## AMERICAN.

BALTIMORE, 17. — The strikers threw a freight train from the Baltimore and Ohio track this morning, damaging the engine and some cars, and injuring the engineer and fireman. There is some excitement here over the attack of the strikers upon the military at Martinsburg and the shooting of one of the strikers.

A special to the *Evening News* from Martinsburg, West Virginia, dated 12.30, says, the rioters are still firm and determined, and the presence of the military only serves to further exasperate them. The town is wild with excitement and the strikers and their friends, numbering at this time, fully 1000 men, are marching about bidding defiance to the military, and the authorities. Some 75 or 80 engines are congregated here, and none are allowed to depart. A committee from the striking firemen have notified the engineers that in case any engineer shall attempt to take a train out of town he will be immediately shot. At noon a cattle train bound for Baltimore, attempted to start, whereupon the rioters flocked on board, and with drawn revolvers placed at the heads of the engineer and fireman, compelled them to run the train into the stock yards, where the cattle were unloaded. The passenger trains are not interfered with, as the strike is entirely confined to the transportation men. So far the strikers have everything their own way, and the military are passive and awaiting further orders from the Governor, which, up to this time, have not come.

MARTINSBURG, 17. — Colonel Faulkner, with seventy-five men of the Berkly Light Infantry Guards, has arrived, with loaded muskets, and took charge of one of the west bound freight trains, and placing his men on board, attempted to move the train. The strikers and their friends had gathered in strong force, not less than 400 being on the scene. They were armed with every conceivable weapon, and as the train was about to start, they rushed upon it and uncoupled the cars. Colonel Faulkner called on them to disperse, but the orders were met with jeers and threats. The Colonel then threatened that he would order the soldiers to fire on them if they did not immediately desist. Scarcely had the words fallen from his lips when a fusillade of small arms was opened on the soldiers by the rioters. One soldier was wounded by a pistol shot, and the commanding officer immediately gave an order to the men to return the fire. The soldiers obeyed orders; the fire was returned, and one rioter killed outright, others were supposed to be wounded, as several were seen to be carried off the grounds by their comrades. This firing caused a scene of the wildest confusion, and several times the mob charged, but the military reloaded and stood firm, and the rioters were repulsed.

Later. — The rioters are still firm and determined. The presence of the military only serves to further exasperate them. The town is wild with excitement.

Seventy-five trains, consisting of 1,200 freight cars, loaded, and of which two-thirds are bound east, and one-third west, are held by the strikers. Between 500 and 600 head of cattle were on the eastward bound trains, a large portion of which has been turned into the stockyards or adjacent pastures. Many cars are laden with grain.

Governor Matthews is now at Grafton, with the Matthews guards, numbering sixty men.

PITTSBURG, Pa., 17. — The extensive foundry and machine shops of H. Hartupel, occupying a square on Short Street, between First and Second avenues, was burned this evening, beginning about 5 o'clock in the rooms for storing old patterns. All efforts to control the flames were useless, and the works are a total loss, many persons narrowly escaping with their lives, from the falling debris. The loss is very heavy, that on the patterns alone, of which there were thirty-five years' accumulation, reached \$100,000; while the total loss, on which there is said to be about \$75,000 insurance.

PHILADELPHIA, 17. — Wool, active, firm; Colorado washed 25 @ 30, unwashed 20 @ 23, extra and merino pulled 35 @ 38, No. 1 and super pulled 35 and 38, Texas fine and medium 25 @ 30, coarse

18 @ 22. California fine and medium 25 @ 35, coarse 25 @ 30.

DEADWOOD, D.T., 17. — The Black Hills Times publishes the following, this evening, as an extra. — We learn from Mr. John McKelvey, of St. Paul, that this afternoon, as the Bismarck stage arrived at a point two miles north of Bear Buttes and ten miles from Crook City, they came upon the bodies of two men and one woman lying in the road. The men were shot and scalped, and the woman was shot, scalped, and horribly mutilated. The murdered party were traveling by ox team. The contents of their wagon were scattered promiscuously around. The Indians, about twelve in number, after killing these travelers, attacked a party of teamsters who were corralled a few miles back, but ran away at the first fire. The freighters in coming in picked up the bodies of the two men and woman, and brought them to Crook City.

Placer Mine, No. 6, above Discovery on Deadwood Gulch, after a week's sluicing, cleaned up 320 ounces of gold dust, valued at about \$5,700.

NEW YORK, 17. — On Saturday night an obstruction, which barely failed of wrecking a train of eleven passenger cars, was found on a bridge, thirty feet high, between Jamaica and Long Island City, on Long Island. It consisted of a bar of iron fastened across the track by a log of wood. Thomas Kelly, a lad of fifteen, confessed that he, with three others, had put it there, proposing to throw the train into the creek and plunder the dead and wounded. They expected at least twenty would be killed. Kelly's father is serving out a life sentence for murder.

SAN FRANCISCO, 17. — A press dispatch from Boise City says, battery B, mounted as cavalry, commanded by Capt. Hasbrouck, and Lieutenants Ennis, Chapin, Hammond and Wilson, arrived here today. This company consists of sixty enlisted men. The horses are of the largest size, and unfit for mountain travel and rough campaigning. It is the opinion of the officers here, as well as that of others, that the horses will give out, and the men be left on foot after a few days' travel in the mountains.

Lieut. Wilson, with twenty Indian scouts, from Fort Hall, arrived here a few minutes before Captain Hasbrouck. These are the last of the troops which are to come this way without change of orders.

Fort Boise will be left without a garrison, and the whole of Southern Idaho without troops.

NEW YORK, 18. — A city manufacturer has received orders for two large hand fire engines, to be shipped to Pekin, China.

As the warm weather approaches the deaths rapidly increase, especially in the squalid tenement quarters. These portions of the city are in an exceedingly filthy condition, and as long as they are permitted to remain so, disease and death will prevail.

The steamship *Queen* was boarded by special agent Brackett, yesterday, and the storekeeper, Chas. Longbottom, was arrested for complicity in the recent extensive silk and lace smuggling frauds. He confessed, and Commissioner Shield held him in \$2,000 bail. He is the tenth employee of the National Line that has been arrested for assisting in the smuggling.

During the storm, to-day, lightning struck a shed at North Bergen, N. J., killing Mrs. Sandow and her baby, ten months old, and Frederick Muller, a boy of fourteen years.

A Washington dispatch states that the governor of West Virginia has telegraphed for United States troops to reduce to order the riotous strikers on the line of the Baltimore and Ohio Railroad.

The recent removal of John P. Bigelow, the treasury agent, for conducting the syndicate operations in London, is said to have grown out of charges against him of having brought several trunks of dutiable goods with him on his last visit home without paying the custom charges.

CINCINNATI, O., 18. — The affairs of Carter County, Ky., are still in an unsettled state. A young man named Hammon, was shot there on Saturday by some of the Underwood party. All of the prisoners arrested by the militia were tried and acquitted. The civil authorities were unable to enforce the laws since the withdrawal of the militia.

BY UNIVERSAL ACCORD, Ayer's Cathartic Pills are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative pill that medical science can devise. Being purely vegetable no harm can arise from their use. In intrinsic value and curative powers no other pills can be compared with them, and every person, knowing their virtues, will employ them when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild, but effectual, cathartic is required. For sale by all dealers.

THE Mitchell Wagon is acknowledged by farmers and freighters to be the lightest draft and has more marked improvements suited to the wants of Utah than any other wagon on the coast. Mattison & Johnson, sole agents for Utah. Call and see them.

MATTISON & JOHNSON,

## The Graefenberg MANUAL OF HEALTH.

It contains 300 pages, handsomely printed on fine paper, and is written in language plainly understood by every one.

# Gentaur Liniments.

One kind for the Human Family.  
The other for Horses and Animals.

These Liniments are simply the wonder of the world. Their effects are little less than marvelous.

The White Liniment is for the human family. It will drive Rheumatism, Sciatica, and Neuralgia from the system; cure Lumbago, Chills, Croup, Palsy, Cholera, and most Cutaneous Eruptions; it extracts frost from frozen hands and feet, and the poison of bites and stings of venomous reptiles; it subdues swellings and alleviates pain of every kind. When sprains or bruises occur, it is the most potent remedy ever discovered to heal the injured parts. The Centaur Liniment is used with great efficacy for Sore Throat, Toothache, Caked Breasts, Ear-ache, and Weak Back. The following is but a sample of numerous testimonials:

"INDIANA HOME, Jeff. Co., Ind.,  
May 28, 1873.

"I think it my duty to inform you that I have suffered much with swollen feet and chafes. A few bottles of Centaur Liniment has done the work for me. I have not been free from these swellings in eight years. Now I am perfectly well. The Liniment ought to be applied warm."

BENJAMIN BROWN.

"The proof is in the trial. It is reliable, it is handy, it is cheap, and every family should have the White Centaur Liniment."

The Yellow Centaur Liniment is adapted to the tough muscles, cords and flesh of horses and animals. It has performed more wonderful cures in three years of Spavin, Strain, Wind-galls, Scratches, Sweeney, and general Lameness, than all other remedies in existence. Read what the great Expressmen say of it:

"NEW YORK, January, 1874.

"Every owner of horses should give the CENTAUR LINIMENT a trial. We consider it the best article ever used in our stables."

"H. M. RSH, Supt. Adams Ex. Stables, N. Y."

"R. PUTZ, Supt. U. S. Ex. Stables, N. Y."

"ALBERT S. OLIN, Supt. Nat. Ex. Stables, N. Y."

The best patrons of this Liniment are Farriers and Veterinary Surgeons, who are continually using some Liniment. It heals Galls, Wounds and Poll-vill, removes swellings, and is worth millions of dollars annually to Farmers, Livery-men, Stock-growers, Sheep-raisers, and those having horses or cattle.

What a Farrier cannot do for \$20 the Centaur Liniment will do at a trifling cost. These Liniments are sold by all dealers throughout the country. They are warranted by the proprietors, and a bottle will be given to any Farrier or Physician who desires to test them.

Laboratory of J. B. Rose & Co.,  
46 Day St., New York.

# Honey.

Pitcher's Castoria is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. Few remedies are as efficacious for Feverishness, Croup, Worms, and Whooping Cough. Castoria is a scientific and purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, Conn., May 3, 1876.

MEERS, J. B. Rose & Co., N. Y.

Gents: I have a family of eight children and have used as much CASTORIA as any family in the United States. I think I have never found anything equal to it. My children have been saved from a fever several times by the use of Castor Oil. I recommend its use for children, for many diseases they are subject to, in preference to any medicine I know of. I feel it my duty to give this certificate on account of the benefits I have derived by the use of CASTORIA. Very truly yours,  
NORMAN P. LITTLE.
