CRITICAL ANALYSIS.

UNIVERSITY OF DESERET,
Salt Lake City, June 8th, 1887.

By carefully examining DeLand's Chemical Baking Powder with the microscope and with chemical reagents, I find that it is free from **Alum, Starch, Flour, Lime, Ash, Ammonia and White Earth**; and that it consists essentially of Cream of Tartar and Bi-carbonate of Soda.

The Baking Powder examined I purchased of Barnes & Davis, in this city.

CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown.

A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

A SURE CURE FOR THE PILES—You need not suffer from this most distressing disease again in all your life. Email's Balm acts as a poultice and lubricator, absorbs the tumors and allays the intense itching at once. No cau-tic, no acid, no pain. A. McGibbons Esq., 19 Poplar street, Allegheny, Pa., writes: "I had itching and bleeding piles so bad I could not sit, stand or walk without intense suffering. I doctored with many physicians, and tried all the (so called) cures that I ever heard of, in vain (paying out hundreds of dollars), until I used Email's Magic Balm, or Ointment. After the first application I enjoyed the best night's sleep I had for ten years, and two boxes have cured me completely." ☞ Wherever introduced Dr. Email's Balm takes the lead, and has the largest sale of any Pile remedy in the world. Sold by druggists everywhere or sent by mail, 50 cent boxes. Address Zion's Co-operative Mercantile Institution, Salt Lake City. d&w (2)

EVENING NEWS.

Wednesday, - November 16, 1887.

Profits on Walnu's.

A day or two ago Sam A. Maxwell, Monrovia's 200-pound real estate agent, laid upon the *Pianet* table a number of walnuts grown upon the trees upon his place at Duarte, about a mile from Monrovia. They were exceedingly large nuts, well filled with splendid meat. Sam said: "I saw where you said last week that a Santa Ana man had realized $6 per tree, or $250 to $300 per acre for his walnuts this year, and I thought I had better come in and tell you that we can beat that all hollow in Duarte." And then he gave a statement of his yield this year. He has 147 trees, or nearly five acres. The trees are 25 and 30 years old and are very large. They have been bearing now for a score of years, and the yield is constantly increasing. The trees are known to live a hundred years and bear every year. But to the point. The crop this year averages three sacks to the tree, which would be 441 sacks, each running 60 pounds. The entire crop can be sold at 10 cents a pound, or $6 a sack, making the yield $2,646 for the five acres, or about $530 an acre. Deduct from this the cost of the sacks, at nine cents each, and it would leave $2,606. This is about all the outlay. The owner is generally saved the trouble of shipping them, as the buyer purchases them on the ground.

Walnuts are far easier grown than oranges. They don't need half the attention. One man with a team could take care of ten acres and have over half his time free. When the trees are younger other produce can be grown better between them. Parties who have seen these walnuts say they are the best seen this year. Sam also says that the trimmings of the trees furnishes his house with all the firewood required. Truly there are worse avocations than raising walnuts.—*Monrovia Pianet.*

Gait of Criminals.

A curious study has been made by Dr. Peracchia of the difference between criminals and law-abiding citizens as exhibited by their walk (La Ritorma Medica, No. 147, 1887). The author took a number of observations to determine the conditions of normal progression, and found that in good people the right pace is longer than the left, the lateral separation of the right foot from the median line is less than that of the left, and the angle of deviation of the axis of the foot from a straight line is greater on the right side than on the left. But this is not all. Dr. Peracchia has not only shown us how we may distinguish criminals in general, but has laid the beginnings of the differential diagnosis between various sorts of evil-doers. The following are the distinguishing characteristics which his observations have enabled him to formulate:

1. *Thieves*.—In those who are predisposed to appropriate the property of others, there is a pronounced widening of the base of support, together with a very long step.

2. *Assassins*.—In those who have murder in their hearts, the base of support is not as wide as it is in thieves, since the angle formed by the axis of the foot with the median line is less obtuse, but the sinistrality betrayed by their footprints is very marked.

These discoveries are of a very interesting character, and the *American Analyst* suggests that if the criminal could be induced to walk before the honest man, instead of following him as he usually does, they might also be put to a practical use, for then good citizens could diagnose the rogue by his tracks, and might thus be enabled to escape robbery or assassination, as the case might be.

The Mississippian Abroad.

An American traveler while in Venice met a man dressed in the unmistakable "toggery" of the Mississippi River bottoms.

"Ah," said the traveler, approaching the Southerner, "I am not acquainted with you, but I am glad to see you, for I know you are from my country."

"I am from Mississippi."

"I knew it," said the traveler, extending his hand. "What do you think of Venice?"

"Well, I don't reckon I oughter express my opinion, fur I didn't get here till airter the overflow an' hain't had a chance to see the town, but as the water seems to be on a stand now I reckon it'll begin to go down putty soon, an' I 'low that when she starts she'll go down right peart."

"My gracious, man, this is not an overflow."

"Then it's about as lively a freshet as ever I seed. In our country, when we have to paddle 'round the streets in canoes, we call it a pooty good overflow."

"You don't understand. This is Venice and the water is always here."

"You don't say so. An' does the government issue rations to all these folks?"

"Of course not. This town was built this way to—"

"Well that mout be, but I call it a overflow all the same; but if it ain't going to fall enough for me to see the town, I reckon I'd better go. This is the blamest swamp I ever seed."—*Boston Advertiser.*

A FATHER'S PRIVILEGE.—Man—As your first baby is a boy, I suppose you have the privilege of naming it.

Young Father—Yes, sirce. I would not allow any one to name that cherub.

"Have you thought of a good name for him yet?"

"Dozens of 'em; splendid names; just the thing; but they won't any of them do."

"Why not?"

"My wife won't have 'em."

At Monticello, N. Y., recently, a contest between a black snake five feet long and a water moccasin eighteen inches long was witnessed by several people. The moccasin had the battle all its own way. It coiled itself so tightly around the neck of its opponent that ridges half an inch deep were imbedded in the flesh. The black snake was choked to death.

The processions of the unemployed in London are said by the *Times* to be composed chiefly of men to whom labor is a secondary consideration and of many members of the light-fingered industry. Though nominally held in the names of the unemployed, hired bands, banners, wagonettes, and decorations show that no expense is spared in carrying out the affair to give it an appearance of importance.

WOMAN'S SPHERE.

They talk about a woman's sphere,
As though it had a limit;
There's not a place in earth or heaven,
There's not a task to mankind given,
There's not a blessing or a woe,
There's not a whisper, yes or no,
There's not a life, or death, or birth,
That has a feather weight of worth,
Without a woman in it.

ESTRAY NOTICE.

I HAVE IN MY POSSESSION:

One very old red and white spotted COW, brand resembling P C on left horn, and H on left hip, and sore on left side of body.

One old dark red COW, white on belly, with halter on, and blotched brand on right horn.
