

# MINING, BUSINESS AND STOCKS.

## METAL MARKET IS IMPROVED

Settlements Made Today on Basis of Silver at 50¢ Cents.

## COPPER GOES UP TO 14 CTS.

Was the Talk of Second South Street This Forenoon—Much Gratification Expressed.

The metal market is in a better condition today than it has been for some time. The quotations posted this morning show that silver has advanced to 50¢ cents. Copper is up to 14¢ cents per pound and settlements made for ores today were on that basis.

Naturally, the good news was occasion for much comment among mining men today and the expressions made indicated the well founded belief that the metals are going to hold to the better price for an indefinite period. Of course, there may be some fluctuation, yet a radical decline is not anticipated.

The stimulation of the metal market foretells unprecedented activity in the mining camps of Utah and surrounding states this year.

Lead will be quoted this week as usual, at 35¢.

## ON STOCK EXCHANGE

Market Opened in Somewhat Better Form This Morning.

In some respects the mining stock market opened in better form this morning. At any rate, it was no worse off than it was at the close of last week. The business transacted was fairly good, but few of the high priced stocks participated in the trading.

Eagle & Blue Bell was in strong demand again and at better prices. The first block offered was taken up at \$1 per share and 1,500 shares were taken at prices ranging up to \$1.01 per share. Lower Mammoth was also in favor. Considerable interest was centered upon Uncle Sam, when that stock was called into the pit and it was traded freely. Walrus was considerably higher, while Yankee Con. fell into the hands of a buyer at 35¢ cents.

On the open board Naldriver sold at 10¢. Majestic was offered, but not taken. Ben Butler was bought at 9¢ cents.
