# STRIKING MILLMEN **RETURN TO WORK**

Number of Planer Operators Are Back at Their Posts, Turning Out Material as Usual.

### CARPENTERS STILL HOLD OUT

No Change Reported in Cigarmakers' Situation, With no Immediate Prospects for Settlement.

The situation in the planing mill strike is improving as far as the mills are concerned, with strikers manifesting a disposition to return to work. Is number of striking planer oper ators have gone back, and the carpen ters who were threatening to refuse to handle mill stuff turned out by nonunion men, have not done anything as The carponters inade a request, yesterday, for the mill men to meet yesterday, for the mill men to meet them for discussion, but as the latter have no controversy with the carpen-ters, they ignored the request, and there was no meeting. With western labor furning this way, both in mill and car-pentor lines, the local strikers are re-alizing that they made a mistake in listening to the voice of the labor agitator, "charmed he never so wise-iv."

NO CHANGE WITH CIGAR MAKERS

No CHANGE WITH CIGAR MAKERS The strike of the eigar makers con-tinues without any change. They still hold to their demand for the increase already started, and will not yield a jor. The manufacturers say that if the men persiat in the strike, the former will have to go out of hustness as man-ufacturers and deal only as jobbers for eastern made goods, as they can not pay the increase at present prices and make any money, as competition is very sharp with the eastern market.

#### NARROW ESCAPE.

#### Old Gentleman Barely Misses Being Run Down by Auto.

A careless automobile driver came very nearly running over an old man at the of Main and Second South streets this afternoon. A motorman witnessed this atternioon. A motorman windessed the narrow escape and took the matter up with the difver, who resented inter-ference reflecting upon his ability as a frank expert, and a crowd gathered to hear the quarrel. Fortunately the old man was not hurt,

"Shoo Fly" and many others. Salt Lake has long since recorded what it thought of Ethel Barrymore. Her last appearance here was in her delightful role of "Sunday" in the play of that name. As the prima deups in "Capitalo Jinks" she has a part which gives full chances both to her comedy gifts and her emotional talents. It is hard to say which of the two endowments is most fetching, but we rather think, recalling the dainty enisode with the reporters on larding in New York, that she is a comedienne, first of all. She looked beautiful in her opera dress in the final act, she was a dream of beauty.

beauty. Most excellently was she supported by one of Churles Frohman's prize organizations. Bruce McRae is a most natural actor and he won heav-ily with the audience as Captain

ily with the audience as Captain Jinks. Mr. Jeppson, well remembered as the father in Maude Adams' presenta-tion of "The Little Minister," did fine work as the old professor. Effice Ger-mon, a name that brings back mem-ories of the palmy days at Wailacks, was excellent as the aunt, and the Losser parts, sustained by Messrs. George Pauncefort, (son of the once well known actor of the same name). Mr. Gayer, Fanny Burt and Lucy Watson were well portrayed. The same bill goes tonight and to-morrow night, but no Saturday mati-nee will be given.

Orpheum-""The Henrietta" is in its closing nights and will be followed by "Alabama" Monday. The usual matinee will be given tomorrow afterarrest.

Graud-Laura Frankenfield in her sensational play "In the Shadow of the Gallows," will give the Saturday matrice and will close the week to-marrow sight morrow night. . . . . Lyric-The change in the bill of vaudeville is announced as usual for tomorrow afterneon.

Fine Beet Samples-George M. Can-non returned today from a visit to Canada, calling at Nampa, Idaho, on his return. He spent some time look-ing over the beet fields of the West-ern Idaho Sugar company and brought with him several fine samples of beets from the Nampa fields. They are astonishing specimens of the root, measuring 12 inches from tip to tip, and of fine proportions, something unusual for a plant at this time of year. It is estimated that the beets around Nampa and Payette are four or five weeks in advance of those grown in any other part of the west.

BALL FIXED AT \$1,000. Wilson was placed under bonds in the sum of \$1,000, and in default was committed to the county jail. Officers say that Wilson is demented, and that he imagines all the things he spoke about. Recently he was released from the Colorado prison where he had served a term of imprisonment for killing a man in that state. He had made threats, it is alleged, against Mr. Mc-Chrystal and others, and when he ary rived in Salt Lake was placed under arrest.

YOUNG WOMAN CONVICTED. The case against Pearl Evans, Mar-guerite Kayler, Louise Smith and Grace Taylor, charged with disturbing the peace on a Murray street car, was called for decision this morning. Judge Diehl held that the prosecution had failed to make a case against any of the defendants with the exception of the Taylor girl. The latter admitted that she had a child a year old and for this reason sentence was suspended un-tif tomorrow morning. In the mean-time the court will make an investiga-tion with reference to the case. Frank Connors was convicted of stealing a coat and a pair of trousers from F. J. ### AMUSEMENTS.

Theater-Ethel Barrymore is winding up what has been a beautiful season at the Salt Lake Theater, and if Manager Pyper had traversed the whole country in search of a bill which should leave a delicious taste in the mouths of his patrons, he could have found nothing more suitable than this particular actress in her charming play of "Captain Jinks." It is one of Clyde Fixons carlier - Sris, not possessing any great dramatic strength, but delightfully humorous, redelent with the atmosphere of the Grant and Greely days, and contain-ing numerous charming sketches of character. The ladies' costumes look-ed like so many fashion plates from Godey's Ladies' book of 1872, and the spirit of the times was diffused over the audience before the curtain rose by the orchestra's rendering such tunes of the day as "Captain Jinks of the Horse Marines." "Chambagne Charley." "Up in a Bailoon." "Tassels than this particular actress in her

Deal Involving \$70,500,000 Being Engineered to Control Chicago Traffic.

Chicago. June 21.—The Record-Herald today says: Final steps are being taken in New York to complete a \$70,500,000 railway coup which the Vanderbillis have engi-neeled to secure the lion's share of the tremendous traffic which originates in Chicago and the surrounding territory as well as the great tonnage which passes through and around Chicago. The culminating financial transaction in this great traffic deal, which H. W. Newman, president of all New York Central lines has been successfully playing in the interests of the vander-bilts, is the leasing, with right to pur-chase, of the outer belt lien from the Chicago Junction Railway company. Supplementing this is the leasing for a term of 99 years of a part of the tracks of the Chicago Terminal Trans-fer Railway company, which forms the connecting link in the complete linner belt railway system which the Vander-bilts are securing. President John A. Spoor of the Belt road yesterday confirmed the lease and declared that before the end of the year the outer belt line, which his com-pany new owns and operates, would pass entirely into the possession of the New York Central lines. When these transactions shall have been completed the Vanderbilts will have two comprehensive belt line sys-tems encircling Chicago, an inner and Chicago, June 21 .- The Record-Herald today says

2,500 50 2.800 225 525

When these transactions shall have been completed the Vanderbilts will have two comprehensive belt line sys-tems encircling Chicago, an inner and an outer belt, and both bisected by every line of railway that enters Chica-go or can enter it in the future. The outer belt is the Indiana, Hilmols & Iowa, known as the "Three I's" road. Another integral part of this great traffic coup, which the Vanderbilts have been quietly perfecting for the past five years is the Chicago, Indiana & South-ern road, which they have built directly south from Chicago to Danville, where it connects with the Big Four road. It is a part of the comprehensive traffic campaign which they have carefully planned and executed, to extend this system straight south to the Guif be-fore the opening of the Panama canal. Accordingly, when the canal is open-ed the New York Central lines will, through the expenditure of al least \$125,000.000 and possibly \$150,000,000, have the whip hand over the greatest ton-nage producing area in the world.
