

OLD TIMERS PLAY A GREAT GAME

Yale's Former Champions Too Much
For Substitute Eleven.

AN EXTRAORDINARY GAME.

Undisciplined and Unconditioned the
Veterans Outplayed Their Younger
Rivals From Start to Finish.

New Haven, Oct. 22.—Football of an extraordinary character was witnessed by the bi-centennial guests at Yale field this afternoon, when a team composed of the most famous stars among Yale's former players lined up against the substitute university eleven. Despite the fact that they were undisciplined and unconditioned, the veterans outplayed their younger rivals from start to finish, and during the contest the stars' goal was never in danger, while the old-timers succeeded in making two touchdowns, both of which were converted into goals. The score in the first half stood: Stars, 12; second eleven, 0.

The game was played immediately after the regularly scheduled game between the Yale Varsity and Bates, and all of the 23,000 spectators remained to witness the old football against the new. At the first line-up for the kick-off there was a bewildering array of stars. Every former Yale player of prominence who had returned for the festival was in football togs and all were lined up in a sort of dress parade for the kick-off.

Walter Camp, the dean of Yale football, was captain. Lined up with him were "Paw" Corbin, F. Gordon Brown, Hefflinger, Burt Chamberlain, former captain and tackle, and Fred Murphy, also an old captain and tackle. On the ends of the line were "Josh" Hartwell and Johnny Hale, both peers in their positions. Behind the line were Vance McCracken, former captain and quarterback, and Ely, another crack quarterback. In the halfback field were McLung, the captain of the famous team of '99, Brink Thorne, another captain and halfback, "Broncho" Armstrong and Al Sharpe. At fullback were Butterworth and the plunging Perry Hale. Other former players of prominence on the field were Harry Cross, a guard, Chadwick, a tackle, and Cullen, a center.

Walter Camp kicked off, amid tremendous cheering, which was a short one and the college runner was quickly downed. The star team was then reduced to eleven players, who lined up for the first scrimmage as follows: Left end, Hartwell; center, Murphy; left guard, Hefflinger; center, Corbin; right guard, Gordon Brown; right tackle, Burt Chamberlain; right end, Johnny Hale; quarterback, Vance McCracken; halfback, Brink Thorne; right halfback, McLung; fullback, Butterworth.

From the moment of the first scrimmage it became evident that the same surprising skill remained in the great players who had often brought victory to Yale. Although they were soon puffed, they were still in every play with fire and dash which amazed the spectators. "Paw" Corbin, at center, was the same great center as of old. Hefflinger, at guard, tore his way through the players and into the thick of it like a locomotive. Gordon Brown was a counterpunch, Chamberlain a leader at the tackle position, were just as sturdy as ever, while at the ends Josh Hartwell and Johnny Hale delighted the crowds with the consummate tactics of the end runner.

At quarter McCracken was the same masterful general. McLung, on his first dash for the end, resorted to that thrilling dashing which made him a marvel in the early '90s. Brink Thorne was the same hurdling, plunging invincible half, and at fullback Butterworth brought back the days when football would be astounded at his prowess as a line backer and long, long kicking fullback.

The old players soon began to feel the effects of poor condition, however, and substitutes began to go in. Corbin gave way to Cullen and Cross. Chadwick, Armstrong, Ely, Sharpe and Hale went in one by one. In spite of their best modern football, the college team could not score, and the final score stood 12 to 0 in favor of the stars.

LOCAL EVENTS.

BOXERS COMING HERE.

Willard Bean and Dick Case May Arrive Before Long.

It is expected that within a few days Willard Bean will arrive here from San Francisco and settle all details for a bout with Jack Christy. Word has been received from Phil Snowden, manager of Dick Case the clever young boxer, who defeated Thompson several years ago, that he has been anxious to come to Salt Lake and secure a match with some of the local men. If Bean and Case come, Manager McNamee of the Salt Lake Athletic club will certainly give them something to do.

THEY OBJECT TO SMITH.

University Team Will Play Only the Regular Students.

There is likely to be a little trouble over Fred Smith, formerly of the High School, going to All Hallows college to play with the football team for the present season. At a meeting of the University team yesterday afternoon it was decided that only regular students would be permitted to play on the eleven, and to insist that the college teams follow the same rule. It is said that Fred Smith would be protested by the Varsity manager, and that an effort would be made to keep him out of the game scheduled for Saturday next. The position taken by the University manager that Smith is not a student of All Hallows, does not seem to be well taken. Manager Giesman of the latter declares Smith to be a regularly enrolled member of the college and as such he is entitled to play on the team. The probabilities are that he will be seen in Saturday's game.

ITO SPEAKS.

Says He Knows Nothing of Movement to Overthrow Japanese Cabinet.

New York, Oct. 23.—Marquis Ito, former premier of Japan, has reiterated, through Mr. Furuya, a member of his suite, the declaration that he knows nothing of the reported movements to overthrow the ministry of Japan by the party of which the marquis is leader.

"The present cabinet, which was formed by Viscount Katsura, has stood aloof from politics," said Mr. Furuya. "The constitutional party, which the marquis leads, has the majority in the lower house of representatives. There was harmony between the cabinet and the constitutionally minded party. The marquis left Japan, and he has received no news that there have been any changes in the relations of the party and the cabinet. The understanding was that the constitutional party was to do all in its power to promote harmony. There is no important question at issue and nothing will be done until the diet meets next January."

Of a movement against the present ministry was contemplated the marquis would have received news of it long before this.

Marquis Ito and party went to New Haven to attend the Yale bi-centennial exercises. They will sail next Saturday for Europe, and do not expect to reach Japan before next March.

Indictment Against Broker Dismissed.

New York, Oct. 23.—It has just been learned, says the Herald, that the indictment against George C. Thomas, a broker, for refusing to pay the stamp tax on sales of stock, has been dismissed by the government. The indictment, which was returned by the grand jury on October 3, was based on the constitutional provision of a section of the law revenue law, failed to appear on the day set for the trial. Bankers and brokers have followed the case with great interest.

Mr. Thomas, a broker of the consolidated exchange, was advised by his lawyers last spring that the stamp tax on sales of shares of stock at the rate of two cents per share was unconstitutional. Acting on his lawyer's advice the broker stopped paying the tax in May and determined to test the law. An indictment was found against him by the United States grand jury on October 3.

Burt A. Spaulding Arrested.

Chicago, Oct. 23.—After wandering across practically all of the states between Illinois and the Pacific coast, escaping the law for a dozen or more cities by means of various forms of tricked-up technicalities and eluding Chicago detectives who were constantly on his track for four years, Burt A. Spaulding, alleged leader of the old gang of bank robbers, was captured in this city Nov. 23, 1897, has been captured in this city. Spaulding, an officer has been sent there to bring Spaulding back. German Shipping Trade's Condition.

New York, Oct. 23.—The marine correspondent of the Allgemeine Zeitung in an article quoted by the Berlin correspondent of the London Times and the New York Times, is inclined to believe that the reports of the unsatisfactory conditions of the German shipping trade are exaggerated. He observes that the state of American freights is now unsatisfactory, and declares that freights in the North Atlantic trade have sunk lower than ever before.

CONDITIONS IN PERU.

Politically, Commercially and Financially They Are Satisfactory.

San Francisco, Oct. 23.—Irving B. Dudley, United States minister to Peru, has arrived here on a vacation trip. In an interview he said:

"Conditions in Peru, politically, commercially and financially are quite satisfactory. There have been no political disturbances during the past seven years, and as for the middle class of the country they are in an incomparably better condition than those of Argentina and Chili. Peru is now on a gold basis and the gold monetary system has been discovered in the heart of the country. There is not the slightest fluctuation in the rate of exchange."

"At the present time Peru is on the verge of a big boom. Copper properties have been discovered in the heart of the Andes and American capital to the amount of \$8,000,000 or \$10,000,000 is to be invested in their development. The project involves the building of eighty miles of railroad. People close to Senator Clarke of Montana are interested in the project."

Minister Dudley expects to remain in the city about a week. He will leave for the East shortly thereafter to be replaced by a duty who is now visiting in Chicago.

Germany and Foreign Tariffs.

New York, Oct. 23.—Referring to a communication from the North German Gazette declaring that the object of the German government is to effect new arrangements with foreign countries in regard to the commercial relations and that the government must hold itself free to denounce the existing treaties at the proper time, the Berlin correspondent of the London Times and the New York Times says all the declaration really means is that the government has not at present made up its mind that it will under all circumstances, refrain from renouncing treaties.

REICHSRATH PREST. EXPLAINS.

Tells Why No Reference Was Made to President McKinley's Death.

Vienna, Oct. 23.—In the lower house of the reichsrath Herr Stein, pan-German, asked why the president of the house had departed from the custom in not paying a tribute to the late President McKinley, and whether it was that they intended to establish the theory that there were differences between the heads of state in a republic and a monarchy. At the conclusion of the sitting the president said that as soon as he received news of the attack on President McKinley he personally conveyed to the American minister an expression of deepest sympathy, and after the death of President McKinley he again expressed to the American minister condolence on behalf of the house. At some time had elapsed (the president had not thought it necessary to refer to it again. The president denied emphatically that any consideration influenced his course.

He declared that there was no foundation whatever for the rumor that the omission was due to the influence of Count Goluchowski (Austro-Hungarian minister of foreign affairs) and took occasion to point out that the occasion was the death of President McKinley, and after his death, both Emperor Francis Joseph and Count Goluchowski sent messages of sympathy and condolence to the United States
