NEW LAW ON

LAND!

ALL parties wishing to enter land, under the new homestead law or to do any business connected with the Land Office, are requested to call on CHAS. W. STAYNER, at his office between the Salt Lake Herald and Squires' barber shop, as he attends to the securing of Pre-emptions, Homesteads, Desert Land and all other land claims in Utah.

MR. STAYNER'S Office will be pointed out to visitors by calling at the General Tithing Store, or the DESERET NEWS Office; and parties will find it to their advantage to see him and get information before going to the Land Office or elsewhere.

PATENTS

obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade-marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringements, and all cases arising under the Patent Laws, promptly attended to—inventions that have been REJECTED by the Patent Office may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, and engaged in Patent business exclusively, we can make closer searches, and secure Patents more promptly, and with broader claims, than those who are remote from Washington.

INVENTORS send us a model or sketch of your device; we make examinations and advise as to patentability free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.

We refer in Washington, to Hon. Postmaster General H. M. Key, Rev. E. B. Power, The German-American National Bank, to officials in the U. S. Patent office, and to Senators and Representatives in Congress; and especially to our clients in every state in the Union and in Canada. Address

C. A. SNOW & CO.,

Opposite Patent Office, Washington, D. C.

DAVID JAMES,

(LICENSED)

PLUMBER, TINNER,

Steam and Gas Fitter.

Respectfully announces that he has secured the agency for this Territory of W. H. Warner's low pressure

SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the ornament and crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by proper means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled:

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

SOLD EVERYWHERE.

TO RENT.

A HOUSE and LOT 4½ Blocks East of Deseret National Bank, 4 rooms and cellar, with water from main. Also Rooms Furnished or Unfurnished in Groesbeck Block, above Postoffice, and in Wasatch Building to let on reasonable terms. Apply to Groesbeck & Son, Box 442 Salt Lake City. 105

EASTERN.

Sheep Shipment.

BOSTON, 9.—The *Advertiser* says of the mouth and foot disease found in sheep sent to England: "The shipments have increased very largely of late. The *Victoria* sailing to-day, takes out 1,000, and it is not believe the English authorities in slaughtering the animals will disturb the business even temporarily, as the meat can safely go into market.

Off for Leadville.

NEW YORK, 9.—Martin A. Sullivan, of Jersey City, aged 18, sent by his mother to deposit money in the savings bank, disappeared, and inquiry among the youth's associates revealed the fact that he had gone to Leadville to look for gold.

Mormon Immigrants.

The steamship *Wyoming* to-day brought from Liverpool, 600 Mormons mainly English, Scotch and Swedes, the larger portion of the same being women. They leave for Utah this evening.

Activity in Trade.

The *Public* to-morrow gives a table showing the Clearing House exchanges for the week ending the 6th inst, as compared with the corresponding week last year. From this it would seem that the increase is still large and general, notwithstanding the week contained one more holiday this year than last. The following cities have gained: New York, 22 3-10; Boston, 3 10; Philadelphia, 13 4-10; Chicago, 58 9-10; Cincinnati, 13 7-10; San Francisco, 7 9-10; Baltimore, 7 4-10; St. Louis, 6 3 10; Louisville, 24, 7-10; Cleveland, 14 3-10; Indianapolis, 5 7 10; New Haven, 1 3 10; Syracuse, 38 4-10; Lowell, 7 2 10. The following have lost: New Orleans, 25 8-10; Milwaukee, 12 5-10; Pittsburg, 6 4-10; Providence, 15 6 10.

The *Public* in commenting on this exhibit says: "It does not appear that Milwaukee shares in the activity of trade which operations in grain have caused at Chicago; but it is probable that a considerable part of the increase at the latter city was due to the settlement of June contracts in wheat, rather than to any actual transfers of property. Neither here nor at San Francisco, however, were transactions materially affected by the speculative movements in stocks, and the volume of legitimate business in the strictest sense, appears to be unusually large for the season.

The Hebrew Convention.

The sixth council of the Union of American and Hebrew Congregations, resumed its session today, Rev. Dr. Silventhal, chairman of the special mission on a course of study from the Hebrew College, presented a unanimous report on the subject, in which he said he was happy to say all differences between the clergy had been settled. The report was adopted.

Rev. Dr. Mendes, chairman of the committee on a Union College, presented a report recommending the establishment of a college and erection of a building at Cincinnati, and adverse to the establishment of a branch college in New York, which was adopted.

The chairman of the committee on the Sabbath question presented a report pertaining to the preservation of the Sabbath institution, which was adopted.

A letter was received from Governor Seymour giving his views on the subject of land culture. He said he watched with interest the plan of the Catholic purchase to get the people into the country and to make their homes on farms. He deemed it a wise policy, and wise to have those of different faith so placed at the outset that they can keep their respective places of worship. He had no idea but the Hebrews would become good farmers. Recess.

After some discussion the report of the special committee relative to opening overtures for the employment and residence of Israelites in the agricultural districts of the country, was made the special order for to-morrow; adjourned.

Yellow Jack.

MEMPHIS, 9.—Frank Mulhrandon, an Irishman, aged 47, a shoemaker by trade, was taken sick last Saturday evening, and died to-day. A post mortem examination held by six of the leading physicians of the city, revealed the fact that the patient had died of yellow fever. All the physicians declared it a sporadic case. Considerable excitement prevails.

Wool Market.

BOSTON, 9.—The wool market is comparatively quiet. Supplies continue to arrive quite freely and stocks are now rapidly accumulating. Fine fleeces are neglected but medium grades and combings and delaines are still in very fair demand. Manufacturers are disposed to hold off, and sales could only be forced at concessions and the holders not inclined to press sales at present. California is in fair demand at 28 @ 32½ for spring. In pulled wools very little is doing, but the stocks are sold up close.

An Agent who Means Business.

WASHINGTON, 9. — A special agent of the Post Office Department arrested in New Mexico a mail robber belonging to a gang of Texas highwaymen. The Judge granted an order of removal to Texas for trial, but the United States marshal had no money to pay the necessary expense. He telegraphed the marshal of Texas, but the latter was in the same condition. The post office agent thereupon started for Texas with his prisoner, the stage companies carrying him on trust and the agent providing provisions for an 800-mile journey and guarding the desperado night and day himself.

WESTERN.

Western Walking.

SAN FRANCISCO, 9.—The six-day go-as-you-please walking match will begin at the Mechanics' Pavilion at 1 o'clock to morrow morning, for the following prizes: First, champion diamond belt, valued at $1,500 and $1,000 in coin; second, $750 in coin; third, $500; fourth, $250. The following parties have entered, drawing positions in the order named: C. D. Thompson, H. Norhoff, J. Bowman, J. A. Santes, W. H. Scott, J. Kennevan, P. McIntyre, Wm. Cherowith, J. Callahan, John Armstrong, John Macfarland, Frank Edwards. During the evening before the contest commences, several Piute and Bannock Indians will run a twenty-five mile race.

FOREIGN.

GREAT BRITAIN.

European News Notes.

LONDON, 9.—The revolt in the House of Commons on Monday night of a small radical section of the liberals, about 36 in number, against the Marquis of Hartington's authority as leader of the liberals caused a counter demonstration last night when the Marquis on rising, to support the motion of the government relative to a question of privilege, was received with loud and prolonged cheers from the liberal bencher.

Another series of trials for political offences will begin at Kieff on Saturday.

Contributions of Peter's pence for the first half of the present year amounted £28,000 compared with the corresponding period of 1878.

The troop ship *Orontes* having on board the body of the Prince Imperial was sighted off Eddystone light at 1 this p.m., and is expected at Spithead at midnight when the body will be transferred to the admiralty yacht for conveyance to the royal military academy at Woolwich.

A dispatch from Capetown, June 24th via Maderia, reports that Gen. Crealock reached Fort Chelmsford June 19th. A general advance was made on the 20th, and the Umlalazi river was bridged on the 21st. Gen. Newdigate has reached the Upako river. His advance guard is near Ibabanango. Col. Wood was expected to join Gen. Crealock in a few days. It is rumored that Cetewayo has withdrawn the regiment which was watching the first division, in order to defend Kraal. The Amatongas are preparted to enter into alliance with the British.

In consequence of the delay of the Porte in appointing commissioners for the delimitation of the Greek frontier, the Greek deputies have been convoked in extraordinary session on the 22d inst.

The request of Marshal McMahon to be permitted to attend the funeral of the Prince Imperial has been refused.

President Grevy will shortly pardon 1,468 political offenders.

The French Chamber of Deputies passed the educational bill by a vote of 352 to 159.

A Paris correspondent of the *Times* states: Everything tends to show that Prince Jerome Napoleon intends accepting the position of Prince Imperial.

The report of the sinking of a steamer on the river Doabs in a hurricane, with great loss of life, as reported on the 7th inst., is untrue.

A *Times* correspondent at Berlin telegraphs that soon after the arrival at Prince Alexander in Ternova a fire broke out near the Prince's palace, and destroyed forty houses. Five soldiers were killed.

GERMANY.

Tariff Discussion.

BERLIN, 9.—The debate on the tariff bill was continued in the Reichstag, to-day. Windthorst defendad Frankenstein's motion; to distribute surplus revenue among the Federal States. Bennigsen declared that if the motion passed he would vote against the tariff bill. Freidenthal declared his resignation as Minister of Agriculture was not caused by Frankenstein's motion, which he intended to vote for. It is believed the views of Dr. Falk, late minister of ecclesiastical affairs, are the same as those of Freidenthal's on this question.

Bismarck said the Liberals by their negative attitude had destroyed his hope of affecting an understanding with them. He had resolved to support Frankenstein's motion because he could not follow the course proposed by the other parties in the Reichstag. That course was but little removed from social democracy. He denied that the constitutional right of Parliament to vote supplies had been shaken.

He had felt himself abandoned more and more by the National Liberals, but he had not broken with any party. His constant endeavor was to maintain German unity. He considered that the financial pressure had been greatly alleviated, and he believed the present financial work would produce great blessings. Bismarck concluded by saying that he would pursue his work to the end, whether he reaped hatred or love.

Windthorst stated that the Centre party had neither asked nor obtained concessions. Their co-operation with the Conservatives depended on the conclusion of Kul-Conservatives to effect a revision of the May laws.

SUPREME COURT DECISION.

In the Supreme Court of Utah Territory, June term, 1879

Wm. F. Blake, appellant,
vs.
The Butte Silver Mining Company, respondent.

Appeal from the Third District Court.

Justice Boreman delivered the opinion of the Court:

The contest in this case is between the Oregon mining claim and the Butte mining claim. Both locations were made prior to the enactment of the law of 1872, respecting mining locations. The Butte was prior in time, as it was located on the 9th day of August, 1870, and the Oregon was located on the 20th day of September, 1871. The Butte claim was afterwards patented, and against the procuring of which patent the Oregon claimants did not protest. The surface grounds of these claims conflict, but the Butte lode and the Oregon lode are separate and distinct veins. The Oregon lode extends within the boundaries of the Butte location, and hence the respondent lays claim thereto. The respondent began work upon the Oregon lode, but within the boundaries of the Butte patent. Thereupon appellant obtained a temporary injunction, which, upon motion of respondent, was dissolved. From the order dissolving the injunction this appeal is brought.

A person who makes a valid location of a mineral ledge or lode and complies with the laws and the local mining rules in respect thereto, obtains a vested right to such property, of which he cannot be divested.

The act of 10th May, 1872, says "that nothing contained in this act shall be construed to impair, in any way, rights or interests in mining property acquired under existing laws." (17 U. S. Statutes at Large, p. 96, sec. 16. U. S. Rev. Sta'. sec. 2344.)

The law of 1872 says further that mining claims "heretofore located shall be governed as to length along the vein or lode by the customs, regulations and laws in force at the date of their locations." (17 U. S. Statutes at Large, p. 93, sec 2. U. S. Rev. Stat sec. 2320.)

Under the law as it stood prior to the act of 10th of May, 1872, there is no question as to what the relative rights of the parties would have been, for under that law each locator was entitled to but one vein, whereas under the law of 1872 he is entitled to all veins having the top or apex inside his surface lines. The only question is as to whether the law of 1872 changes these relative rights.

The application for patent was based upon a location made under the law of 1866, which gave the party but one vein, and prior to the law of 1872 the rights of parties claiming other veins, could not have been affected by any patent that the applicant could obtain. These rights of plaintiff to this separate vein being, by the last section of the act of 1872, as we have seen, expressly reserved and protected from any harm by that act, it was not necessary that he should protest. Had he protested, he could have secured no more than is secured to him by the law without his protesting.

Under the law of 1866 he had the right to the full length of his claim as located along the vein. As that right is not impaired in any way by the law of 1872, the appellant still has that right.

Nor do we see that it was necessary that he should have done work on that part of his vein embraced within the surface boundaries of the respondent. It is not denied that this portion of the vein was within his location claim. He had made his location, according to law and mining rules, and the doing of work upon any part thereof and being in possession thereof where such work was done and claiming to the full extent of his location, would be sufficient. The appellants therefore had under the statute the right to that part of the Oregon lode which entered the land of respondent, and the respondent had no right whatever thereto.

But the patent itself, which the respondent sets up as the basis of his action, does not purport to grant the Oregon vein to respondent, but it says that the grant is "subject to the right of other parties to follow any other vein or lode, with its dips, angles and variations legally held under a location made prior to such date."

If this provision had been left out of the patent, the position of the parties would not have been affected, as their rights are governed by the law. But when a patent is presented which, on its face, negatives the claim of the patentee to other valid locations, it would seem that respondent's want of title to any such other vein was clearly manifest.

For the reasons given, we think that the order of the court below should be reversed with costs.

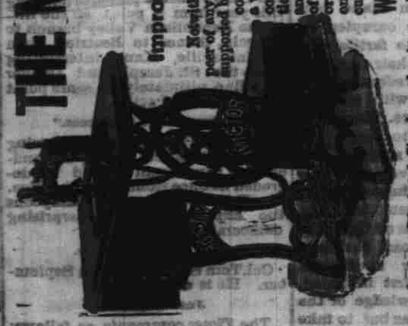
DAVID O. CALDER, Agent for Utah

THE NEW VICTOR.

SIMPLICITY SIMPLIFIED!

Improvements September, 1878.



Notwithstanding the VICTOR has long been the peer of any Sewing Machine in the market—a fact supported by hosts of volunteer witnesses—we now confidently claim for it greater simplicity, a wonderful reduction of friction and a rare combination of desirable qualities. In short—it's a beautiful specimen of mechanism, and there's work in it. Reader—We do not keep or assign Machines, therefore, have no old ones to patch up and re-varnish for our customers.

We Sell New Machines Every Time.

Most Elegant, Simple and Easy Running Machine in the Market.—The Ever Reliable VICTOR.

Send for Illustrated Circular and prices. Liberal terms to the trade. Don't buy until you have seen the

VICTOR SEWING MACHINE COMPANY,

Western Branch Office, 235 State St., Chicago, Ill. MIDDLETOWN, CONN.

O. H. RIGGS, Agent.
