Old Methods of Agriculture Must he Discarded to Keep Up With The Procession.

Jackson, Miss., Nov. 1 .-- President Taft would have young men of America stay on the farm, with its plenty and cortainty, rather than decide on a life in the city. Mr. Taft indicated his sentiments in this respect in an address at the state fair here today.

"We must admit." he said, "the ocupation of the farmers is among one or two of the most independent occupations that go to make this country great-and a state which is great because of it is entitled to recognition as typifying Amercanism in the highest degree.

"We have arrived at a time in the development of this country, and the world, when old methods of agriculture must be discarded, if we would keep up with the procession. Land is beor with the procession. Land is be-coming too valuable to treat it in the old wasteful way. I am glad to note Mississippi has one of the best agricul-tural institutions in the country. "Here you have been able to re-strain that tendency of your young men to come into cities and live in tene-ments, in order that they may be where the wheels go round. MEN SOME ADVICE The Watch

A watch, like a piece of old lace, is delicate and requires care in handling. It's a machine and like other machinery will stop for cause and often run badly causing its owner to become angry-and usually his anger is in proportion to his investment.

We have a gentleman's gold filled time piece which will average a man's watch troubles to the minimum point as the cost is but \$15.00 in open face and \$18.00 in hunting case and one's anger cannot be great even if the investment proves bad, -BUT we guarantee this watch to give satisfaction-the broadest guarantee known-and will refund the purchase price at the end of 60 days if any customer for any reason wishes his money back.
