LAND DISPUTE IN COURT.

Other Legal Business - Barlow-Golf Nuptials - News Briefs.

Special Correspondence. Provo, Utah Co., Jan. 25 .- The case of John W. Coburn vs Peter Constonzo came up for trial yesterday in the Fourth district court. Plaintiff alleges that in July, 1899, he entered into contract with the state of Utah to purchase certain lands situated in section 20 township 10 south, range 7 east, Salt Lake meridian, near Tucker, Utah coun-

ty, and that he is now the owner of said land, subject to the paramount title of the State of Utah. And that defendant claims a right to said land asserted by him to have been obtained from the state of Utah, which claim is unfounded; that defendant has wrongfully withheld possession of said land from plaintiff. Plaintiff asks that the title be quieted in him, and that he be awarded judgment against defend-ant for \$525, rents, issues and profits and \$250 damages. Defendant denies the allegations as to the agreement between plaintiff and the state of Utah, for the reason that he has not sufficient knowledge or information to enable him to form a belief as to their truth, and generally and specifically denies all oth-

#### PAROWAN.

EPIDEMIC OF MEASLES.

Death of Little Willie Taylor-Postponement of Court Session. Special Correspondence.

Parowan, Iron Co., Jan. 22.-District court was set for January 14, but on account of the disqualification of Judge Marioneaux to act upon a number of the cases it was adjourned until the 27th inst., further instructions have been received by the county clerk to again adjourn until Feb. 10.

But little snow has fallen in this vicinity this winter, although the weather bureau instructions are to hoist the fair weather flag. County Attorney Adams is endeavoring to influence the flagman to reverse the advice, and try that inducement for a more plentiful fall of the much desired snow.

EPIDEMIC OF MEASLES.

Parowan seems almost doomed for another siege of contagion. The Provo students who came home for the holidays brought an uninvited guest to our town in the from of measles. There are now about ten families combatting with the intruder, and every prospect of its continuing to spread.

DEATH OF WILLIE TAYLOR.

Willie Taylor, son of Henry and Mary Taylor, died this morning from inflammatory rheumatism. He was a noble little boy of nine years, and has exhibited wonderful patience and endurance, through his protracted illness. The parents are grief stricken. The people in general condole and sympathize with the bereaved.

Special Correspondence.

Mapleton, Utah Co., Jan. 24.—Aaron Johnson started for Raymond, Canada. yesterday, with a car load of stock and household goods. His family will follow in a few days. Mr. Johnson is known throughout the State as an actor of considerable talent, and teacher of elocution.

A reception and social party was given the old people Tuesday, when the usual good program, a supper and dance was entoyed. On Wednesday last a son was born to

Mr. and Mrs. John Whiting.
Our meeting house was filled with parents on Thursday evening in response to the call of the school teachers to hear a good program and wise counsel from Superintendent Brown and others.

### HUNTINGTON.

Surprised the Choir Leader with Banquet and Entertainment.

Special Correspondence. Huntington Emery Co., Jan. 23.—A conspiracy was hatched in Huntington yesterday, and the result was that last vening while a singing practice was in progress in the large meeting house a goodly number of the people of Huntington entered the house heavily laden with dainty viands. The affair was gotten up to surprise and honor Brothr Thomas Hardee, the efficient leader

of the Huntington choir.

D. C. Woodward, a member of the choir, in a neat little speech told the object of the meeting; then followed speeches, songs, recitations and reminescent addresses, followed with a ban-quet. The love and esteem shown for Brother Hardee is such that any man might well feel proud of. It was one of most pleasant parties ever held in Huntington. At the close of the affair the choir in a body went down to Brother J. F. Wakefield's and out on the lawn, and at nearly midnight they sang some of their beautiful hymns in honor of Sister Retta Wakefield, a member of the choir who has been sick for the last ten weeks.

One Death from Scarlet Fever-But One Family Stricken.

Special Correspondence. St. John, Tooele Co., Jan. 23.-In recent issue of the "News" a communi-cation from Clover misrepresents conditions at St. John. Your correspondent states "Scarlet fever has broken out at St. John, and several families afflicted with the malady." Now this is not the truth, and in justice to the people of St. John should be cor-rected. The facts in the case are these: Our district school teacher, Mr. Mc-Laughlin, and his family went away for the holidays and returned a few days before the school was to commence again, but his little son, about years old, was taken sick with what the doctor pronounced scarlet fever The house was promptly quarantined,

but his little boy died and the place is still under quarantine. No other family we are happy to say, has been afflicted with the malady, nor has there been any symptoms shown outside this one family. There was one other case in the same house. Mr. McLaughlin's lit-tic daughter, who is now declared past all danger by the attendant physician. Yesterday morning the infant son of Bro. Walter N. and Sister Maud Draper died of cholera infantum; the child had been ill but a day.

St. George, Washington Co., Jan. 22—
On Saturday night, January 18, at Nutter's ranch, on the way to the Grand Gulch copper mine, Clarence Leffler, a young miner from Deming, New Mexico, was accidentally shot while in bed by George Ashley, of this city. Full particulars have not been received, but as near as can be learned the young man had retired to bed as usual and Ashley had taken hold of a gun to put it away and in passing through the door of the cabin it was discharged and being in range with young Leffler the of the cabin it was discharged and being in range with young Leffler the ball entered his body near his left hip and lodged in or near the right shoul-der blade. As soon as possible they started with him to this city but he died on the way near Price, six or eight niles from here.

The young man is very highly spoken in this city by those acquainted with him as being very steady and temper-ate in his habits. Before he died he stated Ashley was not to blame, and that they were on the best of terms with each other. He also gave directions in case he should die that his father, William Leffler, now in charge of the telegraph office at Dening, N. M., should be notified, which was done. On the arrival of the body this morning cur county officials received instruc-tions to have the body embalmed and prepared for shipment which is now be ing done by Undertaker H. Pickett. To home-seekers that may be think-ing of coming to the Snake river country a description of this corner of the

country might be interesting. Lyman is situated on the south fork of Snake river, eight miles south of Rexburg, and (our miles southeast of Texas Switch on the St. Anthony branch of the O. S. L. R. R. The town (which is laid out ofter "Mormon" pioneer plans, with four rod street and sixteen feet with four rod street and sattern betwide sidewalks) is protected on the west by a very heavy belt of timber which breaks the heavy winds we sometimes have here. The soil is especially adapted for alfalfa; no trouble to raise two crops, and last season three groups were grown. Apples, pears, three crops were grown. Apples, pears, plums, and all kinds of small fruits grov. and ripen in abundance. Timber for building purposes is handy and plentiful; good building rock of a soft nature, rock that can be hewed into any shape with an ax is very plentiful The grain grown here is first class. The mills pay more for Lyman wheat than any other wheat grown in this

part of the country.

The people here have a neat little meeting house and the Church organizations are in good working order. The school house is a substantial building, and from the number and healthy appearance of the children that at-

### NOT HIS PATIENT.

Lord Morris, of the Irish Bench whose procedure is more noted for wit ing a case at Coleraine, in which dam-ages were claimed from a veterinary surgeon for having poisoned a valuable horse. The issue depended upon whether a certain number of grains of a particular drug could be safely adminis-tered to the animal. A dispensary doctor proved that he had often given eight grains to a man, from which it was to be inferred that twelve for a horse was not excessive

Never mind yer eight grains, doctor," said the judge. "We all know that some poisons are cumulative in effect, and ye may go to the edge of ruin with impunity. But tell me this: The twelve grains—wouldn't they kill the devil himself if he swallowed them?"

The doctor was annoyed, and pompously replied: "I don't know, My Lord; I never had him for a patient." hever had him for a patient. From the bench came the answer, "Ah, no, docther, ye niver had, more's the pity! The old bhoy's still alive."—Wave.
