FRENCH GAMBLER SHOTS HIMSELF

William D. Velade Commits Suicide at the Palace Roominghouse This Morning.

OFFICIAL ELECTION COUNT

Show Large Republican Majorities—
 School Election Dec. 2—Sanitarium
 Receiver Makes Report.

Ogden, Nov. 11.—William D. Velade, a Frenchman 32 years of age, who has been a habitué of gambling houses in Ogden for 18 years, committed suicide this morning at the Palace roominghouse. Previous to committing the rash act the man destroyed all of his papers which might lead to the identification of his relatives.

The man took a room at the Palace last night, got breakfast this morning, paid a few bills, then went back to his room, and deliberately shot himself through the heart with a 44 caliber pistol. Losses at gambling are supposed to be the cause of the rash act. Last May he won \$3,000 at gambling; visited the coast when the fleet was at San Francisco, and since returning to Ogden gambled away all his money. His body was taken to the Richey undertaking establishment to prepare for burial.

crease of the Republican majorities which now makes it 1916. This majority is taken from the head of the ticket. The vote for presidential electors being Republican, 5,831; Democrats, 5,965; Socialists, 636.

The increase of votes over two years ago is 2,645. In the county this year being 10,668 and that of two years ago 7,923. The vote of the city was 7,392 as against 4,566 two years ago. The greatest, but the canvass shows no change in the general result as has been published in the news.

The total registration of the county is about 14,000, which includes all citizens who have registered in the last four years, many of whom have removed and many are deceased.

SCHOOL ELECTION.

With the approach of the election of members of the board of education which will be held in this city on December 2, the city is being canvassed for suitable men for the position. The number of circles are heard rumors of the naming of the present board to succeed itself.

Among some of the receptive candidates are M. S. Browning, T. H. Carr, Asst. Prof. W. H. Williams and H. W. Gwilliam of the present board and J. C. Nye, J. S. Lewis, Harold Perry, A. K. Weatherly. The name of Fred J. Kiesel has been suggested, but that gentleman has stated that it would be impossible for him to accept the position.

While many of the citizens are in favor of a non-partisan ticket, there are those politicians who say that the parties should name their own ticket. It has been stated that the "American" party has announced its determination of placing a ticket in the field.

RECEIVER MAKES REPORT.

Receiver Rudolph Kuebler of the Ogden Canyon Sanitarium company, has filed his report with the clerk of the district court of the resort, which passed into the hands of a receiver Oct. 19, 1907. The report placed a valuation of \$100,000 on the property

The Agricultural college football team arrived in Ogden yesterday and spent several hours here while waiting for a train to California where they go to meet some of California's big teams on the gridiron. One of the latest cases reported to the police was that of A. D. Adair, of Howells, Nebraska, who had a dress suit stolen from him while in the waiting room while he sat along beside it. The bag contained only clothing and after its theft Mr. Adair continued on east.

NEW FLAGGING SYSTEM.

Every engine of the Harriman system running into Ogden is being equipped in the local shops with "train indicators" which will in the future do away with the flags which have heretofore been carried on the engines. The indicators are small steel boxes, eight inches by 14 inches and fastened on each side of the smoke stack. Inside of the box is a glass upon which is the number of the train in placed as well as other figures which will denote whether there is more than one section of the train or not. At night the box will be illuminated by light from the headlight, making it possible to read the number about 200 yards distant.

SCHOOL ANNIVERSARY.

Motives and Reminiscences of the "Great Educator."

Special Correspondence.

Provo, Nov. 11.—Very interesting services were held in the Maeser school Monday, the tenth anniversary of the opening of the school. In the afternoon a program was given for the children and in the evening one for the parents and larger pupils.

Prof. George H. Brimhall and others paid high tribute to the memory of Dr. Maeser, who was present at the opening of the school 10 years ago, and which are still preserved on the blackboards in the original form, attracted general attention.

"Man grows with his higher aims," "Let naught that is unclean enter here," "The fear of the Lord is the beginning of wisdom."

"This life is one great object lesson, to practice on the principles of immortality and eternal life."

Among the speakers was Mrs. Allen, who said in part: "Dr. Karl G. Maeser had perhaps had more influence on my life than any one besides my parents. No incident stands paramount, but the complete character of the man. He was essentially a builder of character. It will be at my post of duty or I die was exemplified in every action of his life. His only recompense was the satisfaction of his conscience. He was one of the few who did not love worldly things—It is wiser to put good thought in the brain than money in the pocket, for learning is better than riches, but a clean heart is better than either."

Mr. Houchin was a surveying party working near Sahara, a sectionhouse on the San Pedro railroad, about 10 miles south of Lund, Utah, and about 41 or 45 miles west of Cedar City.

Mr. Houchin and two or three of the surveying party were nooning at a sheep camp. The young man was sitting near one of the warrens. A gun was leaning against the doubletree, which in some manner went off. It was only a few feet from him. The entire charge, of about 123 shot, No. 2, exploded, his right leg, passing through two handkerchiefs, two pair of trousers, crushing strongly up the bone and lodged in the abdomen, near the stomach. Word was received here about 2 o'clock and the father and brother of Cedar started as soon as possible to the scene of the accident, but did not arrive there until midnight, at which time the young man was so weak it was found impossible to move him. Everything was done to make him comfortable, and he was conscious to the last. The young man was born in 1888, making him 20 years, three months and 11 days old. He was very much admired by all his friends and acquaintances.
