

## TAFT FOR POSTAL SAVINGS BANKS

In His Message to Congress Will Strongly Urge Establishment Of the System.

WOULD HELP GOVERNMENT.

Deposits Might Well be Employed in Taking Up Outstanding 2 Per Cent Bonds.

Beverly, Mass., Aug. 25.—President Taft indicated in talks with callers today that in his message to Congress next December, he will strongly urge the early establishment of a postal savings bank system. He will ask that the Republican platform declaration in favor of postal banks be fulfilled as speedily as possible.

President Taft believes several hundred millions of dollars would be placed at the government's disposal through postal savings banks. It is suggested that this money might well be employed in taking up the \$400,000,000 or \$700,000,000 outstanding of government 2 per cent bonds, which have given much concern to the treasury department officials. Already the bonds are selling below par and there is fear of further depression. The president believes the postal banks would appeal to timid persons who are afraid to trust the ordinary banks and would rather get the small interest the government would give than to place the money in the regular savings banks.

## Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs & Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed, as the best of remedies when required are to assist nature, and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. To get this beneficial effect always buy the genuine, MANUFACTURED BY THE

By placing the interest to be allowed by the postal banks at less than 2 per cent, Mr. Taft is convinced that no harm would be done to the ordinary banks of commerce, for discriminating persons who now place their money in these banks and are appreciative of what these banks are doing for the community would not withdraw money, drawing a high rate and place it under government care at half the interest offered by the ordinary savings banks. Secretary Meyer strongly favors the postal banks.

President Taft expressed himself as unalterably opposed to a guarantee of bank deposits. He declared he did not believe in making one set of bankers stand responsible for another set.

Tomorrow the president will confer with Senator Aldrich, chairman of the

senate finance committee, and Secy. McVeigh. The postal banks will have a share in the discussion.

President Taft had a long talk today with Amos P. Wilder, American consul general at Shanghai, China, and discussed with him the opportunity for extending American trade in that empire.

## CHICAGO TO HAVE MEDICAL RESEARCH INSTITUTE

Chicago, Aug. 25.—Chicago is to have an institution for medical research similar to that founded within recent years in New York by John D. Rockefeller. The new institution is the gift of Mrs. Nelson Morris, widow of the packer, and \$250,000 needed for the hospital, has been given by her as a memorial to her husband.

## TARIFF AND BUSINESS RELATIONS WITH EUROPE

New York, Aug. 25.—Robert Mather, a Rock Island system director, and chairman of the board of directors of the Westinghouse Electric & Manufacturing company, has just returned from an extended European trip, with an optimistic view of business conditions.

He said: "The settlement of our tariff policy, the old basis has not interfered with business relations between this country and England. The British budget is a much greater source of annoyance to capitalists and manufacturers and the looked for increase in taxation is doing infinitely more harm there and incidentally, much good to this country in the way of investments in our railroads, and industrial stocks and bonds, which are constantly growing in favor abroad."

## KILLED IN THE SUBWAY.

New York, Aug. 25.—The police are investigating a subway accident by which Mrs. Anna Shanley, 30 years old, widow of Bernard Shanley, was killed. It is said that a guard gave the signal to go ahead before Mrs. Shanley had alighted and she was dragged to her death.

Bernard Shanley was a jeweler and left a large fortune. He and Mrs. Shanley were well known in California, where Mrs. Shanley had many relatives.

## SALMON PACK TWENTY PER CENT LESS THAN IN 1908

Astoria, Or., Aug. 25.—The total pack of Columbia river salmon reduced to 48-pound cases for the season just closed amounts to 250,000. This is 20 per cent shrinkage over the 1908 pack. Segregated, the pack consisted as follows:

Cases, 130,500; trolleys, 4,300; pickled salmon, 2,355 tons. The season has been about one full month or 25 per cent short of preceding seasons in duration, but this does not explain fully this year's shortage, which in view of the number of fish landed in 1908, indicated an exceptionally large pack.

## CUNNINGHAM COAL CLAIMS

Interior Department Officials Preparing Statement in Reply To Glavis's Charges.

## PRESIDENT WANTS REPORT.

First Asst. Secy. Pierce Would Have Listed Them Had Not Atty. Gen. Wickersham Overruled Action.

Washington, Aug. 25.—Officials of the interior department are busy today preparing their statement regarding the charges made by Louis S. Glavis, chief of the field division of the general land office in the northwest, with offices at Seattle. The report of Mr. Glavis was made to the president. He is understood to have attempted to show that high officials of the interior department were unnecessarily concerned in the expedition of what are known as the Cunningham claims to valuable coal lands in Alaska.

The president called upon department officials for a report upon the matter. A decision by First Asst. Secy. Frank Pierce of the department of the interior, now acting secretary, dated May 19, 1909, it is declared here, would have been listed and patented the Cunningham claims had not Atty. Gen. Wickersham overruled his action on an appeal made by Louis R. Glavis.

In this decision, addressed to the commissioner of the general land office and referring, it is declared in some quarters to the Cunningham case, Mr. Pierce said:

"I have to advise you that the act of May 20, 1908, was a curative act and should be liberally construed so as to further the object intended to be advanced by said legislation, namely, the consolidation of coal claims in Alaska. In the event of the completion of such entries prior to the passage of the act of May 28, 1908, with respect thereto, I am of opinion that to so limit the scope and purpose of the act of 1908 as to reduce the privilege of perfecting such claims under its liberal provisions, solely because of such previous arrangement or agreement is unwarranted and that in passing upon entries sought to

be perfected under the act of 1908, where the only objection thereto is an arrangement of the character specifically described in your letter, the same might and should be accepted and passed to patent."

After reciting the question at issue, Mr. Wickersham in his opinion overruled Mr. Pierce's said action.

"I am of the opinion that if agreement or arrangements mentioned in your letter were entered into by local owners of coal lands in Alaska after they had made their locations in good faith and in their own interest alone, such locations may, under the provisions of the act of May 28, 1908, lawfully pass to entry and patent, in accordance with the terms of said act. On the other hand, I am of the opinion that if such agreements or arrangements were entered into prior to such locations being made, such locations do not come within the premises of said act and cannot be lawfully passed to entry and patents."

## WOMAN ATTACKS AND ROUTS TWO HIGHWAYMEN

Chicago, Aug. 25.—While her husband, barricaded behind an umbrella, attempted to parley with two highwaymen last night, Mrs. Charles F. Thill, scornful of the frail barrier, sprang upon the startled robbers and wielded a hatpin with much telling effect that only an instant elapsed before the bandits were in full flight.

The attack occurred in front of the board of trade building.

"You take the little fellow, dearie," called Mrs. Thill as she leaped at the taller of the two men, "I'll try and look after this one."

Surprised by the suddenness of the attack the robber was hurled to the pavement and quick as a flash the long hatpin was jabbing him.

The robber was fighting a losing battle when he was rescued by his comrade, who felled Thill with a blow and then turned on Mrs. Thill. An instant later the men disappeared down an alley.

## LIFE IN GOLDEN GATE PARK

San Francisco, Aug. 25.—Bertha Rocha, a full-blooded Indian girl, 16 years of age, who has been a servant in the home of a Mexican woman for several years, left the house two days ago to camp among the trees in Golden Gate park, living on birds snared at the lake's rim, sleeping under the stars at night and dodging strolling visitors by day.

Her retreat was discovered when the light of her tiny campfire attracted the notice of a vigilant patrolman. Through an interpreter she said at the police station that she was tired of civilization and planned to build herself a home among the trees of Suto forest just south of the park.

label. These goods are on sale now at the prices quoted above, and those who buy plated ware take notice, as the circumstances which make this sale possible will probably never occur again.

It is our purpose to close out every piece of Rogers' plated ware we have in stock, and to do this we have quoted actual manufacturers' cost, and if buyers will take the trouble to compare our prices with those quoted by hardware and department stores and all other jewelers, the significance of this sale will be very apparent to the buyer.

We caution the shopper, however, not to confuse the brand we offer at this sale with any other Roger brands, as we are showing the highest grade Roger Bros. 1847 ware, and it costs more and wears longer than any other. We will, however, quote prices in competition on any brand made in America. We offer six complete designs—the "Vesta," "Berkshire," "Columbia," "Avon," "Vintage" and "Shell," and it must be apparent that only the early buyers will be able to get complete sets to match.

A word regarding Rogers' 1847 silverware: The name Rogers has stood for high class silver-plated ware since 1847, the time when Roger Bros. first began electroplating silver. Many of the descendants of these original Roger brothers embarked in the silver plated ware business under various "Rogers" brands, all assuming to be "just as good" as the original, but in spite of the claims none of them have produced the exceptional quality of ware made by the original "1847 Roger Bros." Company. and these inferior wares in the hands of unscrupulous dealers are constantly sold to the consumers as the genuine article.

We have never offered a piece of goods at a special price that was not a bonafide saving to our patrons in the face of any competition.
