

OPERATORS AND MINERS DISAGREED

Monday Over Half a Million Men Will Quit the Mines.

ARBITRATION WAS REJECTED.

Miners Have \$2,500,000 in Treasury With Which to Make a Fight.

Indianapolis, Ind., March 30.—The national convention of the United Mine Workers of America adjourned this morning after authorizing the national executive board to sign a wage agreement with any coal operators who would agree to pay the scale of 1903 or the equivalent for a period of two years. This is an advance of 5.55 per cent in wages in Illinois, Indiana, Ohio and western Pennsylvania and all other districts except the southwest, composed of Missouri, Kansas, Texas, Arkansas and the Indian Territory, where an advance of 5 cents per ton is demanded. The 1903 scale is practically in force in that district.

The convention declined an offer made by the operators of Illinois, Indiana and Ohio to submit the wage question to arbitration. When a coal operator owns mines in different districts the scale must be signed for all the properties at the same time before any will be allowed to run.

The action of the convention will bring out of the mines of the country 600,000 men in the anthracite and bituminous fields. These will remain on strike until settlements have been signed by districts or with individual operators. The only mines at work on March 30 were the New River, Pocahontas, Fairmont and central fields of West Virginia, where an agreement was made several days ago to allow the men to continue at work until the district convention now in session at Charleston has reached a decision with the operators.

It is estimated that the scale will be signed in a few days by employers of 75,000 miners. The Pittsburgh Coal company and F. L. Robbins of western Pennsylvania, who also owns mines in Illinois and West Virginia, will, it is expected, sign at once, together with a number of independent operators. The miners expect to get the advance in all the Indiana mines south of Baltimore & Ohio railway, in part of the Illinois mines, and in large percentage of the mines in Pennsylvania.

President Mitchell said today, he believed one-half of the tonnage of Illinois, Indiana, Ohio and western Pennsylvania would sign very soon. A large number of independents having an annual output of 13,000,000 tons, who protested here against the advance, but who would not sign the scale, and their men would leave work. The miners expect very few operators in the southwest will sign during conference of this district adjourned today after disagreeing and after the miners had unanimously declined to submit the difference to a commission to be appointed by President Roosevelt.

The national executive board will meet tomorrow morning to take the task of managing the strike. It was empowered to decide as to what employers would be allowed to continue work at the mines to prevent the destruction of the property during the operation. There is in the national, district and local treasuries of the mine \$2,500,000, of which \$400,000 is a national treasury.

President Mitchell expects to leave Sunday for New York to meet in joint conference with the anthracite operators. The convention today failed to elect Patrick Doland and Uriah Bellington, the Pittsburgh district officials, from the organization, by a vote of 450.

BABY COVERED WITH SORES

Would Scratch and Tear the Flesh Unless Hands Were Tied—Wasted Two Years—Grew Worse Under Doctors—Skin Now Clear.

WOULD HAVE DIED BUT FOR CUTICURA.

"My little son, when about a year and a half old, began to have sores come out on his face. I had a physician treat him, but the sores grew worse. Then they began to come on his arms, then on other parts of his body, and then one came on his chest, worse than the others. Then I called another physician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad that I had to tie his hands at night to keep him from scratching the sores and tearing the flesh. He got to be a mere skeleton. My Aunt advised me to try Cuticura Soap and ointment. So great was her faith in it that she gave me a small piece of Soap to try and a little of the Ointment. I took it home without any idea, but to please her I tried it, and to my surprise it did the work. I used only one box of Soap and about three boxes of Ointment. (Signed) Mrs. E. J. Sedgwick, R. F. D., No. 1, Woodville, Conn., April 22, 1905."

Many Expresses and Jars of Cuticura Soap and Ointment are sent to every part of the world. It is the only medicine that cures all kinds of skin diseases. It is the only medicine that cures all kinds of skin diseases. It is the only medicine that cures all kinds of skin diseases.

LIBERAL CANDIDATE WINS. London, March 30.—Franklin Thompson, Liberal, has been elected to the house of commons for Leicester by a majority of 3,060 over Sir John Rolleston, Unionist, succeeding Henry Broadhurst, Liberal, resigned.

TO SEEK NORTH POLE. Milwaukee, Wis., March 30.—Major H. B. Hersey, director of the weather bureau at Milwaukee and inspector of western stations, today received a telegram from Washington, instructing him to report as soon as possible at Washington to prepare to accompany the Weisman expedition in search of the north pole.

Washburne, Wis., March 30.—Major H. B. Hersey, director of the weather bureau at Milwaukee and inspector of western stations, today received a telegram from Washington, instructing him to report as soon as possible at Washington to prepare to accompany the Weisman expedition in search of the north pole.

EATEN OUT OF HOUSE AND HOME

How a Confirmed Dyspeptic Developed An Appetite Like a Corn-busker's and Cleaned Out Everything In Sight.

The wife of a leading druggist of Des Moines tells how her brother was changed from a dyspeptic without appetite to a prodigious eater.

"My brother, who is a lawyer in Chicago, came to visit me and I hardly knew him on his arrival he was so thin and run down. I had not seen him for years as a result of chronic dyspepsia. I asked him what he had done for it, and he said he had done everything—taken every remedy he had ever heard of and consulted doctors without number, none of them helped him. I asked him if he ever took Stuart's Dyspepsia Tablets, and he said he hadn't and what was more he wouldn't. He had sworn off taking medicine of any kind. I had my husband bring home a box from the store and I actually made him take one or two of the tablets after he had eaten. They made him feel so much better that he offered no further objections. He had not taken the one box before he was greatly improved and three or four boxes cured him of dyspepsia and gave him a wonderful appetite. He came not eating us out of house and home. My, but it did me good to see him eat. He gained fifteen pounds before he returned home, and he writes me that he has not been troubled with dyspepsia since."

Stuart's Dyspepsia Tablets actually do the work assigned to them. They relieve weak and overburdened stomachs of their work of digestive action. Their component parts are identical with those of the digestive fluids and they simply take up the strain and carry out the work just the same as a good, strong, healthy stomach would do it. On this account Stuart's Dyspepsia Tablets are perfectly natural in their action and effects. They do not cause any unnatural or violent disturbance in the stomach or bowels. They themselves digest the food and supply the system with all the nourishment contained in what is eaten and carry out Nature's plans for the sustenance and maintenance of the body.

Stuart's Dyspepsia Tablets, by thus relieving the stomach of its work, enable it to recuperate and regain its normal health and strength. Nature repairs the worn and wasted tissues just as she heals and knits the bone of a broken limb which is of course not used during the process of repair.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box. One box will frequently effect a perfect cure.

back to the Pittsburgh district.

President Mitchell had absolute control of the convention throughout its sessions, and every act desired by him was done. He said today that if the convention did not adopt the resolution permitting the miners to sign wherever the advance scale was paid, he would resign. The vote was unanimous, although Vice President Lewis took a vigorous position against it.

It was stated tonight by a representative of coal interests of western Pennsylvania that at 5 o'clock this afternoon notices were posted at 40 independent mines in the Irwin district of western Pennsylvania that the 1903 scale would be paid. These mines, it was said, employed 12,000 men and have an annual output of 5,000,000 tons.

It was also stated that F. L. Robbins, representing the Pittsburgh Coal company, would in all probability post similar notices and make an effort to sign the scale for the mines belonging to his company and under his control. It is his desire, it was said, to have no suspension at all in these mines, if it could be effected. A majority of the operators and miners left Indianapolis tonight. The others will leave tomorrow.

CHINESE ANTI-AMERICAN BOYCOTT DYING OUT.

San Francisco, March 30.—Direct information from the trade ports and centers of China is to the effect that the boycott against goods shipped from the United States is rapidly dying out, and that there is a prospect of an early and full resumption of business. Such advice comes to rich and influential Chinese merchants of this city, who maintain intimate business relations with the big cities of China. They have been received by the Six Companies and cover all of China that is known to the American business man coming from Canton, Hongkong, Shanghai and Hankow.

They say that the progressive Chinese are gradually overcoming the hostility of less advanced classes and growing openly defiant of the viceroys, who, it is alleged, have fostered the anti-American feeling. The building of the Canton-Hankow railway is said to be exerting a powerful influence in favor of trade with America, and has almost won back, say the Chinese writers, the sympathy of those importers of food-stuffs from this country who have suffered financially ever since the boycott was begun, and have been looking for an excuse to reopen their business with an American firm.

Local Chinese merchants predict an end in the near future of all trade differences.

HARVARD WINS DEBATE.

New Haven, Conn., March 30.—The annual Yale-Harvard debate tonight was won by Harvard, which upheld the affirmative of the question: "That it would be for the interests of New York City to own its street railway system."

IOWA ANTI-PASS BILL.

Des Moines, Ia., March 30.—The house today passed the anti-pass bill, 75 to 17, with an amendment which includes all federal officers and a publication clause which will require legislators now here to pay their way home. If the senate accepts the amendments the measure will become a law.

The bill as passed prohibits use of passes by federal, state, county and city officials, judicial or otherwise, delegates to political conventions, members of political committees and employees of political committees.

NEGRO EXECUTED.

Waxahatchie, Tex., March 30.—Albert Johnson, colored, was executed this afternoon for the murder of J. H. Taylor, a white man, committed near this city last July. The execution was witnessed by several thousand people.

LIBERAL CANDIDATE WINS.

London, March 30.—Franklin Thompson, Liberal, has been elected to the house of commons for Leicester by a majority of 3,060 over Sir John Rolleston, Unionist, succeeding Henry Broadhurst, Liberal, resigned.

TO SEEK NORTH POLE.

Milwaukee, Wis., March 30.—Major H. B. Hersey, director of the weather bureau at Milwaukee and inspector of western stations, today received a telegram from Washington, instructing him to report as soon as possible at Washington to prepare to accompany the Weisman expedition in search of the north pole.

STARVATION AND CANNIBALISM.

Terrible Tales of Them Among The People Inhabiting the Arctic Circle.

WHOLE TRIBES HAVE DIED.

Some Assembled in Council and Decided That Nothing But Death Remained.

St. Petersburg, March 30.—Horrible accounts are reaching St. Petersburg of cannibalism and starvation among tribes inhabiting the Arctic plain of the Chukotka peninsula, at the extremity of Asia.

Most of the reindeer died of starvation during the winter of 1904-5, leaving the inhabitants without means of communication or food. During the last winter whole tribes have died and members of the Omolons and Oloya tribes, when facing starvation, assembled in council and decided that nothing remained but death. They agreed that each head of a family should kill his wife and children and then commit suicide.

The tribesmen gathered on a plateau covered with snow and ice, and in the darkness of the Arctic winter the Spartan decision was executed, not a single member of the two tribes surviving.

More revolting still is the story of what occurred in a family of the Yukahir tribe. A mother and nine of her children having died of hunger, the father, a surviving daughter, and a nephew lived upon the remains, and when they were consumed the father murdered the nephew.

A Russian named Dolganoff, who went to the region to buy furs, reported the situation at Yukahir, Siberia. He entered a snow hut of a Yukahir family while the latter were eating the head of a murdered relative.

CLAIMS CREDIT FOR ALL REFORMS IN RUSSIA.

Chicago, March 31.—The Tribune today says that the recent manifesto of the czar granting what is assumed to be a measure of freedom to the oppressed Slavs were the direct result of the work of a Russian subject who fled from his mother country to America, and who is now residing in Chicago, and that the basic principles of the new Russian constitution were outlined by this man, who has studied conditions here for the last 12 years. He is the claims set forth by friends of Russia, and is a member of the Russian nobility, and who occupied at one time a prominent part in the machine of the Czarist government, is confident that he has been responsible for the recent reforms in Russia.

Bourff, who has just received an A.B. degree from the University of Chicago, declares he is not a socialist, and is not a believer in radical reforms. He has a superior education, having studied in Russia, France, England and the United States. He declares he has the confidence of Prime Minister Witte and Count Polyakov, formerly procurator-general of the holy synod, and through them has influence with the czar.

Bourff has twice fled from Russia and the czar has invited him twice to return and live among his people again. Twelve years ago he left Russia again and set out to study the governments of Europe and America. He now has crystallized his views and has presented them to his government for consideration.

Three pamphlets have been issued by Bourff's friends in Russia, putting forth his arguments for reforms, and after the appearance of each one has come, respectively, the "prescript," the "first manifesto," and the second manifesto. "Nobody had presented these arguments to the people before," said Bourff yesterday.

"It was the first article on this subject. The czar saw his nation standing below other nations, and I believe it opened his eyes. I aimed to abolish classes and to the law and the law and the peasant to the same level. This was embodied in the main in the 'prescript' issued later."

"Prince Mescheray, editor of one of the prominent papers of Russia, replied to my statements, writing against constitutional government. After reading his views I wrote my second letter. I disapproved his views on historic ground. He replied that the people were not ready. In this I showed he was wrong."

"The czar has been misrepresented in America. He is a sincere, intelligent man who did not waste his youth but spent his time by studying and reading. He is not a genius, but he is open-minded and has believed all along that what he was doing was the right course. Now he has seen a new light, as you say."

Bourff was born near St. Petersburg in December, 1864. After a common school education he went to the Academy of St. Petersburg. Since then he has studied in Paris, and London. He entered the University of Chicago in 1884, and after spending four years there, commenced a sociological and political study of the country. Later he returned to the university and was given a degree at the convocation last week.

THE ANTI-HAZING BILL.

Washington, March 30.—The conference on the anti-hazing bill for the Annapolis naval academy reached a complete agreement today. The agreement retained the house substitute, with an amendment to the first section. This section provides for the dismissal of midshipmen from the academy by the superintendent for other causes than hazing. The amendment agreed to in conference stipulates that when an issue is raised between the specifications of dismissal and the answer of the midshipmen, it shall be determined by a special board of inquiry. This does not apply, however, to the question raised in the record of the midshipman disclosed by demerit records.

JAPAN WANTS THE PHILIPPINES.

Tokio Government Anxious to Open Negotiations for Securing Them.

PRESIDENT MUCH INTERESTED

Reported to be Desirous of Disposing Of Them and Solving Problem During His Term.

Washington, March 30.—Although Secy. Taft of the war department says it recently to deny the report that Japan had made certain overtures to the United States for the acquisition of the Philippines, corroborative evidence is at hand that the Japanese government has been desirous of opening negotiations to that end. When former Gov. Wright of the Philippines goes to Japan as the first American ambassador to that country, he will be empowered by this government to enter upon further consideration of that proposition.

In fact, it is said on what ought to be unimpeachable authority that the selection of Gov. Wright to represent the Roosevelt administration at the Japanese emperor's court, was caused by this situation. President Roosevelt, according to report, desires to dispose of the Philippine problem before the end of his term in the White House. He is represented as being convinced that our ownership of the islands as "possessions, not parts," of the United States, has not been acceptable to many Americans, and eventually will mean much larger expenditures on the part of our home government than have been made thus far.

PURPOSE OF AMERICAN NATIONAL RED CROSS.

Washington, March 30.—Sec. Taft, Representative DeArmond and Miss Mabel T. Boardman of Washington addressed a Red Cross meeting at the Belasco theater today for the purpose of acquainting the public more fully with the purposes and work of the re-organized American National Red Cross.

Representative and Mrs. Nicholas Longworth, Justice Brewer of the supreme court of the United States, Capt. and Mrs. K. S. Cowles, Surgeon-General, O'Reilly of the army, Surgeon-General, Rixey of the navy and Surgeon-General, Walter Wyman of the United States public health and marine hospital service were among those who attended.

"The history of the United States," said Secy. Taft, "is not such that we count on not having another war, and as Congress is unwilling to anticipate war it is apparent."

Secy. Taft is president of the Re-organized American National Red Cross.
