PROSPECTS FOR DUBOIS RESOLUTION

They Are by No Manner of Means As Bright as Idaho Man Would Like.

STRONG MEN ARE OPPOSED TO IT

Among Them Are Chairman Daniels Of the Platform Committee and John Sharp Williams.

(Special to the "News.")

St. Louis, Mo., July 7.-The sub-committee on platform met last evening and were in session until a late hour. They resumed their labors this morning, but have not yet reported to the comittee, and it is doubtful if their

work will be completed today. Senator Dubois is a member of the sub-committee and has presented the resolution referred to yesterday, but it is practically certain that it will not be

The chairman of the committee, Senator Daniels, as well as John Sharp Wil-Hams, is very much opposed to the resolution offered, and it is confidently expected to meet defeat.

Bryan is still idolized by the people and the delegates all honor him, but it is questionable if they at this time will follow his lead. Hill is still in the saddle and has a strong following in Balley and Daniels.

THE COMMITTEE ON RESOLUTIONS AT WORK.

Convention Hall, St. Louis, July 7 .-The sub-committee on resolutions con-tinued its work on the platform today but was slow in getting to business. Mr. Bryan and one or two others were absent but the committee decided to proceed in their absence with the con-sideration of the questions in which they are not especially concerned. Ac-cordingly an irrigation plank, present-ed by Mr. Newlands, was taken up and after its merits were presented by the Nevada senator it was tentatively adopted. The consideration of the proposed statehood declaration was then entered upon and the question dis-cussed at length. A plank for separate statehood for each of the territories was inserted.

During the forenoon ex-Senator Towne was admitted to the committee room to present a petition, signed by 10,000 persons, requesting the insertion of a plank declaring for the independence of the Philippiens when prepared for self-government. The committee agreed upon a plank declaring for the election of senators by direct vote of

The prospect is that the sub-com-

mittee will not be prepared to make a complete report when the full committee meets at 2 o'clock.

S. H. Cowan of Port Worth, Texas, was admitted to present the following proposed plank in the interest of cattle shippers:

tle shippers:
'We favor such amendments of the act to regulate commerce as will af-ford to the public and to shippers a speedy, adequate, effectual and in expensive remedy again unreasonable or otherwise unlawful transportation

Mr. Cowan addressed the committee for five minutes in support of the pro-position, saying among other things; "The railroad interests have com-bined to such an extent in making rates and otherwise that little or no competition exists, and this has made it impossible for them to increase rates

from time to time so that they are generally higher than at any time in many years past.

James Fullerton of Red Lodge, Mont., presented a plea for a plank in denun-ciation of the president for permitting the sale of liquor in the Yellowstone National park contrary to law. He claimed to have affidavits and photo-

claimed to have aminavits and photographs in substantiation of his charge.

The committee at noon entered upon the consideration of the question of trusts and monopolies, and Mr. Bryan made a strenuous plea for the reaffirmation of the Kansas City platform on this point.

PARKER MEN CONFIDENT AND WORKING QUIETLY.

St. Louis, Mo., July 7.—At the Parker headquarters lieutenants of David B. Hill worked quietly this morning, and with confidence that bespoke a knowledge of sure victory. Senator Hill resiterated his statement that he was making no attempt to nominate Judge Parker on the first ballot. It was sufficient to know that he could be easily nominated without creating friction by shutting out favorite sons. All the can-

nominated without creating friction by shutting out favorite sons. All the candidates should be presented to the convention and voted for on the first ballot, he argues, and that will probably be the course pursued.

The fact that New Jersey this morning finally voted to cast its vote for Parker, however, made it apparent that Mr. Hill's program may be shattered, for that course left the opposition with apparently less than a third of the convention on the first ballot.

At Tammany's headquarters Mr. Mur-

At Tammany's headquarters Mr.Mur-phy said that he still believed Mr. Parker could not be nominated. It was said that the opposition had agreed to concentrate on McCleilan. Mr. Murphy

"I cannot say as to that, but I am in the same frame of mind as yesterday and the days previous, as to the candi-

dacy of Judge Parker."

It was said about the lobbies that a concentration on McClelian was being suggested, but that only Missouri and Wisconsin had shown any signs of assertice.

when the alleged concentration was told to Senator Edward Murphy, Jr., at New York headquarters he said:
"In the face of the fact that the Massachusetts delegation passed a resolution early today to stand on every ballot for Olney it is evident that such talk is ridiculous. In addition, Mr. Hearst's delegates are pledged and will not desert him in any large number while the Gray men in Delaware and the Wall men in Wisconsin will not desert their candidates. Judge Parker will surely be nominated."

When Convention Adjourns. Convention Hall, St. Louis, July 7.— When the convention adjourns today it will be until 10 o'clock tomorrow, when the committee on platform will be ready

and shows little sign of diminution. Sig-nificance of demonstration seems lost. as the whole convention is now in an uproar, Georgia's banner now going up main aisle surrounded by frantic cheering crowd.

Demonstration for Bryan.

St. Louis, July 7.—When Bryan entered the hall at 2:16 a demonstration was commenced that lasted 10 minutes. The demonstration was provoked by the raising of the banner by Nebraska. The standards of Missouri, Iowa, North Dakota and Kentucky were carried to Nebraska's aid amid a tremendous din.

GOOD WHEAT.

Dry Farmer Exhibits Samples Raised Without Irrigation This Year.

John Hirst of the Fifteenth ward came in from his dry farm, situated above the Utah & Salt Lake canal, this morning, with some excellent samples of wheat grown on 15 acres of land not under water. The straw exhibited was over 2½ feet in length, while the ears were fully developed like any grain that has been under irigation. Mr. Hirst says that he expects to reap about 20 bushels an acre from the field, which is absultely free from any average. is absolutely free from any appearance of smut. Taken all in all he says that this season promises to be the best for five years past for the dry farmers.

CLASS FROM UTAH.

Deaf and Dumb Students May be Sent To the World's Fair.

State Supt. of Schools Nelson is endeavoring to make arrangements to send a class of pupils from the deaf and dumb school to the world's fair. The officials of the fair are very anxious to have a class sent from Utah, as other states have done likewise. A conference will be held with Governor Wells in regard to the matter, and some way will probably be provided for sending the class there.

KANSAS THREATENED WITH BIG FLOODS.

Half of Armourdale is Under Water From Overflow of the Kaw River.

FAMILIES IN LOWLANDS MOVE.

Wichita Worse Flooded Than Ever Before in Its History-People Forced to Vacate Homes.

Kansas City, July 7 .- One half of Armourdale, the packing house town in the suburbs of the Kansas side, is under water, from the overflow of the Kaw riyer. The water is still rising at a rapid rate and conditions approaching the great flood of 1903 are feared. The lowlands of Aregentine and Rosedale, other suburbs, also are flooded, and hudreds of laboring people have left their homes.

West of Kansas City along the Kaw that stream is headful and dolong great.

West of Kansas City along the Kaw that stream is bankfull and doing great damage at North Topeka, Lawrence and at other points, and its tributaries are rising. There has been almost incessant rain in this part of the southwest for five days and for a month past heavy rains have fallen intermittently. All last night a steady down-pour of rain fell here and in many parts of Kansas, and today it continued.

The first rise in the Kaw came at Armourdale at midnight, when water began running through a large dyke built across a new channel made by the flood last year. Families in the low-

flood last year. Families in the low-lands began to move and when later breaks appeared at three other places there was a general movement toward higher ground. Morning found the water still on the rise and gradually spreading over the town until one-half of the place was under from one to five feet of water. Today the water had reached the live stock exchange and drove the occupants from the basement

Forecaster O'Connor, however, while Forecaster O'Connor, however, while predicting that the Kaw would continue to rise for another 24 hours, said that there hardly would be a repetition of last year's disastrous flood. He is confident that the Missouri river will be able to carry off the excess water without any great damage resulting.

Railway traffic west of here is badly demoralized.

WICHITA'S WORST FLOOD.

Wichita, Kan., July 7.—Wichita is flooded today worse than ever before in its history. The dikes at several places along the Little river gave way before the rush of water, and it poured down Waco avenue, one of the principal resident streets, in a raging torrent, becoming waste deep. On Main street the Baltimore hotel was flooded and the water is flowing swiftly within two blocks of Douglas avenue, the main business street. People living within seven blocks of the Little river have been forced to vacate their homes.

THE KAW IS RISING. WICHITA'S WORST FLOOD.

THE KAW IS RISING. Topeka, Kan., July 7.—At the Kaw river guage today the water is above the 22-foot mark and rising slowly. In North Topeka the water is running through the principal streets knee-deep and the town is deserted. All last night

and the town is desired. At his man a constant stream of humanity poured across the big Meian bridge to higher ground on the south side. The well to do class of people stacked their household goods in the upper stories of their homes and fled.

The poorer classes driving their livetheir homes and fied.

The poorer classes, driving their live-stock before them, carried what of their goods they could upon their shoulders. The merchants and millmen worked all night getting their stock to safe quarters. Boats are being used.

hold goods from the suburbs of Kansas City, Kan., along the Kaw, while in the west bottoms near the Missouri-Kansas' line thousands of dollars' worth of goods were either removed from the district or placed upon upper floors. Over 3,000 people fled from Armourdale, many of whom were forced to leave their belongings. Communication between Armourdale and Argentine is shut off except by boat, and only a few boats are being used because of the swift current. Water in the packing houses caused an almost total suspension in those plants and packers stopped sion in those plants and packers stopped buying stock.

IN CONVENTION HALL.

Immediately after the Invocation, Chairman Williams called for the re-port on rules and order of business. "The gentleman from New York is recomined."

As he concluded Delegate Thomas Grady reported for the committee as heretofore published. The report was adopted without opposition or discus-

Mr. Grady next read the report con-cerning Porto Rico and the Philippine Islands, accrediting the delegates from Porto Rico. Demands to have the re-port read were shouted from the Min-nesota and Wisconsin delegation. Chairman Williams sharply reprimanded the persistence of the demand, saying the report would be read if the delegates would allow it by keeping quiet.

PHILIPPINE DELEGATES. The chairman said: "This is a most important matter. We are about to determine whether the Philippine dele-

gates shall be entitled to vote in our national convention, or whether at the same time we declare the Philippines should not be a part of the United States. I therefore urge you to be quiet, that the motion may have full consideration Senator Jerry South, of Arkansas, noved to amend the report as soon as t was read, so as to make it include

the Philippines.
L. Irving Handy made the point of order that the Philippines were not part of the United States, and therefore the mendment was not germane. Mr, bouth defended the rights of the Phil-ppine delegates but finally withdrew

ippine delegates but finally withdrew his amendment, arguing for the adoption of the report.

Mr. Grady said the national committee had decided to include Porto Rico in the call for the convention.

The convention had to consider the question as to whether these delegates had the right to vote. The supreme court of the United States decided that Porto Rico was a part of the territory of the United States. The same court has decided that the Philippines was not a part of the United States. The committee had followed this court and given Porto Rico votes and withheld votes from the Philippines.

He declared that it had never been a part of Democratic doc-trine to consider the insular possessions as part of the United States, and he was opposed to such action. He dep-precated the idea of holding the ques-tion in abeyance until the report of the ordentials committee was received, and ask the convention to yote down and ask the convention to vote down that part of the committee's report.

CALLS FOR QUESTION.

There were loud calls of "question," but the chairman again recognized L. but the chairman again recognized L.

"If the gentlemen will remain quiet," said the chairman, "the chair can put it quickly."

On a viva voce vote the "ayes" were in a strong majority. Senator South asked for a roll call, but this was heavily voted down by a viva voce vote. "The roll call is declined," said the chairman with a thump of the gavel. "The chair recognizes the gentleman." "The chair recognizes the gentleman from Porto Rico to express his thanks to the convention," called the chairman as A. W. Mollina of that delegation rose in his seat.

There were numerous interruptions and calls for recognition but the chair-man silenced them and Mr. Mollina took the platform. Mr. Mollina spoke briefly and received a ripple of ap-plause as he concluded.

CRIES OF LOUDER.

Chairman Williams endeavored to state that the clerk would make An an-nouncement, but was interrupted by cries of "louder."

'In the day when the Angel Gabriel "In the day when the Angel Calorer shall stand on the highest mount of the world." said the chairman, "and with a megaphone shall announce the crash of creation, there will be somebody to interrupt him by crying 'louder."

The chairman then announced that the permanent organization committee was not ready to make a report, and desired a conference of the committee. Because of the wretched acoustics of the hall, Chairman Williams requested the chairman of the New York and Illinois delegations to repeat all announcements.

BARTON'S STORE.

Sacrifice!

We Propose to Close Out the Balance of Our SPRING and SUMMER STOCKS at a Great Sacrifice.

IT'S BUSINESS.

WE COMMENCE TO DO IT TOMORROW AT 9 A.M. Carried-Over Goods would be a poor claim for patronage next season. We close out each season's goods in the season for which they were made. Of course, to do this, we must be willing to accept a loss, and a most severe one, too. We now offer our entire stock of Men's, Boys' and Children's Clothing. Hats and Furnishings at SACRIFICE PRICES.

Our \$15, \$18, \$20, up to \$25 Suits are in this Sale at the Sacrificed Price

ONE PRICE TO ALL.
