

GRAND RUMMAGE SALE!

Terrific Price Cutting IN EVERY Dept. FOR THE Coming Week

Every good housekeeper goes through her belongings at least once a year and discards that which is of no further use. So every good storekeeper goes through his Stock at least once a year and disposes of Merchandise for which he has no further use. The ideal time for a merchant to rummage through his Stock is just before the beginning of a new season. We have no further use for Winter Goods. New Spring Goods will soon arrive and we need room.
