Property of the Seven Troughs

Eclipse Extension Mining Co.

Goes to California.

CONSIDERATION IS \$25,000

SEVEN TROUGHS

6

A deal was closed in this city yesterday afternoon for the sale of the property of the Seven Troughs Eclipse Extension Mining company's property in the Seven Troughs, Nevada, district, to a syndicate of California capitalists. The consideration is said to be \$25,000. The extension group consists of three lode mining claims, which are located contiguous to the property of the orig-Inal Seven Troughs Eclipse Mining Mountain Lake, 500 at 32, seller 30; 500 at 33, seller 30. The California capitalists who have been successful in inducing the owners of the extension ground to dispose ers of the extension ground to dispose of their holdings have been negotla-ting for them for several months and when it is taken into consideration that very little development work has been done or the property, it is very evident that th purchasers have satisfied them-selves that the ground is very favor-ably situated, to pay the price asked. In speaking of the property today, Manager C. W. Watts of the Seven Tremerke Ecdines Mining company, stat-In speaking of the property today, Manager C. W. Waits of the Seven Troughs Eclipse Mining company, stat-ed that he considers the Extension group to be a very valuable one, that all that is needed to demonstrate this fact, is more development. A tunnel has been run into the mountain for one distance, and very encouraging old values have been found. The vendor of the property is the syndicate of Sait Lakers who organ-ized the Seven Troughs Eclipse com-pany. The Californians will shortly begin work on the ground acquired and push it for all it is worth.

ON MINING EXCHANCE.

Some Inquiry for Park City Stocks Today-Closing Quotations.

day—Closing Quotations. Trading on the mining exchange this morning began with the sale of Colum-tus Consolidated at \$2.07.1/2 and \$2.05. Daly found favor at \$2 and inquiry for Daly West was noted at a slight advance. Ontario came out at \$3.50. Just what caused the demand for the so-called Bamberger stocks, no one seemed able to explain, other than that encourasing news has come from the Onterio tunnel that satisfactory progress is heing made with the task of reclaiming that avenue. There was a faint suggestion, however, that is the one of the some significance to the trip of General Manager Ernest Famberger to New York at this time and that it may be that the consoli-dation scheme outlined by President J. E. Bamberger some months ago is being rounded out. There is noth-ing adminite about this though, and cannot be taken seriously at this time. Yet there may be good grounds for such a theory. With the possible ex-tention of Uncle Sam Consolidated. the Tintie stocks were about where they left off yesterday. South Colum-tus sold un to Sc cents and then back to 75 cents. Manager at \$2.5. The closing quota.

FARMERS CLAIM DAMAGES.

Yampa Smelting Company May Figure In Smoke Suits.

Several farmers residing in the Salt Lake valley have presented claims to the management of the Yampa Smellthe management of the rampa smelter ing company, operating a smelter in Bingham canyon, alleging damage to crops. It was ascertained from Gen-eral Manager Charles W. Saxman to-day that the premises belonging to the parties making the claims are lo-cated about 10 miles distant from the smelter.

smelter. Officials of the Yampa company do not believe that the operation of their smelter has caused a dollar's worth of damage in the valley; that the air currents of the locality are such as to carry the smoke off into the moun-tains and therefore it is an impossi-bility to inflict damage to any agri-cultural district. Being of this opin-ion, the claims will be denied.

WILL DISCHARGE RECEIVER.

Arizona Smelting Concern Straightening Out Fmances.

There is the best of information for the statement that the receiver recently appointed for the Consolidated Arizona Smelling company will be discharged within 30 days. At least application to secure his discharge will be made to the New Jersey courts by the company's principal creditors. As all the chaims outstanding against the company will in the meantime havé been settled, the discharge of the receiver is looked forward to as a certainty. The company, up to within the past two months, has been operating two coper reverbatory furnaces, and one blast furnace at Humboldt, Ariz, of a total capacity of 900 tons a day, or 300 tons a lead stack, which is at Milwaukee awaiting delivery. When in operation the company was netting \$90,000 a month. There is the best of information for the
