It is to the United States Message Regarding Earl Li.

WILL PROTECT AMERICANS.

Russians Preparing to Leave Pekin-British Reluse to Do So - France and Japan May Unite.

Washington, Sept. 13 .- The Chinese government has made swift answer to the latest communication from the state department relative to the recognition of Li Hung Chang as an envoy competent to negotiate a peace settlement. There never has been any doubt here as to the sufficiency of La's credentials as a plenipotentlary, but the effort of the state department has been to cause him to use any extraordinary powers he might have for the protection of American life and property in China, pending a final settlement. It has succeeded in attaining this object as Indicated in the response from Li Hung Chang presented to Assistant Secretary Hill this morning by Minister Wu. The department asked Li Hung Chang "without further delay to give assurancee that the life and property of Americans will henceforth be respected throughout the Chinese empire."

WILL PROTECT AMERICANS.

The vicercy has given the assurance sked for. His word came in the shape of a cable dispatch to Minister Wu, dated yesterday at Shanghai. Mr. Wu called at the state department and presented this answer to Dr. Hill. He turn sent it forward to the President. It will be for the latter to decide whether La's assurance is sufficient to meet the needs of the case. It is believed if the powers can get together themselves and through com-

missioners arrange for certain common bases of compensation for certain classes of outrages, good progress can be made toward a figal settlement. however, if the attempt to secure unity of action in this direction is no more successful than that directed to the evacuation of Pekh the United States government will look to its own interest and appointing its own commissioners proceed to deal directly with

the Chinese commissioners.
It is believed here that Li Hung Chang already has been advised by Prince Ching of the urgent necessity for his attendance in Pekin to initiate the negotiations, hence his announced intention to sail tomorrow from Shanghai It was stated at the war department

this morning no other orders had gone forward to Gen. Chaffee touching a withdrawal. He is ready, however, and waits but the word from Washington to begin his march seaward. HOW IT CAME,

Minister Wu has received a cable-gram from Li Hung Chang answering the hope expressed in the American note of a few days ago that his powers are sufficient to protect American lives and interests in China. Earl Li says be has that power and will see that the protection is given.

THE HODGES KILLED.

Washington, Sept. 13,-Minister Conwashington, Sept. 13.—Minister Conger cables the state department, under date of September 6th, as follows: "Hodges killed Pao Ting Fu."

Minister Conger's dispatch was in answer to a cabled inquiry from the department as to the fate of Misisonary

Courtiand Van Rennselaer Hodge and wife, Elsie Campbell Hodge. The couple were natives of Philadelphia, and belonged to the Presbyterian mis-

## RUSSIANS WILL LEAVE.

St Petersburg, Sept. 13.-The Novoe Vremya says quarters have already been secured at Tien Tsin for Russian troops leaving Pekin. The paper adde that some detachments will march to Taku and remain there but the majority will return to Port Arthur or Ta Lien Wan for the winter. A dispatch from Sartov says that the

dispatch of batteries of artillery and the purchase of horses for the use of the Russian army in the far East have been countermanded.

## BRITISH REFUSE TO GO.

London, Sept. 13.—London's reply to the Russian proposition for the evacua-tion of Pekin was sent two days ago and as the Associated Press forecasted, Great Britain declines to evacuat previous to a satisfactory guarantee from the Chinese government for the fulfillment of certain conditions.

There is a general disposition here

to accept as mainly correct the state-ment that all the powers have now replied to the Russian proposal that Great Britain and Germany have declined to evacuate Pekin, that Austria and Italy have decided to be guided by Germany decision, and that the others hav agreed to a more or less modified with-drawal as defining the attitude of the powers. It is deduced therefrom, per-haps because the British wish is father to the thought, that the czar will ugree suits of the present negotiations look-ing to the establishment of a basis upon which peace settlements can be cussed and which are said to lated to maintain the unity of the pers, while satisfying both the advocaand the opponents of the withdrawal of the troops from Pekin.

SUGGESTED COMPROMISE

According to the suggested con promise arrangement it is proposed that the strength of the garrison of Pekin, which is to be international, is made dependent on the progress and charac-

ter of the negotiations with Ch With regard to the condition as Prince Ching has informed Chang, a certain power has namely, the neutralization of the creation of Heh Lang Kinns as a buffer state, that the powers shall place international garrisons at the treaty ports and the execution of the Boxer chiefs. Another dispatch from Shanghai say Manchuria has been suggested as a buffer state.

LI MUST GO TO PEKIN.

According to a dispatch from Shanghal received today another imperial edict dated Tchow, September 8, has been issued rearging Li Hung Chang to forthwith take the vice resal seat of the province of Chi Li to Pekin, there to co-operate with Prince Ching and General Yng Lu in the reestablishment of peace. In his decree the emperor assumes the responsibility for the events which have occurred in Pekin and does not blame Prince Tuan, (the father of the heir apparent), or Kang Yl. (the president of the board of war). The dispatch reiterates the assertion that there is strenuous opposition in all the foreign colonies to the acceptance of Yung Lu as a peace negotiator.

ROOSEVELT IN DAKOTA.

Gives His Views of the Attitude of the Democratic Party.

Watertown, S. D., Sept. 13.—The special train bearing the Roseveit party stopped this forencen at Castlewood, where Governor Rosseveit addressed a large crowd from the rear platform. A stop of an hour was made at Watertown, a small town in Coddington county, which enjoys the reputation of having sent more men to the Spanish war relatively to the popula-tion than any other county in the United States. The meeting was in the open air and Governor Roosevelt was

open air and Governor Roosevelt was followed by Governor Shaw, of Iowa, Senator Nelson and Colonel Lee Stover. Governor Roosevelt said in part:

With an efficient army which it is difficult to determine, certain of our Democratic friends have the audacity to say that they represent the principles of the founders of the Republican party. If they had any feeling or a drop of the blood that ran in the veins of the great original statesman who conducted the original statesman who conducted the country through the four years of civil war and then gave up his life that his country might live, they would turn with indignation from the candidate of Democracy who speaks about the con-sent of the governed as regards the Philippines, knowing that one of the chief chances of his election and the absolute triumph of his party consists in nullifying the doctrine in some of the Southern States which Lincols gave

I congratulate ourselves upon the fact that when we asked for the support of the people we did not have to say that though we are Republicans to the sympathic or the support of the people we did not have to say that though we are Republicans to say that though we are Republicans now it must be understood we are not like what Republicans were, but we are like what Democrats were. We form a party of coherent principles and now if the leaders of our party of 1866 were alive, they would find us quoting their words and acting up to their principles and rising up to bid them welcome in our councils. Our opponents say they belong to the Democratic party, but our councils. Our opponents say they belong to the Democratic party, but they have none of its old principles left.
