

OUR OWN STATE.

The branch office of the Deseret News at Ogden is at No. 42 Twenty-fourth street, where advertisements and subscriptions will be received. The News is delivered by carriers in Ogden every evening on the same terms as in Salt Lake City.

OGDEN NEWS.

OGDEN, JULY 14, 1900.

DON'T WANT MAJORS SAVED

Statements of the Wife and Mother of Capt. Brown, Who Was Slain by Majors.

Consider that Any Interference With the Court's Decision Would be an Outrage on Justice.

There has been a rumor circulated around to the effect that when the case of Abe Majors for commutation comes up before the board of pardons on the 21st inst., the family of the late Captain William A. Brown, whom Majors has been found guilty of killing, will take a hand in the matter of obtaining a commutation from death sentence to life imprisonment for the prisoner, and that the family have expressed their desire to have the prisoner's sentence changed to life imprisonment or pardon. Yesterday our Ogden representative called on the widow of the late Captain Brown and his mother in law to find out if there was any truth in the statements.

Mrs. Hattie Brown, his widow, was seen at her home and made the following statement, with tears in her eyes and often filled with such grief that she could not speak for a few moments: "I have heard the rumor which is being circulated that I desire to have the death sentence of Abe Majors, who killed my husband, commuted to life imprisonment, and that I was going to use my influence to that end with the board of pardons. I wish to positively state that I have never thought of such a thing, and I think that the movement to have Majors pardoned or his sentence commuted is an outrage and a travesty on justice, and think it would be very unjust for the board of pardons to change Majors' sentence. He has been given every possible chance to prove his innocence of the crime with which he was charged; if he had been innocent, but he was proven guilty of a foul murder in the district court, and the Supreme court affirmed the decision, and now I think that the law should take its course. I don't think that anyone could feel more sorry for Mrs. Majors, the mother of the condemned man, than I do. I understand she has passed through considerable trouble, and I know a mother's love for her child, but I feel sorry for myself and dear children, who are left fatherless, and for the mother of my dear husband, whose health is broken down through the sad affliction of having her son shot down while he was in the discharge of his duties, and I feel that it would be an outrage and an offense on the public to have Majors pardoned and set free to prey upon society, and I hope that the board of pardons will take no steps toward the commutation or pardon of the condemned man, but let the law take its course."

Mrs. Martha H. Brown, the mother of Captain Brown, made the following statement: "I have never thought of using my influence with the board of pardons to induce them to pardon young Majors, who has been convicted of the killing of my son, William A. Brown, quite to the contrary. I think that the courts have dealt justly with him in convicting him of the crime and placing the punishment of death upon him, for I think that it is high time that such criminals should be summarily dealt with, and not shown undeserved mercy and turned loose to perhaps afflict some other persons. I do not think that Majors' mother's grief is any greater than mine, her son took the life of my son and why should he not suffer the penalty of the law for his crime? The law and justice require it. I feel sorry for Mrs. Majors and realize fully her sad heart and can sympathize with her perhaps more than any one else, but I think the sooner the world is rid of such criminals as Abe Majors the safer human life and property will be."

IN THE DISTRICT COURT.

Pleads Guilty to Housebreaking — Justice in the Police Court.

In the case of Albin M. Williams vs. O. S. L. R. company the court announced its decision upon defendant's motion for a new trial. The judgment was reduced from \$3,000 to \$2,000, and if plaintiff will not give consent thereto then the defendant's motion for a new trial may be granted.

State of Utah vs. James Cairne, charged with house breaking, he having entered the U. P. section house a short time ago and stole some goods. The defendant was granted permission to withdraw his plea of not guilty and then he entered a plea of guilty as charged. Monday, July 16, 1900, was fixed for date of sentence.

H. Cook vs. John R. Brown, an appeal from the justice of the peace on an insurance policy. A jury was impaneled and the case heard and submitted. The jury soon returned with a verdict of no cause of action.

"TAKING WATER IS NOT LARCENY."

Before Judge Hall in police court, the case of Harry Emerson, charged with petit larceny came up for hearing. It was alleged that Emerson had used the water belonging to Moroni Brown, Attorney Haywood appeared for the defense and after reading the complaint and explaining that the tak-

ing of water was not larceny, he moved the case be dismissed, the motion was accepted and the action dismissed.

Charles Stone pleaded guilty to stealing a package of goods from a wagon, but gave as an excuse that he was drunk. He was fined \$5, which he paid.

Detective Pender arrested a man named Montgomery for stealing a watch from a westbound passenger. A colored man named Lee was also arrested on charge of committing a crime against nature.

OGDEN NEWS BRIEFS.

Last evening a very pleasant social was had at the First M. E. church in honor of Mr. and Mrs. A. S. Cates, who have been very zealous workers in the church during the past few years, but have decided to leave Ogden, Mr. Cates having accepted a position at Mercer as cashier of a large mercantile business, while here in Ogden he has acted as paying teller in the Utah National Bank. A very delightful program was rendered at the social and the evening will long be remembered by Mr. and Mrs. Cates.

Miss Cora Corne has taken a trip East for a few weeks to visit relatives and friends.

The McCabees had a very pleasant excursion to Salt Lake yesterday.

The Old Fellows give a grand excursion to Saltair on Tuesday, July 17, 1900.

Considerable hay was destroyed yesterday on the Sand Ridge by fire. Brigham Robinson of Brigham is in Ogden today on business.

William Jackson, counselor to Bishop Ensign of the First Ward, is seriously ill. He has been sick for some time, but the past few days his condition has become alarming.

Oscar Peterson of Brigham City was in Ogden today.

One vag was run in by the police yesterday.

Judge Miner passed through Ogden yesterday en route to the coast.

F. B. Choate, U. P. general agent at Salt Lake, was in Ogden yesterday. Dr. Leland Walker, of Brigham, is in the city to accompany his daughter, Mrs. A. B. Hayes and family, to Antelope Island for the summer.

PROVO.

INSANE ASYLUM AFFAIRS.

Burglary at Goshen — Stricken With Appendicitis — Stake Conference.

Special Correspondence.
Provo, July 13.—The safe in the store of Peter Okeberry at Goshen was broken open last night some time and robbed. An entrance to the store was gained through the back window. The robbers secured a considerable amount of plunder, consisting of about \$80 in cash, some church bonds, a gold filled watch and an old silver, key winder watch; a B. F. & W. 38-caliber revolver, a razor and pocket knife, and a leather pocket book, containing notes, etc. As soon as notified of the burglary Sheriff Storrs proceeded to Goshen to discover if possible any clues to lead up to the arrest of the burglars. It is thought to be the work of tramps, as two such characters were seen in Goshen. One is described as a half-breed negro, and the other a small, light complexioned man about 20 to 25 years of age, and weighing about 155 pounds.

ASYLUM BOARD MEETS.

The board of commissioners of the State insane asylum met at that institution yesterday. All the members were present and an address on the place to have Majors pardoned and set free to prey upon society, and I hope that the board of pardons will take no steps toward the commutation or pardon of the condemned man, but let the law take its course."

Medical Superintendent Hardy made his report as to the movement of patients for June, as follows:

	Fe-	Males.	males.	Total.
Number patients May	152	156	308	
Admitted during	June	7	4	11
Under treatment	June	159	160	319
Discharged	June	5	3	8
Died	June	2	3	5
Remaining June 31	152	156	308	

The following appropriations were made for June: Salaries, \$1,473.85; current expenses, \$1,383.61; sundry expenses, \$362.75.

The treasurer's report showed: Balance June 1, \$201.55; received during month, \$3,322.41; disbursed, \$3,259.36; balance June 1, \$125.70.

The secretary was ordered to make requisition upon the State auditor for State warrants amounting to \$3,120.21, to pay the June expenses.

DEATH OF A CHILD.

The 18-month-old daughter of Mrs. William Parmley was buried in the Provo cemetery today from the First ward meeting house. The little one died at Scofield. The father was one of the victims of the Scofield mine explosion, and the babe was buried by his side.

STRIKEN WITH APPENDICITIS.

James Sutherland is getting around again after his fifth attack of appendicitis, two of which have occurred within the last six weeks. As soon as he is able, physically, Mr. Sutherland will go to Salt Lake to be operated upon.

Allie John, son of President David John, at present residing at Nephi, is down with appendicitis and an operation may be necessary.

PROVO RIVER GETTING LOW.

The Provo river is at present lower than it has ever before been in the memory of the oldest inhabitants.

CONFERENCES OF THE UTAH STAKE.

The female relief society of the Utah Stake, met in regular conference today and the two meetings were very well attended.

The regular quarterly conference of the Stake commences Saturday and continues over Sunday.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty, of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by Z. C. M. I. Drug Dept.

COALVILLE.

Preparing for Pioneer Day—Narrow Escape from a Rattlesnake.

Special Correspondence.
Coalville, Summit Co., July 13.—Elaborate preparations are under way for the celebration of Pioneer Day. Committees have been appointed and they are working with a will. Park City, and adjacent towns will be invited to join with Coalville in an appropriate observance of that day.

The crop of hay now being harvested is an unusually heavy one.

NARROW ESCAPE FROM A RATTLESNAKE.

A young lady had a narrow escape from being bitten by a rattlesnake yesterday while riding on a bicycle along the road to Grass Creek, when, but a few feet ahead of her in the middle of the road she saw the snake coiled and ready to strike. The rider made effort to steer clear of the reptile, but it struck at her, missing

her foot by only an inch or two and expending its venom on the machine.

SUNDAY SCHOOL OUTING.

Yesterday the Coalville and Grass Creek Sunday schools enjoyed an outing. The children were taken in conveyances to Caruth's grove—about two miles from Coalville. A delightful time was had, games were played, sports indulged in, and prizes were distributed. The children were very appreciative of the happy throng, sharpened by the ride, and healthful exercise, were satisfied by a delicious and ample picnic. Not an accident occurred to mar the pleasure of the day.

RETURNED MISSIONARY.

Elder Jas. W. Welch, who has been laboring as a missionary for the last two years in the Southwestern States mission, has returned to his home. Elder Welch filled an honorable mission, being active and successful in his labors.

It Saved His Leg.

P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Bucklen's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cures guaranteed. Only 25c. Sold by Z. C. M. I. Drug Dept.

SPRING CITY.

School Election—Will Celebrate 24th—Fined \$10 for Stealing Water.

Special Correspondence.
Spring City, Sanpete Co., July 13.—At the school election on Monday George Christensen received 36 votes for county superintendent and A. C. Nelson, 1.

Robert Ball was elected trustee to succeed himself.

Arrangements are being made for the celebration of Pioneer Day. Lauritz O. Larsen, Henry L. Acord, Joseph Schofield, Hyrum Hyde, Clara Frantzen, Edith Justesen, and Marett Alired are the committee having the matter in charge.

The mill building is now ready for the machinery, which is expected to arrive about the 20th of the month.

Our district school teachers are attending summer school either at Mantle or Salt Lake City.

John Humphries was before Justice Peterson on Monday, on the charge of stealing water. He was fined \$10.

What Is a Miracle?

"The marvelous cure of Mrs. Rena J. Stout of Consumption has created intense excitement in Cammack, Ind.," writes Marion Stuart, a leading druggist of Muncie, Ind. "She only weighed 50 pounds when her doctor in Yorktown said she must soon die. Then she began to use Dr. King's New Discovery and gained 37 pounds in weight and was completely cured." It has cured thousands of hopeless cases, and is positively guaranteed to cure all Throat, Chest and Lung diseases. 50c and \$1.00. Trial bottles free at Z. C. M. I. Drug Dept.

RICHFIELD.

Republican Judicial Convention — Stewart-Bean Nuptials.

Special Correspondence.
Richfield, Beaver Co., July 12.—The Republican Judicial convention for the Sixth district is called to meet at Marysville on the 6th of August. The apportionment of delegates is as follows: Beaver county 18, Garfield 9, Kane 5, Piute 4, Wayne 2.

Judge McCarty seems to have a dead sure thing on a renomination, as there is no other candidate in the race, while the district attorney will likely go against John F. Childster unless John Erickson enters the race and in that event Childster will have no walk over in the convention.

Messrs. Lund and Nielsen of the State board of equalization paid a visit to our county yesterday to ascertain why there had been a shrinkage in the values of property in this county for the present year. They will report their findings to the remainder of the board and then advise us of their decision.

STEWART-BEAN NUPTIALS.

Special Correspondence.
Last Tuesday the county clerk issued a license to and married at the home of the groom's parents, George T. Bean Jr., of Richfield and Hulda E. Stewart of Central. The couple will soon move to Nevada, where they will remain for a short time, when they will go to Canada, to make their permanent home.

FILLMORE.

"Smallpox" Situation — Harvest Is Light—Will Celebrate the 24th.

Special Correspondence.
Fillmore, Millard Co., Utah, July 13.—John R. Ashman, who has been confined with "smallpox," has nearly recovered from his affliction, but his wife and one child are suffering with the same disease. The local board of health is taking every precaution to prevent the spread of the disease and it is hardly likely that there will be any new case outside of the family.

Harvest is progressing nicely but the yield is very light compared with previous years owing to a scarcity of water for irrigation, but the people are looking for a better season next year and trusting to providence to send them the usual supply of moisture to mature their crops.

Some preparations are being made to hold a grand celebration here on the 24th of this month and the program which was announced for the Fourth and held over on account of smallpox, will be carried out as far as it is appropriate to Pioneer day; no doubt a great effort will be made to have an enjoyable time because there has not been any public gatherings of any kind for the last three weeks.

NEPHI.

The Harpers Held for Housebreaking — Conference at Levan.

Special Correspondence.
Nephi Juab Co., July 12.—Sheriff John A. Barton came up from Beaver county this morning with a warrant for the arrest of the Harpers who have been in jail here for the past two months under suspicion of having murdered the Penneys last November. The warrant charges them with housebreaking, said to have been committed at Frisco on the 20th of last November. He will leave with them for Beaver on tonight's train.

CONFERENCE AT LEVAN.

The regular Stake conference will convene at 30 a. m. tomorrow at Levan. Some of the general authorities are expected to be present, and many of the Nephties will attend.

A cool wave struck the town last night and brought about a decided change for the better in the temperature.

PAROWAN.

Is Proud of Her Gifted Sons and Daughters.

Special Correspondence.
Parowan, Iron Co., July 11.—People are making arrangements to move into the mountains to avoid the heat; some are contemplating a trip to Fanguitch lake for the 24th.

Our Sunday services were unusually interesting by the presence of Professors Maaser and Brimhall, and Alice Reynolds and Mrs. Cannon, of the B. Y. academy faculty. They expressed themselves as being well pleased with

the record Parowan students had made in the academy. "Little far away Parowan produces men and women of brain," Prof. Brimhall said. One-tenth of the academy faculty for the coming year came from this town, namely: Prof. Joseph Jensen, Alfred Durham, Fred Ward and Mamie Ollerton. Two of the South American exploring expedition, Willie and Jodie Adams, are also from here.

We are also proud to state that one of our boys, Donald A. McGregor, (son of our "News" agent, Wm. McGregor,) is now in the East pursuing the study of medicine and making most remarkable progress.

At the end of the first year he passed the examination with one hundred per cent. on every study. The leading professors sought him out and congratulated him as an exception in the college at Baltimore. One went so far as to write to his father a letter of compliments and praise for his boy. Wishing to make the most of his time and means Dan is now in Chicago taking a summer course of study.

Our school election passed quietly on Monday, electing Alex Matheson, Sen., on the Democratic ticket, against Simon Matheson, Republican.

The missionary committee of this ward is planning a concert in the near future for the benefit of our mission-aries now in the field. Alfred Durham, son of Prof. Thos. Durham, has just returned from Ann Arbor, where he has been successfully studying music for the last eighteen months, has agreed to assist.

Attempts to measure the sensation of taste are being made by E. Toulouse and N. Vasschide, French physiologists. They test with sodium chloride for salty tastes, saccharose for sweet tastes, dibromhydrate of quinine for bitter, and citric acid for sour—solutions of these substances, varying in strength along a decimal scale being prepared with distilled water. A special dropper gives drops of unvarying size. Another series of solutions is used for determining "odor-tastes," which— as with anise or vinegar—are ordinarily experienced but disappear when the nose is stopped.

With the universal use of electric light instead of oil, gas and candles, an English statistician calculates that the United Kingdom would have 40,000 less deaths annually.

The inhalation of oxygen as a remedy for seasickness was first suggested by Dr. Dubois of Lyons. The idea has been taken up by M. L. Dufrenoy, who has made numerous successful experiments, and has brought the matter to the notice of the French academy of medicine. The malady proves to be due to imperfect ventilation of the lungs. The sudden and rapid expansion of the viscera and the contraction of the diaphragm act as principal causes, and bring about such secondary manifestations as headache, chills, etc. The oxygen gives rapid relief. It is inhaled through the mouth from cylinders of the compressed gas, and eight or ten gallons suffice.

BEAVER.

Summer School and Institute—Lively School Election.

Special Correspondence.
Beaver, Beaver County, July 12.—The summer school of the Beaver branch of B. Y. C. closes today, and all interested speak in glowing terms of the results achieved. Dr. H. Brimhall is highly elated with the progress made. The district school institute commences immediately. Dr. Brimhall gave a most enjoyable and instructive lecture on Wednesday evening in the meeting house on the "Latter Day Church," under the auspices of the M. I. association.

The election of county superintendent of schools was a lively one—everybody was interested. Charles Wolfenden, Republican candidate, receiving 8 votes in the majority, gets the place.

In Beaver the Democrats scored a sweeping victory and E. M. Mansfield and J. E. Holton are their new trustees. The school census gives 630 as the population of Beaver City children of school age.

The schools of this county are in a healthy condition, and the results are very satisfactory.

OUR NEIGHBORS.

MARION, IDAHO.

Shocking Accident Causes the Sudden Death of Ernest Bates.

Special Correspondence.
Marion, Cassia Co., Idaho, July 12.—A shocking accident occurred here on the 10th, by which Ernest Bates, a boy thirteen years of age, lost his life by being thrown from a hay rack. It is supposed that he started the horses on a lively gait when he lost his balance, fell to the ground and was either kicked by one of the horses or was struck violently by the wagon, death was almost instantaneous. His mother is a widow, her husband dying suddenly about eight years ago. Sister Bates and family have the sympathy of the entire ward in their bereavement.

Water is very low; grain is ripening, being hastened by the lack of sufficient moisture.

ALICE, OREGON.

L. J. Jordan Local Agent for Deseret News.

Mr. L. J. Jordan of Alice, Oregon, has been appointed as the Deseret News local agent for Alice and Embury, Oregon. Our present subscribers can renew their subscriptions through Mr. Jordan and prospective subscribers will be given easy terms by the same gentleman when they desire to subscribe for either of our publications.

SCIENTIFIC MISCELLANY.

In the new electric battery of Poppe, the positive electrode is a hollow cylinder of retort carbon filled with depolarizing matter and closed at the bottom by an insulating plate, the negative is a cylinder of zinc and the two rest on a horizontal porous plate or diaphragm, beneath which is a thick layer of sulphate of soda, with or without a little common salt. When water is poured into the cell, part of it passes through the porous diaphragm, by endosmosis into the water above, forming an electrolyte that varies but slightly with time, and causes the battery to retain its strength for a long period. The electromotive force is about two volts.

The color and character of the walls have much to do with the lighting of a room, and experiments have shown these percentages of reflection by different wall materials: Black velvet, 0.4; black cloth, 1.3; black paper, 4.5; dark blue, 5.5; dark green, 10.1; pale red, 16.2; dark yellow, 39; pale blue, 39; pale yellow, 40; pale green, 46.5; pale orange, 54.8; pure white, 70; mirror covering, 82. Dull or varnished paint also has effect. Aside from mirrored walls, white varnish ensures the best lighted room, and this may be advantageously used in conjunction with incandescent gas light as the most economical source of artificial illumination.

Of nearly 500 treatises, mostly on medicine, alleged to have been written by Galen, less than 100 accepted as genuine, are now known. A hitherto unknown Greek text on the lessening of obesity has just been published by Dr. Kaibisch of Freiburg. Among the recommendations are to eat birds which are found in arid mountains and fish which frequent rocky shores, and to avoid vegetables which are round.

Records of more than 5,000 observations showing the deviation of the magnetic needle from the voyage of Columbus in 1492 to 1790, have been collected by a German physicist.

Probably no modern discovery in natural history has been more seemingly miraculous than the finding of edible gum existing from the banks of Central India at a time when the people are suffering from their greatest famine. This substance is pleasantly sweet, occurs in white or brown stalactiform rods about an inch long, and is found by David Hooper, of the Indian museum at Calcutta, to consist mainly of a sugar related to, if not identical with cane sugar. The strange appearance in the bamboo forests of Chanda was first made known last March. The sugar differs from the bamboo manna of history, which is not a sugar, but a white, gritty body occurring inside the stem of the plant, and now called tabashir by Europeans. Tabashir contains about 80 per cent of silica, with varying proportions of alkalies and organic matter. It has been much used in medicine.

Wherever extensive forests cover the land, special industries are growing at their expense. Immense forests of

For Girls

Miss A. M. Robertson, 195 S. Fifth Street, Rochester, N. Y., tells how Dr. Williams' Pink Pills saved her life.

"Three years ago I was in a pitiable condition; I had just reached that critical stage in a girl's life when the merges from girlhood into womanhood. I had grown too fast and the rapid growth had tapped my strength. Consequently, when the change which is incident to this time of life took place, my system was unequal to it and I broke down completely. I was scarcely able to drag myself from one chair to another. My face was white as a sheet, and I looked as though I had not a drop of blood in my body. I became so nervous that at times I was hysterical. One day a friend told me about Dr. Williams' Pink Pills for Pale People, and induced me to try them. I did so, and improved rapidly. I gained in weight, grew strong, my cheeks took on a healthy color, and I looked and felt like a different girl. In fact, I was made well enough in three months to be able to accept a position and start to work. I cannot praise Dr. Williams' Pink Pills for Pale People too highly, as they have made of me a strong and healthy girl."

Subscribed and sworn to before me this 6th day of July, 1900.

FRANK DORRILL, Notary Public.

For the common complaints of women Dr. Williams' Pink Pills are unrivaled.
