the more true because from the careful canvassers afforded the canvassers by the people it has been comparatively easy to get things just right. The customary means of estimating population is to multiply the number of names of individuals in the directory by two and a half. In the present volume there are 56,173 names of persons who lived in and around Salt Lake City at the time the canvassers were in the extinguishing flames because it is heavier and because of the saline matter in it. It may be anticipated considerably in speaking of us—Salt Lake in this city for fire purposes; but at all events, the Great Salt Lake is not far away, and if its water was brought into town, it could be used for local plunge and tub baths, for fire and cleaning purposes as well. In country towns I recommend merchants to maintain tanks of salt water on the roofs of their stores in case of fire, 30 pounds of salt to 40 gallons of water. The salt keeps the water clean, and the water is much more efficacious in extinguishing fire than fresh water would be. With only the largest cities at present introducing this reform, it may be considered a little too early to make any suggestions in the matter as applicable to Salt Lake, but any project for reform must be talked about and gossiped over before anything like a serious step is taken."
