

2

the union. Several months ago the men demanded a 10 per cent advance but were refused.

#### MACHINISTS' STRIKE ENDED.

Cincinnati, Ohio, July 15.—The machinists' strike was practically ended today by the return of more than 2,000 workmen to their various shops. The strike managers have announced their intention of conceding their attack upon certain plants while permitting men to work at other places for the purpose of obtaining funds. One of the plants designated to be fought against was that of the Pay-Egan Company. Today over 600 of the Pay-Egan employees formed in line and marched in a body to their work, thus destroying the strongest hope of the leaders. The manufacturers feel assured that nothing can restrain the remaining strikers from returning to work.

#### MACHINISTS TO RETURN.

Wilmington, Del., July 15.—The striking machinists of the Harlan and Hollingsworth company to the number of 119 returned to work this morning in accordance with the agreement reached, at an advance in wages of \$1 a week for those who had been receiving \$13 a week or over, and fifty cents for those who had been receiving under \$13. The men to work 55½ hours per week during the Saturday half holiday season and 50 hours a week during the rest of the year. The striking machinists of the J. Morton Poole company are still out, but that firm refusing to make the slightest concession.

#### NOT A WHEEL TURNED.

Youngstown, Ohio, July 15.—Not a wheel was turned this morning on any of the plants of the American Sheet Steel company or the American Steel Hoop company in the Mahoning valley. The Sixth district is the strongest, numerically, in the Amalgamated Association, and the men are a unit in observing the strike order issued by President Shaffer. The steel hoop company has five plants in Youngstown, Girard, Warren and Greenville, and sheet steel combines have four in Struthers and Niles. All are organized. Vice President Ward Sunday organized the men in the four plants of the Niles Sheet Mill company.

#### 300 MEN OUT.

Niles, Ohio, July 15.—As a result of the strike order issued by the Amalgamated Association the 300 men employed by the American Plate Company here did not return for work today. The plant of the American Sheet Steel company here has been closed since July 1, but preparations have been under way for an early resumption of work. Now, however, the men, it is said, will not return until the strike is settled. About 1,600 men are employed at the plant.

#### TIN PLATE MILLS CLOSED.

Anderson, Ind., July 15.—The Tin Plate mills here were closed this morning. All members of the Amalgamated association obeyed the strike order and 500 men are idle here.

The mills at Madison, Ind., are shut down by the strike.

At Elwood the strike order in the mills of the American Tin Plate company, was obeyed without question. Work was suspended this morning, two thousand being affected.

#### MEN OUT AT CLEVELAND.

Cleveland, Ohio, July 15.—Between four and five hundred men employed at the Crescent tin plate mills in this city obeyed the strike order of President Shaffer today and the plant is practically idle. The Crescent is the only plant affected in Cleveland by the strike order. It is controlled by the American Tin Plate company.

#### WANT INJUNCTION DISSOLVED.

Cincinnati, Ohio, July 15.—Notwithstanding the great defeat in the strikers' ranks the injunction proceedings set for hearing today before Judge Clark of the United States district court, were not delayed. A motion by the defendants to dissolve the temporary injunction was the form in which the matter was presented. The defense denied all the allegations upon which the injunction has been granted and presented a large number of affidavits in support of their denial. Some of the affidavits asserted that intimidation and threats had been used against the strikers' union. The affidavits were presented by the plaintiffs in support of their allegations. The hearing is not concluded.

#### MILLS ARE CLOSED.

New Philadelphia, Ohio, July 15.—The plants of the American Sheet Steel company in the Tuscarawas valley are closed down today owing to the strike. The mills affected are those at New Philadelphia, Deleville and Canal Dover. Two thousand men are idle.

#### NOT A MAN AT WORK.

East Liverpool, Ohio, July 15.—Not a member of the Amalgamated association was to be seen at the Wellsville mill today. Only the laborers are working. The union has 140 members. Everything is quiet. At the Beaver tin mill in Lisbon the 300 Amalgamated men are idle and only the laborers are working.

#### Bank Notes for Redemption.

Washington, July 15.—National bank notes received today for redemption \$783,649.

#### Lieut. Chas. R. Ramsay Dead.

Manila, July 15.—Lieut. Charles R. Ramsay, of the Twenty-first infantry, who was wounded in an engagement near Lipa, province of Batangas early last month, is dead. The death is also announced of Solon A. Massey, formerly a lieutenant of artillery, who was recently appointed purchasing agent of the army.

#### Gen. Chaffee is visiting various points on the railroad to the north.

Hamburg, July 15.—Capt. May, of the German steamer Tanis, from Hamburg, June 21, for Montevideo, cables that his vessel ran ashore at Punta Mogotes and is a total loss. Her passengers and crew are proceeding to Montevideo.

#### TODAY'S REALTY TRANSFERS

Following is today's record of real estate transfers, made in the office of the county recorder up to 2 o'clock this afternoon:

W. C. A. Smoot, Jr., and wife to Albert C. Smoot, warranty deed, part of lot 1, block 1, five acres, lots B, E, survey. \$200  
John Blomquist and wife to John A. Williams, warranty deed, lot 3, block 2, A. J. White's South Salt Lake. \$50  
Administratrix of Estate of Mary Ann B. Tullidge, deceased, to Henry and Thomas Quayle, administratrix, deed, north 2½ rods by east ½ rods from 2 rods north of southeast corner lot 5, block 50, plat A, S. L. C. survey. \$250  
Mary Young to Mervin Shrinne Gold and Copper Mining company, quit-claim deed, Shrinne Fraction land mining claim in West Mountain mining district. \$1  
George L. Nye and wife to Mary E. Cannon, warranty deed, east 125 feet by south 29 feet from northwest corner lot 3, block 28, plat G, S. L. C. survey. \$250  
Caroline C. R. Wells to John H. West, quit-claim deed, lot 1, block 114, plat A, S. L. C. survey, and personal property. \$100

## CROOKS COME WITH EXCURSION.

Police Doing All in Their Power to Protect Visitors.

### FEMALE GRAFTERS HERE.

Burglars at Work in the City—Restaurants Broken Into and Jewelry Stolen—Leaguer Loses \$200.

As is usually the case, the coming of big excursions brings pick pockets, sure thing leeches and all manner of confidence men into the city, and already many complaints of robbery and pocket picking have been reported to the police and sheriff. This class of crooks are always sure to follow big crowds around the country and work their grafts around crowded places in the city. The police are taking every precaution to protect the visitors from skin games and every officer on the force is working hard to that end.

On Saturday afternoon a couple of cases of pocket picking were reported from Saltair. L. H. McIntyre lost a gold watch and William Steinberger had a pocket book containing \$24 in cash and a draft for \$50 taken from him. Mr. McIntyre gave the police a description of two men who acted in a suspicious manner at the Rio Grande depot and out to the lake, and he believes that they are the ones who touched him.

Early Saturday morning a burglar entered with considerable boldness an unsuccessful attempt to burglarize one of the sleeping cars at the depot, but was frightened away by two of the lady occupants of the car who set up some lousy screaming when he learned of the fellow's presence. When seen he had his head and one arm through a window. Word was sent to the police station, but when the officers arrived in the patrol wagon the fellow could not be located.

Dr. E. M. Corson reported that he lost a purse containing \$20 in cash and a couple of drafts on a New York bank and a number of railroad passes. The purse was taken from him while he was in the light of the lighted gang, but residents suffered also. E. S. Darling's residence at 556 east, Third South street was entered by a burglar who preyed upon a window. A gold watch and some smaller articles were stolen. An attempt was also made to enter the home of O. H. Hewlett, at 120 east, Seventh South street, but the thief was not successful in his efforts.

### PICKPOCKETS AT WORK.

Several Visitors and Citizens Are Relieved of Their Valuables.

Although the entire police force was on duty yesterday, the pickpockets and burglars perpetrated some daring robberies at the depots and on the street cars. Alfred King, one of the excursionists, was relieved of \$200 in cash. Howard Jones of Salt Lake lost a silver watch while returning from the lake. A man whose name was not learned, was "touched" for \$50 while mingling in a crowd.

Several articles were made by the crooks to rob passengers on the street cars. One of them was discovered in the act of robbing a gentleman on a street car, but jumped from the car and escaped before he could be seized. It is believed that the most successful part of the gang of crooks are females, as several suspicious women were seen among the visitors. One woman lost her handbag, containing \$12, which was believed to be the work of a female, and numerous other small losses were reported. While the pickpockets were very active, the burglars were not idle. Several residences were entered and jewelry and other articles of value were stolen. Mrs. Needham of 421 south Second East, reported that her house had been entered through a back window and a watch and some rings taken. Two men were seen prowling around her house last evening. The police were called to the house of Senator Hastings, by the servant girl, who was at home alone and who had observed two men hanging around the house. When the officers arrived, however, no burglars were to be seen, although the house had been entered. No arrests have been made yet.

One gentleman, who did not leave his name, reported to the police this morning that he believed he was robbed of \$70 at the Tabernacle yesterday morning. He was not positive about it, however, and said that possibly he left the money with his wife.

### FINE BUSINESS CATALOGUE.

What is by odds the finest and most comprehensive catalogue of the kind ever issued by a private educational institution is one just from the press entitled: "Salt Lake Business College Journal." It contains about 100 pages and is beautifully illustrated and neatly printed from the first page of the colored cover to the last.

As an introduction to the reader's attention is called to this quotation from James A. Garfield: "These business colleges furnish their graduates a better education for practical purposes than either Princeton, Harvard or Yale; and to this from Harriet Beecher Stowe: "No young lady could have a better safeguard against the adventures of fortune, or a better resource in time of need, than a knowledge of bookkeeping and business affairs."

The Journal speaks direct to young people of the West who are contemplating a business career, and invites them to enter the Salt Lake Business College, whose growth and achievements are interestingly traced from the foundation of the institution to the present, when it is found in a most prosperous condition. Handsome half-tones of the college building and its various departments are given and leading business firms are well advertised, showing that the Journal is well patronized. Copies may be had on application.

### TRAINS NOW RUNNING.

The Rock Slide in the Altus Tunnel Has Been Removed.

Train service has been resumed over the Park City branch and the regular schedule was this morning maintained through the Altus tunnel. The second cave-in proved to be not such an extensive one as was at first surmised. Engineer Ward pushed the work of clearing away the debris with a force of 100 men which was divided into day and night shifts until it was completed yesterday, when the first train went through.

Numerous additional timbers have been put in and the work of cementing the roof of the tunnel will be started at an early date.

## END OF THE RUSH OF LEAGUERS.

By Tonight All Will Have Left Salt Lake for the Coast.

### OVER 17,000 VISITED HERE.

Splendid Work on the Part of the Rio Grande Western Operating Department in Handling Big Crowds.

The rush is over. The Rio Grande Western has "done itself proud" and has since Tuesday handled sixty-three extra trains bearing the Epworth leaguers, without a single accident. It goes without saying some of the trains did not keep schedule time, but for a single track road it was a great feat.

By tomorrow morning migrating inter-rogation points wearing the red and white badges will be an unknown quantity in Salt Lake, and the average pedestrian will not run the risk of being shot by the thousands of cameras and kodaks, which for the past three days have been raking the city fore and aft.

The Epworth leaguers have come and gone, the hotel men and restaurant proprietors have banked the rake off incident to the last few days and the railroad men are breathing the regulation number of inhalations per minute once more.

### WORK ON WESTERN.

The lay member has not the remotest idea of what an invasion of the proportions just handled means to a single track railroad. One slip, or lapse of memory upon the part of the train dispatcher in charge of the huge movement and big headlines in the press would have chronicled a disaster. The Rio Grande Western is not the New York Central with four tracks, consequently it is only possible for one man to work at one time in the dispatcher's office directing the movement of trains. Under the pressure incident to the heavy travel Chief Dispatcher Sloan has rapidly been accumulating gray hairs. The operating department deserves all the credit and glory that is just due for the feat. From General Superintendent J. E. Wells, Canadian Pacific, Missouri Pacific, Great Western, Cleveland, Cincinnati, Chicago & St. Louis, and the Erie.

### HEAVIEST WORK OVER.

The heaviest work was over by last night when the yards of the Western were crowded to their limit with sleepers of every build and design known to railroad men. The yards bore the appearance of a huge kaleidoscope.

As far as could be seen were sleepers and day coaches on all sides. Among the companies represented could be seen the distinguishing colors of the New York Central & Hudson River, Rock Island, Burlington, Chicago & North Western, Pennsylvania, West Shore, Lehigh Valley, Chicago & Alton, Chicago, Milwaukee & St. Paul, Boston & Albany, Union Pacific, Denver & Rio Grande, Santa Fe, Great Northern, Chicago, Topeka & Santa Fe, Canadian Pacific, Missouri Pacific, Great Western, Cleveland, Cincinnati, Chicago & St. Louis, and the Erie.

Of Pullmans, their name was legion. There were empire coaches with just oval shaped stained glass windows and old-time sleepers with small square windows out of which possibly passengers have viewed stampeding herds of buffalo in the wilds of Wyoming years ago. In and out of these cars, like a hive of bees, swarmed all sorts and conditions of humanity, the majority of whom were already bearing unmistakable signs of being on a long journey. "In and out and round about," like the famous Jackdaw of Rheims went Uncle George Rutherford, the veteran car cleaner, with his corps of assistants, by the service of pieces of long hose attached to the air compressor, and the way they shot that atmosphere and ozone into the cushions and draperies of the Pullmans was a sight only equalled by the vortex of dust and banana peel that went ahead of that energetic nozzle.

### 17,000 VISITORS.

The car cleaners had no accurate down at the yards yesterday and in days to come when they were rolled off and sit on the front porch with their grandchildren on their knees they will speak with bated breath of the historic invasion of effete easterners in July, 1901. As it is conservatively estimated that there have been close upon 17,000 people pass through this city during the past few days it can readily be seen that there was some work to be done. Were the trainmen tired? Well, just ask them. Some of them have hardly had a moment's sleep for three days.

### WORK FOR ALL.

Not only have the railroad hands been working, but the presence of visitors in the city has been felt all along the line. The gentleman who does the "spiel" on the "Seeling Salt Lake" cars is so hoarse this afternoon that he has serious misgivings that an attack of tonsillitis is in store for him. Even the genial clerks at the hotels in this city have developed signs of crossness—the inevitable token of a self-respecting hotel clerk of a speedy collapse. By Saturday night the stereotyped response of "full up" was to be heard in every hostelry in town. There was a bed to be had for love or money, while the individuals who had secured a weak-kneed cot whereon to stretch their weary limbs in the sample room, became so swelled up that he jeopardized his own rest.

At one time last evening it began to look as though there would be a famine in the land. The lot of the Leaguers had extended to such proportions that the succulent steak was practically non est in the average eating house. Indicative of the rush on the commissariat department the Kenyon dining room served 720 meals yesterday, and only the limitations of the seating capacity prevented 1,000 visitors from being waited on. A big food supply had been laid in in anticipation of the siege by the various hotels and restaurants. The smaller concerns the supply of canned goods had to be drawn on early in the evening, with the result that pork and beans and sarlines became special orders.

Thousands of visitors slept in the cars on Saturday and last night. A large number of the tourists stayed in the inevitable token of a self-respecting hotel clerk of a speedy collapse. By Saturday night the stereotyped response of "full up" was to be heard in every hostelry in town. There was a bed to be had for love or money, while the individuals who had secured a weak-kneed cot whereon to stretch their weary limbs in the sample room, became so swelled up that he jeopardized his own rest.

Clark Presbury at the Kenyon tells a

Salt Lake and the crowd would seat over like a crowd of scared partridges.

### RESORTS PATRONIZED.

The resorts yesterday also did a big business. There were numbers of visitors wearing badges to be seen at all the resorts. At Saltair the biggest Sunday this year was in order and close upon 4,000 people paid to journey out to enjoy the cool breezes. A big percentage of these went in bathing suits and swimmers, with the current of the sheep who went with the crowds in the city were not bona fide Epworth Leaguers. This statement also had good as regards the gentlemen who made Salt Lake and the crowd would seat over like a crowd of scared partridges.

### AT THE TABERNACLE.

Despite the statement alleged to have been made by a pious old lady visitor that she would not break the Sabbath to the extent of attending the Latter-day Saints service at the Tabernacle, several thousand Leaguers were in attendance at the afternoon meeting and were attentive auditors to the address by Dr. J. E. Talmage. Almost the entire congregation remained to listen to the organ recital.

The visitors were loud in their expressions of delight at the finished work of the choir and organist. At the close of the recital they backed around the keyboard of the organ and inundated the members of the choir and Organist McClellan with questions. It was not until 8:30 p. m. that the Tabernacle was cleared and Prof. McClellan allowed to leave the building.

### Two recitals were given yesterday and today.

The following were the programs rendered yesterday, there being 5,000 people present at the morning recital:

MORNING.

1. Charles ..... Bach
2. "Intermezzo" from "Cavaleria Rusticana" ..... Mascagni
3. "Final Duo" from opera "Tristram and Isolde" ..... Wagner
4. "Andantino" ..... Lemare
5. Star Spangled Banner.

AFTERNOON.

1. "Hallelujah Chorus" ..... Handel
2. "The Enchanted Bell" ..... Haberer
3. "The Pilgrim's Song of Hope" ..... Organist McClellan
4. "God of Israel" (Motto)—Stephens
5. "Lazarus" from opera "Lazarus" ..... Mabel Cooper, Mr. Thomas Ashworth, Mr. H. S. Ensign.
6. "Sunshine in the Soul" ..... Mr. Geo. D. Byner
7. "Soldiers' Chorus" from "Faust" ..... Gounod
8. Tabernacle Choir and Organ.

Seventeen trains arrived from the East yesterday with the thousands of pilgrims from Pennsylvania, Boston, St. Louis, New York, Chicago and Kansas and were sidetracked in the yards. They left for San Francisco early this morning. The morning train from Cincinnati and three other additional trains came in.

By tonight the pilgrims will all have faded into the West.

### Caught in the Crowd.

In the Tabernacle grounds after the recital "No, sir, he is not a Scotchman, his very hair and eyes proclaim that he is an Italian. I got this straight from a man who knows that this organist, McClellan, was imported from Italy to play the organ, and as inducement was given to him to play the organ for a month by the Mormon Church. He comes from a crazy family of Italians who have all been insane, but are every one of them splendid musicians. He had some fine minutes ago, that he was born right here in Utah and went to Europe to study music."

Oh, that's all rot. I know what I am talking about.

That the visiting Epworth leaguers have a voracious appetite for souvenirs goes without saying. Yesterday morning an employee of the street car company did a thriving business in retailing five-cent tithing orders at one hundred per cent advance on their face value. After the organ recital yesterday, McClellan exchanged cards with E. Z. Zacher, a prominent music dealer of Mobile, Ala., who was loud in his praise of the beauties of the instrument. The action was seen by a young lady tourist and the next instant the music dealer was in the hands of the lady. He had some five minutes in his case but within five minutes the leaguers had captured the music dealer. Among other things that are now on their way west are rocks, twigs from a rose bush on the Bee Hive house lawn, brazenly purloined in the glaring light of day; sand and salt from Great Salt Lake and several hundred pounds of old junk picked up promiscuously.

From the trend of some of the remarks heard in the crowd yesterday and this morning the visitors here expect to be disappointed in the "Mormon" on sight and much disappointment was manifested because "the Mormons look just like anyone else." A man walking down the street in company with a lady tourist, who was apparently the center of attraction.

State President T. S. Marshall of the Illinois League yesterday stated that Salt Lake opened his eyes to a great many things and that his ideas regarding the residents of Utah had undergone a big change in consequence. He said: "I think everybody has thoroughly enjoyed the recitals. They have done more to give a pleasant impression of Salt Lake and the Mormons than anything else. I was greatly interested in the organist, who looks like such a perfectly well-to-do musician. Altogether we have had a delightful time in Salt Lake."

Worn out by sightseeing a young man wearing an Indiana badge stretched himself out in the shade on the edge of the sidewalk opposite the Temple on East Temple street last evening and apparently dropped off to sleep. "Hey there; here comes a cop, and Timmony will seek yer five fer a Sunday drink," yelled the omnipresent small boy. The young man arose with a start, his identity and disappeared down the street.

There are all kinds of stories floating around the hotel offices this morning regarding the visitors, many of whom apparently have not been used to extensive traveling. One lady anxiously asked Chief Clerk Presbury at the Kenyon when it was safe to say anything against the "Mormon" in Salt Lake. At the Manitou one of the guests missed a meal and when settling time came entered a demurrer to pay. Finally he said: "I pay you \$2. I will only have \$2 left and I have to go to San Francisco and return home on that." At the Walker House a party who came on Saturday morning washed and then took a quiet nap. In the evening they told the clerk that they had decided to continue their journey west, and requested their baggage. To say that they were astonished at being presented with a bill would be to put it mildly. "But we have not used the room for a night," they protested. They argued that the room would have to be made up again, and that the demand was in accordance with the custom in the wild west. They left town feeling very cross.

### CLARK PRESBURY AT THE KENYON TELLS A

We're building a low cut shoe for men that is about as stylish a shoe as we've seen at a dollar more anywhere else. It's cool and comfortable in this hot weather. \$4.00 per pair.

ROBINSON BROS. CO., SHOE BUILDERS, 124 Main St.

story, but then he tells several. It is given for what it is worth. According to Mr. Presbury one of the chambermaids on going the rounds discovered a drop, electric light, with the current turned on full, shedding its rays inside a partially closed bureau drawer in one of the rooms. After studying out the astounding proposition she came to the conclusion that one of the visitors had first tried to blow out the light and then finding that he could not sleep under the glare, had in desperation, taken up the slack wire and stowed the light away in a drawer—or in other words, hidden his light under a bushel.

### JOHN DONE DEAD.

Father of Prof. Willard Done Passes Away at Payson.

John Done, a leading citizen of Payson, died at that place yesterday afternoon at 2 o'clock, after an illness of several weeks' duration. The direct cause of his demise was general debility, aggravated by kidney trouble. Elder Done was born at Tunstall, Staffordshire, England, Jan. 25, 1828, and married Sarah Barker, Feb. 15, 1852. Both were baptized by Cyrus W. Wheelock, December 10, 1852. They emigrated to Utah in 1853, residing successively at Union Fort, Springville, Moroni and Payson, their home being in the last named place since 1889. They had eight children, six of whom survive. His wife died Nov. 27, 1888, and he was married to her sister, Ellen Brooks, Oct. 24, 1889. Besides a widow and six children, he leaves forty-two grandchildren and one great grandchild. One of his grandchildren preceded him to the spirit world.

Wherever he lived, he had always been active in musical and educational matters, and took great interest in the advancement and enlightenment of the people in other directions. His life was unselfish, moral and upright.

### PASSED BOGUS CHECKS.

Young Man Said to Have Victimized Many People.

Acting on the description furnished by C. Bonetti, proprietor of a First Street saloon, Officer Gillespie arrested a young man at the Oregon Short Line depot last night for passing a forged check for \$10.50. He gave his name as Edward Ray and admitted that he had passed the check but denied that it was worthless. Jesse M. Brigham, who keeps the Elgin Grocery on Second South reported that he had been victimized to the extent of \$28—\$4 in groceries and \$24 in cash. The check was made payable to John Stebel and signed B. Roberts.

G. A. Anderson of 227 west, First South is \$23 to the bad, having cashed a check for that amount. These last two checks, the young man under arrest declares he knows nothing about. He will have a hearing before Judge Timmony probably tomorrow afternoon.

### LEAGUERS' TROUBLES.

Lose Trunks and Tickets Through Pickpockets in Colorado.

Glenwood Springs, Colo., July 14.—The thoroughly organized gangs of pickpockets operating at Colorado Springs, responsible for a part of about twenty Epworth leaguers becoming stranded here. Men and women alike have been robbed, not only of every cent they had with them, but of railroad tickets as well. An article of the railroad issue tickets back home on their proof of having purchased and paid for rides to San Francisco and back, will be compelled to ask aid from the county authorities.

In at least ten instances thieves even secured their victims' trunks on the stolen baggage checks.

Among those robbed were Dr. J. H. Wilson, wife and daughter, and Mrs. H. D. Harrington of Dover, Del. Dr. Wilson's wallet containing tickets for the party drafts on San Francisco and baggage checks being stolen in the crush at the depot in Colorado Springs.

Major S. K. Hooper, general passenger agent of the Denver & Rio Grande Railroad, authorized the Glenwood Springs agent to furnish the following to stranded passengers who desired to continue their journey west.

### FEDERAL COURT ITEMS.

M. E. Pack, of Vernal, and M. Larsen, of Manila, Uintah county, were this morning appointed United States commissioners by the federal court.

In the case of James Thornton vs. the Centennial Furka Mining company, judgment for \$4,000 was this morning granted by stipulation. The matter was settled out of court.

### CHANGES IN FARES.

Owing to the consolidation of the two street car systems interests of this city, the issue of round-trip tickets to the fifth on the Rapid Transit between Fifteenth North and the head of East Temple street has been abolished. As noted last week the fare had been raised while the fare to Fort Douglas over the Rapid Transit is now placed at five cents, the same as on the Salt Lake City Railroad company's lines.

### M. I. A. DAY AT SALT LAKE.

The committee of ladies comprised of Mary E. Irvine, chairman, Rose Jenkins, Badger, Jennie Y. Smith, Lulu Grant and others, who are working in conjunction with the Y. M. M. I. A. committee previously noted, report that last week the fourth day of the celebration was a success. The day was July 13th. Great preparations are being made for the day and with two bands of music on the floor it goes that saying that an enjoyable time will be spent.

### SCANDINAVIAN EXCURSION.

There will be a general Scandinavian excursion to Saltair on Friday, the 19th of this month. The occasion will be the reunion of Scandinavians of Salt Lake county, and it is expected that a good time will be had at the popular bathing resort.

### Family Washing.

Our Rough Dry system at 5 cents per pound, cheap and satisfactory. Information by letter or at office. TROY STEAM LAUNDRY, Tel. 122, 126 Main Street.

## BUSINESS NOTES.

The regular monthly meeting of the board of directors of the Utah Sugar company was held this morning. President Snow presiding. Manager Cutler made a report of his conference with the Brigham City land owners relative to an extension of the east branch of the Bear river canal, stating that the committee of Boxelder canal citizens was now at work securing the necessary number of guarantees from farmers to purchase water rights. The board decided on awaiting the report of this committee before taking any action. The secretary reported that practically the entire amount of the new capital had been paid into the treasury on July 1st.

The delegation from Utah to the Transmississippi commercial congress at Cripple Creek will leave this afternoon, an interesting feature of the convention will be the distribution by Mr. Cutler of the Utah Sugar company of 250 small bags of sugar, bearing the trade mark of the company.

The item in the Herald this morning stating that the sugar plant in Greeley, Colorado, will be delayed because of the machinists' strike, is incorrect. There had been no intention to do more this year than to put in the foundation to allow it to settle during the winter, and the machinery will not be purchased until next spring. The factory will be completed in time to work up next year's crop of beets.

A copy of the articles of incorporation of the Carbon Oil company was filed with the secretary of state this morning. The capital stock is \$250,000, divided into a million shares. The directors of the company are George W. Everett, George F. Shurtliff and J. M. Miller. W. P. Lynn is president and treasurer, John F. Critchlow, vice president, and George Westervelt, secretary.

The early closing movement took on a new phase Saturday, when the Walker store closed at 6 o'clock. Throughout the summer months the employees of that institution will continue to get off at 6 o'clock on Saturday, notwithstanding what other stores may do. It was the desire of the employees that Saturday be made the day and their wishes were regarded by the management. It is not yet known whether or not the Saturday closing will become general.

Not later than August 1,
