## "WALLY" YOUNG ON FIGHT SITUATION

Sporting Editor of San Francisco Chronicle Talks to the "News."

### TELLS OF BRITT-NELSON GO.

Declares That the Durable Dane Can Beat Native Son 365 Days in The Year.

Waldegrave Young, formerly a member of the "News" staff, is in Salt Lake on a visit of two weeks from San Francisco. In his present capacity as sporting editor of the San Francisco Chronicle, he has been in close touch with the fight situation on the coast, where the game has flourished of recent years. In an interview yesterday with the sporting editor of the "News," he outlined the condition of affairs on the coast as follows:

"Prospects for the fight game in San Francisco are not as rosy right now as the promoters of the sport would wish. The recent Britt-Nelson battle, fought under conditions unprecedented in ring history, has left an aftermath

held between lightweights, was fought on the square and above board. It was a wonderful battle. They haven't stopped talking about it yet out on the coast. Whether Britt had the advantage at any stage of the game—whether, if he had fought a different sort of a fight, might have come up—are the questions that are being discussed by the little knots of men who gather of an early evening in the tenderloin cafes. It will be meat and food and drink to these durable night folk for many days to come."

"For my part, I did not see Britt as a winner at any stage of the battle. Nelson has always been a slow starter and it was to be supposed that he would be worsted in the first few rounds by Britt. But in this fight the battle started out on an even footing with James Edward. At about the middle of the first round, the durable one shot out a straight left something he was never known to use before—and clipped the spleen of Britt. Britt didn't know it was me. I turned to the man sitting next to me and said: 'Britt's kicked.' From then on I could see Nelson winning all the way. There were times when Britt had him tired but never droopy. He had him tired to the bone with punches which might have laid low a less sturdy fighter."

"There has been a lot of talk around that Britt might have stood a better show if he had gone in and boxed cleverly instead of trying to get the slugger out from the onset. Fighting, there was no possible way of him winning by getting in and away in his usual will-o'-the-wisp style. To win he had to knock Nelson out. He got knocked out instead by a better man. Nelson can repeat the trick 365 days in the year."

#### Boxing Game in France.

Boxing is gaining in favor in France. A number of boxing matches have taken place recently in France and others are scheduled. Most of the fighters are Englishmen, the French not having as yet developed a really first-class man with the gloves. Kid Lavington, at one time the tomboyish

days in the year."

OAK DUKE.  
HANDSOME TWO-YEAR-OLD COLT.

Early in the season of 1905, a two-year-old colt showed form in the West that was wonderful. He beat the best youngsters that could be raised against him, and then came East. Oak Duke is his name. His class was so high that he became the property of the Oneck Stables. Oak Duke seems to have fallen somewhat from his high estate, and has been unable to win. His owner, however, believes it is merely a temporary disability, and due to over-training while at Saratoga. He expects his handsome colt to come to hand again soon and show his heels to the best two-year-old in the East. Oak Duke is one of the best looking race-horses in America.

## THE BIKE RACING SEASON CLOSED

Manager Harry Heagren Leaves Soon for the Coast as Planned.

### RIDERS WILL FOLLOW HIM.

Some Have Already Gone for the Meeting at San Jose Tomorrow—Money And Records Made.

During the summer season in Salt Lake, no sporting game has prospered as much as the bicycle racing game. The sport is now slumbering and will slumber for a few months. The success of the game can be attributed to but one thing:

Competent management. Manager Harry Heagren has certainly demonstrated that he understands the game from A to Z. He has been surrounded by a corps of qualified and painstaking officials; all working for the good of the game and with the single idea of giving the public its money's worth.

Heagren has paid to the bicycle riders in the neighborhood of \$14,000. He started out early in the season with \$50 purses for firsts, and he has kept it up ever since. The riders have confidence in him and are anxious to follow his other methods. Already Martin MacLean and Moran have returned to San Jose for the season. West and Morgan will probably go with Heagren. Practically all the professional riders will be with Heagren this winter. MacLean and Moran are included in this bunch. Charley Turville told Heagren that he will be the first to tour the four of the faster visitors in the country.

The racers we have had here this summer have been the fastest in the country. If any one doubts the statement, let that person look over the records made by the latest track in Salt Lake and the track in Oatley. The list given below was compiled by Manager Heagren for the "News." It follows:

is a good one, but not so fat as last year, nor quite as good. It measures 200 miles by survey and 50 miles by odometer. The work of older men, some may say, began in order that the elimination trials on Sept. 23. Chairman Robert Lee Morrissey, of the A. A. racing board, is putting enthusiasm into the preparations for the race and automobile that will be run in this competition. In contrast with the race of last year, it is promised to have the one of next October have a substantial profit. This will be used in furthering the work of the racing bureau. The bureau will be the racing bureau of the Columbia Athletic Club, in Hammond, in 1906, where he got a decision over Kid Wallace. Three years ago came the first turning point in his pugilistic career, when he fought a six-round draw with Hurley, the Hampden featherweight.

An immense reception and banquet is being planned for him on his return to Hammond by the Regular Athletic club, of which Nelson is a member.

Nelson's acceptance of a \$1,500-a-week theater engagement may delay his home-coming.

**VANDERBILT CUP RACE.**

To be Run With Infeld and Turns to The Left of the Drivers.

It is stated that the Vanderbilt cup race will be run with the infeld and the turns to the left of the drivers, the same as on the track. The course

is held between lightweights, was fought on the square and above board. It was a wonderful battle. They haven't stopped talking about it yet out on the coast. Many new and novel features were added this season. There was something new coming up all the time and that's what drew the crowds on race nights. While other sporting events lacked patronage, the bike game was well supported.

Young worked hard for the benefit of the riders. They were well paid; better, in fact, than ever before, and they were not paid with stage money, but got real coin in their realm. In all his efforts to make the sport popular, Young has been supported.

Referee Frank L. Gardner, the referee at all times acted solely with the idea of protecting the public and he was fair both to the riders and to the people who furnished their prize money. The same can be said of N. C. A. Referee, Dr. E. Schafski.

Young is bent to leave the city for the winter. He will carry out the scheme he announced in these columns recently. He will probably leave Tuesday or Wednesday for Los Angeles, San Francisco and San Jose. He will spend a week in each city, report to the tracks in the three cities and manage that circuit. In the summer he will have Salt Lake and Ogden and possibly Denver.

Heagren has paid to the bicycle riders in the neighborhood of \$14,000. He started out early in the season with \$50 purses for firsts, and he has kept it up ever since. **RANQUET FOR NELSON.**

Durable Dane to be Well Entertained by His Home People.

There are to be great doings out Hammond and Hegewisch way when Battling Nelson comes home. He is expected before many weeks.

Nelson's victory over Jimmy Britt was a matter of great satisfaction to Hammond, where Nelson is better known than even at his home in Hegewisch. It was there he received his first training as a fighter. His first good opportunity came with the opening of the Columbia Athletic Club, in 1906, where he got a decision over Kid Wallace. Three years ago came the first turning point in his pugilistic career, when he fought a six-round draw with Hurley, the Hampden featherweight.

**Springs.**

S. A. Read, Cisco, Texas, writes, March 12, 1905: "My wrist was sprained so badly by a fall that it was useless, and after using several remedies that failed to bring relief, I was compelled to have it amputated and was cured. I earnestly recommend it to any one suffering from sprains."
