ASTONISHES COURT AND SPECTATORS.

Cobe Hartog Contradicts Former Stories and Dr. Harding Goes Free.

SCHOOL BOARD LETS CONTRACTS

Hiram L. Bybee Dead—Two Boys Take Leave of Industrial School—Engagement Announced.

Special Correspondence.

Ogden, July 8.—Like a thunderbolt from a clear sky to the court, officers, newspapermen and all assembled in the municipal courtroom yesterday afternoon, came the statement of Cobe Hartog that she had lied to her parents, Chief DeWenning and others, when she had reported to them that she had had improper relations with Dr. E. H. Harding.

The preliminary hearing of Dr. Harding on the charge was called before Judge Murphy at 2:30 yesterday afternoon.

The witnesses for the state were all sworn, and Cobe Hartog was called to the witness stand. To questions put to her by County Attorney Hulshult, she testified that she had met Dr. Harding two years ago; that he had apartments in the Broom hotel and she had often visited him there. At this point she stopped, and Attorney Hulshult said: "Now, Cobe, just tell the court what occurred between you and Dr. Harding?" and to this query came the astounding reply: "Nothing wrong has ever taken place between us. I had a brother-in-law named Dr. Harding, and you and all the others when I said anything wrong had occurred between Dr. Harding and me."

The reply was such a surprise to all present that for a few moments she could speak and all eyes were fastened on the little bright-eyed girl. Then County Attorney Hulshult said: "I move the dismissal of the case against the defendant, as under such testimony no conviction can be had, and the court ordered the dismissal of the suit."

The question is, did Dr. Harding have a legitimate niece, Cobe Hartog, when she went on the witness stand? He was observed to fasten his eyes on her and to wink at her, and a change was seen to come over her countenance, as if to have had some other testimony, she said she did not lie when she told her parents and the officers her pitiful story of Dr. Harding's criminal relations with her, as but a few minutes before she had sworn that she had never had any relations with him. The parents of the child fear that if Cobe were permitted to go around telling the story, she would be called the greatest power over her, and perhaps get her away from home again, hence have practically decided that the best thing to do is to charge her with incorrigibility, so that she will be sent to the reform school until she is of age.

IN THE JUSTICE'S COURT.

Within the last three days the following cases have been filed in the office of City Justice of the Peace, J. M. Lauritzen:

W. P. Asmus filed a complaint in which he charged that Sarah Bergquist is guilty of throwing rotten eggs at his buggy wheel. Miss Bergquist was arrested, pleaded not guilty, was tried and convicted, and will be sentenced tomorrow.

H. S. Christensen is charged with unlawfully appropriating water from the city's water system.

Christensen, the proprietor of the Sevier Valley House, has sworn to a complaint, charging Heber C. Shary, a Chicago drummer, with the offense of obtaining food and entertainment at his hotel and departing without paying therefor.

The young men were arraigned today and pleaded not guilty. The case has not yet been set for trial. The Clay Asmus and Rubin Morrison, two young boys about 12 years of age, have had to answer to the charge of assault. The boys took it into their heads to "have some fun" with a shoemaker who was in the charge of a horse. While he was sitting in the door of his shop in the cool of the evening in company with William Frederickson, a constable, the boys crept to the corner of the building and struck the old gentleman over the head with a stick. The boys did not know the constable was present, or perhaps they would have been more considerate. They were at once placed under arrest. At the hearing they pleaded guilty and were each fined \$5.

The load wheel passed over the boy's back, but beyond a temporary shock he was uninjured and was soon able to resume his work.

He fell down, and in falling, his hand struck a piece of wood in such a manner that the alkali flew up and struck him a sharp blow on the head. He was knocked down and the alkali-several feet and made unconscious by the blow.
