AND THE RESIDENCE AND ADDRESS OF THE PARTY O MINING, BUSINESS AND STOCKS.

DELAYED IN STARTING UP

At Sandy Sampler.

Manager Jenson Accepts Ores-Fifty Tons Have Arrived From Columbus Con. of Alta. The management of the Pioneer sam-

pler at Sandy has experienced another delay and the day for the plant to go commission has been prolonged; but the difficulty has now been overcome and Manager Jenson believes that he will have the mill in operation within three weeks at the farthest. The trouble was encountered while

digging a pit for the crushing machinwhich is to be placed below the raliroad tracks, so that ores sent there to be sampled can be dumped automatically into the hoppers.

Quicksand was found, interfering with the laying of the foundation for the heavy crusher, which necessarily must be very solid. About three weeks

delay was caused. hand sampling department is ady for business now and ores are being received. A consignment has arrived from the Clark Copper company, at Thompson's Springs and 50 tons are in the bins from the Columbus Consolidated mine of Alta.

EAGLE AND BLUE BELL. This Tintic Stock Recorded Sen-

sational Advance Today. Eagle and Blue Bell was the star actor during this forencon's call of the stock exchange. There was an unex-pected demand for it, and the buying crowd was there ready to pay almost any price. Of course, the brokers who had selling orders on hand, let their stock go at figures which more than mei their expectations. On Tues-day the closing bid made for the stock was 70 cents per share. The first bunch offered this forenoon was at 90 cents, and it was swallowed up in a hurry. This was somewhat surprising and another seller ventured a block at 95 ents, this also was snapped up quickly collowed by others which were purchased at prices ranging up to \$1.11% per share. Many brokers were at a loss to know the cause of the sudden ac-tivity unless it was that the Bingham Consolidated had either decided to take

up its option on a control of the stock or else an extension had been granted. Lower Mammoth kept in the active list and soid at advancing figures. Daly-

UNITED STATES ANNUAL MEET

Quicksand C uses Some Trouble | A. F. Holden Retained as the Managing Director.

DIFFICULTY NOW OVERCOME | HIS REPORT WAS SUBMITTED

Gives Details Concerning Properties-Says They Ought to Earn \$1,500,-000, Net, This Year.

At the annual meeting of the United States Mining company, held in Portland, Me., yesterday afternoon, a new board of directors was elected, consisting of the following: Frederick Ayer, William H. Coolidge, Robert D. Evans, Eugene N. Foss, Clarence A. Hight, Albert F. Holden, Stilman F. Kelly, Nehemiah W. Rice and Sidney W. Winslow. The new members of the board are Messrs. Ayer, Foss, Rice and Winslow. The organization was completed by the election of R. D. Evans, president; W. H. Coolidge, acting president; A. F. Holden, managing director; C. A. Haight, clerk, and F. W. Batchelder, secretary and treasurer.

Managing Director Holden submitted his report which was a voluminous affair in which he entered into every detail concerning conditions at the mine and smelter.

Since March 1, 1900, the managing director states, as much as 23,539 feet of exploration work has been performed principally in the Old Telegraph and Jordan mines. This work, it is stated, has developed over 1,000,000 tons of workable ore and has demonstrated the continuity of the veins to depth. While the Commercial vein is known to be valuable the company has not yet undertaken its development.

Speaking of machinery at the mines, the report says the equipment is sufficient to last many years. The power plant is ample for a production of 1,000 tons per day. Last year the mines were connected with the Rio Grande Western railway by a wire rope tramway, three No work of any consequence has been

done in the Niagara mine. Certain up-per levels were let out to leasers. Referring to the Centennial-Eureka tine owned by the company, Mr. Hol-"When the United States Mining

company acquired the stock of the Centennial-Eureka Mining company in 1901, this property was closed down and remained closed, so far as the production of the United States smelter at Jordan. During this period the shaft was retimbered and the f exploration was carried on so possible. Stoping was resumed lept. 1, 1902, and has been carsufficiently to meet the needs of elter, until at the present time extracting 250 tons a day. Arents have just been made to sink ain shaft 500 feet deeper, and it te this work. It would, of course sible to sink much faster than ere it not that should we under-

materially lessen this time it seriously interfere with the oper-f the property. When this propas purchased there were but two ore channels in the mine, Sysdevelopment, however, has three additional profitable ore is, and more than an indication There are in sight in the nial-Eureka mine over 500,000 workable ore." melter was started up last De-, and has been running with the ciclestude of a new plant. No

ingical difficulties, it is stated, ture of the ores of the Centennialproven a very excellent one; the slag osses are extremely low. Some changes have been authorized by the directors. The bin capacity has been doubled; the automatic part of the dust chambers is to be extended, the bricquetting plant improved, and other minor changes made. The smelter on a whole

No litigation is pending against the in the courts for adjustment in which None of them are considered to be of Concerning the heads of departments.

throw out a few boquets, and says:
"The United States Mining company has exceptionally able men at the head of its different departments. Mr. G. K. Fischer, long connected with the Bos-ton-Montana and other plants, needs no introduction in the copper world. He is in charge of the United States smeltng operations. Mr. C. E. Alen has for six years past been connected with and an that knows Tintle mining so well. The very successful results of the de-velopment work at the Centennial-Eureka mine are very largely due to his personal work. Mr. A. P. Mayberry, superintendent of the United States s at Bingham, has been in charge f the operation of a portion or all the pines for the past seven years. He is perations in Bingham, and is qualified eat in the hands of the above men-

the United States Mining company's ffairs will be as low as any similar Owing to the short time in which the company has been in operation, Mr. Holden suys, it is impossible to give details as to the cost of mining. He makes the statement, however, that the ompanies ought to earn no less than 51,500,000 net, during the present year.

The report was commented on very favorably today. It is considered to be a very gratifying exhibit and quite sat. isfactory to local shareholders.

Fourth Prize.

Husler's Flour Testimonial Contest.

Salt Lake City, Utah, March 3, 1903 .-Messrs, Husler's Milling Co., City, -Dear Sire: Having used your High Patent Flour Sirs: Having used your High Patent Flour for ten years. I can say that it is the best flour that I have ever used during my married life of forty years. It makes the most delicious light bread and biscuits; and anyone doubting will please rail for a six o'clock breakfast and I will convince them of this assertion. Yours for "High Patent Flour." Mrs. Wyatt Simpson, 238 So. 8th West, City.

POOL BEING FORMED.

Plan of Montana-Tonopah Company To Concentrate Stock.

The larger shareholders of the Montana-Tonopah are endeavoring to form a pool in which shall be placed a majority of the stock of the corporation. According to a letter received by a shareholder this morning 336,306 shares has been secured for the pool and has been deposited in McCornick & Co.'s bank. The pool is to exist until May 1, 1904, unless sooner dissolved by unanimous consent. It may become dissolved of its own accord howver, if Sept. 1 next, the market price reaches

Three trustees are named in the agreement who may have power to sell the stock so pooled, prior to the expiration of the agreement, provided that all is sold. The trustees mentioned are Chas. E. Knox, W. J. Douglass and A. The pool agreeement does not become ctive until 501,000 shares are en-

tered. THE GRAND CENTRAL Directors Declared a Ten Cent Div-

idend This Forenoon. (Special to the "News.") Provo, Utah, April 16.—The Grand Central directors held a meeting here today and declared a dividend of 10 cents per share, payable on the 20th. The books close on Saturday, the 18th, at noon. This is the eighteenth dividend paid by the company, and will bring the total of such payments up to

DALY-WEST DIVIDEND. Checks Were Sent Out to Share-holders Today.

This is dividend day for the Daly. West mine. The office force was kept busy today dispensing the checks, which aggregate the sum of \$108,000.

An assessment of 1 cent per share has been levied on the stock of the Sampson Mining company. It becomes delinquent May 16.

The 10 cents assessment on Century becomes delinquent on Saturday next. H. E. Carey expects to depart for Denver this evening.

The Salt Lake Mining Review, published by Will C. Higgins and W. H. Korns, has commenced the fifth year of its existence. The paper made its first appearance April 15, 1899. It was then a 20 page journal with limited advertising patronage. Since then it has enjoyed support which is indeed gratifying to its owners. The minimum size of each issue now is 48 pages. The Mining Review has become a popular mining magazine and circulates extensively in the camps of Utah and surrounding states.

President Cunningham and Director A. E. Snow will visit the May Day mine on a trip of inspection tomorrow.

The new postoffice at the Blue Acre mine, Beaver county, was completed a few days ago. The event was celebrated in due mining camp form last night by a dance, which was given by Postmaster Kiser. Walter C. Orem, manager of the York

mine, Bingham, is looking over that property today. President John Dern of the Con. Mercur, and wife, returned last evening from their trip to Nebraska.

Mr. L. J. Nettleton, a prominent banker of Taber, Iowa, who has been in Utah looking up some investiments, has returned home. George T. Street, an electrical engi-

neer, who recently graduated from Cor-nell university, has accepted a position with the U. L. & Power Co. at Logan. The local manager of the Rand Drill company received a telegram this morning from San Francisco conveying the intelligence of the death of F. C. Osgood, the general sales agent of the company. George Moore has gone to Wisconsin

in response to a message informing him of the serious illness of his mother. Sliver is quoted lower today, F. H. Clark and W. C. Orem expect depart for Silver City, Ida., tomor-

The new mill at the Bamberger-De Lamar mines, will go into commission before the 16th of May if the unexpect ed does not happen.

Annual Statement for the year ending December 31, 1902, of the MARKET STILL WAVERING.

Start Was Irregular and Most Stocks Lower.

METROPOLITANS WERE UP.

Little Offered on Recessions - Rail roads in Eastern Territory Seemed To be Favorites.

New York, April 16 .- Stocks started to move in an irregular way this morning but the majority were lower. Business was active during the early dealings but the price fluctuations for a time were very narrow. The steadiness of Manhattan had a reassuring effect and the market shook off its opening hesitancy and rose sharply. Pennsylvania. New York Central, Bal-timore & Ohio, Missouri Pacific, St. Louis & San Francisco, St. Paul, Amalgamated Copper, Sugar and Leather preferred gained 1@14, Buying of Pennsylvania was in large blocks after it crossed 135, Met-ropolitan, securities advanced timest. in large blocks after it crossed 135. Metropolitan securities advanced almost a point. Little stock was offered on recessions and recoveries were easy. St. Louis & San Francisco rose nearly i points and Sugar, Amaigamated Copper and New York Central 1%41%. Railroads in eastern territory, including the trunk lines and coalers, seemed to be the favorites, but the Atchison stocks, Northwestern and Kansas City Southern were lifted a point. The buying diminished and prices sagged slightly again before noon.

Bonds were firm but dull at the noon hour.

Bonds were firm but dull at the noon hour.

A few active speculative favorites such as Union Pacific, St. Paul, Baltimore & Ohio and Reading, made additional small gains, but the general list was quiet cheerful owing to the broad character of the day's strength and the absence of any pressure to liquidate. American Telephone & Telegraph dropped 10%.

Traders sold Amalgamated down a point from the best on the announcement of the declaration of only the usual dividend. The stock then rallied, Anaconda lost a gain of 3% and other stocks yielded fractions. Business then became semistagnant but the tone was better at 2 o'clock, Consolidated Gas rose 2%.
