LETTER FROM MR. DAVIS.

Defines His Position Toward the Laboring Class.

Roanoke, Va., Aug. 18.-The following etter from H. G. Davis, the Democrat-

letter from H. G. Davis, the Democrat-ic condidate for vice president, has been made public here: "Elkins, W. Va., Aug.15, 1904.- Mr. I. V. Johnson, Roanoke, Va.,-My Dear Mr. Johnson: I am giad to have your letter calling my attention to the pub-lication placing me in the attitude of hostility to the laboring class. No one who knows me personally or is at all acquainted with the circumstances of who knows me personally or is at all acquainted with the circumstances of my life, will put any credence in the statements to which you refer. I think I can well claim that I belong to the laboring class. For many years I worked in the ranks as a wage-carner, and I know what it is to earn my liv-ing by the sweat of my brow. On the other hand, I have been a large em-ployer of labor, in railroads, coal mines, ployer of labor, in railrosds, coal mines, lumber mills, etc., and have never had any serious trouble with out men. I can recall but two instances in which there were strikes, and these were of there were strikes, and these were of short duration and peaceably settled. No man has ever been discharged from our service because he was a union man, or been evicted from a company's house for any reason. I think you will find that the conditions of the railroad man and the miner in connection with the enterprises I have directed will the enterprises I have directed will compare most favorably with those in

other localities of the country. "I have slways believed, and my con-viction came from the hard school of experience, that, measured by the character of the work he does and the cost of living, every man is entitled to full compensation for his services. "I am charged with having instituted proceedings which led to an injunction against strikers, by Judge Jackson of this state. The fact is, I had nothing whatever to do with the case, and knew

orbhing about the matter until I read of it in the newspapers. The injunction did not apply to the men in our em-ploy nor pertain to them i nany way. On the contrary, I remember on one occasion one of our superintendents sug-gested an injunction against our men. and I declined to consider it. H. G. DAVIS."
