CERMANY IS DEFIED BY CHINA.

Prince Tuan Placed in Control of the Emperor's Affairs.

CHINESE GREATLY EXCITED

May Mean Prolongation of War-Minister Wu Boubts the Report -Many Chinese Slaughtered.

New York, Sept. 24 .- A dispatch to the Herald from Shanghai says: Prince Tuan is declared by Taotai Sheng to have been appointed grand secretary to the emperor, a position enabling him to control all communications to and from the throne. This constitutes a defiance of Germany's demand. The Taotal of Shanghai, who signed for the viceroys the friendly agreement with the foreign consuls, has been removed by imperial edict, successor being strongly anti-forlin successful bring urged the Chinese government to repudiate the foreign debt, and being Kang-Yi's protege. An unofficial protest was made by United Status Consul Goodnow to the viceroy. These facts are considered a defianc of Prince Tuan as the head of joxers. The Chinese are greatly the Boxers. The Chinese are excited over the appointment.

CAUSE ANXIETY.

The Washington correspondent of the deraid, commenting on the above dispatch, rays: "Considerable interest was taken by

American officials and Minister Wu in the announcement that Prince Tuan had been appointed secretary in defi-ance of Germany, and that the anti-foreign element is in control. "No confirmation of the appointment

has been received in Washington, and both at the state department and legation there was a disposition to doubt the report. Should official confirmation come, the authorities say contribution come, the authorities say that it will have an important bearing upon the attitude of all the powers, as Prince Tuan is regarded as one of the officials responsible for the anti-foreign WUITAGES.

WU DOUBTS IT.

Minister Wu said that he was inelined to doubt the report. In my time, he said, 'a prince of the royal blood has not occupied the office of grand secretary. The position is not now important. It is a sinecure. Before the present dynasty entered into power the grand secretaryship was a very important post, all of the com-munications to the emperor passing through the hands of the incumbent. The privy council is now the important body, and I could very well believe a report that Prince Tuan had been ap-pointed to membership in that body. But I do not think the report that he has been made grand secretary is true.' In referring to statements that ince Ching is a cousin of the emor, the Chinese minister said: They are incorrect. California Cured Fruit.

San Jose, Cal., Sept. 24.—The Call-fornia Cured Fruit association is high-ly satisfied with the situation as it stands today. Prunes are coming into their warehouse at the rate of about 1,500,000 pounds a day. While only about 2,500,000 pounds have

While only about 3,500,000 pounds have been shipped, orders are now filled for about three times that amount. Presi-dent Bond states that the record of sales is larger at this time than at a corresponding date in any previous year in the history of the prune industry. This is so in spite of the fact that the Eastern jobbers consider the prices from a quarter to a half cent too high.

From Cheyenne the governor will proceed to Colorado, Kansas and Ne-braska in the order named. Dead-wood, S. D., will be reached about Oc-tober 5th, from which point he will go e Chicago, where he is scheduled to peak on October 6th. Manila, Sept. 23 .- The insurgent demmamm, sept. 20. The insurgent dem-onstrations last week prove to have been more extended than was at first reported. From Cagayan and Isabelia provinces and the northwestern dis-tricts of Luzon come accounts of in surgent operations and American pre-cautionary measures. More have in the autionary measures. Merchants in province of Albay are getting their hemp to Manila as rapidly as possible, fearing that otherwise it will be burned by the insurgents. At Iloilo there was considerable anx-

iety lest an uprising should occur, but the insurgents there are ceasing their activity and returning in white cloth-ng to the garrisoned rowns in the disclothtriot. As a resumption of insurgent operations is considered quite probable, the Americans there are taking the necessary steps.

The American casualties in killed, wounded or missing in the last ten days approach 100, including Siniloan, at the cust and of Lagunn de Fay, where the insurgents, after the engagement, delivered ten bodies of our dead. Documents captured in Manila show

Hobson Was Misquoted.

Montreal, Sept. 23 .- Lieut, Hobson ar rived in this city this evening. He was shown the answer made by Admiral Dewey to his interview in Vancouver. He said he was deeply grieved that Admiral Dewey had taken the matter up in the way reported. He declares that he was not responsible for the statement made in the Vancouver Interstatement made in the Vancouver Inter-view. He had been approached by a reporter, and in the course of a con-versation had stated that the Spinish ships had been sunk because the plugs were drawn by the Spanish. He ex-plained that it was impossible to sink a ship by hitting it above the water line. Admiral Dewey had, however, compelled the Spaniards to sink their ships, and that was just as effective as sinking them with shells. Personally, he had the highest possible respect for Admiral Dewey and his great achieve-ment, and he greatly regretted that anything had been attributed to him which might tend to destroy the glory of the admiral's deeds.
