THE HABIT NURSE.

Box Elder County Settlers Have Hard Time Standing Off the Rats.

The following is one of the two petitions, signed by 121 names, that were presented to the county commissioners this week, neither being granted:

We, the undersigned taxpayers of Box Elder County, desiring before your houses hold the following facts and petition:

The number of rats in our county have increased to such numbers as to be alarming, not only to the agriculturist, but also to those engaged in raising cattle and horses. This is especially true of the western half of the county.

In view of the past season's want of手段 of traps and grain, ranging for individuals, traps too often prove useless, have been discontinued.

That those, during the winter months, they gather in the lower valley, and when the weather becomes warm, the shepherds should be loaned traps.

That the authority of commanding them to collect traps and traps have been discontinued.

That the most commendable method of trapping will be to place a bounty at a reasonable price, to meet the expense of ammunition.

We have estimated it carefully at \$1.00 per trap, not to exceed maximum, and not to exceed minimum, to be moved for 18 months—Brigham Young.

Give me telephone 211, the Citizen, phone 4915. They will send us any advice and guarantee first class traps. Shop, 22 Main.
