Chinese Sovereign Notified to Cease Her Reign of Terror Policy.

VICEROYS ARE IN REVOLT.

Unless a Change is Made They Will Resort to Force-Trouble is Brewing in China.

[Early Dispatches.] Shanghal, March 7 .- Correspondence of the Associated Press,-A full account has been received here of the meeting on March 5th at Pekin between the empress dowager and the grand council. Protests were read from the viceroys and governors of nine of the eighteen provinces against the policy of the empress dowager. These officials are the greatest provincial authorities in China. They declared unitedly that, if the

New York Republican Harmony. New York, April 12 .- The indications are that the RepublicanState meeting in this city next week will be brief and

harmonious. At the headquarters o harmonious. At the headquarters of the Republican State committee in the Fifth Avenue hotel, it is said there probably will be no work for a commit-tee on contested scats for a convention. Nearly all the delegates to the conven-tion have been elected and there are no contests to be decided by the conven-tion.

There was a report that the delega tion from Troy, controlled by ex-Gov-ernor Black, might meet opposition, but Mr. Black informs his friends in this city that there will be no opposition. The resolutions to be adopted by the State convention will be passed upon by the State committee at its meet-ing at the Fifth Avenue hotel Monday ag at the Fifth Avenue hole Monday evening. It is already settled that Sen-ator Platt, Senator Depew, Governor Roosevelt and Chairman Odell of the State committee will be elected the delegates at large to the national con-vention. Senator Elsberg, who is to be the temporary chairman of the con-cention and Concrease

vention, and Congressman Sherman, who is to be permanent chairman, are under instructions, it is understood, to prepare short and pithy speeches. With all the work well outlined in advance, it is said the convention will have only one short session The presidential electors will be chos-

en by the convention as reported by the districts, and the convention will ratify the choice of members of the new State committee elected by the district delegates.

POLITICS IN CUBA. **Opposing Parties are Getting Down**

to the Usual Quarrel.

Havana, April 12 .- The democratic union party held a meeting to discuss the question of the advisory board referred to in the recently published pro-gram of the party, which has been at-tacked by the opponents of the movement. As a result of the meeting a circular was issued explaining that the ment. advisory board was intended to be transitory in nature and only designed as a means to help the Cubans secure some voice in the management of af-fairs while the period of intervention lasted. The circular emphatically dis-claimed any intention by the institution of an advisory board, to assist in pro-longing the intervention period. Senor Pierra, one of the leaders of

IRON TRADE IS VERY QUIET

Large Tonnage of Business Is Pending, but Waiting for Prices.

Effort to Depress These-Little Change Expected-Discussion of the Outlook.

Cleveland, O., April 12,-The Iron Trade Review says:

On the theory that the quietest perlod is just before a burst of activity, the iron trade is on the eve of a new buying movement. Certainly the week under review has been one of contracted operations in the selling side of the trade, and this with April nearly half way along. It is recognized in all quar-ters that there is pending a large ton-nage of business, and that the effect to depress prices is being redoubled by n interests that must cover in the future. The systematic publica-

articles intended to depress the narket is a feature of the campaign for Ver prices that has attracted some tention. An illustration of what may expected, now that the iron trade is in Wall street to stay, appears in the statement in one of these articles that the decline in prices, should it come, ill be enough to knock out dividends a some of the industrial stocks." The tiltude of all connected with the iron trade is full of conservatism and cau-tion. It is admitted that it would re-quire very little to stiffen prices, yet very buyer is reckoning on the con-trary movement. We can see no de-velopment of the past week or since the opening of this month from which so much has been expected, that would throw any clear light on the immediate future. The probabilities are all for in ature. The probabilities are all for in-reased activity: what buyers will do an be told when the move has been made. Bessemer and basic irons have made. Bessemer and basic irons have been exceptions to the decline in found-ry grades, and the firmness in these steel-making irons that made up 65 per cent of last year's production is signi-ficant. In both, current consumption is only limited by the performance of furnaces. There is no expectation that the price of Bessemer for the second half will vary from \$24. Valley, and for basic the association price will probably be \$23. There is no present prospect that steel billets will be sold on any other basis than \$35 for the second half. Any other view leaves out of account Any other view leaves out of account the good understanding that exists ng the leading interests, all of whom will be considerable buyers of Bessemer iron at the \$24 figure. Evidences ap-rear that some of the influences that have brought low prices in certain fin-ished lines will be checked. This has happened already in the case of sheets. Though the consolidation has not Though the consolidation has not

The same men who are now attacking the advent of the autonomists in the political field were recently endeavoring to persuade the autonomists to join them in forming a party."

Gualberto Gomez and Manuel San-guilty, leaders of the federal party, have published a retort to this, in the course of which they say: 'In private conferences which took between ourselves and the lead

ers of the democratic union party, the latter expressed themselves as being very distrustful of the Americans, as doubtful regarding the fulfillment of the joint resolution of Congress, and as confident that in any event, the inter-vention would last many years. The democratic union leaders said it would be better to form a party charged with

the care and development of the re-sources of the country and with bring-ing about civic reforms, in order that the people and country should not re-main neglected, especially as every-thing might end in Cuba not getting in-dependence after all. As for ourselves dependence after all. As for ourselves, our position consists in loyally ac-cepting the promises of the Americans and we shall work for immediate in-tervention, considering every postpone-

The leaders of the democratic union have rejoined with this: "We have not doubted the sincerity of the Americans, but we have doubted their ability to establish a stable govern-ment in Cuba with the existing lack of nears the molitical world and the near order in the political world and the gen-eral anarchy that prevails among the people, and therefore we have advo-cated the formation of a comprehensive party to aid the Americans in forming a stable government."

in Leadville. '

When the police received a telegram from Leadville, Colo., yesterday asking that a sharp lookout be kept for one John Alt, a miner, and that he be arrested upon his arrival here, some there were who supposed that Alt was guilty of either murder, arson or treason. One officer, however, remarked that he would bet dollars to doughnuts that Alt had merely jumped his board bill. This latter theory proved correct.

Further particulars were received by elegram today and the fact is revealed that Alt owes about \$83 for board. Jus. ice of the Peace Paddock of Leadville wired that he has a warrant for the arrest of Alt. In the meantime Alt is in jail and it is puzzling the officers not a little to know what to do with him.
