Owners should not be Satisfied

To sell preferred stock in Utah-Idaho Sugar Company for less than par value (\$10 per share). The dividend of 17% cents per share per quarter will warrant such a price. Then the stock itself is growing in market value at a rate that suggests the wisdom of refusing to sell now. There are always some stockholders who need to sell. Consult us and keep posted as to real market price.

NOW IS THE TIME TO BUY. GEORGE M. CANNON COM-PANY, Rooms 512-513 Templeton Building. 'Phone Bell 57.

That a new ore body has been opened on the lower level of the Iron Blossom mine in Tintic was definitely stated

by an official of that company today; but just how important it will prove to be remains to be seen. The veln is about three fect wide and carries fairly about three teet wide and carries fairly good copper values in association with gold, silver and lead. It is on the strength of this find that there has been so much demand for the stock during the past day or two. It will require more work, however, to determine how important the strike really is.

THE CON. JEFFERSON

Annual Meeting of Shareholders Scheduled for Monday Next.

President Neiman of the Consolidated Jefferson Mining company expects to get returns from the initial car of gold re sent recently to the Pioneer sam pler this afternoon tomorrow and judging from what he had to say about it today, anticipates that the lot will today, anticipates that the lot will average anywhere from \$100 to $\frac{3195}{25}$ per ton. The second car, he stated, is being prepared and will be in the hands of the samplers in a few day. The Consolidated Jafferson mine is lo-cated near the mouth of Little Cotton-wood canyon, and the company has been convenue on a very concerned.

been carrying on a very energetic campaign for some time, and with most gratifying results. Next Monday is the day set for the

Next Monday is the day set for the munal meeting of shareholders, but inasmuch as Mr. Neiman has in his possession 700,000 out of the 1,000,000 shares capitalization, it can hardly be presumed that there will be any change nade in the personnel of the director

Two New Plants Now In Operation in Nevada District. The most important event of the week in the district, as a matter of fact, in the history thus far of this mining center, says the Seven roughs Miner, was the simultaneous starting up of the recently completed 10-stamp mills of the Seven Troughs Kindergarten Mining company in the town of Seven Troughs, and the Ma-zuma Hills Mining company, in the town of Mazuma. The im-portance of the event lies in the fact that the reduction of the mountains of rich rock within the boundaries of the district The most important event of the the fact that the reduction of the mountains of rich rock within the boundaries of the district has begun, and it is safe to predict that this country will attract even greater attention as a milling center than it has already as a producer of shipping and high grade ores. While the two mills were built for the treatment of the ores from the properties of the companies named, the management of both made it known in the beginning that they

SEVEN TROUGHS MILLS.

properties of the companies named, the management of both made it known in the beginning that they would treat custom ores, in order that other corporations not in a position to build such plants might receive a helping hand. Both plants run like clockwork, and it is quite apparent that they will make enviable records in the reduction of ore. The combined capacity of the two plants is 80 tons per day. Both have more than an abundant supply of water, and it is highly probable that both will be enlarged in the very near future. Since the starting of the two company mills, interest has been directed to the 10-stamp custom mill which Messrs. Smith and Demarest, capitalists of Stockton, Cal., propose to erect, work on which will soon

NEVADA DOUGLAS COPPER.

Supt. Arentz Makes Gratifying Report

To Manager Orem. The progress report of Supt. 8. S. Arentz of the Nevada Douglas Copper company, covering last week's oper-ations, has been received by General Manager Waltor C. Orem. The winze started from the 550 level was down 10 feet when Mr. Avente's statement was mulied and level was down 10 feet when Mr. Arentz's statement was malled, and a sampling of the bottom showed an average of 14.2 per cent copper. Good headway is being made in extending the south 550 drift and the results being obtained there are highly grat-ifying; average assays for the week being 5 per cent copper, while the north 650 drift shows a face of 5.6 per cent copper.

per cent copper.

A CRUDE PEOPLE.

Gloss over the situation as we will, the 221 fact remains that we are still a crude people in many respects. We have failed lamentably in the management 140

failed lamentably in the management of our cities. We have fallen into the evil habit of laughing at the smartness of thieving politicians and public afficers. We have not yet evolved in-to the first grade of truly enlightened self-government in the most intimate and essential relation of municipal administration. Police forces are on all sides regarded as properly under suspicion. Where is there a constabu-lary that is above reproach? Where is there a detective force that can with-stand honest and thorough investiga-tion?-Washington D. C. Star. 720

EDWARD L. BURTON 11 East First South. S. L. City.

PRODUCE. 100 1500 CHICAGO. CHICAGO. Chicago, June 3.—Wheat opened easy today because of the decline at Liver-pool, prizes there being off about 1 pence, Later the market became at at on buying by commission houses which was based on reports of continued rarge in the southwest. July wheat opened 4, 04, lower to a shade higher at 214 to 9142 and sold at 91% @91%. Cora was strong, prices being ap about 42. Wei weather in the corn belt and small local receipts were the check builtsh features, July corn opened 4, to 4, higher at 69 to 69% and sold at 69%. 2000 10 245 Oats, werd dull, but prices were firm long with other grains, July oats open-d $\frac{1}{2}$ higher at 47, and sold at 471% ed $\frac{1}{5}$ higher al 47, and sold at 47 $\frac{1}{5}$ @ 47 $\frac{1}{5}$. Provisions opened casy because of a 5c. decline in live hogs. Prices later advanced because of the strength of corn. July pork opened 5.07 $\frac{1}{5}$, lower at 13.65 and sold at 13.10. Lard was 2 $\frac{1}{5}$ c. lower at 8.50 and advanced to 8.55. Ribs were 2 $\frac{1}{5}$ sold at 7.45. The highert point for July wheat was 92 Later ithe market weakened on prof-it-taking sales. July declined to 31 $\frac{1}{5}$. The cose was barely steady with July a shade lower at 91 $\frac{2}{5}$. The cose shreng with July up 1 $\frac{2}{5}$ $\frac{1}{5}$ at 65 $\frac{6}{5}$ $\frac{6}{5}$ $\frac{6}{5}$ $\frac{6}{5}$ $\frac{6}{5}$ $\frac{1}{5}$ $\frac{1}{5}$ Sept. 88 $\frac{1}{5}$; Dec 89.
